

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY**Definitions**

For purposes of this Comprehensive Student Attendance Policy, the following definitions apply:

- a) Classroom Absence. A student's failure to be present for more than fifty percent (50%) of the class period.
- b) Compulsory Education Age. A student who turns sixteen (16) years of age during a school year must continue in attendance until the end of the school year. According to state law, the school year begins July 1.
- c) District. Depew Union Free School District ("D.U.F.S.D.") or the "District".
- d) Faculty. A member of the administrative, teaching, school counseling, instructional staff, or staff who provide educationally-related services to students, including psychologists, speech therapists, physical therapists, occupational therapists, and other health-related personnel, employed by the Depew Union Free School District.
- e) Parent. A parent, guardian, or person in parental relation to a student.
- f) Register of Attendance. Any written or electronic record maintained for the purpose of recording the attendance, absence, tardiness, or early departure of a student.
- g) Student. A child enrolled in Cayuga Heights Elementary School ("Cayuga"), Depew Middle School ("DMS"), or Depew High School ("DHS").
- h) Support Staff. A suitable person other than a faculty member employed by the District.

Statement of Overall Objectives

School attendance is both a right and responsibility. Education law requires that students enrolled in the Depew Union Free School District attend school on every school day unless excused. Attendance policies at this District are based on the following principles:

- a) Improved school attendance generally increases school achievement;
- b) Daily interaction with teachers and peers form a major component of academic success; and
- c) Early identification of attendance problems and intervention strategies are vital to academic performance.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

Because this District recognizes that every student has a right to educational opportunities that will enable the student to develop to his/her fullest potential, this District will review and, if necessary, revise a Comprehensive Student Attendance Policy to meet the following objectives:

- a) To increase school completion for all students;
- b) To raise student achievement and close gaps in student performance;
- c) To identify attendance patterns in order to design attendance improvement efforts;
- d) To know the whereabouts of every student for safety and other reasons;
- e) To verify that individual students are complying with education laws relating to compulsory attendance;
- f) To determine the District's average daily attendance for State aid purposes.

The Board of Education recognizes that a successful attendance policy requires cooperation among all members of the education community, including parents, faculty, administrators, and support staff.

A Description of the Strategies to Accomplish Objectives

The School District will:

- a) Develop a Comprehensive Student Attendance Policy based upon the recommendations of a multifaceted District Policy Development Team that includes representation from the Board of Education, administrators, students, faculty, and parents. The District will hold at least one (1) public hearing prior to adoption.
- b) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students.
- c) Maintain accurate record keeping via a Register of Attendance to record attendance, absence, tardiness or early departure of each student.
- d) Utilize data analysis systems for tracking individual student attendance and individual and group trends in student attendance problems.
- e) Develop intervention strategies to improve school attendance for all students.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)**Determination of Excused and Unexcused Absences, Tardiness and Early Departures**

Note: School Attendance is Required for All Children Who are of Compulsory Attendance Age

School Regulations: Student Absences/Tardiness/Early Departures

Student must present a signed note from parent giving child's full name, date, days of absence, and reason for absence, on the day of return, to the designated person.

Based upon our District's education and community needs, values and priorities, the School District has determined the absences, tardiness and early departures will be considered excused or unexcused according to the following standards:

- a) An absence, tardiness or early departures from school may be excused if due to personal illness, death in family, illness in the family, medical appointments, dental appointments, attendance at health clinics, quarantine, impassable roads due to inclement weather, required to be in court, religious observance, approved college visits, military obligations, educational experience/trip pre-approved by Building Principal or his/her designee. Administrative Approval/Emergency Situations covers unexpected events, which keep a student from attendance. These cases will be considered individually by the Principal or by his/her designee, need approval of the Superintendent/designee, and require final authorization by the Board of Education.
- b) An absence, tardiness or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories. Examples of unexcused absences include: overslept/missed bus, visitations (family/social), baby-sitting, needed at home, truancy (absence or other leave from school without parental permission), miscellaneous appointments: haircut, learner's permit/road test, etc. A trip with or without parents for recreational purposes will be deemed unexcused when it does not coincide with the school calendar. Exceptions need approval of the Superintendent or his/her designee and require final authorization by the Board of Education.
- c) Submission of a note signed by a medical provider will be required of students who have an extended illness in excess of five (5) consecutive days. In addition, the District reserves the right to request a note signed by a medical provider in cases where patterns of excessive, but not successive, absences appear.

Extended Illness and Home Instruction

Students who have an extended illness may be placed on home instruction and will not be counted as absent during the extended illness.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

- a) A doctor's statement indicating the reason for home instruction must be submitted by the parent before approval by the administration. The dates and the length of the home instruction must be included in the statement.
- b) The request for home instruction will be forwarded to the Superintendent or his/her designee for approval, who will make the arrangements for the home instruction.
- c) Under the direction of the home-instructor, the student will complete all missed assignments and continue assigned course work. When the assignments are satisfactorily completed and approved by the teacher, the student will then be marked in attendance for the days missed due to illness.

Truancy and Tardiness

Any student **not** in his/her assigned homeroom/first period class after the start of the scheduled school day is considered absent. If a student arrives at school after homeroom has begun, he/she will be considered tardy and should report immediately to the designated office to sign in. A written excuse is required explaining why the student is late. If the student does not have an excuse explaining his/her tardiness, he/she must submit a note from his/her parents the following school day explaining the reason for his/her tardiness.

Student absence without **prior knowledge or consent** of a parent is considered truancy, an unexcused absence. Truancy will be dealt with as outlined in the District's Code of Conduct.

Skip Days: Occasionally students get together and organize a day or part of a day off from school. The Depew Union Free School District does not condone these activities. Students participating in such activities will be subject to truancy regulations as outlined in the District's Code of Conduct.

Student Attendance Recordkeeping/Data Collection

The record of each student's presence, absence, tardiness and early departure shall be kept in a register of attendance in a manner consistent with Commissioner's Regulations. An absence, tardiness, or early departure will be entered as "excused" or "unexcused" along with the District code for the reason.

Attendance shall be taken and recorded in accordance with the following:

- a) For students in departmentalized schools at any grade level (i.e., students pass individually to different classes throughout the day), each student's presence or absence shall be recorded after the taking of attendance in each period of scheduled instruction. Where students do not change classrooms for each period of scheduled instruction, attendance shall be taken in accordance with paragraph "b."

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

- b) For students in non-departmentalized (i.e., self-contained classrooms and supervised group movement to other scheduled school activities such as physical education in the gym, assembly, etc.), such student's presence or absence shall be recorded after the taking of attendance once per school day, provided that students are not dismissed from school grounds during a lunch period. Where students are dismissed for lunch, their presence or absence shall also be recorded after the taking of attendance a second time upon the student's return from lunch.
- c) Any absence for a school day or portion thereof shall be recorded as excused or unexcused in accordance with the standards articulated in this policy.
- d) In the event that a student at any instructional level from kindergarten through grade twelve arrives late for or departs early from scheduled instruction, such tardiness or early departure shall be recorded as excused or unexcused in accordance with the standards articulated in this policy.

A record shall be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances. These include adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or such other cause as may be found satisfactory to the Commissioner of Education.

Attendance records shall also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

At the conclusion of each class period or school day, all attendance information shall be compiled and provided to the designated school personnel who are responsible for attendance. The nature of the absence, tardiness or early departure shall be coded on a student's record in accordance with the established District/building procedures.

Students who are absent, tardy, or depart early without parental consent or knowledge shall be subject to the penalties in accordance with the Code of Conduct.

Summer School

Students enrolled in the summer school program who are absent for more than three (3) days for any reason will be dropped from summer school.

Notice of Minimum Attendance Standard/Intervention Strategies

A faculty member or a designated support staff member shall notify the parent of a student who is absent, tardy, or departs early without proper excuse. The faculty member or designated support staff member shall refer the parent to the District's Comprehensive Student Attendance Policy.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)**Attendance Incentives**

In order to encourage student attendance, the District will develop and implement grade-appropriate/building-level strategies and programs including, but not limited to:

- a) Attendance honor rolls to be posted in prominent places in District buildings and included in District newsletters, and with parent consent, in community publications;
- b) Periodic drawings for prizes at each grade level to reward outstanding attendance;
- c) Special events (e.g., assemblies, guest speakers, field days) scheduled on days that historically have high absenteeism (e.g., Mondays, Fridays, day before vacation);
- d) Grade-level rewards at each building for outstanding attendance;
- e) Building/Classroom acknowledgement of the importance of good attendance (e.g., individual certificates, recognition chart, bulletin boards, announcements);
- f) Annual poster/essay contest on importance of good attendance;
- g) Assemblies collaboratively developed and promoted by Student Council, administration, PTO(s), and other community groups to promote good attendance.

Intervention Strategy Process

In order to effectively intervene when an identified pattern of absences, tardiness, or early departures occur, District personnel will:

- a) Identify specific element(s) of the pattern (e.g., grade level, building, time frame, type of absences, tardiness, or early departures);
- b) Explore strategies for intervention, such as holding a conference with the parent(s), making referrals to child study team and/or to outside agencies, etc.;
- c) Recommend intervention to Superintendent or his/her designee if the intervention relates to an alternative placement and/or a change in District policy or procedure;
- d) Implement changes, as approved by appropriate administration;
- e) Monitor short and long term effects of intervention and make recommendations regarding necessary modifications.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)**Disciplinary Sanctions**

Unexcused absences, tardiness, and early departures will result in disciplinary sanctions as described in the District's Code of Conduct. Sanctions may include, but are not limited to, in-school suspension, detention and denial of participation in interscholastic and extracurricular activities. Parents will be notified by District personnel at periodic intervals to address their child's absences, tardiness, or early departures and the importance of class attendance and appropriate interventions. Individual buildings/grade levels will address procedures to implement the notification process to the parent.

Appeal Process

A parent may appeal the attendance policy by requesting a conference with the Principal or his/her designee. All appeals to the Principal or his/her designee must be made in writing twenty (20) calendar days from the date of notification of intervention/sanction. The student's attendance records will be reviewed and a determination will be made. Further appeal from the Principal's decision shall be made to the Superintendent or his/her designee.

Building Review of Attendance Records

The Building Principal will work in conjunction with the building attendance clerk and/or other designated staff in reviewing attendance records at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness, and early departures.

Annual Review by the Board of Education

The Board of Education shall annually review the building level student attendance records and if such records show a decline in student attendance, the Board shall make any revisions to the Policy and Plan deemed necessary to improve student attendance.

Community Awareness

The Board of Education shall promote necessary community awareness of the District's Comprehensive Student Attendance Policy by:

- a) Providing a plain language summary of the policy to parents and students at the beginning of each school year and promoting the understanding of such a policy to students and their parents;
- b) Providing each teacher with a copy of the policy, at the beginning of the school year or upon employment; and

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

- c) Providing copies of the policy to any other member of the community upon request.

8 New York Code of Rules and Regulations (NYCRR) Sections 104.1, 109.2 and 175.6

Adopted: 7/12/11

Students

SUBJECT: RELEASED TIME OF STUDENTS

Written requests from the parent/guardian for the release of students generally will be honored. The appropriate time and reason for absence shall be recorded on the attendance record, using the procedures mandated by the state.

The Building Principal shall assume this responsibility or shall designate an individual to review and approve all requests.

8 New York Code of Rules and Regulations (NYCRR) Section 109.2

Adopted: 7/12/11

Students

SUBJECT: AGE OF ENTRANCE**Kindergarten**

Students who are legal residents of the School District and who reside with parents or guardians within the School District at the time of the opening day of school must be five (5) years of age or more on December 1 in order to register for Kindergarten.

A child who transfers into the School District at any time during the school year may be considered for admission to Kindergarten by the Superintendent provided:

- a) The parents were not legal residents of the School District on the opening day of school, and
- b) The child has been registered and enrolled in kindergarten in the district in which his/her parents were legal residents.

Other Grades

Admission of children to other grades shall involve a consideration of both chronological age and the readiness of the children to do the work of those grades.

Proof of Age

A student's birth certificate or other satisfactory evidence of age shall be presented at the time of initial registration. The child shall be entered under his/her legal name.

Education Law Sections 1712, 3202 and 3212

NOTE: Refer also to Policy #7131 -- Education of Homeless Children and Youth

Adopted: 7/12/11

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS

The School District has developed a plan for the diagnostic screening of all new entrants and students with low test scores.

A new entrant means a student entering the New York State public school system, pre-kindergarten through grade 12, for the first time, or re-entering a New York State public school with no available record of a prior screening.

Students with low test scores are students who score below level two on either the third grade English language arts or mathematics assessment for New York State elementary schools.

Such diagnostic screening will be utilized to determine which students:

- a) Have or are suspected of having a disability;
- b) Are possibly gifted; or
- c) Are possibly limited English proficient.

Such diagnostic screening shall be conducted:

- a) By persons appropriately trained or qualified;
- b) By persons appropriately trained or qualified in the student's native language if the language of the home is other than English;
- c) In the case of new entrants, prior to the school year, if possible, but no later than December 1 of the school year of entry or within fifteen (15) days of transfer of a student into a New York State public school should the entry take place after December 1 of the school year;
- d) In the case of students with low test scores, within thirty (30) days of the availability of the test scores.

New Entrants

For new entrants, diagnostic screening shall include, but not be limited to the following:

- a) A health examination by a physician/physician's assistant or nurse practitioner or submission of a health certificate in accordance with Education Law Sections 901, 903, and 904;

(Continued)

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS (Cont'd.)

- b) Certificates of immunization or referral for immunization in accordance with Section 2164 of the Public Health Law;
- c) Vision, hearing and scoliosis screenings as required by Section 136.3 of Commissioner's Regulations;
- d) A determination of development in oral expression, listening comprehension, written expression, basic reading skills and reading fluency and comprehension, mathematical calculation and problem solving, motor development, articulation skills, and cognitive development using recognized and validated screening tools; and
- e) A determination whether the student is of foreign birth or ancestry and comes from a home where a language other than English is spoken as determined by the results of a home language questionnaire and an informal interview in English and the native language.

Students with Low Test Scores

For students with low test scores, diagnostic screening shall include, but not be limited to:

- a) Vision and hearing screenings to determine whether a vision or hearing impairment is impacting the student's ability to learn; and
- b) A review of the instructional programs in reading and mathematics to ensure that explicit and research validated instruction is being provided in reading and mathematics.

No screening examination for vision, hearing or scoliosis condition is required where a student, parent, or person in parental relation objects on the grounds that such examination conflicts with their genuine and sincere religious beliefs.

Results and Reports

The results of the diagnostic screening shall be reviewed and a written report of each student screened shall be prepared by appropriately qualified School District staff. The report shall include a description of diagnostic screening devices used, the student's performance on those devices and, if required, the appropriate referral.

If such screening indicates a possible disability, a referral, with a report of the screening, shall be made to the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE) no later than fifteen (15) calendar days after completion of such diagnostic screening.

(Continued)

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS (Cont'd.)

If such screening indicates a possibly gifted child, the name and finding shall be reported to the Superintendent of Schools and to the parents/legal guardians no later than fifteen (15) calendar days after completion of such screening. The term gifted child is defined as a child who shows evidence of high performance capability and exceptional potential in areas such as general intellectual ability, special academic aptitude and outstanding ability in visual and performing arts. Such definition shall include those children who require educational programs or services beyond those normally provided by the regular school program in order to realize their full potential.

If such screening indicates a child identified as possibly being of limited English proficiency, such child shall be referred for further evaluation in accordance with Part 154 of the Regulations of the Commissioner of Education to determine eligibility for appropriate transitional bilingual or free-standing English as a Second Language (ESL) programs.

Reporting to Parents

Parents/guardians of children to be screened shall receive information in advance regarding the purpose of screening, the areas to be screened and the referral process. The information shall be communicated either orally or in writing in the parents' primary language(s). This information will be provided during the registration interview.

Parents/guardians have the right to request information regarding their child's performance on screenings. They shall have access to the screening results and obtain copies upon request. The results of all mandated screening examinations shall be in writing and shall be provided to the child's parent/guardian and to any teacher of the child within the school while the child is enrolled in the school. A letter will be sent to the parent/guardian of any child failing a screening.

Confidentiality of Information

The Board of Education's policy and administrative regulations in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) shall apply to all information collected about a child through the screening program. In accordance with the policy and regulations, parents shall be informed of their right to privacy, their right to access to the records and their right to challenge those records should they be inaccurate, misleading or otherwise inappropriate.

Family Educational Rights and Privacy Act of 1974, 20 United States Code (USC) Section 1232(g)

#8240 -- Instructional Programs: Driver Education, Gifted and Talented Education and Physical Education

Adopted: 7/12/11

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY**Ages of Attendance/Compulsory Attendance Age**

According to Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Except as otherwise provided in Education Law Section 3205(3), a student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age.

However, in accordance with Education Law Section 3205(3), the Board of Education in **any** School District shall have the power to require minors from sixteen (16) to seventeen (17) years of age who are not employed to attend full-time instruction until the end of the school year in which the student turns seventeen (17) years of age.

All persons dwelling within the District who are between the ages of five (5) years and twenty-one (21) years and who have not received a high school diploma shall be entitled to enroll in the District.

Determination of Student Residency

The residence of children dwelling within the District boundaries shall be established in a manner consistent with State Law and the Regulations of the Commissioner. The Board of Education or its designee shall determine whether a child is entitled to attend a District school. Any adverse residency decision by a school official, other than the Board or its designee, shall include written notice to the parent/person in parental relation of the procedures for obtaining review of the decision within the District.

Attendance Areas and Assignment

Resident students shall be assigned to schools on the basis of their place of residence and school boundary lines as established by the Board.

School boundary lines regulating the assignment of students to school shall be established and changed in the best interest of the total school enrollment.

No student shall attend a school outside his/her normal attendance area without permission of the Superintendent of Schools.

(Continued)

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY (Cont'd.)**Children Living With Noncustodial Parents**

A child's residence is usually determined by the residence of the custodial parent. However, a noncustodial parent who resides in the District may enroll his/her child in a District school if he/she shares the day-to-day responsibilities for the child and the custodial parent designates the child's residence with the noncustodial parent.

Homeless Children

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Article 19-H of the Executive Law, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the District the homeless child shall attend.

Children of Activated Reserve Military Personnel

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. However, the District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

Emancipated Minors

Students beyond the compulsory attendance age, who are independent and living apart from their parents/persons in parental relation, who are not in need or receipt of foster care, may be considered emancipated for purposes of establishing a residence apart from their parents/persons in parental relation. A determination of whether a student is to be designated as an emancipated minor in the Depew Union Free School District will be based on evidence that the student is no longer under custody, control and support of his/her parents/persons in parental relation.

A minor may establish emancipation by meeting the following requirements:

- a) Submit documentation of his/her age, residence and means of support;
- b) Explain the circumstances of the student's emancipation, including a description of the relationship with his/her parents/persons in parental relation;

(Continued)

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY (Cont'd.)

- c) Provide assurance that he/she is not receiving financial support from his/her parents/persons in parental relation (except in cases where a court order requires such parental support for an emancipated minor).

In addition to this information, the District may require an affidavit or sworn statement from the student as proof of emancipation and residence within the District.

Parents of/persons in parental relation to an emancipated minor may be asked to provide a statement describing their relationship to the student only if such a statement does not place an unreasonable burden on the student.

These statements are renewable each school year. If at any time the above information is changed without prompt notification or proven to be false, the parent/person in parental relation and/or student may be subject to legal action.

Children Living With Persons Not Their Parents -- Guardianship or Custody

In accordance with the Family Court Act and Domestic Relations Law, a person possessing a lawful order of guardianship or custody of a minor child who is not the parent of such child may enroll the child in public school in the school district where he/she and the child reside.

Therefore, upon application for enrollment by the guardian or custodian, the District shall enroll such a child for such time as the child resides with the guardian or custodian in the District upon verification that the guardian or custodian possess a lawful order of guardianship or custody for the child and that the guardian or custodian and the child properly reside in the same household within the District.

McKinney-Vento Homeless Education Assistance Act, Section 722, as reauthorized by the No Child Left Behind Act of 2001
Domestic Relations Law Section 74
Education Law Sections 2045, 3202, 3205, 3209 and 3212(4)
Family Court Act Section 657
8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(x) and (y)

NOTE: Refer also to Policy #7131 -- Education of Homeless Children and Youth

Adopted: 7/12/11

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Pursuant to Commissioner's Regulations, a "homeless child" means a child or youth who lacks a fixed, regular, and adequate nighttime residence, including a child who is:

- a) Sharing the housing of other persons due to a loss of housing, economic hardship or a similar reason;
- b) Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- c) Abandoned in hospitals;
- d) Awaiting foster care placement; or
- e) A migratory child who qualifies as homeless in accordance with Commissioner's Regulations. As defined in the No Child Left Behind Act of 2001, the term "migratory child" *includes* a child who is, or whose parent or spouse is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who has moved from one school district to another in the preceding thirty-six (36) months, in order to obtain, or accompanies such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work.
- f) A child or youth who has a primary nighttime location that is:
 - 1. A supervised, publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the state or local department of social services, and residential programs for runaway and homeless youth established pursuant to Executive Law Article 19-H; or
 - 2. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station or similar setting.

(Continued)

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

- g) Considered an "unaccompanied youth":
 - 1. An unaccompanied youth is a homeless child (for whom no parent or person in parental relation is available) or youth not in the physical custody of a parent or legal guardian.
 - 2. An unaccompanied youth **shall not include** a child or youth who is residing with someone other than a parent or legal guardian for the sole reason of taking advantage of the schools of the district.

The **term "homeless child" shall not include** a child in foster care or receiving educational services pursuant to Education Law Sections 3202(4), (5), (6), (6a) or (7) or pursuant to Articles 81, 85, 87 or 88. For example, a child in a family home at board, a school for the mentally retarded, a hospital or other institution for the care, custody and treatment of children; youths under the direction of the Division for Youth incarcerated in county correctional facilities or youth shelters; or children residing in child care institutions or schools for the deaf or blind would not be considered "homeless."

Enrollment, Retention and Participation in the Educational Program

Enrollment of homeless children shall not be delayed and their ability to continue or participate in the educational program shall not be restricted due to issues such as:

- a) Transportation;
- b) Immunization requirements;
- c) Residency requirements;
- d) Birth certificates, medical records, individualized education programs (IEPs), school records and other documentation;
- e) Guardianship issues;
- f) Comprehensive assessment and advocacy referral processes;
- g) Resolution of disputes regarding school selection;
- h) Proof of social security numbers;
- i) Attendance requirements;

(Continued)

Students

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

- j) Sports participation rules;
- k) Inability to pay fees associated with extracurricular activities such as club dues and sports uniforms; or
- l) Other enrollment issues.

Educational Programs and Services

The School District shall provide homeless children and youth with access to all of its programs, activities and services to the same extent that they are provided to resident students.

Homeless children and youth shall be educated as part of the school's regular academic program. Services must be provided to homeless children and youth through programs and mechanisms that integrate homeless children and youth with their non-homeless counterparts, including programs for special education, vocational and technical education, gifted and talented students, before and after school, English language learners/limited English proficiency, Head Start, Even Start, and school nutrition. Services provided with McKinney-Vento funds must expand upon or improve services provided as part of the regular school program. Consequently, the School District shall ensure that homeless children and youth are not segregated in a separate school, or in a separate program within the school, based on their status as homeless; and to the extent feasible consistent with the requirements of Commissioner's Regulations, keep a homeless child or youth in the school of origin except when doing so is contrary to the wishes of the child's or youth's parent or guardian. Further, the School District shall review and revise policies and practices, including transportation guidelines, that may act as barriers to the enrollment, attendance, school success, and retention of homeless children and youth in the School District.

All homeless children and youth are automatically eligible for Title I Part A services whether or not they meet the academic standards or live in a Title I school attendance area. Homeless students may receive Title I educational or support services from schoolwide and targeted-assistance school programs.

Transportation

If the local social service district or the Office of Children and Family Services is not required to provide transportation, the designated district is responsible for the provision and the cost of the student's transportation. Where a homeless student designates the school district of current location as the district the student will attend, then that district shall provide transportation to the student on the same basis as a resident student. Where the homeless student designates the school district of origin or a school district participating in a regional placement plan, then that district must provide transportation to and from the homeless child's temporary housing and school.

(Continued)

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

Transportation responsibilities apply to all school districts regardless of whether or not they receive McKinney-Vento funds. Transportation must be provided during the pendency of enrollment disputes. If the designated district provides transportation for non-homeless preschool children, it must also provide comparable transportation services for homeless preschool children.

School District Liaison for Homeless Children and Youth

The School District shall designate an appropriate staff person, who may also be a coordinator for other federal programs, as the local educational agency liaison for homeless children and youth to carry out the duties as enumerated in law, Commissioner's Regulations and applicable guidance issued by the U.S. and New York State Education Departments. The District will inform school personnel, local service providers and advocates of the office and duties of the local homeless liaison.

Training

The District will train all school enrollment staff, secretaries, school counselors, school social workers, and Principals on the legal requirements for enrollment. School nutrition staff, school registered professional nurses, teachers, and bus drivers will receive training on homelessness that is specific to their field.

Outreach

The District will make every effort to inform the parents or guardians of homeless children and youth of the education, transportation and related opportunities available to their children including transportation to the school of origin. The parent(s)/guardian(s) will be assisted in accessing transportation to the school they select, and will be provided with meaningful opportunities to participate in the education of their children. Public notice of educational rights of homeless children and youth will be disseminated by the District in places where families and youth are likely to be present (e.g., schools, shelters, soup kitchens), and in comprehensible formats (e.g., geared for low literacy or other community needs).

Dispute Resolution

The District shall establish procedures for the prompt resolution of disputes regarding school selection or enrollment of a homeless child or youth and provide a written explanation, including a statement regarding the right to appeal to the parent or guardian if the School District sends the student to a school other than the school of origin or the school requested by the parent or guardian. These disputes shall include, but are not limited to, disputes regarding transportation and/or a child's or youth's status as a homeless child or unaccompanied youth.

(Continued)

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

If there is a factual dispute over whether a student is homeless, the District will immediately enroll the student and then provide the parent/guardian the opportunity to submit verification of homelessness. The student will remain enrolled until a final determination is made by the District and for a minimum of thirty (30) days after the final determination to allow the parent/guardian opportunity to appeal to the Commissioner of Education. If the student files an appeal that contains a request for a stay within thirty (30) days of such final determination, the District must continue to enroll the student until the Commissioner rules on the stay request.

Record and Reporting Requirements

If the District, as the school district of origin, receives a request to forward student records to a receiving district, the records must be forwarded within five (5) days.

The School District shall maintain documentation regarding all aspects of the District's contact with and services provided to homeless students and youth for possible on-site monitoring by the State Education Department.

