Succeeding Today, Preparing for Tomorrow, Inspiring a Lifetime of Achievement

Angela Williams
Principal

National Blue Ribbon School of Excellence 2020

Mark McGuire
Assistant Principal

November 8, 2020

Dear Muldrow parents, staff and community members:

Today, we received notification that a Muldrow School student or staff member has tested positive for COVID-19. While we must protect the privacy of the person involved, we believe it is best to communicate transparently with you so you can make well-informed decisions for your family. Contact tracing procedures have been followed and individuals who may have had direct close interaction with the individual have been contacted.

There is nothing more important to Muldrow School than the safety and health of our students, our staff and families. We are working directly with county health officials to address this situation.

Muldrow School will continue to follow all COVID-related safety procedures including: social distancing in classrooms, all students and employees will wear masks in areas when social distancing is not possible, frequent handwashing and sanitizing, disinfecting frequently touched surfaces and objects throughout the day, and thorough evening cleaning throughout the school.

COVID-19 is transmitted through person-to-person contact and through the exchange of respiratory droplets. As more cases are being confirmed across the state, including in our community, it is important to be sensible, but to also be vigilant. Symptoms of COVID-19 include fever, cough and shortness of breath. If you or any member of your family exhibits these symptoms, please contact your medical provider for advice immediately. Symptoms usually appear 2-14 days after exposure.

The CDC recommends the following best practices to help prevent the spread of COVID-19:

- Wash your hands often with soap and water for at least 20 seconds.
- Use alcohol-based hand sanitizer with at least 60% alcohol if soap and water are not available.
- Avoid close contact with those who are sick.
- Cover your coughs and sneezes with a tissue or your sleeve.
- Avoid touching your eyes, mouth and nose.
- Disinfect frequently touched surfaces and objects.
- Stay at home when you are sick.
- Practice social distancing, leaving at least six feet between you and other people.
- Wear a cloth mask in public when you cannot social distance.

Our greatest priority is the safety of our students, staff and community members. It is important to remember that children are greatly influenced by the reactions of adults when facing difficult circumstances. I encourage everyone to remain calm and to be empathic and respectful to those affected.

We are grateful for the opportunity to serve you and your family, especially as we face this challenging situation together. Thank you for your support of Muldrow Public School.

Sincerely,
Ronan Flanagan
Superintendent
