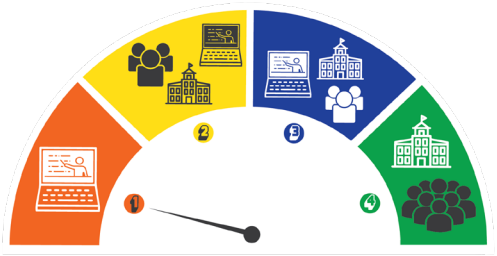
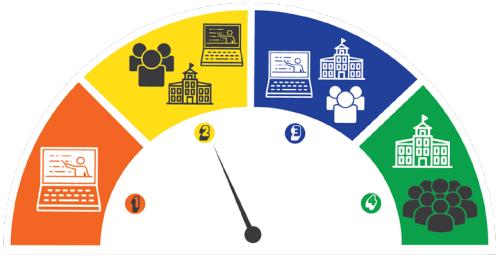
WAHLUKE SCHOOL DISTRICT
Returning to Campus Learning Models for the 2020-2021 School Year

Model 1 - Distance/Remote Learning



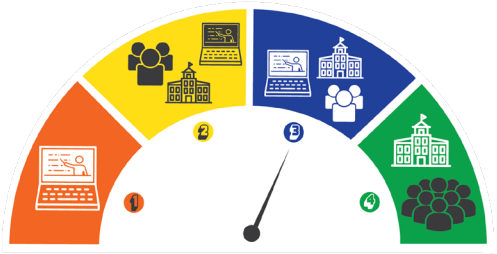
Nearly all students will participate in learning from home through the District created model in Phase 1. Some students will have the opportunity to engage in face-to-face instruction in small groups (5 or less) based on identified needs. *Cancel or postpone all in-person events and extracurricular activities.*

Model 2 - Small Groups and Distance/Remote Learning



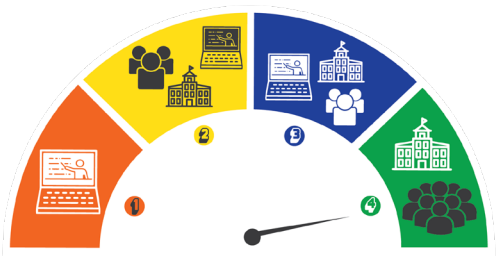
WSD students will return to campus in small groups in a modifies in-person schooling. WSD will have two groups an AM (morning group) and a PM (afternoon group). Phase 2 will allow WSD to focus on students that have connectivity issues and need support with interventions. All WSD schools will have small groups and continue with Distance/Remote Learning.

Model 3 - Hybrid Model



WSD will increase in-person schooling with a split rotation schedule. With an AM and PM student groups. *Low-risk and moderate risk in-person extracurricular activities could occur.

Model 4 - Full Return In-Person for ALL Students



In this model, all students could return to in-person schooling. *In this model, all extracurricular activities could resume.

A closer look at the Wahluke School District Returning to Campus Learning Models

As WSD unfolds the 2020-2021 School Year, students' learning and health well-being is a top priority.

In creating the learning models for this school year, four distance stages have been identified through guidance from the State Department of Health to steer decisions in the District about the type of learning that can occur based on health conditions. **Flexibility** is essential, and **Grace** is necessary as shifts between models will be determined by the impacts of Grant County's changing health situation, available resources, and directions from the Governor, Washington Office of Superintendent of Public Instruction (OSPI), and the Health Department. As the public health situation continues to evolve, the Wahluke School District will continue its work to refine these models.

Additionally, throughout any model, parents will have the option to choose full-time remote instruction for their children. For more information regarding this option, please call (509) 932-4565.

Please know that Wahluke School District is committed to supporting all its students' learning needs, well-being and reassuring families. As we proceed through the school year, the information will change. **These models are tentative.** Please follow our website and communication channels for transition updates between the learning stages and additional information.