The District shall collect and transmit to the Commissioner of Education, at such time and in the manner as the Commissioner may require, a report containing such information as the Commissioner determines is necessary to assess the educational needs of homeless children and youths within the state.

McKinney-Vento Homeless Education Assistance Act, as reauthorized by the No Child Left Behind Act of 2001, 42 United States Code (USC) Section 11431 et seq.
Education Law Sections 902(b) and 3209
8 New York Code of Rules and Regulations (NYCRR) Section 100.2(x)

SUBJECT: NON-RESIDENT STUDENTS

Non-resident families who wish to enroll children in the Depew Union Free School District shall submit a request in writing to the Superintendent who shall determine whether or not admission will be granted.

The following general conditions for acceptance will be met when considering admittance:

- a) There is sufficient space to accommodate the non-resident student;
- b) No increase in the size of faculty or staff will be necessary;
- c) Admittance will not result in the establishment of a new section;
- d) Parents/guardians must work out transfer conditions with the home school district or provide their own transportation;
- e) All rules and regulations in effect for District students will be applicable to non-District students;
- f) Tuition may be charged to families of non-resident students in accordance with formulas approved by the State Education Department.

Final decisions regarding the acceptance of non-resident students rest with the Board of Education.

Tuition-Paying StudentsFuture Students

The children of families who have signed a contract to buy or build a residence in the School District may be enrolled for the semester in which they expect to become residents. Non-resident tuition shall be charged, payable in advance, with an adjustment to be made when the family becomes a resident in the District.

Foreign Students

Students from other nations who are living with District residents may be enrolled at the discretion of the District. In accordance with federal law, a foreign student who attends a public secondary school under an F-1 Visa must reimburse the School District for the full unsubsidized per capita cost of providing education at the school during the student's attendance. The administration is authorized to file with the U.S. Department of Homeland Security the forms necessary for the monitoring of non-immigrant foreign students during the course of their stay in the District in accordance with the Student and Exchange Visitor Information System (SEVIS).

(Continued)

Students

SUBJECT: NON-RESIDENT STUDENTS (Cont'd.)Other Non-resident Students

Non-resident students other than those affected by the above provisions may be accepted as tuition-paying students at the discretion of the Board of Education on an annual basis provided the general conditions listed above are met. Requests should be submitted to the Superintendent.

Non-Tuition StudentsFormer Residents

- a) Students in grades K through 8 who move from the Depew Union Free School District during the school year may be given permission to finish the semester in which the move occurs.
- b) A student who moves from the District after completing two (2) years of high school may be given permission to remain in the District until graduation if parent(s) still maintain assessable property in the District. However, school tax payments of non-residents who own assessable property in the District will be deducted from any tuition charges levied against such non-resident.

Foreign Exchange Students

Only foreign students participating in a recognized Student Exchange Program under a J-1 Visa may attend District schools without payment of tuition. The administration is authorized to file with the U.S. Department of Homeland Security the forms necessary for the monitoring of non-immigrant foreign students during the course of their stay in the District in accordance with the Student and Exchange Visitor Information System (SEVIS).

Proof of Residency

Such documentary or sworn proof as shall be required by the administration or Board of Education must be furnished prior to the admission of any child residing in the District with a person not his/her parent or who is the child of a non-resident. The admission of homeless children and youth will be in accordance with law.

Reservation of Claims

Should a material misstatement of fact be made and relied upon by any administrator or the Board of Education in admitting a non-resident student without tuition, the Board shall be entitled to recover the cost of instruction for the time the student was not authorized to attend a school in the District from the person having made the misstatement or from a person in parental relation to the student.

(Continued)

SUBJECT: NON-RESIDENT STUDENTS (Cont'd.)**Tuition Fees**

Where applicable, tuition fees are computed according to a formula established by the Commissioner of Education.

Tuition of individual non-resident students shall be computed in advance at the time of enrollment. Methods of payment (e.g., monthly) may be arranged in the District Office and approved by the Superintendent. Non-resident status is contingent upon timely payment of tuition fees as established by the Board of Education.

Legal Residence

Parents who maintain more than one residence, but whose legal residence for the purposes of voting or filing income tax is within the District, are eligible to send their children to District schools.

Students

SUBJECT: SCHOOL CENSUS

Although not required by law, the Depew Union Free School District will take a census of all children from birth to eighteen (18) years of age. Census data shall be reported as required by law.

The census must indicate the names of all children between birth and eighteen (18) years of age, and of children with disabilities between birth and twenty-one (21) years of age; their respective residences by street and number; the day of the month and the year of their birth; the names of the parents/persons in parental relation to them; such information relating to physical or mental disabilities, to illiteracy, to employment and to the enforcement of the law relating to child labor and compulsory education as the State Education Department and the Board of Education shall require; and also such further information as the Board shall require.

On written request and in such form as prescribed by the Commissioner of Education, the Board shall provide to the Commissioner a report containing the names, ages and addresses of those children who are blind or deaf, and those children having serious physical or mental disabilities. Additionally, such report shall further indicate whether such children are being educated within the public schools of the District or, if they are not, where such education is being furnished to them.

Parents/persons in parental relation to those children within the prescribed census age ranges are to make such reports as the Board of Education shall require, including, but not limited to, providing two (2) weeks before the child reaches compulsory school age, the name of the child; the child's residence; the name of the person or persons in parental relation to the child; the name and location of the school to which the child shall have been or shall be sent as a student; and such other information as required by law or as the Board may require.

A parent, guardian or other person having under his/her control or charge a child between birth and eighteen (18) years of age who withholds or refuses to give information in his/her possession relating to such census data as required by law pertaining to the child; or, in the alternative, gives false information in relation to such census data, shall be liable to and punished by a fine or imprisonment as established by law.

Count of Immigrant Children and Youth

As a provision of the federal Title III Part A – English Language Acquisition, Language Enhancement, and Academic Achievement Act under the No Child Left Behind Act of 2001, the U.S. Secretary of Education requires that **all local educational agencies (LEAs)** count the number of "immigrant children and youth" enrolled in the public and nonpublic schools in the geographic area under the jurisdiction of, or served by, the LEA. The results of this count have important implications for the receipt of supplemental federal funds to eligible LEAs in New York State for services to recently arrived immigrant children and youth.

(Continued)

SUBJECT: SCHOOL CENSUS (Cont'd.)

For purposes of this count, the term "immigrant children and youth" shall include those individuals who:

- a) Are ages three (3) through twenty-one (21);
- b) Were **NOT** born in any State or from the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, the Northern Mariana Islands, or the Trust Territory of the Pacific Islands; and
- c) Have **NOT** been attending schools in any one (1) or more States for more than three (3) full academic years.

Each nonpublic school shall report its data to the public school district in which it is located. It is the responsibility of each public school district to report its immigrant count as well as the counts for all nonpublic schools within its jurisdiction.

In accordance with law, the District shall conduct its survey and submit the information electronically to the New York State Education Department by the specified deadline date. LEAs must also maintain on file a list of the immigrant students counted, their countries of origin, dates of arrival, and the public or nonpublic school in which they are registered as well as copies of the letter to each of the nonpublic schools in its jurisdiction regarding the count.

Education Law Sections 3240-3243 and 4402(1)(a)
8 New York Code of Rules and Regulations (NYCRR) Section 200.2(a)
20 United States Code (USC) Section 6811

NOTE: Refer also to Policy #7650 -- Identification and Register of Children with Disabilities (Child Find)

Adopted: 7/12/11

SUBJECT: STUDENT EVALUATION**Placement**

Placement within the system, with respect to building, teacher, and grade or special class, shall be at the discretion of the school administration and shall be subject to review and change at any time. In making such decisions, the administrator will be guided by performance in class, past records, parent/guardian and teacher recommendations, standardized test scores, and any other appropriate sources of information, but the final decision shall rest with the school administration.

Grading

The Depew School District Board of Education suggests that grades shall reflect a student's academic performance and effort commensurate with his/her ability, and shall not be used to correct any disciplinary problems.

Procedures shall be established by the administration to govern the awarding of grades. The Board delegates to the Superintendent the authority to change a grade after careful consideration of all factors.

Promotion and Retention

The procedures to be followed by the staff regarding promotion and retention will be developed by the Superintendent and will be continually evaluated in the light of School District policy. Building Principals may establish written standards for promotion or retention within the school units to which the students are assigned, subject to the guidelines of the Superintendent and the approval of the Board of Education. (Note: Refer also to Policy #7212 -- Middle School Promotion Policy.)

Testing Program

The Board of Education endorses and supports the use of ability, achievement, diagnostic, readiness, interest and guidance tests as part of the total educational process to the degree to which tests help the District to serve its students.

Examinations

At the secondary level, final examinations may be an appropriate culminating activity in the course of study. The building administration shall be responsible for determining whether final examinations shall be given in any course which does not terminate in a required Regents examination or proficiency examination.

If a final examination is given, the final grade in the course will be determined by using the final examination score as one-fifth (1/5) of the final grade. (Note: Refer also to Policy 7213 -- Regents Examinations.)

(Continued)

SUBJECT: STUDENT EVALUATION (Cont'd.)**Alternative Testing Procedures**

The use of alternative testing procedures shall be limited to:

- a) Students identified by the Committee on Special Education and/or Section 504 Team as having a disability. Alternative testing procedures shall be specified in a student's Individualized Education Program or Section 504 Accommodation Plan; and
- b) Students whose native language is other than English (i.e., English language learners) in accordance with State Education Department Guidelines.

The alternative testing procedures employed shall be based upon a student's individual needs and the type of test administered.

The District shall report the use of alternative testing procedures to the State Education Department on a form and at a time prescribed by the Commissioner.

Reporting to Parents/Guardians

Parents/guardians shall receive an appropriate report of student progress at regular intervals.

Report cards shall be used as a standard vehicle for the periodic reporting of student progress and appropriate school related data. Report cards, however, are not intended to exclude other means of reporting progress, such as interim reports, conferences, phone conversations, etc.

When necessary, attempts will be made to provide interpreters for non-English speaking parents/guardians.

Section 504 of the Rehabilitation Act of 1973, 29 United States Code (USC) Section 794 et seq.

Education Law Section 1709(3)

Students

SUBJECT: PROVISION OF INTERPRETER SERVICES TO PARENTS WHO ARE HEARING IMPAIRED

The Board of Education assures parents or persons in parental relation who are hearing impaired the right to meaningful access to school initiated meetings or activities pertaining to the academic and/or disciplinary aspects of their children's education. School initiated meetings or activities are defined to include, but are not limited to, parent-teacher conferences, child study or building-level team meetings, planning meetings with school counselors regarding educational progress and career planning, suspension hearings or any conferences with school officials relating to disciplinary actions. The term "hearing impaired" shall include any hearing impairment, whether permanent or fluctuating, which prevents meaningful participation in School District meetings or activities.

Parents or persons in parental relation shall be notified of the availability of interpreter services to be provided at no charge, provided that a written request is made to the School District within fourteen (14) days of the scheduled event. Exceptions to the time frame request may be made for unanticipated circumstances as determined by the Principal/designee. The District shall also notify appropriate school personnel as to the terms and implementation of this policy.

If interpreter services are requested, the District shall appoint an interpreter for the hearing impaired to interpret during the meeting or activity. The District will arrange for interpreters through a District-created list or through an interpreter referral service. The District shall also develop interagency agreements, as appropriate, to ensure that sign language interpreters are provided for eligible parents or persons in parental relation when District students attend out-of-District schools or programs.

In the event that an interpreter is unavailable, the School District shall make other reasonable accommodations which are satisfactory to the parents or persons in parental relation. Examples of what constitutes reasonable accommodations in the event an interpreter cannot be located may include, but are not limited to, the use of:

- a) Written communications, transcripts, note takers, etc.; and
- b) Technology, such as: a decoder or telecommunication device for the deaf, assistive listening devices, and closed or open captioning.

Education Law Section 3230
8 New York Code of Rules and Regulations (NYCRR)
Section 100.2(aa)

Adopted: 7/12/11

SUBJECT: MIDDLE SCHOOL PROMOTION POLICY**Seventh to Eighth Grade**

In general, students in seventh grade are expected to pass all four (4) basic academic subjects (English, mathematics, science, and social studies) in order to be promoted to the eighth grade. A student must pass three (3) of the four (4) academic subjects in order to be promoted. In the event a student fails one (1) of the four (4) academic courses, he/she will be encouraged to attend summer school to successfully complete the course.

If the student passes summer school, he/she may proceed to the eighth grade course. If the student either fails summer school or does not attend summer school, he/she will be required to take a tutorial course in the failed subject during the eighth grade concurrent with the same eighth grade subject.

During the eighth grade, the student in the tutorial may demonstrate proficiency through examination at mid-year by taking a test on the entire seventh grade course. If the student passes the proficiency exam, he/she may drop the tutorial for the second semester or may voluntarily choose to remain in the tutorial for extra assistance in the eighth grade subject matter. If the student fails the proficiency exam, he/she is required to stay in the tutorial for the remainder of the year and be re-examined on the seventh grade course at the completion of the year.

A seventh grade student who fails two (2) academic courses must attend summer school for both courses and must meet the promotion criteria to pass to the eighth grade. If the student does not meet the promotion criteria, he/she is retained in the seventh grade.

A seventh grade student who fails three (3) academic courses must successfully complete at least two (2) academic courses during summer school in order to be promoted. All other promotional criteria will apply.

Eighth to Ninth Grade

In general, students in the eighth grade are expected to pass all four (4) basic academic subjects (English, mathematics, science, and social studies) in order to be promoted to the ninth grade. A student must pass three (3) of the four (4) academic subjects in order to be promoted. In the event a student fails one (1) of the four (4) academic courses, he/she will be encouraged to attend summer school to successfully complete the course.

If the student passes summer school, he/she may proceed to the ninth grade course. If the student either fails summer school or does not attend summer school, he/she will be required to take a tutorial course in the failed subject during the ninth grade concurrent with the same ninth grade subject.

(Continued)

SUBJECT: MIDDLE SCHOOL PROMOTION POLICY (Cont'd.)

An eighth grade student who fails two (2) academic courses must attend summer school for both courses and must meet the promotion criteria to pass on to the ninth grade. If the student does not meet the promotion criteria, he/she is retained in the eighth grade.

An eighth grade student who fails these academic courses must successfully complete at least two (2) academic courses during summer school in order to be promoted. All other promotional criteria will apply.

Any eighth grade student who fails the same subject two (2) years in a row (end of seventh grade and end of eighth grade) must pass summer school in that subject or take a full year of ninth grade tutorial before taking the ninth grade credit-bearing course.

Procedure for Students Failing More Than One (1) Academic Course and Two (2) or More Non-Academic Courses

Student's who fall in this category must appear before a committee which includes the Building Principal, counselor(s) the teachers involved, and any other pertinent school personnel for a total program review and recommendation. The parent or guardian must be present. The Building Principal will review the committee's recommendation and make a final decision.

All promotion is subject to the Building Principal's approval.

Students

SUBJECT: REGENTS EXAMINATIONS

- a) Each high school course shall have a final evaluation that counts as one-fifth (1/5) of the Final Average. The final evaluation shall be approved by the Principal, and may be a Regents Examination, local examination, project or term paper.
- b) In some high school courses, the Regents Examination should serve as the final evaluation. Those examinations are: Foreign Language, Earth Science, Living Environment, Chemistry, and Physics.
- c) In some high schools courses, the Regents Examination shall not serve as the final evaluation. Those examinations are: English Language Arts, Global History and Geography, U.S. History and Government, Mathematics A, and Mathematics B.
- d) In the event of changes in course or examination offerings, the Principal shall determine whether or not a Regents Examination is an appropriate final evaluation for a specific course.
- e) Students who have not completed Regents courses may be admitted to Regents examinations for the purpose of demonstrating academic proficiency as outlined in the provisions for "Credit by Examination" in the Regulations of the Commissioner of Education Section 100.5(d)(1).

For All Students Who Enter Grade 9 in September 2001 and Thereafter:

- a) Student transcripts shall report two (2) cumulative averages:
 - 1. Grade Point Average: The sum of the final averages in all courses completed, divided by the number of credits earned.
 - 2. Regents Examination Average: The total of all Regents Examination grades, divided by the number taken.
- b) If a student retakes a Regents Examination, the highest grade earned by the student shall be included in calculations of Grade Point Average and Regents Examination Average.
- c) A student with a disability (as identified by the Committee on Special Education) who meets a state testing requirement by passing a Regents Competency Test under the "safety net" regulations or by obtaining a passing score on an Approved Alternate Assessment shall have the score noted on his/her transcript, but the score shall not affect the Grade Point Average or Regents Examination Average. (Refer also to Policy #7222 -- Credential Options for Students with Disabilities.)
- d) A student who meets a state testing requirement through "Component Retesting" shall have that fact noted on his/her transcript, but the Component Retesting grade shall not affect the Regents Examination grade.

Adopted: 7/12/11

Students

SUBJECT: GRADUATION REQUIREMENTS/EARLY GRADUATION/ACCELERATED PROGRAMS

In order to graduate from Depew Union Free School District, a student must complete or may exceed the requirements set forth in Part 100 of the Commissioner's Regulations. The Board of Education reserves the right to establish requirements for graduation which exceed the minimum standards as defined by the New York State Regents. All students must be in compliance with Commissioner's Regulations for graduation in achieving a minimum of a Regents diploma unless otherwise indicated.

Regents Diploma with Honors

The District may award a Regents diploma with honors to students who receive an average of ninety percent (90%) on all Regents examinations required for the honors diploma. These exams include mathematics, science, US History, government and global history, and geography. This "honors" diploma may also be given to a student who has substituted no more than two (2) alternative assessments for a Regents examination as approved by Commissioner's Regulations Section 100.2(f). However, the student's actual score on the substituted alternative assessment will not be factored into the ninety percent (90%) calculation.

Regents Diplomas with Advanced Designation with Honors

The District may award a Regents diploma with advanced designation with honors. A student needs to have an average score of ninety percent (90%) on all Regents examinations required for the advanced diploma. These Regents examinations are: ELA, two (2) (or three [3]) mathematics, two (2) sciences (one in physical science/the other in life science), US History and Government, Global History and Geography and languages other than English (LOTE).

Early Graduation

Upon request from the student's parent/guardian, a student shall be eligible for early graduation in fewer than eight (8) semesters upon completion of all requirements for graduation, excluding physical education, as mandated by Commissioner's Regulations. A student shall not be required to continue enrollment for the sole purpose of completing physical education requirements.

Accelerated ProgramsEighth Grade Acceleration for Diploma Credits

Individual eighth grade students only may be afforded the opportunity to take high school courses in mathematics and in at least one (1) of the following areas: English, social studies, languages other than English, art, music, career and technical education subjects, or science courses. The Superintendent or his/her designee is responsible for determining that an eighth grade student is eligible to take high school courses. The District shall utilize a set of criteria to determine each

(Continued)

SUBJECT: GRADUATION REQUIREMENTS/EARLY GRADUATION/ACCELERATED PROGRAMS (Cont'd.)

student's readiness for acceleration. Students who are accelerated for diploma credit must have been provided instruction designed to facilitate their attainment of, by the end of Grade 7, the State intermediate learning standards in each subject area in which they are accelerated.

Advanced Placement

Advanced Placement (AP) examinations are administered by the College Board with strict guidelines as to its implementation. A national, standardized, arduous examination is administered by the College Board in May of each year for a great variety of courses in various subject areas. In addition to entering a universe of knowledge that might otherwise remain unexplored in high school, Advance Placement examinations afford students the opportunity to earn credit or advanced standing in most of the nation's colleges and universities. The District shall utilize a set of criteria to determine a student's readiness for enrollment in the Advance Placement classes.

8 New York Code of Rules and Regulations (NYCRR) Sections 100.1(i), 100.2(f), 100.4(d) and 100.5

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES

The Board of Education is committed to ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with the provisions of Commissioner's Regulations Section 100.5. However, when necessary, the District may award high school individualized education program (IEP) diplomas to students with disabilities.

High School Diplomas

Students pursuing either a Regents or a local high school diploma must acquire a certain number of units of credit in specified courses and also meet subject sequence requirements. It is critical that students with disabilities be provided access to the required courses and testing programs needed for graduation with these awards.

High School Individualized Program (IEP) Diplomas

Each individualized education program (IEP) diploma awarded shall be accompanied by a written statement of assurance that the student named as its recipient shall continue to be eligible to attend school until the student has earned a high school diploma or until the end of the school year of such student's twenty-first birthday, whichever is earlier.

The Superintendent shall report to the State Education Department, within fifteen (15) days after the June graduation, the total number and the names of the students awarded IEP diplomas that school year.

Regents Competency Test (RCT) Safety Net and 55-64 Passing Score Option for Students with Disabilities

In October 2003, the Board of Regents approved an extension of the Regents Competency Test (RCT) "safety net" for students with disabilities who pursue a Regents or local high school diploma.

The following students qualify for the RCT safety net and the 55-64 passing score:

- a) Students with disabilities identified through a Committee on Special Education (CSE). Specific language regarding the availability of the safety net does not have to be indicated on the student's IEP.
- b) Students with disabilities identified through the Section 504 Multidisciplinary Team (MDT) if recommended and documented by the MDT on the student's Accommodation Plan.
- c) Students with disabilities declassified while in grades 8 through 12 if recommended and documented by the CSE on the student's IEP.

(Continued)

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES (Cont'd.)RCT Safety Net

In order to earn a high school Regents diploma, all students need to take and pass five (5) specific Regents examinations with a score of 65 or higher. Vocational and Educational Services for Individuals with Disabilities (VESID) has developed a chart on the "Diploma Requirements Based on June 2005 Board of Regents Action to Phase in the 65 Graduation Standard on Required Regents Exams" which is available at: <http://vesid.nysed.gov/specialed/publications/policy/chart-diploma.htm>

The safety net allows students with disabilities who fail a required Regents exam to instead meet the requirements for a local diploma by passing the RCT in that subject or the Department approved alternative. The safety net is available to all eligible students with disabilities entering grade 9 through the 2010-11 school year. The school may administer the RCT before or after the Regents examination, but in all cases the student must take the required Regents examination in order to earn the local diploma. The RCT exams will be available until the student graduates or reaches the age of twenty-one (21).

55-64 Passing Score

For students with disabilities who first enter grade 9 in September 2005 and thereafter, a score by the student of 55-64 may also be met by achieving a passing score on any Regents examination (English, Mathematics, Science, Global History and U.S. History) required for graduation; and, in such event, the District may issue a local diploma to such student. The 55-64 passing score must be made available to students with disabilities and is no longer a District option. This provision shall apply only to students with disabilities who are entitled to attend school pursuant to Education Law Sections 3202 or 4402(5).

Education Law Sections 3202 and 4402(5)

8 New York Code of Rules and Regulations (NYCRR) Sections 100.5(5)(a-e) and 100.9

Adopted: 7/12/11

Students

SUBJECT: DUAL CREDIT FOR COLLEGE COURSES

Students who wish to enroll in college level coursework shall meet all academic, grade level and coursework requirements as set forth by administrative guidelines. Students who have demonstrated intellectual and social maturity may choose to matriculate at any one (1) of the colleges that have a cooperative agreement with our School District. Such opportunities may include early admission to college, collegiate-level work offered in the high school, or other means of providing advanced work. Review and approval by the administration are necessary before any college courses may be taken during the school day.

The Board shall not be required to pay tuition and other related costs for those high school students enrolled in college courses.

Students

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE

The School District shall comply with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Under its provisions, "parents/guardians and noncustodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all education records maintained by the School District."

Education Records

The term "education records" is defined as all records, files, documents and other materials containing information directly related to a student; and maintained by the education agency or institution, or by a person acting for such agency or institution (34 Code of Federal Regulations [CFR] Section 99.3). This includes all records regardless of medium, including, but not limited to, handwriting, videotape or audiotape, electronic or computer files, film, print, microfilm, and microfiche.

In addition, for students who attend a public school district, all records pertaining to services provided under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA. As such, they are subject to the confidentiality provisions of both Acts.

Personal notes made by teachers or other staff, on the other hand, are not considered education records if they are:

- a) Kept in the sole possession of the maker;
- b) Not accessible or revealed to any other person except a temporary substitute; and
- c) Used only as a memory aid.

Additionally FERPA does not prohibit a school official from disclosing information about a student if the information is obtained through the school official's personal knowledge or observation and not from the student's education records.

Records created and maintained by a law enforcement unit for law enforcement purposes are also excluded.

Access to Student Records

The Board directs that administrative regulations and procedures be formulated to comply with the provisions of federal law relating to the availability of student records. The purpose of such regulations and procedures shall be to make available to the parents/guardians of students and

Students

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)

noncustodial parent(s) whose rights are not limited by court order or formal agreement, or students who are eighteen (18) years of age or older or who are attending an institution of post-secondary education, student records, and files on students, and to ensure the confidentiality of such records with respect to third parties.

Under FERPA, unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable information contained in student records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

- a) Identifies and authenticates a particular person as the source of the electronic consent; and
- b) Indicates such person's approval of the information contained in the electronic consent.

Health and Safety Emergency Exception

School districts must balance the need to protect students' personally identifiable information with the need to address issues of school safety and emergency preparedness. Under FERPA, if an educational agency or institution determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records, without consent, to any person whose knowledge of the information is necessary to protect the health and safety of the student or other individuals during the period of the health or safety emergency. School districts may release information from records to appropriate parties including, but not limited to, parents, law enforcement officials and medical personnel. A school district's determination that there is an articulable and significant threat to the health or safety of a student or other individuals shall be based upon a totality of the circumstances, including the information available, at the time the determination is made. The school district must record the articulable and significant threat that formed the basis for the disclosure and maintain this record for as long as the student's education records are maintained.

Challenge to Student Records

Parents/guardians of a student under the age of eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, shall have an opportunity for a hearing to challenge the content of the school records, to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

(Continued)

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)**Disclosures to Parents of Eligible Students**

Even after a student has become an "eligible student" under FERPA (which is defined as a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education) an educational agency or institution may disclose education records to an eligible student's parents, without the student's consent:

- a) If the student is claimed as a dependent for Federal income tax purposes by either parent;
- b) In connection with a health or safety emergency;
- c) If the student is under twenty-one (21) years of age and has violated an institutional rule or policy governing the use of alcohol or a controlled substance; or
- d) If the disclosure falls within any other exception to the consent requirements under FERPA or its Regulations, such as the disclosure of directory information or in compliance with a court order or lawfully issued subpoena.

Release of Information to the Noncustodial Parent

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information.

Release of Information to Another Educational Institution

The District may disclose any and all educational records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of IDEA, to another school or postsecondary institution at which the student seeks or intends to enroll, or after the student has enrolled or transferred, so long as the disclosure is for purposes related to the student's enrollment or transfer. Parental consent is not required for transferring education records if the school's annual FERPA notification indicates that such disclosures may be made. In the absence of information about disclosures in the annual FERPA notification, school officials must make a reasonable attempt to notify the parent about the disclosure, unless the parent initiated the disclosure. Additionally, upon request, schools must provide a copy of the information disclosed and an opportunity for a hearing.

