November 4, 2020

Dear Students, Parents and Guardians,

I am writing to let you know that a student at Lebanon Elementary School has tested positive for COVID-19. I consulted with Uncas Health District to ensure appropriate measures are taken. The student was last in school on October 29th. Students and staff members who are close contacts with this student are being contacted and told to quarantine for 14 days.

At LES, we are able to mitigate the number of students and staff who are considered close contacts by cohorting students, modifying specials schedules, social distancing and other mitigating strategies. Because of these measures, we will NOT need to switch LES to Distance Learning. We will continue with in school instruction.

COVID-19 Reminders

COVID-19 is spread mainly via person-to-person contact through contaminated air droplets from coughing and sneezing by an infected person. As with controlling the spread of other viruses, we urge everyone to discuss the following preventive measures with your children and family members:

- Wash your hands frequently, but especially after using the restroom and before preparing or consuming food. Using soap and hot water, wash for about 20 seconds. Be sure to also wash your fingertips. When soap and water are not available, use hand sanitizer.
- Avoid coughing or sneezing into your hands or in the air. Always try to cough or sneeze into a tissue, then throw the tissue away. If you don't have a tissue, cough/sneeze inside the elbow of your arm.
- As much as you can, avoid touching your eyes, mouth, and nose.
- Wear a face covering (mask) whenever there is a likelihood that you or your family members will be in the presence of others.
- Maximize social distancing between yourself and others when outside of your home.

Below is the list of COVID-19 symptoms for which everyone should monitor in their family members:

- Fever (100.4° Fahrenheit or higher)
- Chills or shaking chills

- Uncontrolled new cough (not due to other known cause, such as chronic cough)
- Difficulty breathing or shortness of breath
- New loss of taste or smell

For additional information on COVID-19 symptoms, please see:

<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

Staff and students exhibiting any of the above symptoms, or feeling ill, should call their medical provider to report their symptoms and ask about testing prior to seeking in-person care at a clinic, physician's office, or hospital.

For more information on what to do if you or a family member has possible symptoms, a diagnosis, or exposure to COVID-19, please see:

<https://portal.ct.gov/-/media/SDE/COVID-19/Addendum-5-Interim-Guidance-for-Responding-to-COVID-19-Scenarios-in-CT-School-Districts.pdf>

Let's keep one another safe and healthy.

Sincerely

Robert J. Angeli
Superintendent of Schools
