## ABOUT US

---

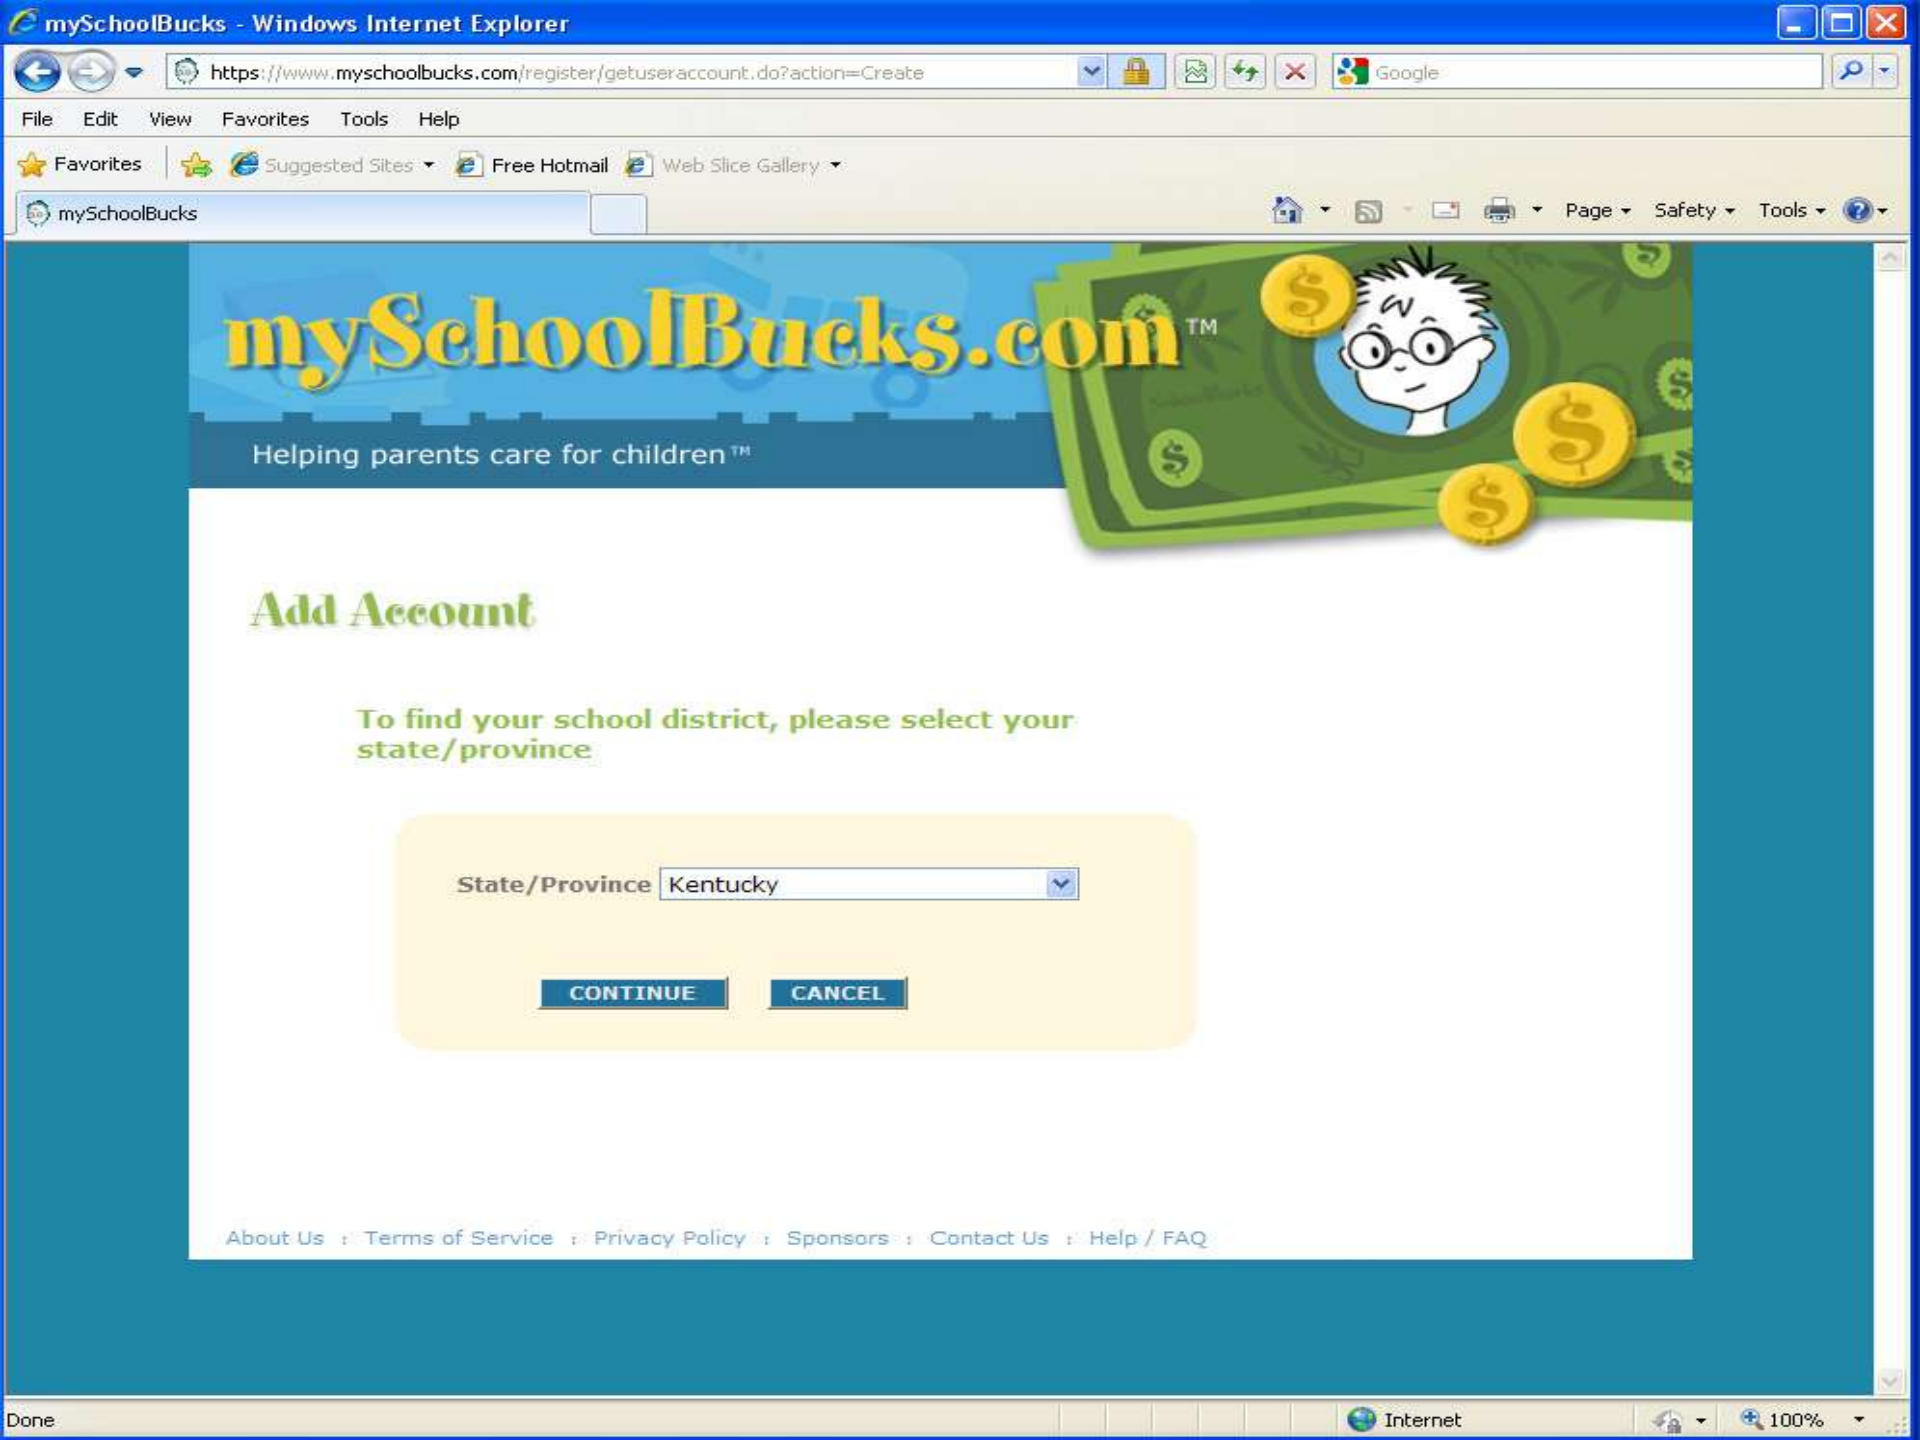

### Corporate Vision

- Help parents care for children.

### Product Description

- Presenting **mySchoolBucks.com** - the most advanced online payment center for parents and a whole lot more!
- mySchoolBucks.com is the most unique 'school-to-parents portal' where school officials can connect online with their parent constituents.
- Key components of the service include: an Online Payment Center that parents just love; a School Store that can be built for each school or for an entire district; a Marketplace that brings needed fundraising from corporate America right to your doorstep; and a Wellness and Nutrition center where parents can turn for reliable nutrition information on the foods their children eat.
- The benefits are numerous, from increasing revenue to schools to making life easier for school administrators to having the service pay for itself! Best of all, mySchoolBucks.com is a web service, so there's no computer servers to buy and no software to load or maintain.
- Your district can reduce the handling of cash and the chance of theft, reduce bounced checks, increase interest and revenues to the district, reduce labor costs, centralize, accelerate and increase payments to the district, and provide a convenient, high valued service and connection to parents in your community.