Family Educational Rights and Privacy Act of 1974, 20 United States Code (USC) Section 1232g
34 Code of Federal Regulations (CFR) Part 99

NOTE: Refer also to Policy #7643 -- Transfer Students with Disabilities

Adopted: 7/12/11

Students

SUBJECT: RELEASE OF INFORMATION TO THE NONCUSTODIAL PARENT

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information.

Family Educational Rights and Privacy Act of 1974, 20 United States Code (USC) 1232(g)(b)(4)(A)
34 Code of Federal Regulations (CFR) Part 99

Adopted: 7/12/11

Students

SUBJECT: STUDENT DIRECTORY INFORMATION

The District shall publish an annual public notice informing parents or eligible students (i.e., a student eighteen (18) years of age or older or who is attending an institution of post-secondary education) of the District's definition of directory information, the parent/eligible student's right to refuse the release of student directory information and indication of the time period for their response. (Directory information is information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed.) Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

The Family Educational Rights and Privacy Act (FERPA) defines student directory information as any of the items as indicated in the following list. The Depew Central School District will release the following defined directory information as checked below:

<u>X</u>	name
<u>X</u>	address
<u>X</u>	telephone listing
<u>X</u>	date and place of birth
<u>X</u>	major field of study
<u>X</u>	grade level
<u>X</u>	participation in sports and activities
<u>X</u>	weight and height (for members of athletic teams)
<u>X</u>	dates of attendance
<u>X</u>	honors, degrees and awards
<u>X</u>	e-mail address
<u>X</u>	photograph
<u>X</u>	name of educational institution previously attended

Directory information **does not** include:

- a) A student's social security number; or
- b) A student's identification (ID) number, except as provided below.

Directory information includes a student ID number, user ID, or other unique personal identifier used by the student for purposes of accessing or communicating in electronic systems, but only if the identifier cannot be used to gain access to education records except when used in conjunction with one (1) or more factors that authenticate the user's identity, such as a personal identification number (PIN), password, or other factor known or possessed only by the authorized user.

(Continued)

Students

SUBJECT: STUDENT DIRECTORY INFORMATION (Cont'd.)

The release of student directory information is not to be confused with the release of names, addresses and telephone listings of eligible students (i.e., a student seventeen (17) years of age or older or in the eleventh grade (or its equivalent) or higher) to Military Recruiters. In compliance with the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB), and the National Defense Authorization Act, the School District shall notify parents that by law it routinely releases this information to Military Recruiters upon request subject to a parents'/eligible students' request not to disclose such information with written parental verification of such request.

Family Educational Rights and Privacy Act of 1974, 20 United States Code (USC) Section 1232(g)
34 Code of Federal Regulations (CFR) Part 99

NOTE: Refer also to Policy #7243 -- Military Recruiters' Access to Secondary School Students and Information on Students

Adopted: 7/12/11

Students

SUBJECT: MILITARY RECRUITERS' ACCESS TO SECONDARY SCHOOL STUDENTS AND INFORMATION ON STUDENTS

In compliance with the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB); and the National Defense Authorization Act, and in accordance with the Family Educational Rights and Privacy Act (FERPA), the School District shall comply with a request by a Military Recruiter for names, addresses, and telephone listings of eligible students. Eligible student under ESEA and the National Defense Authorization Act is defined as a secondary student who is seventeen (17) years of age or older or in the eleventh grade (or its equivalent) or higher. Under ESEA and the National Defense Authorization Act, parents must be notified that the School District by law routinely discloses students' names, addresses, and telephone listings to Military Recruiters upon request, subject to a parent's/eligible student's request not to disclose such information with written parental verification of such request.

Under FERPA, the School District must provide notice to parents/eligible students of the types of student information that it releases publicly. This type of information, commonly referred to as "directory information," which is released by the District includes - but is not limited to - such items as students' names, addresses, and telephone listings. The notice must include an explanation of a parent's/eligible student's right to request that "directory information" not be disclosed without prior written consent of the parent/eligible student. Eligible student under FERPA is defined as a student eighteen (18) years of age or older or who is attending an institution of post-secondary education.

A single notice provided through a mailing, student handbook, or other method that is reasonably calculated to inform parents/eligible students of the above information is sufficient to satisfy the notification requirements of both FERPA, ESEA and the National Defense Authorization Act. The notification shall advise the parent/eligible student of how to opt out of the public, nonconsensual disclosure of directory information and the disclosure of name, address and telephone listing to Military Recruiters; and shall state the method and timeline within which to do so.

Further, in compliance with the ESEA and the National Defense Authorization Act, the District shall give Military Recruiters the same access to secondary school students as they provide to postsecondary institutions or to prospective employers.

If a parent/eligible student opts out of providing directory information (or any subset of such information) to third parties, the opt-out relating to the student's name, address, or telephone listing applies to requests from Military Recruiters as well. For example, if the opt-out states that telephone numbers will not be disclosed to the public, the District may not disclose telephone numbers to Military Recruiters.

The Superintendent/designee shall ensure that appropriate notification is provided regarding the opt-out rights prohibiting release of directory information and/or release of name, address and telephone listing to Military Recruiters.

**SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND
ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO
MINORS**

The Protection of Pupil Rights Amendment (PPRA) governs the administration to students of a survey, analysis, or evaluation that concerns one (1) or more of the following **eight (8) protected areas**:

- a) Political affiliations or beliefs of the student or the student's parent/guardian;
- b) Mental or psychological problems of the student or the student's family;
- c) Sex behavior or attitudes;
- d) Illegal, anti-social, self-incriminating, or demeaning behavior;
- e) Critical appraisals of other individuals with whom respondents have close family relationships;
- f) Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
- g) Religious practices, affiliations, or beliefs of the student or student's parent/guardian; or
- h) Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

PPRA also concerns marketing surveys and other areas of student privacy, parental access to information, and the administration of certain physical examinations to minors.

General Provisions

The requirements of PPRA do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA). Further, PPRA does not supersede any of the requirements of the Family Educational Rights and Privacy Act (FERPA).

The rights provided to parents/guardians under PPRA transfer from the parent/guardian to the student when the student turns eighteen (18) years old or is an emancipated minor under applicable State law.

The School District may use funds provided under Part A of Title V of the Elementary and Secondary Education Act of 1965 to enhance parental/guardian involvement in areas affecting the in-school privacy of students.

(Continued)

**SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND
ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO
MINORS (Cont'd.)**

Annual Parental Notification of Policies/Prior Written Consent/"Opt Out" Provisions

The School District shall provide for reasonable notice of the adoption or continued use of this policy directly to parents/guardians and eligible students enrolled in the District. At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

Further, in the notification, the District shall offer an opportunity for parents/guardians to provide written consent or opt their child out of participation in the following activities in accordance with law and the surveys conducted.

- a) The administration of **any survey** containing one (1) or more of the **eight (8) protected areas**.
 - 1. **U.S. Department of Education-Funded Surveys: Prior written consent from parents must be obtained** before students are required to submit to the survey.
 - 2. **Surveys funded by sources other than U.S. Department of Education:** Notification may indicate the specific or approximate dates during the school year when surveys will be administered and provide an opportunity for the parent to opt his/her child out of participating upon receipt of the notification.
- b) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).
- c) Any non-emergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students. The term "*invasive physical examination*" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but *does not include a hearing, vision or scoliosis screening*.

Specific Notification

In the event that the District does not identify the specific or approximate dates of the activities or surveys to be administered in the general annual notification, it shall "directly" notify, such as through U.S. Mail or e-mail, the parents of students who are scheduled to participate in the specific activities or surveys prior to participation and provide an opportunity for the parent to provide written consent or opt his/her child out of participation in accordance with law and the surveys conducted.

(Continued)

**SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND
ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO
MINORS (Cont'd.)**

U.S. Department of Education-Funded Surveys

In compliance with the Protection of Pupil Rights Amendment (PPRA), the School District is committed to protecting the rights and privacy interests of parents/guardians and students with regard to surveys funded in whole or part by any program administered by the U.S. Department of Education (DOE).

The District shall make instructional materials available for inspection by parents/guardians if those materials will be used in connection with a DOE-funded survey, analysis, or evaluation in which their children participate. In addition, the School District **shall obtain prior written parental/guardian consent** before minor students are required to participate in any DOE-funded survey, analysis, or evaluation that reveals information concerning any of the **eight (8) protected areas**.

Surveys Funded by Sources Other than U.S. Department of Education

The School District has developed and adopted this Board policy, in consultation with parents/guardians, regarding the following:

- a) The right of the parent/person in parental relation to inspect, upon request, a survey created by a third party (i.e., by a party other than the DOE) before the survey is administered or distributed by the school to a student. Requests by parents/guardians to inspect such surveys are to be submitted, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey. Further, the District shall grant a request by the parent/guardian for reasonable access to such survey within a reasonable period of time after the request is received by the District.
- b) Arrangements shall be provided by the District to protect student privacy in the event of the administration or distribution of a survey to a student containing one (1) or more of the **eight (8) protected areas**, including the right of the parent/guardian of the student to inspect, upon request, any survey containing one (1) or more of the **eight (8) protected areas**. Such requests must be submitted by the parent/guardian, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey.
- c) Parents/guardians shall be granted, upon request, reasonable access and the right to inspect instructional materials used as part of the educational curriculum for the student within a reasonable period of time (defined by the School District, for the purposes of this policy, as thirty [30] days) after such request is received by the District. Requests shall be submitted by parents/guardians, in writing, to the Building Principal. The term "*instructional material*" means instructional content that is provided to a student, regardless of its format,

(Continued)

Students

**SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND
ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO
MINORS (Cont'd.)**

including printed or representational materials, audiovisual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). *The term does not include academic tests or academic assessments.*

- d) The administration of physical examinations or screenings that the School District may administer to a student.

Further, this law does not apply to any physical examination or screening that is permitted or required by State law, including physical examinations or screenings that are permitted without parental notification.

In the implementation of this provision regarding the administration of physical examinations or screenings that the school may administer to the student, the School District incorporates by reference Board policies that address student health services, as applicable, including but not limited to policies regarding the administration of medication, immunization of students, and student physicals.

- e) Unless mandated/authorized in accordance with Federal or State law and/or regulation, it is policy of the Board of Education, to **not permit** the collection, disclosure, or use of personal information (the term "*personal information*" is defined as individually identifiable information including a student's or parent/guardian's first and last name; home address; telephone number; or Social Security number) collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose), *unless otherwise exempted pursuant to law as noted below*. Questions regarding the collection, disclosure, or use of personal information collected from students for such marketing purposes may be referred to the school attorney as deemed necessary by the Superintendent/designee.

This law is not intended to preempt applicable provisions of State law that require parental/guardian notification.

These requirements **do not apply** to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- a) College or other postsecondary education recruitment, or **military recruitment*;

**Military Recruiter access to student information is governed by the Family Educational Rights and Privacy Act of 1974 (FERPA) and the National Defense Authorization Act for Fiscal Year 2002.*

(Continued)

**SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND
ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO
MINORS (Cont'd.)**

- b) Book clubs, magazines, and programs providing access to low-cost literary products;
- c) Curriculum and instructional materials used by elementary schools and secondary schools;
- d) Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
- e) The sale by students of products or services to raise funds for school-related or education-related activities;
- f) Student recognition programs.

Adopted: 7/12/11

SUBJECT: DESIGNATION OF PERSON IN PARENTAL RELATION

In accordance with General Obligations Law Title 15-A, a parent of a minor or incapacitated person may designate another person as a person in parental relation to such minor or incapacitated person for certain health care and educational decisions for a period not exceeding six (6) months. However, such parental designation is conditioned upon there being no prior order of any court in any jurisdiction currently in effect that would prohibit the parent from himself/herself exercising the same or similar authority; and provided further that, in the case where a court has ordered that both parents must agree on education or health decisions regarding the child, a designation pursuant to this law shall not be valid unless both parents have given their consent.

The designation of a person in parental relation must be in writing in the form prescribed by General Obligations Law Title 15-A, and shall include specified information as enumerated in law for designations of thirty (30) days or less, as well as additional information required for designations of more than thirty (30) days. The designation of a person in parental relation may be presented to any school that requires such designation by either the parent or designee. The designation may specify a period of time less than six (6) months for which such designation shall be valid unless earlier revoked by the parent in accordance with law. *However, a designation specifying a period of more than thirty (30) days shall be notarized.*

If no time period is specified in the designation, it shall be valid until the earlier of revocation; or

- a) The expiration of thirty (30) days from the date of signature if the designation does not meet the requirements for designations of more than thirty (30) days, or
- b) Six (6) months from the date of commencement specified in the designation if the designation meets the requirements for designations of more than thirty (30) days.

Scope of Designation

A designation made pursuant to this law may specify:

- a) The treatment, diagnosis or activities for which consent is authorized;
- b) Any treatment, diagnosis or activity for which consent is not authorized; or
- c) Any other limitation on the duties and responsibilities conveyed by the designation.

Revocation of Designation

A parent may revoke a designation by notifying, either orally or in writing, the designee or a school to which the designation has been presented, or by any other act evidencing a specific intent to revoke the designation. A designation shall also be revoked upon the execution by the parent of a subsequent designation. Revocation by one (1) parent authorized to execute such a designation shall be deemed effective and complete revocation of a designation pursuant to law.

(Continued)

SUBJECT: DESIGNATION OF PERSON IN PARENTAL RELATION (Cont'd.)

A designee who receives notification from a parent of any such revocation shall immediately notify any school to which a designation has been presented. A parent may directly notify any such school of the revocation, in which case the failure of the designee to notify the school of such revocation shall not make revocation ineffective.

Effect of Designation

- a) A designee shall possess all the powers and duties of a person in parental relation pursuant to Public Health Law Sections 2164 and 2504 and Education Law Sections 2 and 3212, unless otherwise specified in the designation.
- b) A designation shall not impose upon a designee a duty to support pursuant to Family Court Act Section 413.
- c) A designation shall not cause a change in the school district of residence of the child for purposes of the Education Law, and during the period of validity of the designation, the child shall be presumed to be a resident of the school district in which the parent resided at the time the designation was made.
- d) A designation shall terminate and be revoked upon the death or incapacity of the parent who signed the designation.
- e) The decision of a designee shall be superseded by a contravening decision of a parent.

A person who acts based upon the consent of a designee reasonably and in the good faith belief that the parent has in fact authorized the designee to provide such consent may not be deemed to have acted negligently, unreasonably or improperly in accepting the designation and acting upon such consent. However, any such person may be deemed to have acted negligently, unreasonably or improperly if he/she has knowledge of facts indicating that the designation was never given, or did not extend to an act or acts in question, or was revoked.

No provision of Title 15-A of the General Obligations Law shall be construed to require designation of a person in parental relation as provided within the statute where such designation is not otherwise required by law, rule or regulation.

General Obligations Law Title 15-A
Education Law Sections 2 and 3212
Public Health Law Sections 2164 and 2504
Family Court Act Section 413
Mental Hygiene Law Section 80.03

Adopted: 7/12/11

Students

SUBJECT: LOSS OR DESTRUCTION OF DISTRICT PROPERTY OR RESOURCES

The District is authorized to seek restitution, through civil action when necessary, from the parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has willfully, maliciously, or unlawfully damaged, defaced or destroyed real or personal property in the care, custody and/or ownership of the District; or
- b) Has knowingly entered or remained in a District building, and wrongfully taken, obtained or withheld personal property owned or maintained by the District.

In instances where the District has sought and obtained a judgment from a court of competent jurisdiction, parent/guardian liability for civil damages shall not exceed five thousand dollars (\$5,000). Under certain circumstances, prior to the entering of a judgment in the sum total of five hundred dollars (\$500) or more, a court may consider the parent's or guardian's financial inability to pay any portion or all of the amount of damages which are in excess of five hundred dollars (\$500), and enter a judgment in an amount within the financial capacity of the parent or guardian. However, no such judgment shall be entered for an amount which is less than five hundred dollars (\$500).

False Reporting of an Incident and/or Placing a False Bomb

A school district is also authorized to seek restitution, as described in law, from a parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has falsely reported an incident; or
- b) Has placed a false bomb as defined in the New York State Penal Law.

Damages for falsely reporting an incident or placing a false bomb shall mean the funds reasonably expended by the School District in responding to such false report of an incident or false bomb, less the amount of any funds which have been or will be recovered from any other source as enumerated in law.

In seeking restitution, the School District shall file with the court, the County District Attorney and defense counsel an affidavit stating that the funds reasonably expended for which restitution is being sought have not been and will not be recovered from any other source or in any other civil or criminal proceeding, except as provided for pursuant to General Obligations Law Section 3-112.

General Obligations Law Section 3-112
Penal Law Sections 60.27, 240.50, 240.55, 240.60 and 240.61

Adopted: 7/12/11

Students

SUBJECT: STUDENT DRESS CODE

The responsibility for the dress and appearance of students shall rest with individual students and parents. They have the right to determine how the student shall dress, provided that such attire does not interfere with the operation of the school or infringe upon the general health, safety and welfare of District students or employees. Student dress and appearance must be in accordance with the *District Code of Conduct*. The administration is authorized to take action in instances where individual dress does not meet these stated requirements.

While the school administration may require students participating in physical education classes to wear certain types of clothing such as sneakers, socks, shorts, and tee shirts, they may not prescribe a specific brand which students must wear.

This policy does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that a student shall not be prevented from attending school or a school function, or otherwise be discriminated against, so long as his/her dress and appearance meet the above requirements. A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

Education Law Section 2801(1) -- definition of school function

NOTE: Refer also to *District Code of Conduct on School Property*

Adopted: 7/12/11

Students

SUBJECT: SUSPENSION OF STUDENTS

The Superintendent and/or the Principal may suspend the following students from required attendance upon instruction:

- a) A student who is insubordinate or disorderly; or
- b) A student who is violent or disruptive; or
- c) A student whose conduct otherwise endangers the safety, morals, health or welfare of others.

SuspensionFive (5) School Days or Less

The Superintendent and/or the Principal of the school where the student attends shall have the power to suspend a student for a period not to exceed five (5) school days. In the absence of the Principal, the designated "Acting Principal" may then suspend a student for a period of five (5) school days or less.

When the Superintendent or the Principal (the "suspending authority") proposes to suspend a student for five (5) school days or less, the suspending authority shall provide the student with **notice** of the charged misconduct. If the student denies the misconduct, the suspending authority shall provide an **explanation** of the basis for the suspension.

When suspension of a student for a period of five (5) school days or less is proposed, administration shall also immediately notify the parent/person in parental relation in writing that the student *may be* suspended from school.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the decision to propose suspension at the last known address or addresses of the parents/persons in parental relation. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

The notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the student and the parent/person in parental relation of their right to request an immediate informal conference with the Principal in accordance with the provisions of Education Law Section 3214(3)(b). Both the notice and the informal conference shall be in the dominant language or mode of communication used by the parents/persons in parental relation. At the informal conference, the student and/or parent/person in parental relation shall be authorized to present the student's version of the event and to ask questions of the complaining witnesses.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

The notice and opportunity for informal conference shall take place **prior to** suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practical.

Teachers shall immediately report or refer a violent student to the Principal or Superintendent for a violation of the *District's Code of Conduct* and a minimum suspension period.

More Than Five (5) School Days

In situations where the Superintendent determines that a suspension in excess of five (5) school days may be warranted, the student and parent/person in parental relation, upon reasonable notice, shall have had an opportunity for a fair hearing. At the hearing, the student shall have the right of representation by counsel, with the right to question witnesses against him/her, and the right to present witnesses and other evidence on his/her behalf.

Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in Penal Law Section 265.01, the hearing officer or Superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

Minimum Periods of Suspension

Pursuant to law, Commissioner's Regulations and the *District's Code of Conduct*, minimum periods of suspension shall be provided for the following prohibited conduct, subject to the requirements of federal and state law and regulations:

- a) Consistent with the federal Gun-Free Schools Act, any student who is determined to have brought a firearm to school or possessed a firearm on school premises shall be suspended for a period of not less than one (1) calendar year. However, the Superintendent has the authority to modify this suspension requirement on a case-by-case basis.
- b) A minimum suspension period for students who repeatedly are substantially disruptive of the educational process or substantially interfere with the teacher's authority over the classroom, provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law. The definition of "repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority" shall be determined in accordance with the Regulations of the Commissioner.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

- c) A minimum suspension period for acts that would qualify the student to be defined as a violent student pursuant to Education Law Section 3214(2-a)(a), provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law.

Suspension of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the schools, disciplinary action shall be in accordance with procedures set forth in the *District's Code of Conduct* and in conjunction with applicable law and the determination of the Committee on Special Education (CSE).

For suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern because the suspensions or removals cumulate to more than ten (10) school days in a school year, a manifestation determination must be made.

Manifestation Determinations

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten (10) school days after a decision is made:

- a) By the Superintendent to change the placement to an interim alternative educational setting (IAES);
- b) By an Impartial Hearing Officer (IHO) to place the student in an IAES; or
- c) By the Board, District Superintendent, Superintendent or Building Principal to impose a suspension that constitutes a disciplinary change of placement.

The manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the District. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend. This notice must include the purpose of the meeting, the names of those expected to attend and notice of the parent's right to have relevant members of the CSE participate at the parent's request.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

The manifestation team shall review all relevant information in the student's file including the student's individualized education program (IEP), any teacher observations, and any relevant information provided by the parents to determine if: the conduct in question was caused by or had a direct and substantial relationship to the student's disability; or the conduct in question was the direct result of the District's failure to implement the IEP.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of his/her disability the CSE shall conduct a functional behavioral assessment and implement or modify a behavioral intervention plan.

Functional behavioral assessment (FBA) means the process of determining why the student engages in behaviors that impede learning and how the student's behavior relates to the environment. FBA must be developed consistent with the requirements of Commissioner's Regulations Section 200.22(a) and shall include, but not be limited to, the identification of the problem behavior, the definition of the behavior in concrete terms, the identification of the contextual factors that contribute to the behavior (including cognitive and affective factors) and the formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

Behavioral intervention plan (BIP) means a plan that is based on the results of a functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.

Unless the change in placement was due to behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, the student must be returned to the placement from which the student was removed unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner and for the same duration for which they would be applied to students without disabilities, subject to the right of the parent/person in parental relation to request a hearing objecting to the manifestation determination and the District's obligation to provide a free, appropriate public education to such student.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)**Provision of Services Regardless of the Manifestation Determination**

Regardless of the manifestation determination, for subsequent suspensions or removals for ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change of placement, and for suspensions or other disciplinary removals in excess of ten (10) school days in a school year which do constitute a disciplinary change in placement for behavior, the CSE shall determine the services to be provided to students with a disability necessary for them to continue to participate in the general education curriculum and progress toward meeting the goals set out in their IEP, and shall conduct or provide, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications that are designed to address the behavior violation so it does not recur.

Interim Alternative Educational Setting (IAES)

Students with disabilities who have been suspended or removed from their current placement for more than ten (10) school days may, as determined by the CSE, be placed in an IAES which is a temporary educational setting other than the student's current placement at the time the behavior precipitating the IAES placement occurred.

Additionally, the District may seek an order from a hearing officer for a change in placement of a student with a disability to an appropriate IAES for up to forty-five (45) school days if the District establishes, in accordance with law, that such student is substantially likely to injure himself/herself or others.

There are three (3) specific instances when a student with a disability may be placed in an IAES for up to forty-five (45) school days without regard to a manifestation determination:

- a) Where the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the District; or
- b) Where a student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the District; or
- c) Where a student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the District. Serious bodily harm has been defined in law to refer to one (1) of the following:
 - 1. Substantial risk of death;
 - 2. Extreme physical pain; or

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

3. Protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

In all cases, the student placed in an IAES shall:

- a) Continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress towards the goals set out in the student's IEP, and
- b) Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

The period of suspension or removal may not exceed the amount of time a non-disabled student would be suspended for the same behavior.

Suspension From BOCES

The BOCES Principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with his/her class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

BOCES Activities

BOCES activities, such as field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or his/her designee.

Exhaustion of Administrative Remedies

If a parent/person in parental relation wishes to appeal the decision of the Building Principal and/or Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education.

Procedure After Suspension

When a student has been suspended and is of compulsory attendance age, immediate steps shall be taken to provide alternative instruction which is of an equivalent nature to that provided in the student's regularly scheduled classes.

When a student has been suspended, the suspension may be revoked by the Board of Education whenever it appears to be for the best interest of the school and the student to do so. The Board of Education may also condition a student's early return to school and suspension revocation on the student's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

SUBJECT: STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE PURPOSES

The parent of a student who has violated any rule or code of conduct of the School District and who was not identified as a student with a disability at the time of such behavior may assert several protections provided for under the Individuals with Disabilities Education Act (IDEA) and State regulations *if the School District is deemed to have had knowledge (as determined in accordance with law and/or regulations and referenced below) that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred.*

Basis of Knowledge

The School District shall be deemed to have knowledge that the student had a disability if prior to the time the behavior occurred:

- a) The parent of the student has expressed concern in writing to supervisory or administrative personnel, or to a teacher of the student, that the student is in need of special education and related services. However, expressions of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement;
- b) The parent of the student has requested an evaluation of the student in writing; or
- c) A teacher of the student, or other District personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the Director of Special Education or to other supervisory personnel in accordance with the District's established child find or special education referral system.

Exception

A student is not a student presumed to have a disability for discipline purposes if, as a result of receiving the information specified above (i.e., subheading "Basis of Knowledge"):

- a) The parent of the student has not allowed an evaluation of the student pursuant to law and/or regulations;
- b) The parent of the student has refused services under law and/or regulations; or
- c) The student has been evaluated and it was determined that the student is not a student with a disability.

(Continued)

**SUBJECT: STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE
PURPOSES (Cont'd.)**

Responsibility for Determining Whether a Student is a Student Presumed to Have a Disability

If it is claimed by the parent of the student or by School District personnel that the District had a basis for knowledge, in accordance with law and/or regulation, that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the Superintendent of Schools, Building Principal or other school official imposing the suspension or removal to determine whether the student is a student presumed to have a disability.

Conditions That Apply if There is No Basis of Knowledge

If it is determined that there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made during the time period in which such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted in accordance with law and/or regulations. Pending the results of the evaluation, the student shall remain in the educational placement determined by school authorities.

If the student is determined to be a student with a disability, taking into consideration information from the evaluation and information provided by the parents, the District shall provide special education and related services in accordance with law and/or regulations.

