Good News

Congratulations to **Cameron Wicker** on placing third at SCHSL State Cross Country Qualifier with a time of 19:47. She will compete on Thursday, November 5 at 9 a.m. for the state title at Sandhills Research Center. Both the boys’ and girls’ teams fought hard at the qualifier; however, they did not make it to State. The girls missed moving on to the State Championship by 2 points. Wicker led the girls with **Meredith Koon** coming in second for the team with personal record of 22:58. The boys had their best race this season, but unfortunately still fell short. **Jon Lawson Cope** led the team with a time of 17:48. John Michael O’Neil came in second for the Rebels with a personal record of 18:57. Both **Adam Meetze** (20:28) and **Frank Elsenheimer** (20:34) set personal records at the qualifier. Congratulations to all of the Rebel runners for a great season.

Congratulations to our October Students of the Month, **Anna Marie Milstead**, **Noah Davenport**, **Avari Suber**, and **Harrison Scott**.

Congratulations to **Mrs. Nicole Frick**, our Teacher of the Month and **The MCHS Cafeteria Staff**, our Support Staff of the Month for October.

Mid-Carolina High School

A Proud Past. A Promising Future.

Our mission: To engage students in educational experiences that ensure success and life-long learning.

Our vision is of a culture where all ideas are valued; a cooperative relationship exists between the school, the district, and the community; collaboration is expected; and people want to work and students want to learn.

SEA TURTLES... AND DISTRACTIONS THAT LEAD US IN THE WRONG DIRECTION

As I ran on the beach the other day I noticed that certain areas were closed off by fences and signs that said "Sea Turtle Eggs."

I remembered reading that female sea turtles swim to shore between May and August to dig nests in the sand and lay their eggs. Months later, the eggs hatch and the baby turtles follow the pure light of the moon back to the surf.

In a perfect world, the pure light of the moon guides every turtle back safely to the ocean. However, as we know, we don't live in a perfect world.

Sea Turtle hatchlings instinctively crawl toward the brightest light. On an undeveloped beach, the brightest light is the moon. On a developed beach, the brightest light can be an artificial light source emanating from restaurants, homes and con-

dominiums along the coast.

Unfortunately, these powerful artificial sources of light often attract the hatchlings and cause them to move in the wrong direction when they are born.

Rather than follow the pure light of the moon to the ocean the sea turtles follow the wrong light to a disastrous outcome.

It occurred to me that we humans face a similar challenge.

Rather than follow the path we were meant to follow, unfortunately we too often are distracted by things that move us in the wrong direction.

Technology, online games, too much time on social media, bad habits, addictions, stress, busyness and meaningless distractions lead us astray.

Instead of following the

pure light of perfection we allow bright and shiny artificial things to sabotage our journey.

So, what about you?

Are you following your priorities and pure light to the right destination or are you allowing artificial distractions to lead you in the wrong direction?

Are you following the path you were meant to follow or are you letting meaningless things keep you from being your best?

The great news is that unlike sea turtles we have the ability to think, adapt and change direction when we realize we are following the wrong path.

We can tune out the distractions and focus on our priorities and let the pure light lead us to an ocean of possibilities and a great future.

"Gratitude unlocks the fullness of life. It turns what we have into enough, and more. It turns denial into acceptance, chaos to order, confusion to clarity. It can turn a meal into a feast, a house into a home, a stranger into a friend."