NOTE: Refer also to Policy #7313 -- Suspension of Students

Adopted: 7/12/11

Students

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(ACCEPTABLE USE POLICY)**

The Board of Education will provide access to various computerized information resources through the District's computer system ("DCS" hereafter) consisting of software, hardware, computer networks and electronic communications systems. This may include access to electronic mail, so-called "on-line services" and the "Internet." It may include the opportunity for some students to have independent access to the DCS from their home or other remote locations. All use of the DCS, including independent use off school premises, shall be subject to this policy and accompanying regulations. Further, all such use must be in support of education and/or research and consistent with the goals and purposes of the School District.

One purpose of this policy is to provide notice to students and parents/guardians that, unlike most traditional instructional or library media materials, the DCS will allow student access to external computer networks not controlled by the School District where it is impossible for the District to screen or review all of the available materials. Some of the available materials may be deemed unsuitable by parents/guardians for student use or access. This policy is intended to establish general guidelines for acceptable student use. However, despite the existence of such District policy and accompanying guidelines and regulations, it will not be possible to completely prevent access to computerized information that is inappropriate for students. Furthermore, students may have the ability to access such information from their home or other locations off school premises. Parents/guardians of students must be willing to set and convey standards for appropriate and acceptable use to their children when using the DCS or any other electronic media or communications.

Standards of Acceptable Use

Generally, the same standards of acceptable student conduct which apply to any school activity shall apply to use of the DCS. This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate student conduct and use as well as proscribed behavior.

District students shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.

Students who engage in unacceptable use may lose access to the DCS in accordance with applicable due process procedures, and may be subject to further discipline under the District's school conduct and discipline policy and the District Code of Conduct. The District reserves the right to pursue legal action against a student who willfully, maliciously or unlawfully damages or destroys property of the District. Further, the District may bring suit in civil court against the parents/guardians of any student who willfully, maliciously or unlawfully damages or destroys District property pursuant to General Obligations Law Section 3-112.

(Continued)

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(ACCEPTABLE USE POLICY) (Cont'd.)**

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be School District property subject to control and inspection. The Coordinator of Technology may access all such files and communications without prior notice to ensure system integrity and that users are complying with the requirements of this policy and accompanying regulations. Students should **NOT** expect that information stored on the DCS will be private.

Notification/Authorization

The District's Acceptable Use Policy and Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and students' obligations when accessing the DCS.

Student access to the DCS will automatically be provided unless the parent has submitted written notification to the District that such access not be permitted. Procedures will be established to define the process by which parents may submit a written request to deny or rescind student use of the DCS in accordance with law, Commissioner's Regulations and/or District policies and procedures.

Regulations will be established as necessary to implement the terms of this policy.

NOTE: Refer also to Policy #8271 -- The Children's Internet Protection Act: Internet Content Filtering/Safety Policy
Regulation #7315R -- The Technology Acceptable Use Regulation for Students of the Depew School District

SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)

The Board of Education recognizes that the misuse of drugs, alcohol and/or tobacco is a serious problem with legal, physical, emotional and social implications for the entire community. Therefore, the consumption, sharing and/or selling, use and/or possession of alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs is prohibited at any school-sponsored function, on school grounds and on school buses at all times. The inappropriate use of prescription and over-the-counter drugs shall also be disallowed.

Persons shall be banned from entering school grounds or school-sponsored events when exhibiting behavioral, personal or physical characteristics indicative of having used or consumed alcohol or other substances. A school-sponsored function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

In accordance with Penal Law Section 220.00 for purposes of controlled substances offenses:

- a) "School grounds" means (a) in or on or within any building, structure, athletic playing field, playground or land contained within the real property boundary line of the District's schools, or (b) any area accessible to the public located within one thousand (1,000) feet of the real property boundary line comprising any such school or any parked automobile or other parked vehicle located within one thousand (1,000) feet of the real property boundary line comprising any District school. An "area accessible to the public" shall mean sidewalks, streets, parking lots, parks, playgrounds, stores and restaurants.
- b) "School bus" means every motor vehicle owned by the District and operated for the transportation of pupils, teachers and other persons acting in a supervisory capacity, to or from school or school activities or privately owned and operated for compensation for the transportation of pupils, children of pupils, teachers and other persons acting in a supervisory capacity to or from school or school activities.

Through the collaborative efforts of staff, students, parents/guardians and the community as a whole, a comprehensive program shall be developed addressing alcohol, tobacco, drugs, and other substances to include the following elements:

Primary Prevention

Preventing or delaying alcohol, tobacco, drugs, and other substance use/abuse by students shall be the major focus of a comprehensive K through 12 program in which proactive measures of prevention and early intervention are emphasized. This program shall include:

(Continued)

SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)
(Cont'd.)

- a) A sequential K through 12 curriculum based on recognized principles of effectiveness that is developed and incorporated into the total educational process. This curriculum shall be concerned with education and prevention in all areas of alcohol, tobacco, drugs, and other substances use/abuse;
- b) Training school personnel and parents/guardians to reinforce the components of the policy through in-service and community education programs with up-to-date factual information and materials;
- c) An effort to provide positive alternatives to alcohol, tobacco, drugs, and other substances use/abuse through the promotion of drug/tobacco/alcohol-free special events, service projects and extracurricular activities that will develop and support a positive peer influence.

Intervention

School-based intervention services shall be made available to all students, grades K through 12, and provided by prevention professionals who are appropriately trained in this area. The purpose of intervention is to eliminate any existing use/abuse of alcohol, tobacco, drugs, and other substances and to identify students considered to be at risk for use/abuse. Intervention programming shall include:

- a) Counseling of students in groups and as individuals on alcohol, tobacco, drugs, and other substance use/abuse. Counselors shall be appropriately trained and skilled school staff assigned for this purpose;
- b) Referring students to community or other outside agencies when their use/abuse of alcohol, tobacco, drugs, and other substances requires additional counseling or treatment. Referral is a key link in school and community efforts and the process is basic to the dissemination of information regarding available counseling and health services;
- c) Providing a supportive school environment designed to continue the recovery process for students returning from treatment. A re-entry program may include continuing student and/or family counseling and emphasizing positive alternatives to alcohol, tobacco, drugs, and other substance use/abuse;
- d) Developing a parent network to serve as a support group and provide a vehicle of communication for parent education;
- e) Ensuring confidentiality as required by state and federal law.

(Continued)

SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)
(Cont'd.)

Disciplinary Measures

Disciplinary measures for students consuming, sharing and/or selling, using and/or possessing alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs shall be outlined in the *District's Code of Conduct on School Property*.

Staff Development

There shall be ongoing training of District staff about the components of an effective alcohol, tobacco and other substances program. Training shall include, but not be limited to, District policies and regulations and the staff's role in implementing such policies and regulations. Teachers shall be trained to implement the District's K through 12 alcohol, tobacco, drugs and other substance prevention curricula; intervention staff shall be suitably trained to carry out appropriate services.

Implementation, Dissemination and Monitoring

It shall be the responsibility of the Superintendent to implement the alcohol, tobacco, drugs, and other substances Board policy by collaboration with school personnel, students, parents/guardians and the community at large.

Additionally, copies of Board policy shall be disseminated to District staff, parents/guardians and community members. The Superintendent/designee shall periodically review the tobacco, drugs and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

#8211 -- Prevention Instruction
District Code of Conduct on School Property

Adopted: 7/12/11

Students

SUBJECT: SEARCHES AND INTERROGATIONS

Students are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband seized on school grounds or in a school building by a School District employee only when the School District employee has reasonable suspicion to believe the student is engaging in proscribed activity which is in violation of school rules and/or illegal.

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

- a) The age of the student;
- b) The student's record and past history;
- c) The predominance and seriousness of the problem in the school where the search is directed; and
- d) The urgency to conduct the search without delay.

If reasonable suspicion exists to believe that a student possesses a weapon, it is permissible for a School District employee to search that student.

Lockers

Lockers are provided by the school for student use and the administration has the right to search lockers. A student may have exclusive use of a locker as far as other students are concerned but he/she does not have such exclusivity over the locker as it relates to the school authorities.

Questioning of Students by School Officials

School officials have the right to question students regarding any violations of school rules and/or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. The student's parent/guardian may be contacted; the degree, if any, of parental/guardian involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

(Continued)

SUBJECT: SEARCHES AND INTERROGATIONS (Cont'd.)

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials (at least until after the questioning of students by school authorities has been conducted) are not required to give the so-called "Miranda warnings" (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

If deemed appropriate and/or necessary, the Superintendent/designee may also review the circumstances with School District legal counsel so as to address concerns and the course of action, if any, which may pertain to and/or result from the questioning of students by school officials.

Law Enforcement Officials

It shall be the policy of the Depew Union Free School District that a cooperative effort shall be maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions. The School District's administrators shall at all times act in a manner that protects and guarantees the rights of students and parents.

Interrogation of Students by Law Enforcement Officials

If police are involved in the questioning of students on school premises, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may only interview students on school premises without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal). Police authorities may also question students for general investigations, general questions regarding crimes committed on school property. In all other situations, unless an immediate health or safety risk exists, if the police wish to speak to a student without a warrant they should take the matter up directly with the student's parent/guardian.

(Continued)

SUBJECT: SEARCHES AND INTERROGATIONS (Cont'd.)

Whenever police wish to question a student on school premises, administration will attempt to notify the student's parent/guardian.

If possible, questioning of a student by police should take place in private and in the presence of the Building Principal/designee.

Child Protective Services' Investigations

From time to time, Child Protective Services may desire to conduct interviews of students on school property. Such interviews generally pertain to allegations of suspected child abuse and/or neglect. The Board encourages cooperation with Child Protective Services in accordance with applicable Social Services Law.

Education Law Sections 1604(9) and (30), 1709(2), 1709(33) and 2801
Family Court Act Section 1024
8 New York Code of Rules and Regulations (NYCRR) Section 100.2(l)

Students

SUBJECT: BUS RULES AND REGULATIONS

The Depew Union Free School District furnishes transportation to those students whose disability or distance from the school make the service essential. Except as otherwise mandated in a student's Individualized Education Program (IEP), riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in this District.

Bus drivers shall be held responsible for reasonable and acceptable behavior of students while riding the school bus. Students riding school buses are expected to conform to the rules of conduct in order to permit the bus driver to transport his/her passengers safely.

The Board of Education, the Superintendent and/or his/her designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses. Generally, parent(s)/guardian(s) will be required to make alternative transportation arrangements for their children who have been suspended from riding the bus. However, the effect of a suspension from transportation on the student's ability to attend school will be considered. If a suspension from transportation effectively results in a suspension from attendance because of the distance between the home and the school and the absence of alternative public or private means of transportation, the District shall make appropriate arrangements to provide for the student's education.

If a student with a disability who receives transportation as a related service as part of his/her Individualized Education Program is being considered for suspension from transportation, and that suspension would effectively result in a change in placement, the student shall be referred to the Committee on Special Education.

The Board directs the administration to establish rules and regulations for student conduct on buses, including applicable due process rights to be afforded students suspended from transportation privileges. These rules and regulations shall be promulgated to all concerned, including the nonpublic schools to which students are transported.

Individuals With Disabilities Education Act (IDEA), 20 United States Code (USC) Sections 1400-1485
8 New York Code of Rules and Regulations (NYCRR) Section 156

NOTE: Refer also to Policy #7341 -- Use of Videocameras on School Buses

Adopted: 7/12/11

Students

SUBJECT: USE OF VIDEOCAMERAS ON SCHOOL BUSES

Some school buses will be equipped with videocameras in order to monitor student behavior. Violations of the District Code of Conduct, as well as participation in any illegal activities, will be dealt with in accordance with applicable laws, the Code of Conduct and school regulations. Videotapes of a student's actions may be used to support disciplinary action.

Requests for viewing a film must be made in writing to the Superintendent (or designee) and, if the request is granted, such viewing must occur in the presence of the District's designated custodian of the film. All viewing of the film will be in accordance with applicable provisions of law, including the Family Educational Rights and Privacy Act of 1974 (FERPA) and the confidentiality of student records.

Persons granted approval to view a tape must be a Board of Education member, Superintendent, Administrator/Supervisor, driver, and parent/guardian of the student involved, or other persons approved by the Board of Education. Under no circumstances will the District's film be duplicated and/or removed from District premises unless in accordance with court order and/or subpoena.

Parents/guardians will be notified at the beginning of each school year that a videocamera may be in use on the bus.

Guidelines for Cameras to be Used as Monitors on Buses

- a) Selected buses will be equipped with a black box for a videocamera.
- b) The Transportation Supervisor or an administrator will be responsible for placing the camera in the buses.
- c) The camera rotating schedule shall be confidential. Knowledge of which bus will have the camera in use shall be known only by the school administration.
- d) A sign reading "Videocamera May Be In Operation" shall be placed on each bus notifying all students that the video monitoring camera may be in use on the bus.
- e) Buses used for extracurricular or non-routine bus runs may be equipped with a camera.

Adopted: 7/12/11

SUBJECT: CORPORAL PUNISHMENT/EMERGENCY INTERVENTIONS**Corporal Punishment**

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee or agent of this School District.

Whenever a school employee uses physical force against a student, the school employee shall, within the same school day, make a report to the Superintendent describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Depew Union Free School District authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

Emergency Interventions

However, if alternative procedures and methods which would not involve physical force do not work, then the use of reasonable physical force is not prohibited for the following reasons:

- a) Self-protection;
- b) Protection of others;
- c) Protection of property; or
- d) Restraining/removing a disruptive student.

Such emergency interventions shall only be used in situations where alternative procedures and methods not involving the use of reasonable physical force cannot reasonably be employed. Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

Staff who may be called upon to implement emergency interventions will be provided appropriate training in safe and effective restraint procedures. The parent(s) of the student shall be notified whenever an emergency intervention is utilized.

The District will maintain documentation on the use of emergency interventions for each student including:

- a) Name and date of birth of student;

(Continued)

SUBJECT: CORPORAL PUNISHMENT/EMERGENCY INTERVENTIONS (Cont'd.)

- b) Setting and location of the incident;
- c) Name of staff or other persons involved;
- d) Description of the incident and emergency intervention used, including duration;
- e) A statement as to whether the student has a current behavioral intervention plan; and
- f) Details of any injuries sustained by the student or others, including staff, as a result of the incident.

This documentation will be reviewed by District supervisory personnel and, if necessary, by the school nurse or other medical personnel.

8 New York Code of Rules and Regulations (NYCRR) Sections 19.5, 100.2(l)(3), 200.15(f)(1) and 200.22(d)

NOTE: Refer also to Policy #7313 -- Suspension of Students

Adopted: 7/12/11

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT**Weapons in School**

The possession of a weapon on school property, in District vehicles, in school buildings, or at school sponsored activities or settings under the control and supervision of the District regardless of location, is strictly prohibited, except by law enforcement personnel. Any person possessing a weapon for educational purposes in any school building must have written authorization of the Superintendent of Schools or his/her designee.

Any and all determinations of what constitutes a "weapon" for the purposes of this policy shall be made in accordance with relevant provisions of the Penal Law of the State of New York.

Penal Law Sections 265.01-265.06

Specific Penalties Imposed by the Gun-Free Schools Act

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free Schools Act and Education Law Section 3214(3)(d), any student who brings or possesses a dangerous weapon or firearm, as defined in federal law, on school property, will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Family Court Act Article 3 when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law. For purposes of this policy, the term "dangerous weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half inches (2-1/2") in length.

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Education Law Section 3214, shall be suspended for a period of not less than one (1) calendar year and any student attending a non-District school who participates in a program operated by the School

(Continued)

Students

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont'd.)

District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program. The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-District school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Regulations of the Commissioner of Education Section 100.2 and in Commissioner's Decisions. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

Pursuant to Commissioner Regulations, a student with a disability who is determined to have brought a weapon (including a firearm) to school or possessed a weapon (including a firearm) at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent or guardian requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent or guardian and District can agree on a different placement. For more information regarding Interim Alternative Educational Settings (IAES), refer to Policy #7313 -- Suspension of Students.

However, a student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the Individuals with Disabilities Act (IDEA), determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise his/her authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

(Continued)

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont'd.)

The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals with Disabilities Act and Education Law Article 89; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of five (5) days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

NOTE: Refer also to Policy #3411 -- Unlawful Possession of a Weapon Upon School Grounds

Adopted: 7/12/11

SUBJECT: EXTRACURRICULAR ACTIVITIES

The Board of Education considers extracurricular activities to be a valuable part of the program of the school and shall support these activities within the financial means of the District.

The Superintendent of Schools shall annually appoint members of the staff to serve as advisors and officers for student activities. At the time of budget approval, the Board of Education shall consider an additional subsidy to be paid to staff members who are assigned this duty and responsibility.

Limited Open Forum

The Board of Education maintains a limited open forum where secondary students may meet for voluntary student-initiated activities unrelated directly to the instructional program, regardless of religious, political or philosophical content.

To provide "a fair opportunity" to students who wish to conduct a meeting, the Board of Education, in accordance with the provisions of the Equal Access Act, shall ensure that:

- a) The meeting is voluntary and student-initiated;
- b) There is no sponsorship of the meeting by the school, the government, or its agents or employees;
- c) Employees or agents of the school or government are present at religious meetings only in a nonparticipatory capacity;
- d) The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
- e) Nonschool persons may not direct, conduct, control, or regularly attend activities of student groups (20 USC Section 4071[c]).

The Board prohibits student organizations whose activities may be unlawful or may cause disruption or interference with the orderly conduct of the educational process.

Administration is responsible for establishing regulations governing the use of school facilities by student organizations.

Eligibility for Attendance

- a) Students who are suspended from school on a day of an athletic game or practice session, party, school dance, or other school affair scheduled after regular school hours are not eligible for participation or attendance at such events.

(Continued)

SUBJECT: EXTRACURRICULAR ACTIVITIES (Cont'd.)

- b) In order for students to attend a school-sponsored function, it is necessary that students attend classes for at least one-half of the school day on the day of the activity, unless otherwise excused by the building administrator. One-half of the school day is defined as follows: from 7:30 a.m. until 11 a.m. or from 11 a.m. until the end of the school day.

School property shall mean in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of a public elementary or secondary school; or in or on a school bus as defined in Vehicle and Traffic Law Section 142. A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

Students

SUBJECT: CENSORSHIP OF SCHOOL SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES

The District may exercise editorial control over the style and content of student speech in school sponsored publications and activities that are part of the educational curriculum.

Adopted: 7/12/11

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM

Athletics are an integral part of a well balanced educational program. Therefore, the Board supports within its resources a broad sports program with equal access for both males and females, with emphasis on maximum participation, through interscholastic and intramural activity. The District will comply with recommendations from the U.S. Department of Education's Office for Civil Rights (OCR) regarding Title IX equal opportunity for males and females in the District's total athletic program regarding any of the following factors which may be applicable:

- a) The nature and extent of the sports program to be offered (including the levels of competition, such as varsity, club, etc.);
- b) The provision of equipment and supplies;
- c) The scheduling of games and practice time;
- d) The provision of travel and per diem allowances;
- e) The nature and extent of the opportunity to receive coaching and academic tutoring;
- f) The assignment and compensation of coaches and tutors;
- g) The provision of locker rooms, practice and competitive facilities;
- h) The provision of medical and training facilities and services;
- i) The provision of housing and dining facilities and services; and
- j) The nature and extent of support, publicity and promotion including cheerleading, bands, published programs distributed at games, and booster club activities.

The interscholastic athletic program shall conform to the Regulations of the Commissioner of Education as well as the established rules of the New York State Public High Schools Athletic Association and the State Education Department.

Eligibility for interscholastic athletic competition requires that the students:

- a) Provide written parental/guardian consent.
- b) Pass satisfactorily the medical examination administered by the school physician/nurse practitioner or the student's personal physician. When an athlete is seen by a personal physician, the athlete must present documentation to the school nurse.

(Continued)

Students

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)

- c) Meet the requirements for interscholastic competition as set forth by the Commissioner's Regulations and the New York State Public High School Athletic Association.
- d) A student is not eligible and does not obtain clearance to participate in interscholastic athletics until a student's Medical Review Card has been completed and provided to the coach of the respective sport the student is participating in for a given sport season. Medical Review Card must be completed prior to the start of every sport season.

Booster Clubs

The School District has a responsibility under Title IX to ensure that boys' and girls' programs are provided with equivalent benefits, treatment, services and opportunities regardless of their source. When determining equivalency, benefits, services and opportunities attained through the use of private funds (e.g., "booster clubs"), such funds are considered in combination with all benefits, services and opportunities.

Private fundraising, including student-initiated fundraising, is permissible under Title IX. Further, compliance with Title IX does not mean that teams must "share" proceeds from fundraising activities. It does, however, place a responsibility on the District to ensure that benefits, services, treatment and opportunities overall, regardless of funding sources, are equivalent for male and female athletes.

In accordance with OCR, in order for the District to be in continuing compliance with Title IX requirements, the District must assure that services, benefits and opportunities in its athletic programs are provided on an equivalent basis to both boys and girls, including those services, benefits and opportunities that are provided through the use of outside financial assistance such as donations, fundraising by coaches, and booster clubs.

Selection/Classification Process

The Board approves the use of the selection/classification process for all secondary school interscholastic team members. The Board directs the Superintendent to implement the procedures and maintain a file of those students deemed eligible as a result of those procedures.

Secondary Intramural and Pre-Season Activities

A physical is not required to participate in intramural or pre-season activities.

- a) Prior to participation in secondary intramural and/or secondary pre-season activities parental permission and notification shall be submitted to the supervisor/coach of said activity,

(Continued)

Students

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)

- b) A roster, due by a deadline set by the Athletic Director must be presented, in advance of students participating in secondary intramural activities and/or secondary pre-season activities shall be submitted to the appropriate building nurse, to review and notify intramural supervisor/coach of pre-existing health conditions regarding specific students. Intramural and/or pre-season activity rosters shall also be submitted to the Building Principal.

Student Athletic Injuries

No student should be allowed to practice or play in an athletic contest if he/she is suffering from an injury. The diagnosis of and prescription of treatment for injuries is strictly a medical matter and should under no circumstances be considered within the province of the coach. A coach's responsibility is to see that injured players are given prompt and competent medical attention, and that all details of a doctor's instructions concerning the student's functioning as a team member are carried out. No student will be allowed to practice or compete if there is a question whether he/she is in adequate physical condition.

- a) Athletic trainers are educated and trained health care professionals who collaborate with the school Chief School Medical Officer (CSMO), Athletic Director, and school nurse to optimize athletes' activity and participation in athletics. The practice of athletic training encompasses the prevention, examination, treatment and rehabilitation, of emergent, acute, sub-acute and chronic musculoskeletal conditions.
- b) If a student or student athlete is withheld from participation in physical education and/or athletics for reasons related to but not limited to injury, fatigue, and/or soreness, from interscholastic athletics and/or other activities, for a duration longer than five (5) consecutive school days, a physician's release must be presented to the school nurse for said student to be eligible to participate in physical education and interscholastic athletics.
- c) A physician's certificate will be required for a student before returning to athletic participation if an injury has been sustained during athletic participation where medical follow up was deemed necessary.
- d) In any instance where there is a dispute between an outside physician and School Medical Officer, the School Medical Officer renders the final decision.

Athletic Program - Safety

The District will take reasonable steps to see that physical risks to students participating in the interscholastic athletic program shall be kept at a minimum by:

- a) Requiring medical examinations of participants;

(Continued)

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)

- b) Obtaining appropriately certified and/or licensed officials to coach all varsity, junior varsity, and modified games;
- c) Building nurses are to be provided with the contact information for all coaches of athletic and/or intramural sports teams. School building nurses are to be responsible for notifying coaches and the Athletic Department of student athletic injuries, accidents, medically restricted participation in physical education, and/or student illness; and
- d) Ensuring that equipment is both safe and operative within approved guidelines.

Concussion Policy

The following policy has been developed in coordination with New York State Public High Schools Athletic Associations recommendations for concussion management. The policy follows the guidelines and procedures outlined in consensus statement from 3rd International Conference on Concussion in Sport held in Zurich 2008, as well as specific procedures for ImPACT Concussion testing.

A concussion is defined as a complex pathophysiological process affecting the brain, induced by traumatic biomechanical forces. Several common features that incorporate clinical, pathologic and biomechanical injury constructs that may be utilized in defining the nature of a concussive head injury:

- a) Concussion may be caused by either a direct blow to the head, face, neck or elsewhere on the body with an "impulsive" force transmitted to the head.
- b) Concussion typically results in a rapid onset of short-lived impairment of neurological function that resolves spontaneously.
- c) Concussion may result in neuropathological changes, but the acute clinical symptoms largely reflect a functional disturbance rather than a structural injury.
- d) Concussion results in a graded set of clinical symptoms that may or may not involve loss of consciousness. Resolution of the clinical and cognitive symptoms typically follows a sequential course; however, it is important to note that, in a small percentage of cases, post-concussive symptoms may be prolonged.
- e) No abnormality on standard structural neuroimaging studies is seen in concussion.

Any athlete that shows any signs or symptoms of concussion will be removed from play and assessed by a healthcare professional. According to the consensus statement of 2008 Zurich Conference, the suspected diagnosis of a concussion can include one (1) or more of the following clinical domains:

(Continued)

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)

- a) Symptoms: somatic (e.g., headache), cognitive (e.g., feeling like in a fog), and/or emotional symptoms (e.g., lability)
- b) Physical Signs (e.g., loss of consciousness, amnesia)
- c) Behavioral changes (e.g., irritability)
- d) Cognitive impairment (e.g., slowed reaction times)
- e) Sleep disturbance (e.g., drowsiness)

If any one (1) or more of these components is present, a concussion should be suspected and the appropriate management strategy instituted.

Once first aid issues are addressed, an assessment of the concussive injury should be made using the SCAT 2. The post injury results will be compared to the baseline SCAT 2, if available. Athletes with a suspected concussion will not be able to return to play that same day. These athletes should not be left alone and will be monitored after fifteen (15) and thirty (30) minutes and every thirty (30) minutes thereafter until the end of the event or until EMS is determined to be necessary. EMS should be activated for those athletes who suffer loss of consciousness, have a suspected neck injury in addition to head injury or for those athletes whose symptoms worsen over a fifteen (15) or thirty (30) minute time frame.

For those athletes not needing EMS, the parent/guardian must be contacted and a head injury sheet will be given to the athlete. An athlete with a suspected concussion should not drive home. The athletes that do not seek treatment in the emergency room must be seen by a physician and present documentation to the school nurse.

Concussions will be managed symptomatically and through medical assessment. During the time that an athlete is symptomatic and recovering from injury, it is important to emphasize both physical and cognitive rest, as outlined in Appendix B. Activities that require concentration and attention (e.g., scholastic work, video games, text messaging, etc.) may exacerbate symptoms and possibly delay recovery. If necessary, accommodations should be made for student-athletes whose symptoms worsen while in school or become so severe that an athlete is unable to complete studies.

Return to Play Protocol

Once an athlete is asymptomatic for twenty-four (24) hours and has medical clearance from a physician, the athlete will be seen by the athletic trainer with communication with the Chief School Medical Officer and the return to play protocol will be initiated. As recommended by the New York State Public High School Athletic Association (NYSPHSAA), this progression should be completed over five to ten (5-10) days and the athlete must have completed all five (5) phases of the protocol in

(Continued)

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)

order to return to the normal game play. The athlete must remain asymptomatic to progress to the next level. In the event that symptoms return, the athlete must stop activity. They may return to the previous phase of the protocol when asymptomatic for twenty-four (24) hours. ***The athlete should be asymptomatic without the use of pharmacological agents/medications that may affect or modify their symptoms.***

The following return to play protocol will be followed:

- a) **Phase 1 Light aerobic exercise**
walking, swimming, or stationary bike without resistance
- b) **Phase 2 Sport specific exercise**
skating drills in ice hockey, running drills – no head impact activities
- c) **Phase 3 Non-contact training drills**
progress to more complex training drills, may start progressive resistance training
- d) **Phase 4 Full contact practice**
Following medical clearance by the Chief School Medical Officer, participate in normal training activities.
- e) **Phase 5 Return to play**
normal game play

The ImPACT Program

The ImPact program is a baseline web-based assessment tool that will be implemented to assist in the Return to Play Protocol. This assessment tool can be used in conjunction or in place of the SCAT 2 assessment tool. Student-athletes will be baseline tested prior to the start of their sport season and then retested every two (2) years. The concussion will be managed symptomatically and clinically with consideration of the ImPACT test. The return to play protocol will be initiated and followed as described above. An athlete will be tested on ImPACT once they are asymptomatic for twenty-four (24) hours and have completed phase three of the return to play protocol. The ImPACT results will be given to the Chief School Medical Officer as part of their final medical clearance.

Title IX of the Education Amendments of 1972, 20 United States Code (USC) Section 1681 et seq.
45 Code of Federal Regulations Part 86
8 New York Code of Rules and Regulations (NYCRR) Section 135

Adopted: 7/12/11

Students

SUBJECT: CONTESTS FOR STUDENTS, STUDENT AWARDS AND SCHOLARSHIPS**Contests for Students**

Contests and/or awards involving students should be consistent with the Board purposes of the school and should supplement and not interfere with the regular school program. On a national level, the school will participate only in those national contests which are currently placed on the approved list published by the Committee on National Contests and Activities of the National Association of Secondary School Principals. On a state and local basis, student participation will be related to those contests and activities which are judged to be educationally sound and stimulating to both students and the school. Preparation for participation in the contest should not interfere with the regular school program.

Distribution of educational material, essay contests, and poster contests must be approved in advance by the Superintendent if the sponsoring organization wishes to involve students in the project on school time. Samples of informational material should accompany the request.

Student participation in such contests requires approval by the Superintendent of Schools.

Student Awards and Scholarships

The School District may obtain and award to its students awards and scholarships. The Board of Education, having been entrusted by law, will hold in trust gifts, grants, bequests and legacies given or bequeathed to the Depew Union Free School District and shall apply the same and/or their interest and proceeds according to the instruction of the donors and according to the procedures established by the administration.

Education Law Sections 1604(30), 1709(12-a) and 2503(1)

Adopted: 7/12/11

Students

SUBJECT: MUSICAL INSTRUMENTS

- a) All instrumental music students shall be expected to own or rent their instrument - particularly the common and less expensive instruments (flute, clarinet, trumpet, saxophone, etc.).
- b) Students will not be required to own or rent the less common and more expensive instruments. Instruments in this category are as follows: oboe, bassoon, tuba, French horn, trombone, baritone horn, tenor and baritone saxophones, bass trombone and percussion instruments. School-owned instruments in this classification will be disbursed upon decisions by the instrumental music staff. Decisions will be dependent upon the individual student's talent and merit and the need for a balanced instrumentation at each grade level.
- c) Students and parents/guardians will assume responsibility for proper care of school-owned instruments and will pay for damages to same.
- d) The District will only transport in its vehicles those instruments meeting certain safety standards as indicated in the New York State Department of Transportation Regulations.

17 New York Code of Rules and Regulations (NYCRR) Section 720.22

Adopted: 7/12/11

Students

SUBJECT: FUND RAISING BY STUDENTS

The Board of Education of the Depew Union Free School District recognizes that fund raising activities benefit our students. By providing a supplemental source of funds, fund raising enables our students to enjoy an expanded level of programs and opportunities. These programs and opportunities, along with the fund raising itself, provide our students with experiences that enhance their social and educational development, including the practical application of life skills.

The Board of Education also recognizes that along with the benefits of fund raising come responsibilities, including accountability. No individual, group, or organization is authorized to use the Depew school name or Wildcat name to raise funds on behalf of or for the benefit of the District, including its co-curricular activities, interscholastic athletics, or any grade level or class, unless such fund raising is sponsored by the District, operated by a District employee approved to operate said fund raiser, and approved by the appropriate District administrator.

All District-sponsored fund raising activities are to adhere to our District's procedures, including procedures established for the proper accounting of such funds.

All fund raising must be in accordance with applicable laws.

Employees are cautioned against giving the impression to students that the purpose of selling items (e.g., "scratch off" cards, holiday wrappings, etc.) or paying a fee is to defray a portion of the District's educational program. At no time should a student's participation in an educational activity include such sales or fees. In addition, it is imperative that employees not deposit the proceeds of any legitimate sales activity in their own personal accounts. These activities may jeopardize a student's right to participate in the educational program on a tuition and/or fee-free basis. Further, employees engaged in such activities may be held personally liable.

Students

SUBJECT: CONSTITUTIONALLY PROTECTED PRAYER IN THE PUBLIC SCHOOLS

In accordance with the most recent Guidance Document issued by the U.S. Department of Education implementing the requirements of the No Child Left Behind Act of 2001, the Board of Education affirms the responsibilities of the School District, consistent with applicable statutory/case law pertaining to the First Amendment of the United States Constitution, to allow students and staff to engage in constitutionally protected prayer within the District schools.

Accordingly, no Board of Education policy shall prevent, or otherwise deny participation in, constitutionally protected prayer in District schools, consistent with the Guidance Document and applicable law as enumerated above.

The Board rescinds any other policy that may be inconsistent with the mandates of this policy, which shall supersede any and all Board policies to the contrary.

United States Constitution, First Amendment
Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001,
Section 9524

Students

SUBJECT: CHAPERONES

The Board of Education recognizes that the use of chaperones for school sponsored events or activities can provide important support for the District. Chaperones, therefore, shall be volunteer adults whose responsibility it is to assist the advisor of the event in seeing to the safety and conduct of the students during the duration of the activity.

Chaperones shall be selected on the basis of their ability to assist with the supervision of students, and their ability to contribute to the group's activities.

Students

SUBJECT: SCHOOL HEALTH SERVICES

All districts must provide and maintain a continuous program of health services which includes, but is not limited to:

- a) Providing medical examinations, dental inspection and/or screening, scoliosis screening, vision screening and audiometer tests, designed to determine the health status of the student;
- b) Informing parents or other persons in parental relation to the student, pupils and teachers of the individual student's health condition subject to federal and state confidentiality laws. The District will provide this notice in writing if the District becomes aware that the student has defective sight or hearing or a physical disability, including sickle cell anemia, or other condition which may require professional attention with regard to health;
- c) Where the exigencies warrant (where the parents/persons in parental relation are unable or unwilling to provide the necessary relief and treatment), providing relief in situations where the student would otherwise be deprived of the full benefit of education through inability to follow the instruction offered;
- d) Guiding parents, students and teachers in procedures for preventing and correcting defects and diseases and for the general improvement of the health of students;
- e) Instructing school personnel in procedures to take in case of accident or illness;
- f) Maintaining a program of education to inform school personnel, parents, non-school health agencies, welfare agencies and the general public regarding school health conditions, services and factors relating to the health of students;
- g) Providing inspections and supervision of the health and safety aspects of the school plant;
- h) Providing health examinations before participation in strenuous physical activity and periodically throughout the season as necessary;
- i) Providing health examinations necessary for the issuance of employment certificates, vacation work permits, newspaper carrier certificates and street trades badges; and
- j) Surveying and making necessary recommendations concerning the health and safety aspects of school facilities and the provision of health information.

SUBJECT: IMMUNIZATION OF STUDENTS

Every child entering or attending a District school must present proof of immunization in accordance with Public Health Law Section 2164 unless:

- a) A New York State licensed physician certifies that such immunization may be detrimental to the child's health; or
- b) The student's parent, parents, or persons in parental relation hold genuine and sincere religious beliefs which are contrary to the requirement. In such cases, the Building Principal will make a case-by-case determination whether a parent/guardian is entitled to invoke this religious exemption from required immunizations after receiving a written and signed statement from the parent(s) or persons in parental relation to such child.

Except for the above two (2) exemptions, the District may not permit a student lacking evidence of immunization to remain in school for more than fourteen (14) days, or more than thirty (30) days for an out-of-state or out-of-country transferee who can show a good faith effort to get the necessary certification or other evidence of immunization.

For homeless children, the enrolling school must immediately refer the parent or guardian of the student to the District's homeless liaison, who must assist them in obtaining the necessary immunizations, or immunization or medical records.

The administration will notify the local health authority of the name and address of excluded students and provide the parent/person in parental relation a statement of his/her duty regarding immunization as well as a consent form prescribed by the Commissioner of Health. The school shall cooperate with the local health authorities to provide a time and place for the immunization of these students.

Parents, guardians or other persons in parental relation may appeal to the Commissioner of Education if their child is denied school entrance or attendance for failing to meet health immunization standards.

The District will provide an annual summary of compliance with immunization requirements to the Commissioner of Health.

For current information regarding immunization requirements, refer to Web site:
<http://schoolhealthservices.org>.

For advice on a specialized immunization questions, contact the regional New York State Department of Health (NYSDOH) office directly. A complete listing of regional offices can be found on the following Web site:

Education Law Sections 310 and 914

Public Health Law Section 2164

8 New York Code of Rules and Regulations (NYCRR) Part 136

10 New York Code of Rules and Regulations (NYCRR) Subpart 66-1

NOTE: Refer also to Policy #7131 -- Education of Homeless Children and Youth

Adopted: 7/12/11

SUBJECT: STUDENT PHYSICALS**Health Examination**

Each student enrolled in District schools must have a satisfactory health examination conducted by the student's physician, physician assistant or nurse practitioner within twelve (12) months prior to the commencement of the school year of:

- a) The student's entrance in a District school at any grade level;
- b) Entrance to pre-kindergarten or kindergarten;
- c) Entry into the 2nd, 4th, 7th and 10th grades.

The District may also require an examination and health history of a student when it is determined by the District that it would promote the educational interests of the student.

In addition, the District requires a certificate of physical fitness for:

- a) All athletes prior to their first sport of the school year, then only those who were injured or ill during their first sport before participating in a second sport during the school year; and
- b) All students who need work permits.

Health Certificate

Each student must submit a health certificate attesting to the health examination within thirty (30) days after his/her entrance into school and within thirty (30) days after his/her entry into the 2nd, 4th, 7th and 10th grades. The health certificate shall be filed in the student's cumulative record. The health certificate must:

- a) Describe the condition of the student when the examination was given;
- b) State the results of any test conducted on the student for sickle cell anemia;
- c) State whether the student is in a fit condition of health to permit his/her attendance at public school and, where applicable, whether the student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student;

(Continued)

Students

SUBJECT: STUDENT PHYSICALS (Cont'd.)

- d) Include a calculation of the student's body mass index (BMI) and weight status category. BMI is computed as the weight in kilograms divided by the square of height in meters or the weight in pounds divided by the square of height in inches multiplied by a conversion factor of 703. Weight status categories for children and adolescents shall be defined by the Commissioner of Health. BMI collection is mandatory, effective September 2008. Reporting is random, with districts chosen by the New York State Department of Health. Selected districts must report BMI results on-line using DOH's Health Provider Network (HPN), a secure Web site;
- e) Be signed by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized by law to practice in New York State consistent with any applicable written practice agreement; or authorized to practice in the jurisdiction in which the examination was given, provided that the Commissioner of Health has determined that such jurisdiction has standards of licensure and practice comparable to those of New York. A certificate signed by a chiropractor is not acceptable except for a scoliosis evaluation.

Dental Certificate

The dental certificate law became effective on September 1, 2008. This law applies to new entrants in PreK, K, Grades 2, 4, 7 and 10. In accordance with this law, a notice of request for a dental health certificate shall be distributed at the same time that the parent/person in parental relation is notified of health examination requirements, such certificate to be furnished at the same time the health certificate is required. At this time, students will be permitted to attend school regardless of whether or not they have a dental certificate.

The dental certificate shall be signed by a duly licensed dentist authorized by law to practice in New York State or one who is authorized to practice in the jurisdiction in which the examination was performed, provided that the Commissioner has determined that the jurisdiction has standards of licensure and practice comparable to New York State. The certificate shall describe the dental health condition of the student upon examination, which shall not be more than twelve (12) months prior to the commencement of the school year in which the examination is requested, and shall state whether the student is in fit condition of dental health to permit his/her attendance at the public schools.

Requests are not to be retroactive (i.e., any physical requested prior to September 1, 2008 does not need to have an additional notice sent requesting the dental certificate). Requests are not required when the student or parent/person in parental relation objects on the grounds of conflict with their genuine and sincere religious beliefs. Within thirty (30) days following the student's entrance in the school or grade, the certificate, if obtained, shall be filed in the student's cumulative health record.

(Continued)

Students

SUBJECT: STUDENT PHYSICALS (Cont'd.)**Examination by Health Appraisal**

The Principal or the Principal's designee will send a notice to the parents of, or person in parental relation to, any student who does not present a health certificate, that if the required health certificate is not furnished within thirty (30) days from the date of such notice, an examination by health appraisal will be made of such student by the Director of School Health Services.

The Director of School Health Services shall cause such students to be separately and carefully examined and tested to ascertain whether any such student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student.

The physician, physician assistant or nurse practitioner administering such examination shall determine whether a one-time test for sickle cell anemia is necessary or desirable and, if so determined, shall conduct such test and include the results in the health certificate.

Unless otherwise prohibited by law, if it is ascertained that any students have defective sight or hearing, or a physical disability or other condition, including sickle cell anemia which may require professional attention with regard to health, the Principal or Principal's designee shall notify, in writing, the student's parents or persons in parental relation as to the existence of such disability. If the parents or persons in parental relation are unable or unwilling to provide the necessary relief and treatment for such students, such fact shall be reported by the Principal or Principal's designee to the Director of School Health Services, who then has the duty to provide relief for such students.

Health Screenings

The District will provide:

- a) Scoliosis screening at least once each school year for all students in grades 5 through 9. The positive results of any such screening examinations for the presence of scoliosis shall be provided in writing to the student's parent or person in parental relation within ninety (90) days after such finding;
- b) Vision screening to all students who enroll in school including at a minimum color perception, distance acuity, near vision and hyperopia within six (6) months of admission to the school. In addition, all students shall be screened for distance acuity in grades Kindergarten, 1, 2, 3, 5, 7 and 10 and at any other time deemed necessary. The results of all such vision screening examinations shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student. The vision report will be kept in a permanent file of the school for at least as long as the minimum retention period for such records;

(Continued)

Students

SUBJECT: STUDENT PHYSICALS (Cont'd.)

- c) Hearing screening to all students within six (6) months of admission to the school and in grades Kindergarten, 1, 3, 5, 7 and 10, as well as at any other time deemed necessary. Screening shall include, but not be limited to, pure tone and threshold air conduction screening. The results of any such hearing tests shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student.

The results of all health screenings (dental, hearing, vision and scoliosis) shall be recorded on appropriate forms signed by the health professional making the examination, include appropriate recommendations, and be kept on file in the school. The health records of individual students will be kept confidential in accordance with the federal Family Educational Rights and Privacy Act (FERPA) and any other applicable federal and State laws.

Accommodation for Religious Beliefs

No health examinations, health history, examinations for health appraisal, screening examinations for sickle cell anemia and/or other health screenings shall be required where a student or the parent or person in parental relation to such student objects thereto on the grounds that such examinations, health history and/or screenings conflict with their genuine and sincere religious beliefs. A written and signed statement from the student or the student's parent or person in parental relation that such person holds such beliefs shall be submitted to the Principal or Principal's designee, in which case the Principal or Principal's designee may require supporting documents.

Homeless Students

For homeless children, the enrolling school must immediately refer the parent or guardian of the student to the District's homeless liaison, who must assist them in obtaining the necessary medical records.

Adopted: 7/12/11

Students

SUBJECT: ADMINISTRATION OF MEDICATION

Under certain circumstances, when it is necessary for a student to take medication (prescription and non-prescription) during school hours, the school's registered professional nurse may administer the medication if the parent or person in parental relation submits a written request accompanied by a written request from a physician indicating the frequency and dosage of prescribed medication. The parent or person in parental relation must assume responsibility to have the medication delivered directly to the Health Office in a properly labeled original container.

All medication orders (prescription and non-prescription) must be reviewed annually or when there is a change in dosage.

Procedures for receipt, storage and disposal of medications as well as procedures for taking medications off school grounds or after school hours while participating in a school-sponsored activity will be in accordance with State Education Department Guidelines.

Emergency Medication

The administration of emergency medication (injectable, including "epi-pens," and/or oral) to a student for extreme hypersensitivity may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner/physician/physician's assistant must have trained the staff member to administer the emergency medication for that particular emergency situation (e.g., "epi-pen") and given him/her approval to assist the student in the event of an emergency anaphylactic reaction. Such a response would fall under the Good Samaritan exemption for rendering emergency care during a life threatening situation.

Use of Inhalers in Schools

In accordance with law, the School District must permit students who have been diagnosed by a physician or other duly authorized health care provider as having a severe asthmatic condition to carry and use a prescribed inhaler during the school day. Prior to permitting such use, the School Health Office must receive the written permission of the prescribing physician or other duly authorized health care provider, and parental consent, based on such physician's or provider's determination that the student is subject to sudden asthmatic attacks severe enough to debilitate that student. In addition, upon the written request of a parent or person in parental relation, the Board shall allow such pupils to maintain an extra inhaler in the care and custody of the school's registered professional nurse employed by the District. However, the law does not require the District to retain a school nurse solely for the purpose of taking custody of a spare inhaler, or require that a school nurse be available at all times in a school building for such purpose.

(Continued)

SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)

A record of such physician or health care provider/parental permission shall be maintained in the School Health Office.

Health Office personnel will maintain regular parental contact in order to monitor the effectiveness of such self-medication procedures and to clarify parental responsibility as to the daily monitoring of their child to ensure that the medication is being utilized in accordance with the physician's or provider's instructions. Additionally, the student will be required to report to the Health Office on a periodic basis as determined by Health Office personnel so as to maintain an ongoing evaluation of the student's management of such self-medication techniques, and to work cooperatively with the parents and the student regarding such self-care management.

Students who self-administer medication without proper authorization, under any circumstances, will be referred for counseling by school nursing personnel. Additionally, school administration and parents will be notified of such unauthorized use of medication by the student, and school administration may also be involved in determining the proper resolution of such student behavior.

Blood Glucose Monitoring

Children with diabetes have the right to care for their diabetes at school in accordance with the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 which provide protection against discrimination for children with disabilities, including diabetes.

Accordingly, blood glucose monitoring must be allowed in the school setting at any time, within any place, and by anyone necessitating such testing. Children must receive assistance if needed with the procedure.

The school nurse shall oversee any arrangements that need to be made for testing and a system to report the results to the nurse as needed. Proper arrangements should be made for the disposal of sharps.

Alcohol-Based Hand Sanitizers

Alcohol-based hand sanitizers are considered over-the-counter (OTC) drugs by the United States Food and Drug Administration. However, due to the fact that careful hand-washing and sanitation is the most effective way to control the recent spread of Methicillin-Resistant Staphylococcus Aureus (MRSA) in schools, the New York State Education Department (NYSED) has allowed a medical exemption to the requirements for OTC preparations in the school setting to permit the use of alcohol-based hand sanitizers.

The School Medical Director may approve and permit the use of alcohol-based hand sanitizers in the District's schools without a physician's order. Parents may provide written notification to the school in the event that they do not wish to have their child use this product.

(Continued)

SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)

It should be noted that hand sanitizers which contain alcohol are flammable and shall not be placed in hallways or near an open flame or source of sparks.

Disposal of Unused Medication

Any unused medication (including, but not limited to expired prescription and non-prescription drugs) must be returned to the parent/person in parental relation by the end of each school year. If the parent/person in parental relation does not retrieve the unused medication by the end of the school year, then the School Nurse or designated School Health Office personnel must document that the medication was abandoned and dispose of the unused medication.

Public Health Law Section 3000-a

Students

SUBJECT: STUDENT HEALTH RECORDS

The School shall keep a convenient, accurate, and up-to-date health record of every student. Insofar as the health records include confidential disclosures or findings, they shall be kept confidential.

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of students' "education records." For Pre-K through grade 12 students, health records maintained by the School District, including immunization records and school nurse records, generally are considered "education records" subject to FERPA. In addition, records that the District or School maintains on special education students, including records on services provided to students under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA because they are:

- a) Directly related to a student;
- b) Maintained by the School or a party acting for the School; and
- c) Not excluded from the definition of "education records."

Since student health and medical information in education records is protected by FERPA, the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule excludes such information from its coverage.

Generally, these records may not be shared with third parties without written parental consent unless the disclosure meets one (1) of the exceptions to FERPA's general consent requirement. One (1) exception permits the disclosure of education records, without parental consent, to appropriate parties in connection with an emergency, if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

Parents have a right under FERPA to inspect and review those health and medical records that are considered "education records" under FERPA. Individual records may be interpreted by the school's registered professional nurse to administrators, teachers and other school officials, consistent with law.

Family Educational Rights and Privacy Act of 1974 (FERPA), 20 United States Code (USC) Section 1232g
Health Insurance Portability and Accountability Act of 1996 (HIPAA), Public Law 104-191 34 Code of

Students

SUBJECT: LICENSED SCHOOL-BASED HEALTH, DENTAL OR MENTAL HEALTH CLINICS

In accordance with law, the Depew Union Free School District houses a "licensed school-based health, dental or mental health clinic" operated by an entity other than the District which provides health, dental or mental health services during school hours and/or non-school hours to school-age and preschool children residing in the District.

Health professionals who provide services in this licensed clinic shall be duly licensed and shall provide such services to the extent permitted by their respective practice acts.

Except where otherwise authorized by law, the cost of providing health, dental or mental health services shall not be a charge upon the District and shall be paid from federal, state or other local funds available for such purpose. Building space used for this clinic shall be excluded from the rated capacity of the school building for the purpose of computing building aid.

No cause of action shall be justified for damages against the District for acts of negligence or misconduct by the clinic or its officers or employees.

Education Law Section 414

Adopted: 7/12/11

Students

SUBJECT: ACCIDENTS AND MEDICAL EMERGENCIES

Procedures shall be established and maintained by the Superintendent for the handling of student injuries and medical emergencies that occur on school property and during school activities.

Student Emergency Treatment

All staff members of the School District are responsible to obtain first aid care for students who are injured or become ill while under school supervision.

In most instances first aid should be rendered, and then the parent should be contacted to come to school and transport the student to the family physician. Beyond first aid, the medical care of the student is the parent's responsibility. However, the student's welfare is always the primary concern, and it is the responsibility of school personnel to exercise good judgment and care under all circumstances.

The Board of Education encourages all staff members to become qualified to give emergency treatment through instruction in first aid, Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillators.

Transporting an Ill or Injured Student

In the event of an illness or injury to a student, an ambulance may be called if warranted. This solution will be used after other alternatives, including parent/person in parental relation contact, have been made.

Insurance

The Board of Education shall approve provisions for all students to be covered by group insurance.

Such student accident insurance policies are to be a co-insurance with family coverage(s) as primary.

Education Law Sections 1604(7-a), 1604(7-b), 1709(8-a) and 1709(8-b)

Adopted: 7/12/11

Students

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS

Students come to school with diverse medical conditions which may impact their learning as well as their health. Some of these conditions are serious and may be life-threatening.

Students, parents, school personnel and health care providers must all work together to provide the necessary information and training to allow children with chronic health problems to participate as fully and safely as possible in the school experience.

All students within the District with known life-threatening conditions should have a comprehensive plan of care in place: an Emergency Care Plan (ECP) and/or Individualized Healthcare Plan (IHP), and if appropriate an Individualized Education Plan (IEP) or Section 504 Plan.

School Health Team

The District has identified the following as important members of the School Health Team to ensure that health information is complete, appropriate accommodations are prepared, and any necessary medication and environmental protocols are in place for students with life-threatening health conditions:

- a) Parents/Guardians and Students;
- b) School District Administration;
- c) School Medical Director;
- d) School Nurse;
- e) Teachers;
- f) Guidance Counselor/Social Worker;
- g) Teaching Assistants and Teacher Aides;
- h) Food Service Personnel;
- i) Custodial Staff;
- j) Transportation Personnel;
- k) Athletic Director, Coaches and After School Volunteers.

(Continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS (Cont'd.)**Anaphylaxis**

Although anaphylaxis can affect almost any part of the body and cause various symptoms, the most dangerous symptoms include breathing difficulties and a drop in blood pressure or shock which are potentially fatal. Treatment for anaphylaxis includes immediate removal of the allergen, and treating the rapidly progressing effects of histamine release in the body with epinephrine and antihistamines.

Particularly for those students with chronic life-threatening conditions such as diabetes, seizure disorders, asthma and allergies (food, insect sting, latex, medications, etc.) which may result in severe, life-threatening reactions to various environmental triggers, it is necessary that the District work cooperatively with the parent(s) and the healthcare provider to:

- a) Immediately develop an Emergency Care Plan (ECP) for each at risk student to ensure that all appropriate personnel are aware of the student's potential for a life-threatening reaction;
- b) If appropriate, develop an Individualized Healthcare Plan that includes all necessary treatments, medications, training and educational requirements for the student. If the student is eligible for accommodations based upon the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act, the appropriate procedures will be followed regarding evaluation and identification;
- c) Provide training by licensed medical personnel (e.g., registered professional nurse) for all adults in a supervisory role in the recognition and emergency management of a specific medical condition for specific students;
- d) Obtain specific legal documents duly executed in accordance with New York State law; appropriate health care provider authorization in writing for specific students that includes the frequency and conditions for any testing and/or treatment, symptoms, and treatment of any conditions associated with the health problem; and directions for emergencies;
- e) Secure written parent permission and discuss parental responsibility that includes providing the health care provider's orders, providing any necessary equipment, and participation in the education and co-management of the child as he/she works toward self-management;
- f) Allow self-directed students, as assessed by the school nurse, to carry life saving medication with prior approval by the medical provider, and according to health practice and procedures, as long as duplicate life saving medication is also maintained in the health office in the event the self-carrying student misplaces their medication;
- g) Assure appropriate and reasonable building accommodations are in place within a reasonable degree of medical certainty.

(Continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS (Cont'd.)

In addition, the District will:

- a) Provide training for all staff in the recognition of an anaphylactic reaction;
- b) Have standing emergency medical protocols for nursing staff;
- c) Request the School Medical Director to write a non-patient specific order for anaphylaxis treatment agents for the school's registered professional nurse to administer in the event of an unanticipated anaphylactic episode;
- d) As permitted by New York State law, maintain stock supplies of life saving emergency medications such as epinephrine and antihistamine in all health offices for use in first time emergencies;
- e) Ensure that Building-level and District-wide school safety plans include appropriate accommodations for students with life-threatening health conditions;
- f) Encourage families to obtain medic-alert bracelets for at risk students;
- g) Educate students regarding the importance of immediately reporting symptoms of an allergic reaction.

Creating an Allergen-Safe School Environment

Avoidance of exposure to allergens is the key to preventing a life-threatening anaphylactic reaction. Educating the entire school community about life-threatening allergies is crucial in keeping students with such allergies safe. The risk of accidental exposure or cross-contamination is always present, particularly for students with food allergies. The school setting is a high-risk environment for accidental ingestion of a food allergen due to the presence of a large number of students, increased exposure to food allergens, and cross-contamination of tables, desks and other surfaces.

To guard against accidental exposure to allergens, monitoring of the following high-risk areas and activities is crucial:

- a) Cafeteria;
- b) Food sharing;
- c) Hidden ingredients in art, science and other projects;
- d) Transportation;
- e) Fund raisers and bake sales;
- f) Parties and holiday celebrations;
- g) Field trips;
- h) Before and after school programs.

(Continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS (Cont'd.)**Use of Epinephrine Auto-Injector Devices (Epi-Pens) in the School Setting**

The administration of epinephrine by epi-pen to a student with a known severe allergy needing an anaphylactic treatment agent may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner/physician/physician's assistant *must* have trained the staff member to administer the epi-pen for that emergency situation and given him/her approval to assist the student in the event of an anaphylactic reaction.

Documentation of training must be maintained in the Anaphylaxis Protocol for Non-Licensed School Staff Members for each affected student. The emergency response by non-licensed school staff members is permitted under the Medical Practice Act (Education Law Section 6527(4)(a)) and the Nurse Practice Act (Education Law Section 6908 (1)(a)(iv)) and is covered by the "Good Samaritan Law" (Public Health Law Section 3000-a).

Medication Self-Management

The District will work toward assisting students in the self-management of their chronic health condition based upon the student's knowledge level and skill by:

- a) Adequately training all staff involved in the care of the child;
- b) Assuring the availability of the necessary equipment and/or medications;
- c) Providing appropriately trained licensed persons as required by law;
- d) Providing additional appropriately trained adults to complete delegated tasks as allowed by law;
- e) Developing an emergency plan for the student; and
- f) Providing ongoing staff and student education.

Education Law Sections 6527 and 6908
Public Health Law Sections 2500-h and 3000-a

Adopted: 7/12/11

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT**Familial Child Abuse**

The School District subscribes to all of the provisions of Title 6 - Child Protective Services of the Social Services Law Sections 411-428. Our purpose is to provide protective services to abused and neglected/maltreated children as described by the law, and to make all school personnel within the District aware of our legal responsibilities under this law.

Regulations shall be developed, maintained and disseminated by administration regarding the:

- a) Mandatory reporting of suspected child abuse or neglect/maltreatment;
- b) Reporting procedures and obligations of persons required to report;
- c) Provisions for taking a child into protective custody;
- d) Mandatory reporting of deaths;
- e) Immunity from liability and penalties for failure to report;
- f) Obligations for provision of services and procedures necessary to safeguard the life of a child; and
- g) Provision of information in recognizing signs of unlawful methamphetamine laboratories for all current and new school officials (i.e., "mandated reporters") who, as part of their usual responsibilities, visit children's homes.

Additionally, an ongoing training program for all current and new school officials shall be established and implemented to enable such staff to carry out their reporting responsibilities.

School Officials Required to Report

The definition of a "school official" who is mandated to report cases of child abuse or neglect/maltreatment to the State Central Register (SCR) pursuant to Social Services Law Section 413(1) includes, but is not limited to, school teachers, school guidance counselors, school psychologists, school social workers, school nurses, school administrators or other school personnel required to hold a teaching or administrative license or certificate.

All mandated reporters shall make the report themselves and then immediately notify the Building Principal or his/her designee. The Building Principal or his/her designee shall be responsible for all subsequent administration necessitated by the report.

(Continued)

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

Any report shall include the name, title and contact information for every staff member who is believed to have direct knowledge of the allegations in the report.

Prohibition of Retaliatory Personnel Action

Social Services Law Section 413(1) also prohibits a school from taking any retaliatory personnel action against an employee because such employee believes that he/she has reasonable cause to suspect that a child is an abused or neglected/maltreated child and that employee makes a report to SCR pursuant to Social Services Law. Further, no school or school official shall impose any conditions, including prior approval or prior notification, upon any staff member specifically designated a mandated reporter.

Pursuant to Labor Law Section 740(1)(e), "retaliatory personnel action" means the discharge, suspension or demotion of an employee, or other adverse employment action taken against an employee in the terms and conditions of employment.

Report Form

The Revised May 2011 New York State Office of Children and Family Services "**Report of Suspected Child Abuse or Maltreatment**" Form LDSS-2221A may be accessed at:
<http://www.ocfs.state.ny.us/main/cps/>

Education Law Section 3209-a
Family Court Act Section 1012
Labor Law Section 740(1)(e)
Social Services Law Sections 411-428

Child Abuse in an Educational Setting

The School District is committed to the protection of students in educational settings from abuse and maltreatment by employees or volunteers as enumerated in law.

"Child abuse" shall mean any of the following acts committed in an educational setting by an employee or volunteer against a child:

- a) Intentionally or recklessly inflicting physical injury, serious physical injury or death; or
- b) Intentionally or recklessly engaging in conduct which creates a substantial risk of such physical injury, serious physical injury or death; or

(Continued)

Students

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

- c) Any child sexual abuse, defined as conduct prohibited by Penal Law Articles 130 or 263; or
- d) The commission or attempted commission against a child of the crime of disseminating indecent materials to minors pursuant to Penal Law Article 235.

"Educational setting" shall mean the building(s) and grounds of the School District; the vehicles provided by the School District for the transportation of students to and from school buildings, field trips, co-curricular and extracurricular activities both on and off School District grounds; all co-curricular and extracurricular activity sites; and any other location where direct contact between an employee or volunteer and a child has allegedly occurred.

In any case where an oral or written allegation is made to a teacher, school's registered professional nurse, school guidance counselor, school psychologist, school social worker, school administrator, School Board member, or other school personnel required to hold a teaching or administrative license or certificate, that a child (defined in the law as a person under the age of twenty-one (21) years enrolled in a school district in this state) has been subjected to child abuse by an employee or volunteer in an educational setting, that person shall upon receipt of such allegation:

- a) Promptly complete a written report of such allegation including the full name of the child alleged to be abused; the name of the child's parent; the identity of the person making the allegation and their relationship to the alleged child victim; the name of the employee or volunteer against whom the allegation was made; and a listing of the specific allegations of child abuse in an educational setting. Such written report shall be completed on a form as prescribed by the Commissioner of Education.
- b) Except where the school administrator is the person receiving such an oral or written allegation, the employee completing the written report must promptly *personally deliver* a copy of that written report to the school administrator of the school in which the child abuse allegedly occurred (subject to the following paragraph).

In any case where it is alleged the child was abused by an employee or volunteer of a school other than a school within the school district of the child's attendance, the report of such allegations shall be promptly forwarded to the Superintendent of Schools of the school district of the child's attendance and the school district where the abuse allegedly occurred.

Any employee or volunteer who reasonably and in good faith makes a report of allegations of child abuse in an educational setting in accordance with the reporting requirements of the law shall have immunity from civil liability which might otherwise result by reason of such actions.

(Continued)

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

Upon receipt of a written report alleging child abuse in an educational setting, the school administrator or Superintendent must then determine whether there is "reasonable suspicion" to believe that such an act of child abuse has occurred. Where there has been a determination as to the existence of such reasonable suspicion, the school administrator or Superintendent must follow the notification/reporting procedures mandated in law and further enumerated in administrative regulations including parental notification. When the school administrator receives a written report, he/she shall promptly provide a copy of such report to the Superintendent.

Where the school administrator or Superintendent has forwarded a written report of child abuse in an educational setting to law enforcement authorities, the Superintendent shall also refer such report to the Commissioner of Education where the employee or volunteer alleged to have committed such an act of child abuse holds a certification or license issued by the State Education Department.

Any school administrator or Superintendent who reasonably and in good faith makes a report of allegations of child abuse in an educational setting, or reasonably and in good faith transmits such a report to a person or agency as required by law, shall have immunity from civil liability which might otherwise result by reason of such actions.

Reports and other written material submitted pursuant to law with regard to allegations of child abuse in an educational setting, and photographs taken concerning such reports that are in the possession of any person legally authorized to receive such information, *shall be confidential and shall not be redisclosed except* to law enforcement authorities involved in an investigation of child abuse in an educational setting or as expressly authorized by law or pursuant to a court-ordered subpoena. School administrators and the Superintendent shall exercise reasonable care in preventing such unauthorized disclosure.

Additionally, teachers and all other school officials shall be provided an annual written explanation concerning the reporting of child abuse in an educational setting, including the immunity provisions as enumerated in law. Further, the Commissioner of Education shall furnish the District with required information, including rules and regulations for training necessary to implement District/staff responsibilities under the law.

Prohibition of "Silent" (Unreported) Resignations

The Superintendent and other school administrators are prohibited from withholding from law enforcement authorities, the Superintendent or the Commissioner of Education, where appropriate, information concerning allegations of child abuse in an educational setting against an employee or volunteer in exchange for that individual's resignation or voluntary suspension from his/her position.

(Continued)

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

Superintendents (or a designated administrator) who reasonably and in good faith report to law enforcement officials information regarding allegations of child abuse or a resignation as required pursuant to the law shall have immunity from any liability, civil or criminal, which might otherwise result by reason of such actions.

Education Law Article 23-B and Sections 902(b) and 3028-b
Penal Law Articles 130, 235 and 263
Social Services Law Section 413
8 New York Code of Rules and Regulations (NYCRR) Part 83

Students

SUBJECT: SUICIDE

The suicide of a student has an extremely disturbing effect on the school and the local community. Unfortunately, there has been a significant increase in the number of adolescents who choose suicide as a way to resolve their problems. It is the intent of this District to alert school personnel to the implications of suicide by a student, to help the school and the community cope with the aftermath of such a tragic event should it occur, to recommend ways of identifying children and adolescents at risk of attempting suicide and to suggest ways to prevent such occurrences.

Suicide prevention will be incorporated into the curriculum to make students aware of this growing problem. This will be done in a manner so as not to glamorize the situation but to educate students in regard to this policy.

The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention, and post-intervention that have been developed by the administration.

Students

SUBJECT: COMPLAINTS AND GRIEVANCES BY STUDENTS

While students have the responsibility to abide by the policies and regulations of the District, they shall also be afforded opportunity to present complaints and grievances free from interference, coercion, restraint, discrimination or reprisal. Administration shall be responsible for:

- a) Establishing rules and regulations for the redress of complaints or grievances through proper administration channels;
- b) Developing an appeals process;
- c) Ensuring that students have full understanding and access to these regulations and procedure; and
- d) Providing prompt consideration and determination of student complaints and grievances.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination. Follow-up inquiries shall be made to ensure that discrimination has not resumed and that all those involved in the investigation of the discrimination complaint have not suffered retaliation.

Complaints and Grievances Coordinator

Additionally, the Board shall ensure compliance with Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973 and the Americans With Disabilities Act (ADA). The Superintendent shall designate a District employee as the Title IX/Section 504/ADA Coordinator; and regulations and procedures shall be implemented to resolve complaints of discrimination based on sex or disability.

Prior to the beginning of each school year, the District shall issue an appropriate public announcement which advises students, parents/guardians, employees and the general public of the District's established grievance procedures for resolving complaints of discrimination based on sex or disability. Included in such announcement will be the name, address and telephone number of the Title IX/Section 504/ADA Coordinator.

The Title IX/Section 504/ADA Coordinator shall also be responsible for handling complaints and grievances regarding discrimination based on race, color, creed, religion, national origin, political affiliation, gender, sexual orientation, age, marital status, military status, veteran status including Vietnam Era or disabled veteran status, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law.

NOTE: Refer also to Policy #7551 -- Sexual and Other Harassment, Discrimination and Retaliation (Students)

Students

SUBJECT: SEXUAL AND OTHER HARASSMENT, DISCRIMINATION AND RETALIATION (STUDENTS)

The Board of Education affirms its commitment to equal opportunity and non-discrimination and recognizes its responsibility to provide for all students an environment that is free of discrimination and harassment based on sex (with or without sexual conduct), gender, sexual orientation, race, color, creed, religion, national origin, political affiliation, age, marital status, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law. The District also does not tolerate any actual or attempted reprisals or retaliation against a student who raises a sincere and valid concern regarding harassment or discrimination. All such discrimination, harassment, and/or retaliation is, therefore, strictly prohibited by the District.

Sexual orientation is defined as heterosexuality, homosexuality, bisexuality, or asexuality, whether actual or perceived.

The Board also prohibits harassment based on the individual's opposition to discrimination or participation in a related investigation or complaint proceeding under the anti-discrimination statutes. This policy of nondiscrimination and anti-harassment will be enforced on School District premises and in school buildings; or school buses, and at all school-sponsored events, programs and activities, including those that take place at locations off school premises and in another state.

If the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with applicable laws and/or regulations, District policy and regulation, and the District Code of Conduct. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations and/or the Code of Conduct, will be subject to appropriate sanctions as warranted and in compliance with law. The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted.

Harassment Prohibited - Definition

As used in this policy, the term "harassment" refers to the conduct relating to or based upon a person's sex (with or without sexual conduct), gender, sexual orientation, race, color, creed, religion, national origin, political affiliation, age, marital status, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law which fails to respect the dignity and feelings of the individual. Harassment that is forbidden by this policy can take several forms, including but not limited to:

(Continued)

Students

SUBJECT: SEXUAL AND OTHER HARASSMENT, DISCRIMINATION AND RETALIATION (STUDENTS) (Cont'd.)Sexual Harassment

There are two (2) types of sexual harassment: quid pro quo harassment and hostile environmental harassment. Quid pro quo harassment occurs when some benefit, such as a grade, credit, graduation, or other benefit, is conditioned upon receipt of sexual favors, or when some punishment will result from refusing to comply with a demand for sexual favors. Hostile environment harassment occurs when conduct of a sexual nature is sufficiently severe, persistent, or pervasive that it has the purpose or effect of unreasonably interfering with a student's performance or ability to benefit from his/her education, or creating an intimidating, hostile, offensive, or abusive school environment. The District will not tolerate sexual harassment between members of the same or opposite sex.

Prohibited sexual harassment includes, but is not limited to, requests for sexual favors and other verbal, visual or physical conduct of a sexual nature when:

- a) Submission to the conduct is explicitly made a term or condition of a student's academic status or progress;
- b) Submission to or rejection of the conduct by a student is used as the basis for academic decisions affecting the student;
- c) The conduct has the purpose or effect of having a negative impact on the student's academic performance; unreasonably interfering with the individual's education; or creating an intimidating, hostile, or offensive educational environment;
- d) Submission to or rejection of the conduct by the student is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the school.

Types of conduct which are prohibited in the District and which may constitute sexual harassment include, but are not limited to:

- a) Verbal conduct such as making or using sexually derogatory comments, epithets, slurs or jokes, making graphic verbal comments about an individual's body or appearance;
- b) Unwelcome sexual flirtations or propositions for sexual activity or unwelcome demands for or suggestions of sexual favors, including but not limited to repeated unwelcome requests for dates;
- c) Spreading sexual rumors;

(Continued)

Students

SUBJECT: SEXUAL AND OTHER HARASSMENT, DISCRIMINATION AND RETALIATION (STUDENTS) (Cont'd.)

- d) Touching an individual's body or clothes (including one's own) in a sexual way, including but not limited to, grabbing, brushing against, patting, pinching, bumping, rubbing, kissing, and fondling;
- e) Cornering or blocking of normal movements;
- f) Displaying sexually suggestive drawings, images, pictures, written materials, and objects in the educational environment, regardless of the medium;
- g) Any act of retaliation against an individual who reports a violation of the District's sexual harassment policy or who participates in the investigation of a sexual harassment complaint.

Some conduct may violate the harassment policy because it creates a hostile environment for others, (e.g., a third-party overhearing a joke). Although sexual harassment is limited to unwelcome actions, private and consensual conduct may at some point also become unwelcome. Students who participate in a consensual relationship, and who at some point wish to discontinue the relationship, should tell the other participant, either verbally or in writing, that the conduct is no longer welcome and, therefore, must cease. Any person advised that conduct previously acceptable to a student is now unwelcome must cease such conduct immediately. Any conduct of a sexual nature following such notice may be determined to be sexual harassment.

Harassment Based on Race, Color, Creed, Religion, National Origin, Political Affiliation, Age, Marital Status, Gender, Sexual Orientation, Military Status, Veteran Status Including Vietnam Era or Disabled Veteran Status, Disability, Use of a Recognized Guide Dog, Hearing Dog or Service Dog, or Any Other Category Protected By Law

Harassment based on race, color, creed, religion, national origin, political affiliation, age, marital status, gender, sexual orientation, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law can include any verbal, written, or physical act in which such protected categories are used to make a student uncomfortable at school; or interferes with a student's performance ability to benefit from his/her education; or creates an intimidating, hostile, offensive or abusive school environment.

Harassment based on race, color, creed, religion, national origin, political affiliation, age, marital status, gender, sexual orientation, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law may take many forms. While it is impossible for the District to provide an exhaustive list, the following is a list of some examples of harassing behavior that the District will not tolerate:

(Continued)

Students

SUBJECT: SEXUAL AND OTHER HARASSMENT, DISCRIMINATION AND RETALIATION (STUDENTS) (Cont'd.)

- a) Jokes that refer to race, color, creed, religion, national origin, political affiliation, age, marital status, gender, sexual orientation, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law.
- b) Posting or distributing cartoons, drawings, or any other material that negatively reflects a person's race, color, creed, religion, national origin, political affiliation, age, marital status, gender, sexual orientation, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or any other category protected by law.
- c) The use of slurs or other offensive language.
- d) Practical jokes, horseplay, or teasing that makes fun of or insults a person's race, color, creed, religion, national origin, political affiliation, age, marital status, gender, sexual orientation, military status, veteran status including Vietnam Era or disabled veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or membership in any other category protected by law.
- e) Any act of retaliation against an individual who reports a violation of this policy or who participates in the investigation of a complaint made pursuant to this policy.

Any student who believes he/she is a victim of discrimination, harassment and/or retaliation by any individual, including any student, teacher, or other employee of the District, must report all incident(s) of such conduct to the District's designated Complaint Officers or any other District employee. The District's two (2) Complaint Officers are Carol Townsend and James LiPuma.

All District employees must report any allegations of, or indications of, discrimination or harassment of which they are aware to the Complaint Officer immediately, but no later than five (5) school days. If an employee receives a complaint and it is not clear whether it involves discrimination or harassment, the employee shall report it to a Complaint Officer, who will determine whether the complaint is to be handled pursuant to this policy. District employees who become aware of a potential complaint also must instruct students that they may file a complaint with a Complaint Officer. In the event that one (1) Complaint Officer is the alleged offender, then the other Complaint Officer shall be contacted. In addition, in any case in which a Complaint Officer deems it appropriate, he/she may appoint a designee to handle or assist with the handling of a complaint. In the remainder of this policy or its accompanying regulations, any reference to the Complaint Officer also includes a designee.

(Continued)

Students

SUBJECT: SEXUAL AND OTHER HARASSMENT, DISCRIMINATION AND RETALIATION (STUDENTS) (Cont'd.)

Upon receipt of an informal/formal complaint, a Complaint Officer will conduct an immediate investigation of the charges. However, if a Complaint Officer has knowledge of or has reason to know of any alleged discrimination/harassment, the District is obligated, even in the absence of a complaint, to investigate such conduct promptly, thoroughly, and as confidentially as possible within the constraints of the law. However, disclosure may be necessary to complete a thorough investigation of the charges, and any disclosure will be provided on a "need to know" basis.

Based upon the results of the District's investigation, immediate and corrective action will be taken, including but not limited to, discipline, training, or other remedial measures; transfer of students or employees may also be effected. Such action taken with respect to students may include, but is not limited to, warning, detention, in and out-of-school suspension, transfer to alternative school, or other disciplinary action by the District, consistent with the requirements of applicable procedures of the Code of Conduct and the Education Law.

Employees are hereby placed on notice that if an employee engages in acts which the District determines to be acts of discrimination, harassment or retaliation, such acts are outside of the course and scope of the employee's employment. Discipline of employees may include, but is not limited to, warning, reprimand, fine, suspension, and termination consistent with applicable laws and collective bargaining agreements. Such conduct may result in the employee having to obtain his/her own legal counsel, result in a money judgment against the employee personally, or the filing of criminal charges.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of a complaint of discrimination and/or harassment. Any such retaliation may result in discipline up to and including discharge. Complainants, victims, witnesses, and/or any other individual who participated in an investigation who experience retaliation from anyone should report it to a Complaint Officer immediately. Follow-up inquiries shall be made to ensure that discrimination and/or harassment has not resumed and that all those involved in the investigation of the discrimination/harassment complaint have not suffered retaliation.

The District encourages the filing of good faith complaints. However, the filing of knowingly false complaints is prohibited. A student who knowingly makes a false complaint of any form against any other person shall be subject to discipline including, but not limited to, a warning, detention, in or out of school suspension, transfer to an alternative school, or other disciplinary action by the District, consistent with the requirements of applicable procedures of the Code of Conduct and the Education Law.

(Continued)

SUBJECT: SEXUAL AND OTHER HARASSMENT, DISCRIMINATION AND RETALIATION (STUDENTS) (Cont'd.)**Privacy Rights**

As part of any investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

Finding That Discrimination/Harassment Did Not Occur

At any level/stage of investigation of alleged discrimination/harassment, if a determination is made that such discrimination/harassment did not occur, the Complaint Officer will so notify the complainant, the alleged offender and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to District policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that discrimination/harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering discrimination/harassment in the workplace.

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that discrimination/harassment did not occur.

Development and Dissemination of Administrative Regulations

The Board directs the Complaint Officers to develop and maintain regulations for resolving discrimination/harassment complaints by students. The Superintendent, Complaint Officer and/or their designees shall affirmatively discuss the topic of discrimination/harassment with all students and employees, express the District's condemnation of such conduct and explain the sanctions for discrimination/harassment. A copy of this policy and its accompanying regulation will be available upon request and may be posted in various locations in each school building. The policy and regulation shall be made available to all students and will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

Students

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three (3) forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Engages in Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings (including blogs).

Cyberbullying has the effect of:

- a) Physically, emotionally or mentally harming a student;
- b) Placing a student in reasonable fear of physical, emotional or mental harm;
- c) Placing a student in reasonable fear of damage to or loss of personal property; and

(Continued)

Students

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS (Cont'd.)

- d) Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

Also, cyberbullying that occurs off-campus, that causes or threatens to cause a material or substantial disruption in the school, could allow school officials to apply the "***Tinker*** standard" where a student's off-campus "speech" may be subject to formal discipline by school officials when it is determined that the off-campus speech did cause a substantial disruption or threat thereof within the school setting [*Tinker v. Des Moines Indep. Sch. Dist.* 393 U.S. 503 (1969)]. Such conduct could also be subject to appropriate disciplinary action in accordance with the *District Code of Conduct* and possible referral to local law enforcement authorities.

Reports of Allegations of Bullying/Cyberbullying Behavior

Any student who believes that he/she is being subjected to bullying/cyberbullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the Building Principal. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses bullying behavior) shall investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prevention and Intervention

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents.

(Continued)

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS (Cont'd.)**Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)**

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

Civil Service Law Section 75-B

NOTE: Refer also to Policies #3410 -- Code of Conduct on School Property
#7551 -- Sexual and Other Harassment, Discrimination and Retaliation (Students)
#7553 -- Hazing of Students
District Code of Conduct

Adopted: 7/12/11

Students

SUBJECT: HAZING OF STUDENTS

The Board of Education is committed to providing a safe, productive and positive learning environment within its schools. Hazing activities are demeaning, abusive and/or illegal behaviors that harm victims, and are inconsistent with the educational goals of the District by negatively impacting the school environment. Hazing of a student by another student or group of students is strictly prohibited on school property; in school buildings; on school buses; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Hazing of a student refers to soliciting, encouraging, aiding, or engaging in "hazing" behavior as defined pursuant to District policy, regulation and/or law. The Board of Education shall require the prohibition of hazing - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term *"hazing" among students is defined as any humiliating or dangerous activity expected of a student to join a group, regardless of their willingness to participate.* Hazing behaviors include, but are not limited to, the following general categories:

- a) Humiliation: socially offensive, isolating or uncooperative behaviors.
- b) Substance abuse: abuse of tobacco, alcohol or illegal drugs.
- c) Dangerous hazing: hurtful, aggressive, destructive, and disruptive behaviors.

Incorporated within this definition are various forms of physical, emotional and/or sexual abuse which may range in severity from teasing/embarrassing activities to life threatening actions.

Even if the hazing victim participated "willingly" in the activity, or there was no "intent" by the hazer to harm or injure another individual, hazing is still hazing and against District policy, the *District Code of Conduct* and may be in violation of New York State Law. However, hazing of students does not need to rise to the level of criminal activity for such conduct to be in violation of District rules and subject to appropriate disciplinary sanctions. Any hazing activity, whether by an individual or a group, shall be presumed a forced activity and in violation of Board policy, regardless of the "willingness" of the student to participate.

Any student who believes that he/she is being subjected to hazing behavior, as well as students, school employees or third parties who have knowledge of or witness any possible occurrence of hazing, shall report the incident to any staff member or the Building Principal. Anonymous student complaints of hazing behavior will also be investigated by the District. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses hazing behavior) shall investigate the complaint/incident and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of hazing. Investigations of allegations of hazing shall follow the procedures utilized for complaints of harassment within the School District. Allegations of hazing shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

(Continued)

SUBJECT: HAZING OF STUDENTS (Cont'd.)**Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)**

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of hazing. Follow-up inquiries and/or appropriate monitoring of the alleged hazer(s) and victim(s) shall be made to ensure that hazing behavior has not resumed and that all those involved in the investigation of allegations of hazing have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the District.

Knowingly Makes False Accusations

Students who *knowingly* make false accusations against another individual as to allegations of hazing may also face appropriate disciplinary action.

District Responsibility/Training

Personnel at all levels are responsible for taking corrective action to prevent hazing behavior of which they have been made aware at School District sites; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Further, as may be applicable, personnel are to report such hazing behavior to their immediate supervisor. Staff training shall be provided to raise awareness of the problem of hazing within the schools and to facilitate staff identification of, and response to, such hazing behavior among students.

Prevention and intervention techniques within the District to help prevent hazing behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to hazers, victims and their parents to help ensure that the hazing stops.

Rules against hazing shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents. Disciplinary sanctions for violation of this policy shall be outlined in the *District Code of Conduct* and may also be incorporated in staff and student handbooks. In addition, allegations of hazing behavior may result in referral to law enforcement officials as necessary.

Adopted: 7/12/11

SUBJECT: NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to, Building Principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and others who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students. Further, information received by the District pursuant to Megan's Law shall be mailed to community residents.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable Building Principal/designee or supervisor.

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law.

Special Circumstances Whereby Sex Offenders May Enter Upon School Grounds

As a mandatory condition of the sentence for sex offenders placed on probation or conditional discharge whose victim was under the age of eighteen (18) or who has been designated a Level 3 sex offender, the court requires that such sentenced offender refrain from knowingly entering into or upon school grounds or any other facility or institution primarily used for the care or treatment of persons under the age of eighteen (18) while one (1) or more of such persons are present.

(Continued)

SUBJECT: NOTIFICATION OF SEX OFFENDERS (Cont'd.)

However, by exception, entrance upon the premises shall be provided to the sentenced sex offender under the following conditions subject to the written authorization of his/her parole officer and the Superintendent or chief administrator of the facility for the limited purposes authorized by that person:

- a) The offender is a registered student, participant or employee of the facility;
- b) The offender is an employee of an entity contracted by the facility; or
- c) The offender has a family member enrolled in the facility.

Implementation

Administrative regulations shall be developed to implement this policy.

Correction Law Article 6-C
Executive Law 259-c(14)
Penal Law 65.10(4-a)
Public Officers Law Section 84 et seq.

Students

SUBJECT: SUPERVISION OF STUDENTS

Students working on any activity must be supervised by the teacher or staff member in charge of the activity. This applies to all in school and extracurricular activities as well as sports activities and events. Permission to hold practices or meetings must not be granted unless a teacher or staff member is definitely in charge.

- a) District personnel will be fully responsible for the supervision of all students in either their class or their after school activities.
- b) Coaches will maintain supervision over the dressing rooms by personally being present during the dressing periods. Coaches are responsible for the supervision of their athletes at the end of practice. This may entail bus duty, or making sure students have transportation home.
- c) Teachers and/or assigned school personnel in the elementary grades will be responsible for the playground supervision of all the children under their jurisdiction during the recess periods and before the regular afternoon sessions. The Principal will distribute the responsibility so that the playground situation will be properly controlled.
- d) Students are not to be sent on any type of errand away from the building.

NOTE: Refer also to Policy #5730 -- Transportation of Students

Students

SUBJECT: SAFE PUBLIC SCHOOL CHOICE OPTION TO STUDENTS WHO ARE VICTIMS OF A VIOLENT CRIMINAL OFFENSE

Any District student who is a victim of a violent criminal offense, as defined pursuant to Education Law and Commissioner's Regulations, that occurred on the grounds of the District elementary or secondary school that the student attends, shall be allowed to attend a safe public school within the School District to the extent required by the federal No Child Left Behind Act (NCLB) and state law and regulations.

In accordance with Commissioner's Regulations, a "safe public school shall mean a public school that has not been designated by the Commissioner [of Education] as a persistently dangerous public elementary or secondary school."

Violent Criminal Offense

The Superintendent shall determine if the student has been the victim of a "violent criminal offense." "Violent criminal offense" means a crime that:

- a) Involves infliction of a serious physical injury upon another as defined in New York State Penal Law Section 10.00(10); or
- b) A sex offense that involves forcible compulsion; or
- c) Any other offense defined in State Penal Law Section 10.00(12) that involves the use or threatened use of a deadly weapon.

Determination Whether Student is a Victim

Procedures shall be established for determination by the Superintendent of whether a student is a victim of a violent criminal offense that occurred on school grounds of the school the student attends. The Superintendent shall, prior to making any such determination, consult with any law enforcement agency investigating the alleged violent criminal incident and consider any reports or records provided by such agency. However, a criminal conviction is not required prior to the Superintendent's determination that a student has been a victim of a violent criminal offense. The Superintendent may also consult with the school attorney prior to making such determination.

The Superintendent's determination may be appealed to the Board of Education. However, this determination will not preclude any student disciplinary proceeding brought against the alleged victim or perpetrator of such violent criminal offense.

(Continued)

SUBJECT: SAFE PUBLIC SCHOOL CHOICE OPTION TO STUDENTS WHO ARE VICTIMS OF A VIOLENT CRIMINAL OFFENSE (Cont'd.)**Notice to Parents/Persons in Parental Relation**

A School District that is required to provide school choice in accordance with applicable provisions of the federal No Child Left Behind Act of 2001, Education Law and Commissioner's Regulations, shall establish procedures for notification of parents of, or persons in parental relation to, students who are victims of violent criminal offenses of their right to transfer to a safe public school within the District and procedures for such transfer. Such notice shall be, to the extent practicable, provided in the dominant language or mode of communication used by the parents or persons in parental relation to such student. The School District shall so notify the parents of, or persons in parental relation to, such student within twenty-four (24) hours of the determination that the student has been the victim of a violent criminal offense on school grounds at the school he/she attends.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of such determination at the last known address or addresses of the parents/persons in parental relation to the student. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

However, **such notification shall not be required** where there are no other public schools within the District at the same grade level or a transfer to a safe public school within the School District is otherwise impossible. Similarly, procedures for such notification of parents/persons in parental relation to students who are victims of violent criminal offenses shall not be required where the School District has only one (1) public school within the District or only one (1) public school at each grade level.

Designation of Safe Public School

It shall be the responsibility of the School District, based on objective criteria, to designate a safe public school or schools within the District to which students may transfer. However, the District is not required to designate a safe public school where there are no other public schools within the District at the same grade level or transfer to a safe public school within the District is otherwise impossible. Similarly, if the District has only one (1) public school within the School System or only one (1) public school at each grade level, the School District shall not be required to designate a safe public school.

Any student who transfers to a safe public school, in accordance with the provisions of this policy and applicable law and regulation, shall be enrolled in the classes and other activities of the public school to which such student transfers in the same manner as all other students at the public school. The receiving school shall be identified by the District and must be at the same grade level as the school from which the student is transferring. To the extent possible the School District shall allow transferring students to transfer to a school that is making adequate yearly progress and has not been

(Continued)

**SUBJECT: SAFE PUBLIC SCHOOL CHOICE OPTION TO STUDENTS WHO ARE
VICTIMS OF A VIOLENT CRIMINAL OFFENSE (Cont'd.)**

identified as requiring school improvement, corrective action, or restructuring. The District shall provide transportation for any student permitted to transfer to the safe public school within the District designated by the School System within the transportation limits established pursuant to Education Law Sections 3635 and 4401(4). Any student who transfers to a safe public school shall be permitted to remain in such safe public school until the student has completed the highest grade level in the school transferred to, or for such other period prescribed by the U.S. Department of Education, whichever is less.

While the parents/persons in parental relation to the student must be offered the opportunity to transfer their child, they may elect to have the child remain at the school he/she currently attends.

SUBJECT: SPECIAL EDUCATION: DISTRICT PLAN

A District plan shall be developed and updated every two (2) years describing the Special Education program in the Depew Union Free School District. The District plan shall include the following:

- a) A description of the nature and scope of special education programs and services currently available to students residing in the District, including but not limited to descriptions of the District's resource room programs and each special class program provided by the District in terms of group size and composition.
- b) Identification of the number and age span of students (school age and preschool) to be served by type of disability and recommended setting.
- c) The method to be used to evaluate the extent to which the objectives of the program have been achieved.
- d) A description of the policies and practices of the Board of Education to ensure the allocation of appropriate space within the District for special education programs that meet the needs of students and preschool children with disabilities.
- e) A description of the policies and practices of the Board of Education to ensure that appropriate space will be continually available to meet the needs of resident students and preschool students with disabilities who attend special education programs provided by Boards of Cooperative Educational Services.
- f) A description of how the District intends to ensure that all instructional materials to be used in the schools of the District will be made available in a usable alternative format for each student with a disability at the same time as such instructional materials are available to non-disabled students. The alternative format must meet the National Instructional Materials Accessibility Standard defined in federal law.
- g) The estimated budget to support such plan.
- h) The date on which such plan was adopted by the Board of Education.
- i) A description of how the District plan is consistent with the special education space requirements plan for the region as developed by the Board of Cooperative Educational Services.

The District plan, with personally identifiable student information deleted, shall be filed and available for public inspection and review by the Commissioner.

20 United States Code (USC) 1474(e)(3)(B)

Adopted: 7/12/11

Students

SUBJECT: CHILDREN WITH DISABILITIES

A child with a disability means a student under the age of twenty-one (21) who is entitled to attend public schools and who, because of mental, physical or emotional reasons can only receive appropriate educational opportunities from a program of special education. A child is not considered as having a disability if his/her educational needs are due primarily to unfamiliarity with the English language; environmental, cultural or economic factors; or lack of appropriate instruction in reading or mathematics.

If the State Education Department finds that the District has inappropriate policies, procedures or practices resulting in a significant disproportionality by race/ethnicity in the suspension, identification, classification and/or placement of students with disabilities, the District will ensure that it publicly reports on the subsequent revisions to those policies, procedures or practices.

The Board of Education recognizes the existence of individual differences in the intellectual, social, emotional and physical development of children attending school in the District. In recognizing these differences the Board supports a system of services offered in the least restrictive environment for children with disabilities which includes:

- a) Not requiring any student to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving services.
- b) Education in regular classes with or without support services, education in a resource room, education for part of the day in a special class, full time education in a special class, home instruction and education in a residential setting.
- c) Providing for the education of students with disabilities with non-disabled peers to the extent appropriate.
- d) Taking the following measurable steps to recruit, hire, train and retain highly qualified personnel to provide special education programs and services:
 - 1. Utilize established procedures for publication of all potential job openings;
 - 2. Check credentials and requirements listed on applications;
 - 3. Provide training sessions for interview committee;
 - 4. Special Education teachers are required to have subject matter knowledge appropriate to the level of instruction being provided; when teaching two (2) or more core academic subjects exclusively to children with disabilities, the teacher will meet the requirements of "highly qualified" per the No Child Left Behind Act (NCLB) and the

(Continued)

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

Individuals with Disabilities Education Improvement Act of 2004 (IDEA) or demonstrate competence in all the core academic subjects taught per state regulations;

5. Special education teachers and administrators are required to complete enhanced training in the needs of autistic children;
 6. Training provided to Special Education teachers and administrators for other disabilities;
 7. Special Education teachers will be provided a mentor for their first year of teaching.
- e) Establishing the following guidelines for the provision of appropriate accommodations necessary to measure the academic achievement and functional performance of the student in the administration of District-wide assessments:
1. Ensure that necessary accommodations are specified on individualized education program (IEP) and implemented in accordance with the IEP;
 2. Review the need for accommodations at Committee on Special Education (CSE) evaluations/re-evaluations;
 3. Ensuring all teachers have access to Individual Education Plans (IEPs) and made aware of all modifications and accommodations.
- f) To the extent feasible, using universal design principles (defined as a concept or philosophy for designing and delivering products and services that are usable by people with the widest range of functional capabilities, which include products and services that are directly usable without requiring assistive technologies and products and services that are made usable with assistive technologies) in developing and administering District-wide assessment programs by:
1. Addressing appropriate principles in IEPs;
 2. Having the Assistant Superintendent and Director of Instructional Services keep Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) apprised of available products and services utilizing educational principles;
 3. Ensuring that instructional materials and activities allow learning goals to be achievable by individuals with wide differences in abilities;
 4. Ensuring that flexible curricular materials and activities are built into the instructional design and operating systems;

(Continued)

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

5. Ensuring that instruction is diversified to deliver the general education curriculum to every student and diversify ways students may respond to that curriculum.
- g) Consideration of the location of a school program(s) to a student's residence, before placement into an educational program.
- h) Adoption of written policies and procedures ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with Commissioner's Regulations.
- i) Allocation of appropriate space within the District for special education programs that meet the needs of students with disabilities.
- j) Assurance that appropriate space will be available to meet the needs of resident students with disabilities who attend special education programs provided by BOCES.

Provision of Special Education Services to Nonpublic School Students with Disabilities who are Parentally Placed

The **district of location** is responsible for child find, including individual evaluations, Committee on Special Education (CSE) meetings, provision of special education services, and due process to parentally placed nonpublic school students attending nonpublic schools located in the geographic region of the public school district.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools or to Charter schools.

The actual cost for Committee on Special Education (CSE) administration, evaluations and special education services provided to a student with a disability who is a resident of New York State, but a nonresident to the district of location, may be recovered from the student's school district of residence. Because federal regulations require parental consent before any personally identifiable information about the student relating to special education is shared between officials in the public school district of location and officials in the public school district of residence, parent consent to share special education information between the two (2) public school districts is required before billing a district of residence for the cost of special education services provided to the student by the district of location.

(Continued)

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

Parental consent must be obtained by the school district of location before any personally identifiable information about the student is shared between officials in the public school district of residence and officials in the public school district of location.

The school district of location must consult with nonpublic school representatives and representatives of parents of parentally placed nonpublic school students with disabilities enrolled in nonpublic elementary and secondary schools located within the boundaries of the school district. The School District must engage in consultation regarding the child find process and services generally; consultation is not specific to individual students. Individual services are determined by the CSE.

The consultation process must be timely and meaningful and include discussion of:

- a) Child Find;
- b) Provision of Special Education Services; and
- c) Use of Federal Funds.

The school district of location must provide, as appropriate, special education services to an eligible student who legally resides in another state and who is parentally placed in a nonpublic school located in New York State. The services to be provided to out-of-state students must be documented on a services plan that is developed by the CSE of the district of location. The services plan is the written plan that describes the specific special education and related service that the district of location will provide to the student consistent with the services that the school district of location has determined through the consultation process and in relation to the proportionate shares of federal Individuals with Disabilities Education Act (IDEA) Part B dollars, to be provided to the student.

Tuition Reimbursement Claims for Disabled Nonpublic School Students

The parent must comply with the IDEA's pre-hearing notice requirement for tuition reimbursement claims. Specifically, the IDEA directs that at least ten (10) business days before submitting a request for an impartial due process hearing for tuition reimbursement, the parent must give the District written notice of intent to enroll the child in private school at public expense. The purpose of this requirement is to give the public school district's CSE the opportunity to meet and develop a new IEP for the student that addresses the parent's concerns. *A parent who does not provide such written notice within ten (10) days may have his request for reimbursement reduced or denied. In most cases, a parent's failure to satisfy these notice requirements is a complete bar to recovery.*

Students

SUBJECT: GROUPING BY SIMILARITY OF NEEDS

The Board of Education will provide appropriate special education and related services to students with disabilities. For those students for whom an appropriate education requires that they be placed together for purposes of special education, the following guidelines shall apply:

- a) That each student with a disability shall be identified, evaluated and placed as determined by the Committee on Special Education (CSE).
- b) The CSE shall determine written goals, including academic and functional goals, for each student with a disability by considering the special and individual needs of each student with a disability. Short-term instructional objectives and/or benchmarks will be created for each preschool student with a disability and for students who take New York State alternate assessments.
- c) The CSE shall recommend to the Board of Education appropriate educational programs and services for each student with a disability based upon the CSE evaluation.
- d) The CSE shall provide information to those teachers and professionals who arrange instructional groups for students with disabilities. Information shall include physical, psychological and social information as well as achievement test results.
- e) The curriculum and instruction provided to students with disabilities who are grouped by similarity of needs shall be consistent with the individual needs of each student in the group.
- f) Students with disabilities may be grouped according to:
 - 1. Academic achievement, functional performance and learning characteristics;
 - 2. Social development;
 - 3. Physical development; and
 - 4. Management needs.
- g) When grouping students by similarity of needs, the social needs or physical development of a student shall not be the sole determinant for placement of a student in a special education program.
- h) The management needs of such students may vary, provided that environmental modifications, adaptations, or human or material resources required to meet the needs of any one student in the group are provided and do not consistently detract from the opportunities of other students in the group to benefit from instruction.

8 New York Code of Rules and Regulations (NYCRR) Sections 200.1(ww), 200.2(b)(3), 200.4(d) and 200.6(a)(3)

Adopted: 7/12/11

**SUBJECT: THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S
INDIVIDUALIZED EDUCATION PROGRAM**

The Board of Education shall establish at least one (1) Committee on Special Education (CSE) and one (1) Committee on Preschool Special Education (CPSE). The Board shall also establish, as necessary, Subcommittees on Special Education to ensure timely evaluation and placement of students with disabilities.

Committee on Special Education

The Board of Education shall, upon completion of its review of the recommendations of the CSE, arrange for the appropriate special education programs and services to be provided to a student with a disability. The Board shall notify the parent/guardian of its action in accordance with federal and state law and regulations.

For a student not previously identified as having a disability, the CSE shall provide a recommendation to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the date of receipt of consent to evaluate. For a student with a disability referred for review, a recommendation shall be provided to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the referral for review. However, if such recommendation of the CSE is for placement in an approved in-state or out-of-state private school, the Board shall arrange for such special education programs and services for students with disabilities within thirty (30) school days of the Board's receipt of the recommendation of the CSE.

If on review of the recommendation of the CSE, the Board of Education disagrees with such recommendation, the Board shall follow one (1) of the following procedures:

- a) The Board may remand the recommendation to the CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The CSE shall consider the Board's objections or concerns, revise the individualized education program (IEP) where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the CSE, the Board may continue to remand the recommendation to the original committee for additional reviews of its objections or concerns, or establish a second CSE to develop a new recommendation in accordance with the following paragraph, provided that the Board arranges for the programs and services in accordance with the student's IEP within the timelines as outlined above; or, in the alternative,
- b) The Board may establish a second CSE to develop a new recommendation for the student. If the Board disagrees with such new recommendation, the Board may remand the recommendation to the second CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The second CSE shall consider the Board's objections or concerns, revise the IEP

(Continued)

**SUBJECT: THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S
INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)**

where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the second CSE, the Board may continue to remand the recommendation for additional reviews of its objections or concerns by the second CSE, provided that the Board arranges for the programs and services in accordance with the student's IEP, as developed by the second CSE, within the timelines as outlined above.

Pursuant to Commissioner's Regulations, the Board may not select the recommendation of the original CSE once it has established a second CSE.

The Board shall provide the student's parents/guardians with written notice and a copy of the statement of its objections or concerns and notice of due process rights in accordance with Section 200.5 of the Regulations of the Commissioner.

Committee on Preschool Special Education (CPSE)

Upon receipt of the recommendation of the Committee on Preschool Special Education (CPSE), the Board of Education shall arrange for the preschool student with a disability to receive such appropriate programs and services in accordance with the student's IEP, commencing with the July, September or January starting date for the approved program, unless such services are recommended by the CPSE less than thirty (30) school days prior to, or after, the appropriate starting date selected for the preschool student with a disability; in that case, such services shall be provided no later than thirty (30) days from the recommendation of the CPSE.

If the Board disagrees with the recommendation of the CPSE, the Board shall send the recommendation back to the CPSE with notice of the need to schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate. The Board of Education shall provide such notice as required by federal and state law and regulations.

Subcommittee on Special Education

The number of Subcommittees on Special Education will be determined by the CSE and the CSE will be responsible for the oversight and monitoring of the activities of each subcommittee to assure compliance with the requirements of applicable state and federal laws and regulations.

Each Subcommittee may perform the functions for which the CSE is responsible, except:

- a) When a student is considered for initial placement in a special class; or
- b) When a student is considered for initial placement in a special class outside of the student's school of attendance; or

(Continued)

**SUBJECT: THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S
INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)**

- c) When a student is considered for placements in a school primarily serving students with disabilities or a school outside the District.

Subcommittees shall report annually to the CSE regarding the status of each student with a disability within its jurisdiction. Upon receipt of a written request from the parent or person in parental relation to a student, the Subcommittee shall refer to the CSE any matter in which the parent disagrees with the Subcommittee's recommendation concerning a modification or change in the identification, evaluation, educational placement or provision of a free appropriate education to the student.

Education (CSE)/Subcommittee on Special Education
Members
#7632 -- Appointment and Training of Committee on Preschool
Special Education (CPSE) Members

SUBJECT: PRESCHOOL SPECIAL EDUCATION PROGRAM

The Board recognizes the need for educational programs for three (3) and four (4) year old children with disabilities and directs that administrative practices and procedures be developed to:

- a) Ensure the timely evaluation and placement of each preschool child with a disability residing in the District so the child has the opportunity to participate in preschool programs.
- b) Establish a Committee on Preschool Special Education (CPSE) which shall be comprised in accordance with applicable federal and state law and regulation.
- c) Ensure that parents have received and understand the request for consent for evaluation and re-evaluation of a preschool aged child.

Evaluations for Preschool Children with Disabilities

The District is required to collect entry assessment data in the three (3) outcome areas on all preschool children who receive an initial evaluation. As currently required by Commissioner's Regulation Section 200.5, a parent must be fully informed about the proposed initial evaluation and must provide consent for an initial evaluation. This would include a description of the proposed evaluation.

The CPSE will receive entry-level assessment results in the three (3) outcome areas from approved preschool evaluators conducting initial evaluations on all preschool children suspected of having disabilities. The CPSE will then meet to determine the child's eligibility for preschool education programs and/or services and complete the Child Outcomes Summary Form to determine the child's entry level of functioning in the three (3) outcome areas for all preschool children evaluated and found to be eligible. The form is kept in the student's record until the exit assessment information is due as a way to summarize complex assessment information in a format so that the data can be aggregated and reported to the State Education Department (SED).

Annually, one-sixth of the school districts in the State will be required to submit exit data on the progress that preschool children made between entry into and exit from preschool special education programs and services in the three (3) outcome areas after having received preschool special education services for at least six (6) months. For each outcome area, schools will be reporting data that will enable the State to determine:

- a) The number of children at exit who reach or maintain functioning at a level comparable to same-aged nondisabled peers;
- b) The number of children who improve functioning; and
- c) The number of children who do not improve functioning.

(Continued)

SUBJECT: PRESCHOOL SPECIAL EDUCATION PROGRAM (Cont'd.)

In accordance with NYS Education Law Section 4410, SED approved preschool evaluators of three (3) and four (4) year old children suspected of having disabilities must include evaluation information in the three (3) outcome areas described below:

- a) Positive social-emotional skills (including social relationships):
 - 1. Relating to adults;
 - 2. Relating to other children; and
 - 3. Following rules related to groups or interacting with others [if older than eighteen (18) months].
- b) Acquisition and use of knowledge and skills (including early language/communication and early literacy):
 - 1. Thinking, reasoning, remembering and problem solving;
 - 2. Understanding symbols; and
 - 3. Understanding the physical and social worlds.
- c) Use of appropriate behaviors to meet their needs:
 - 1. Taking care of basic needs (e.g., showing hunger, dressing, toileting, etc.);
 - 2. Contributing to his/her own health and safety [e.g., follows rules, assists with hand washing, avoids inedible objects, if older than twenty-four (24) months]; and
 - 3. Getting from place to place (mobility) and using tools (e.g., forks, pencils, strings attached to objects).

Individuals with Disabilities Act (IDEA), 20 United States Code (USC) Section 1400 et seq.
Education Law Section 4410
8 New York Code of Rules and Regulations (NYCRR) Sections 200.2(b)(2), 200.2(b)(5) and 200.5

Adopted: 7/12/11

Students

SUBJECT: LEAST RESTRICTIVE ENVIRONMENT

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with use of supplementary aids and services, education in regular classes cannot be satisfactorily achieved. The placement of an individual student with a disability in the least restrictive environment shall:

- a) Provide the special education and related services, as well as supplementary aids and services, needed by the student. The term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device;
- b) Provide for education of the student to the maximum extent appropriate to the needs of the student with other students who do not have disabilities; and
- c) Be as close as possible to the student's home.

The District has an obligation, pursuant to law and regulation, to educate students with disabilities in the least restrictive environment. The School District shall ensure that:

- a) Placement is based on the student's individualized education program and determined at least annually;
- b) Placement is as close as possible to the student's home, and unless the student's individualized education program requires some other arrangement, the student shall be educated in the school he/she would have attended if not disabled;
- c) In selecting the least restrictive environment, consideration will be given to any potential harmful effect on the student or on the quality of services that he/she needs; and
- d) A student with a disability will not be removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

The District shall ensure that a continuum of alternative placements, in accordance with law and/or regulation, will be available to meet the needs of students with disabilities. To enable students with disabilities to be educated with nondisabled students to the maximum extent appropriate, specially designed instruction and supplementary services may be provided in the regular class, including, as appropriate, related services, consultant teacher services, paraprofessional support, resource room services, integrated co-teaching, and special class programs within the general education classroom.

Adopted: 7/12/11

Students

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION)**

The School District shall establish a plan for implementing schoolwide approaches and prereferral interventions in order to remediate a student's performance *prior to referral* for special education.

The provision of programs and/or services for students starts with consideration/implementation of instruction in the general education curriculum, with appropriate supports and/or modifications as may be necessary. In implementing prereferral intervention strategies, the District may utilize resources/strategies already in place for qualified students including, but not limited to, services available through Section 504 of the Rehabilitation Act of 1973, and Educationally Related Support Services and Academic Intervention Services as defined in Education Law and/or Commissioner's Regulations. All of these programs may be considered as possible components of Prereferral/Intervention Instructional Support Plans. The District will ensure that they have a system in place, with appropriate personnel, for developing, implementing and evaluating prereferral intervention strategies.

The District will provide general education support services, instructional modifications, alternative instructional approaches, or alternative program options to address a student's performance prior to a referral to a Committee on Special Education (CSE). Formal Instructional Support Teams (IST) will be formed in accordance with law and/or regulations as may be applicable as well as District guidelines. The IST will include representatives from general and special education as well as other disciplines and include individuals with classroom experience. Parents/persons in parental relation to students will be involved in developing prereferral strategies to address the educational needs of their child. Additionally, the District will seek collaboration between outside agencies and the school prior to a referral of the student to the CSE in order to address necessary student support services.

Administration shall ensure that appropriate opportunities exist for collaboration between general educators and special educators, and that consultation and support are available to teachers and other school personnel to assist parents/persons in parental relation to students and teachers in exploring alternative approaches for meeting the individual needs of any student prior to formal referral for special education.

The determination of prevention and prereferral intervention strategies/services shall consider the student's strengths, environment, social history, language and cultural diversity in addition to the teacher's concerns. The building administrator will further ensure that all staff are familiar with intervention procedures and procedures for operating an IST.

(Continued)

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd.)**

Prereferral/Intervention Instructional Support Plans shall be proactive in their strategies to meet the broad range of student needs and to improve student performance. Prereferral/Intervention strategies and/or Instructional Support Plans are to be reviewed and evaluated to determine their effectiveness, and modified as may be appropriate. Appropriate documentation of the prevention and/or intervention strategies implemented shall be maintained.

However, should a referral be made to the CSE during the course of implementing prereferral/intervention instructional support services, the CSE is obligated in accordance with law to continue its duties and functions, and must meet mandatory time lines in evaluating the student for special education services and implementation of an individualized education program, if applicable.

Educational Related Support Services

Educational related support services (ERSS) means curriculum and instructional modification services; direct student support team services; assessment and non-career counseling services; special instruction to eligible students with disabilities as defined in Education Law Section 4401, which does not generate excess cost aid including related services but excluding transportation and transition services; and to eligible, qualified students pursuant to Section 504 of the Rehabilitation Act of 1973. These services are provided to eligible students, individually or in groups, and may include those related consultation services provided to their families and related school personnel in order to enhance the academic achievement and attendance of such students. Educational related support services shall also mean speech and language improvement services as defined in Commissioner's Regulations.

ERSS may be utilized as a component of any Prereferral/Intervention Instructional Support Plan.

Section 504 of the Rehabilitation Act of 1973

For students who are qualified for services pursuant to Section 504 of the Rehabilitation Act, but are not classified as students with disabilities as defined in Education Law Section 4401, Section 504 Accommodation Plans may address instructional support services that can be utilized as components of any prereferral/intervention strategies as deemed necessary and/or appropriate.

Academic Intervention Services

Academic intervention services means additional instruction which supplements the instruction provided in the general education curriculum and assists students in meeting the State learning standards as defined in Commissioner's Regulations and/or student support services which may include guidance, counseling, attendance, and study skills which are needed to support improved academic performance.

(Continued)

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd.)**

However, such services shall not include services provided to students with limited English proficiency pursuant to Commissioner's Regulations or special education services and programs as defined in Education Law Section 4401. Academic intervention services are intended to assist students who are at risk of not achieving the State learning standards in English language arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on State assessments.

The District has developed a description of the academic intervention services offered to grades K through 12 students in need of such services. The District will review and revise this description every two (2) years based on student performance results.

Parental notification of students who have been determined to need academic intervention services will be provided as per Commissioner's Regulations.

In implementing prevention and/or prereferral intervention support strategies in order to remediate a student's performance prior to referral for special education, the utilization of academic intervention services, as enumerated in Commissioner's Regulations, may be included as a component of any such Prereferral/Intervention Instructional Support Plan.

Section 504 of the Rehabilitation Act of 1973, 29 United States Code (USC) Section 794 et seq.

Education Law Sections 3602(32), 4401 and 4401-a

Students

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES

The School District shall establish and implement a plan for the appropriate declassification of students with disabilities which must include:

- a) The regular consideration for declassifying students when appropriate;
- b) A reevaluation of the student prior to declassification; and
- c) The provision of educational and support services to the student upon declassification.

Eligibility Determinations

The School District must evaluate a student with a disability prior to determining that a student is no longer a student with a disability as defined in accordance with Commissioner's Regulations, and the District shall provide a copy of the evaluation report and the documentation of eligibility to the student's parent at no cost to the parent. The results of any reevaluations must be addressed by the Committee on Special Education (CSE) in a meeting to review and, as appropriate, revise the student's individualized education program (IEP).

Prior to the reevaluation, the School District shall obtain informed written parental consent unless otherwise authorized pursuant to law and/or regulation. Parental consent need not be obtained if the District can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parents fail to respond. The District must have a record of its attempts to obtain parental consent. Should the student's parents refuse consent for the reevaluation, the District may continue to pursue the reevaluation by using mediation and/or due process procedures.

The District shall take whatever action is necessary to ensure that the parent understands the proceedings at the meeting of the CSE, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Graduation/Aging Out

The District is not required to conduct a reevaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the District must provide the student with a summary (Student Exit Summary) of the student's academic achievement and functional performance, including recommendations on how to assist the student in meeting his/her post secondary goals. Although not required to do so, the District will also provide this Student Exit Summary (see Web site: <http://www.vesid.nysed.gov/specialed/idea/studentexit.htm>) to students exiting with a High School Equivalency Diploma.

(Continued)

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES (Cont'd.)

In addition, the parent must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before he/she receives an Individualized Education Program (IEP) diploma. If the student will be graduating with an IEP diploma, this prior written notice must indicate that the student continues to be eligible for a free appropriate public education until the end of the school year in which the student turns twenty-one (21) or until receipt of a regular high school diploma. However, New York State Law does not grant a child who has reached the age of majority all rights previously granted to parents under Individuals with Disabilities Education Act (IDEA).

Recommendation for Declassification

If the student has been receiving special education services, but it is determined by the CSE that the student no longer needs special education services and can be placed in a regular educational program on a full-time basis, the recommendation shall:

- a) Identify the declassification support services, if any, to be provided to the student and/or the student's teachers; and
- b) Indicate the projected date of initiation of such services, the frequency of provision of such services, and the duration of these services, provided that such services shall not continue for more than one (1) year after the student enters the full-time regular education program.

Declassification Support Services

Declassification support services means those services provided to the student or the student's teacher(s) to aid in the student's transition from special education to full-time regular education. These services are provided by persons certified or licensed in the appropriate area of service pursuant to Commissioner's Regulations Part 80. Such services include:

- a) For the student: psychological services, social work services, speech and language improvement services, noncareer counseling, and other appropriate support services; and
- b) For the student's teacher(s): the assistance of supplementary school personnel and consultations with appropriate personnel.

When appropriate, the District shall provide declassification support services to students who have moved from special education to a full-time regular educational program in accordance with the recommendation of the CSE.

(Continued)

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES (Cont'd.)**Procedural Safeguards Notice**

The District shall use the procedural safeguards notice prescribed by the Commissioner of Education. The District will further ensure that the procedural safeguards notice is provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the District shall take steps to ensure that the notice is translated orally or by other means to the parent in his/her native language or other mode of communication; that the parent understands the content of the notice; and that there is written evidence that all due process procedures, pursuant to law and/or regulation, have been met.

Individuals with Disabilities Education Improvement Act of 2004 [Public Law 108-446 Individuals with Disabilities Education Act (IDEA), 20 United States Code (USC) Section 1400 et seq.

Students

SUBJECT: DISTRICT POLICY REGARDING RESPONSE TO INTERVENTION (RTI) PROCESS

In accordance with Commissioner's Regulations, the School District has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

Minimum Requirements of District's RTI Program

The District's RTI process shall include the following minimum requirements:

- a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates;
- c) Universal screenings for all students (K through 11) are to be conducted three (3) times per academic year (fall, winter, spring). The specific screenings for each grade level are identified in the District's RTI Plan. This plan is reviewed annually by the Board of Education;
- d) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- e) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards.

Structure of Response to Intervention Program

The District's RTI program will consist of multiple tiers of instruction/assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

(Continued)

SUBJECT: DISTRICT POLICY REGARDING RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

Student Support Teams, whose members may include, but are not limited to, regular education teachers, special education data teams personnel, the school psychologist, reading and math coordinators, designated administrators, and other individuals deemed appropriate by the District, will be available for each building/grade level classification to address the implementation of the District's RTI process.

The Student Support Team data teams' responsibilities shall include, but are not limited to, the following:

- a) Determining the level of interventions/student performance criteria appropriate for each tier of the RTI model;
- b) Analyzing information/assessments concerning a student's response to intervention and making educational decisions about changes in goals, instruction and/or services;
- c) Determining whether to make a referral for special education programs and/or services.

Criteria for Determining the Levels of Intervention to be Provided to Students

Grade levels/assessment guidelines for targeted areas of student performance in accordance with Commissioner's Regulations to identify students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards are specified in the District's RTI Plan.

Assessment measures/tools and the corresponding scores or levels of proficiency below which students shall be considered for increasingly intensive levels of targeted intervention and instruction are specified in the District's RTI Plan.

Types of Interventions – Instruction Matched to Student Need

The Depew Union Free School District's process to determine if a student responds to scientific, research-based instruction shall include instruction matched to student need with increasingly intensive levels of targeted intervention and instruction for students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards (NYCRR 100.0).

(Continued)

Students

SUBJECT: DISTRICT POLICY REGARDING RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**MULTI-TIER SERVICE
DELIVERY MODEL**

A multi-tiered system can be viewed as layers of increasingly intense intervention that respond to student-specific needs (a continuum of instructional support provided to a student).

**LEVELS OF INTERVENTION:
TIER 1 INSTRUCTION**

Tier 1 is commonly identified as the core instructional program provided to all students by the general education teacher in the general education classroom. Research-based instruction and program. Depew's core program (Tier 1) will minimally include:

- a) Core curriculum aligned to the NYS learning standards;
- b) Appropriate instruction and research-based, instructional interventions that meets the needs of at least eighty percent (80%) of all learners;
- c) Universal screening administered to all students in the general education classroom three (3) times per year;
- d) Weekly progress monitoring of students initially identified as at-risk for five (5) or six (6) weeks;
- e) Differentiated instruction based on the abilities and needs of all students in the core program; and
- f) A daily uninterrupted 90-minute block of instruction in reading (K through 5).

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two level of instruction.

**LEVELS OF INTERVENTION:
TIER 2 INSTRUCTION**

Tier 2 intervention is typically small group supplemental instruction. This supplemental instructional intervention **is provided in addition to**, and not in place of, the core instruction provided in Tier 1. For example, a student who is receiving Tier 2 intervention would be provided core instruction plus twenty (20) to thirty (30) minutes of supplemental interventions three (3) to five (5) days per week. Tier 2 interventions focus on the areas of student need or weakness that are identified in the screening, assessment or progress monitor reports from Tier 1. Therefore, students are often grouped according to instructional need. The location of Tier 2 intervention is determined by the school. It may take place in the general education classroom or in an alternate location outside of the general education classroom.

(Continued)

Students

**SUBJECT: DISTRICT POLICY REGARDING RESPONSE TO INTERVENTION (RTI)
PROCESS (Cont'd.)**

Tier 2 instruction may be provided by specialized staff such as reading and math teachers, tutors, speech therapists, school psychologists and/or school counselors as determined by the Student Support Team.

At the conclusion of Tier 2 instruction, the Student Support Team will review the student's progress and make a determination as to whether Tier 2 interventions should be maintained; the student returned to the general education classroom if satisfactory progress is shown; or referred for Tier 3 instruction.

**LEVELS OF INTERVENTION:
TIER 3 INSTRUCTION**

Tier 3 intervention is designed for those students who demonstrate insufficient progress in Tier 2. Tier 3 is typically reserved for approximately one to five percent (1%-5%) of students in a class who will receive more intensive instruction in addition to their core instruction. Tier 3 differs from Tier 2 instruction in terms of such factors as time, duration, group size, frequency of progress monitoring and focus. This tier provides greater individualized instruction in small group setting [generally one (1) to two (2) students at a time] anywhere from thirty (30) to sixty (60) minutes at a minimum of four (4) days per week. The progress of students at Tier 3 is monitored more frequently, at least once a week, to determine the student's response to intervention. The setting for Tier 3 intervention is determined by school personnel. It is important to note that Tier 3 is considered supplemental instruction to Tier 1 and is not intended to replace Tier 1 instruction. Similar to Tier 2, school personnel must conduct regular fidelity checks to determine if the intervention was implemented the way it was intended.

Tier 3 instruction will be provided by those specialists, as determined by the Student Support Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the Committee on Special Education.

Progress monitoring on a continuous basis is an integral part of Tier 3; and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

(Continued)

SUBJECT: DISTRICT POLICY REGARDING RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Amount and Nature of Student Performance Data to be Collected**

The Student Support Team/Data Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RTI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The Student Support Team/Data Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RTI program from the initial screening to completion of the RTI process as applicable. Parents may also request that the progress of their child be reviewed by the Student Support Team.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RTI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period/intervention process.

Staff Development

All staff members involved in the development, provision and/or assessment of the District's RTI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

Parent Notification

Written notification shall be provided to parents when their child requires an intervention beyond that provided to all students in the general education classroom (begins receiving Tier 2 interventions). Such written notice shall include the following information:

- a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RTI process;

(Continued)

**SUBJECT: DISTRICT POLICY REGARDING RESPONSE TO INTERVENTION (RTI)
PROCESS (Cont'd.)**

- b) Strategies for increasing the child's rate of learning; and
- c) The parents' right to request an evaluation for special education programs and/or services.

Section 200.4(j) of the Regulations of the Commissioner of Education requires the parents/guardians of students suspected of having a learning disability to receive data-based documentation of the student's achievement at reasonable intervals reflecting formal assessment of a student's progress based upon progress monitoring data collected within each Tier.

34 Code of Federal Regulations (CFR) Sections 300.309 and 300.311

Education Law Sections 3208, 4002, 4401, 4401-a, 4402, 4402, and 4410

8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(ii), 200.2(b)(7), 200.4(a), 200.4(j)(3)(i), and 200.4(j)(5)(i)(g)

SUBJECT: USE OF TIME OUT ROOMS

Except as provided pursuant to 8 New York Code of Rules and Regulations (NYCRR) Section 200.22(c) as referenced below, the School District shall not employ the use of time out rooms as a means of regulating student behavior.

Pursuant to Commissioner's Regulations, a time out room is defined "as an area for a student to safely deescalate, regain control and prepare to meet expectations to return to his/her education program." If a time out room is to be used, it must be used in conjunction with a behavioral intervention plan (that is designed to teach and reinforce alternative appropriate behaviors) in which a student is removed to a supervised area in order to facilitate self-control or when it is necessary to remove a student from a potentially dangerous situation and for unanticipated situations that pose an immediate concern for the physical safety of a student or others.

The District has adopted and implemented the following policy and procedures governing school use of time out rooms as part its behavior management approach consistent with Commissioner's Regulations, including the physical and monitoring requirements, parental rights and individualized education program (IEP) requirements for students with disabilities.

At a minimum, the use of time out rooms shall be governed by the following rules and standards:

- a) The District prohibits placing a student in a locked room or space or in a room where the student cannot be continuously observed and supervised. The time out room shall be unlocked and the door must be able to be opened from the inside. The use of locked rooms or spaces for purposes of time out or emergency interventions is prohibited.

Staff shall continuously monitor the student in a time out room. The staff must be able to see and hear the student at all times.

Under no circumstances shall a time out room in a school program be used for seclusion of the student, where the term "seclusion" is interpreted to mean placing a student in a locked room or space or in a room where the student is not continuously observed and supervised.

- b) Factors which may precipitate the use of the time out room:

Must be determined by CSE and written into students Behavior Intervention Plan and students Individual Education Plan (IEP).

- c) Time limitations for the use of the time out room:

Determined on an individual basis as stated in students Behavior Intervention Plan and documented in student Individual Education Plan (IEP).

(Continued)

Students

SUBJECT: USE OF TIME OUT ROOMS (Cont'd.)

Further, a student's IEP shall specify when a behavioral intervention plan includes the use of a time out room for a student with a disability, including the maximum amount of time a student will need to be in a time out room as a behavioral consequence as determined on an individual basis in consideration of the student's age and individual needs.

School administration or other personnel shall be notified in the event a student is placed in a time out room for excessive amounts of time; and such information shall be considered when determining the effectiveness of the student's behavioral intervention plan and the use of the time out room for the student. Whether the student requires a debriefing following the use of a time out room shall be left to the staff knowledgeable about the individual student.

d) Staff training on the policies and procedures related to the use of time out rooms shall include, but not be limited to, the following measures:

1. The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Commissioner's Regulations relating to the use of time out rooms, including members of the Committee on Special Education (CSE) and Committee on Preschool Special Education (CPSE).
2. Training provided through Erie 1 BOCES and/or other designated agencies.

e) Data collection to monitor the effectiveness of the use of time out rooms:

District schools shall establish and implement procedures to document the use of time out rooms, including information to monitor the effectiveness of the use of the time out room to decrease specified behaviors. Such data would be subject to review by the State Education Department (SED) upon request.

Such data collection should appropriately include, but is not limited to, the following information:

1. A record for each student showing the date and time of each use of the time out room;
2. A detailed account of the antecedent conditions/specific behavior that led to the use of the time out room;
3. The amount of time that the student was in the time out room; and
4. Information to monitor the effectiveness of the use of the time out room to decrease specified behaviors which resulted in the student being placed in the room.

(Continued)

SUBJECT: USE OF TIME OUT ROOMS (Cont'd.)f) Information to be provided to parents.

The School District shall inform the student's parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room for a student, and shall give the parent the opportunity to see the physical space that will be used as a time out room and provide the parent with a copy of the school's policy on the use of time out rooms.

Additionally, parents should be notified if their child was placed in a time out room. Minimally, *whenever a time out room is used as an emergency intervention* pursuant to Commissioner's Regulations Section 200.22(d), the parent shall be notified of the emergency intervention. Such notification will be provided the same day whenever possible.

The parent is a member of the CSE and the use of a time out room must be included on the student's IEP. The parent receives prior notice as to the recommendations on a student's IEP and may request due process in the event the parent does not agree with the CSE recommendations.

Parent reports of alleged inappropriate interventions used in a time out room should be directed to school administrators.

Physical Space Used as a Time Out Room

The physical space used as a time out room must meet certain standards:

- a) The room shall provide a means for continuous visual and auditory monitoring of the student.
- b) The room shall be of adequate width, length and height to allow the student to move about and recline comfortably.
- c) Wall and floor coverings should be designed to prevent injury to the student, and there shall be adequate lighting and ventilation.
- d) The temperature of the room shall be within the normal comfort range and consistent with the rest of the building.
- e) The room shall be clean and free of objects and fixtures that could be potentially dangerous to a student and shall meet all local fire and safety codes.

Students

SUBJECT: STUDENTS WITH DISABILITIES PARTICIPATING IN SCHOOL DISTRICT PROGRAMS

All students with disabilities residing in the District, including those of preschool age, shall be provided with full access and opportunity to participate in School District programs, including extracurricular programs and activities, that are available to all other students enrolled in the public schools of the District. Parents/guardians of students with disabilities, including those students placed in out-of-District programs, shall receive timely notice of such District programs and activities.

Students

SUBJECT: SECTION 504 OF THE REHABILITATION ACT OF 1973

The Board of Education affirms its compliance with those sections of the Rehabilitation Act of 1973 dealing with program accessibility.

Section 504 of the Rehabilitation Act prohibits discrimination against qualified individuals with disabilities in federally assisted programs or activities solely on the basis of disability. The District shall make its program and facilities accessible to all its students with disabilities.

The District shall also identify, evaluate and extend to every qualified student with a disability under Section 504 a free, appropriate public education, including modifications, accommodations, specialized instruction or related aids and services, as deemed necessary to meet their educational needs as adequately as the needs of non-disabled students are met.

The District official responsible for coordination of activities relating to compliance with Section 504 is the Superintendent of Schools. This official shall provide information, including complaint procedures, to any person who feels his/her rights under Section 504 have been violated by the District or its officials.

Prohibition Against Disability-Based Discrimination in Accelerated Programs

The practice of denying, on the basis of disability, a qualified student with a disability the opportunity to participate in an accelerated program violates both Section 504 and Title II. A school district may not impose or apply eligibility criteria that screens out or tends to screen out a student with a disability from fully and equally enjoying any service, program, or activity, unless such criteria can be shown to be necessary.

It is also unlawful to deny a student with a disability admission to an accelerated class or program solely because of his/her need for special education or related aids or services (i.e., related services, supplementary aids and services, program modification and supports for school personnel) or because the student has an Individualized Education Program (IEP) or a plan under Section 504.

Schools may employ appropriate eligibility requirements or criteria in determining whether to admit students, including students with disabilities, into accelerated classes or programs. Additionally, nothing in Section 504 or Title II requires schools to admit into accelerated classes or programs students with disabilities who would not otherwise be qualified for these classes or programs.

Americans With Disabilities Act, 42 United States Code (USC) Section 12101 et seq.
Individuals with Disabilities Education Act (IDEA), 20 United States Code (USC) Section 1400 et seq.
Section 504 of the Rehabilitation Act of 1973, 29 United States Code (USC) Section 794 et seq.

SUBJECT: ACCESSIBLE PORT-A-POTTY

In compliance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, the Depew Union Free School District will provide an accessible port-a-potty on the District's playing field during the School District's regularly scheduled athletic seasons. Such facility will be placed at a smooth surface with an accessible path of travel to and from the bleachers and will be provided on a seasonal basis.

**SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON SPECIAL
EDUCATION (CSE)/SUBCOMMITTEE ON SPECIAL EDUCATION
MEMBERS**

Committee on Special Education (CSE) Membership

The Board of Education shall appoint a Committee on Special Education (CSE) whose membership shall include, but not be limited to, the following members:

- a) The parent(s) or persons in parental relation of the student. To ensure that one or both parents are present at each CSE meeting, the District and the parent(s) may agree to use alternative means of participation such as videoconferences or conference phone calls;
- b) Not less than one (1) regular education teacher of such student (if the student is, or may be, participating in the regular education environment);
- c) Not less than one (1) special education teacher of the student, or, where appropriate, not less than one (1) special education provider (i.e., related service provider) of such student;
- d) A representative of the School District who is qualified to provide or administer or supervise special education and who is knowledgeable about the general education curriculum and about the availability of resources of the District. An individual who meets these qualifications may be the same individual appointed as the special education teacher or provider in c) above or the school psychologist in i) below. The representative of the District will serve as the Chairperson of the Committee;
- e) An individual who can interpret the instructional implications of evaluation results, who may be a CSE member selected from the regular education teacher, the special education teacher or provider, the school psychologist, or the School District representative described above, or a person having knowledge or special expertise regarding the student as determined by the District;
- f) A member as described in letters b) through e) of this subheading is not required to attend the CSE meeting, in whole or in part, if the parent/person in parental relation to the student with a disability and the School District agree, in writing not less than five (5) calendar days prior to the meeting date, that the attendance of the member is not necessary because:
 - 1. The member's area of the curriculum or related services is not being modified or discussed in the meeting; or
 - 2. The member's area of the curriculum or related services is being modified or discussed in the meeting but, not less than five (5) calendar days prior to the meeting, the excused member has submitted to the parents/persons in parental relation and the CSE written input into the development of the IEP, particularly with respect to their area of curriculum or related services; or

(Continued)

SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON SPECIAL EDUCATION (CSE)/SUBCOMMITTEE ON SPECIAL EDUCATION MEMBERS (Cont'd.)

3. The committee member is unable to attend due to an emergency or unavoidable scheduling conflict and the District submits the written input listed in 2. above to the parents/persons in parental relation within a reasonable time prior to the meeting and prior to obtaining written consent to the excusal by the parents/persons in parental relation;
- g) At the discretion of the parent or the District, other individuals who have knowledge or special expertise regarding the student, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the Committee;
- h) Whenever appropriate, the student with a disability. The District must invite a child with a disability to attend the child's CSE meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals. If the child does not attend the CSE meeting, the District must take other steps to ensure that the child's preference and interests are considered. To the extent appropriate, with the consent of the parent or a student eighteen (18) years or older, the District must also invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services;
- i) A school psychologist;
- j) A school physician, if requested in writing at least seventy-two (72) hours prior to the meeting by the parents of the student or the School District; and
- k) An additional parent residing in the District or a neighboring school district who is a parent of a student with a disability, a parent of a student who has been declassified and is no longer eligible for an individualized education program (IEP), or a parent of a disabled child who has graduated. This parent member may serve for a period of five (5) years beyond the student's declassification or graduation, provided that the parent shall not be employed by or under contract with the School District. Such parent is not a required member if the parents of the student request, in writing, that the additional parent member not participate in the meeting.

Subcommittee on Special Education Membership

The Board of Education shall appoint, as necessary, a Subcommittee on Special Education whose membership shall include, but not be limited to, the following members:

- a) The parent(s) of the student;

(Continued)

Students

**SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON SPECIAL
EDUCATION (CSE)/SUBCOMMITTEE ON SPECIAL EDUCATION
MEMBERS (Cont'd.)**

- b) Not less than one (1) regular education teacher of such student (if the student is, or may be, participating in the regular education environment);
- c) Not less than one (1) special education teacher, of the student, or where appropriate, not less than one (1) special education provider (i.e., related service provider) of such student;
- d) A representative of the School District who is qualified to provide or administer or supervise special education and who is knowledgeable about the general education curriculum and about the availability of resources of the District. This individual may also fulfill the requirements of c) or e) of this section. The representative of the District will serve as the Chairperson of the Subcommittee;
- e) A school psychologist, whenever a new psychological evaluation is reviewed or a change to a program option with a more intensive staff/student ratio, as set forth in Section 200.6(f)(4) of the Regulations of the Commissioner, is considered;
- f) A member as described in letters b) through e) of this subheading is not required to attend the subcommittee meeting, in whole or in part, if the parent/person in parental relation to the student with a disability and the School District agree, in writing not less than five (5) calendar days prior to the meeting date, that the attendance of the member is not necessary because:
 - 1. The member's area of the curriculum or related services is not being modified or discussed in the meeting; or
 - 2. The member's area of the curriculum or related services is being modified or discussed in the meeting but, not less than five (5) calendar days prior to the meeting, the excused member has submitted to the parents/persons in parental relation and the CSE written input into the development of the IEP, particularly with respect to their area of curriculum or related services; or
 - 3. The committee member is unable to attend due to an emergency or unavoidable scheduling conflict and the District submits the written input listed in 2. above to the parents/persons in parental relation within a reasonable time prior to the meeting and prior to obtaining written consent to the excusal by the parents/persons in parental relation;
- g) At the discretion of the parent or the Committee, other individuals who have knowledge or special expertise regarding the student, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the Subcommittee;

(Continued)

Students

SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON SPECIAL EDUCATION (CSE)/SUBCOMMITTEE ON SPECIAL EDUCATION MEMBERS (Cont'd.)

- h) An individual who can interpret the instructional implications of evaluation results, who may be a member described in letters "b" through "g" of this subheading; and
- i) Whenever appropriate, the student with a disability.

Training

The training of qualified personnel is essential to the effective implementation of the Regulations of the Commissioner of Education regarding the education of all students with disabilities.

The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Part 200 of the Commissioner's Regulations as well as members of the Committee on Special Education.

Alternative Means of Meeting

When conducting a meeting of the Committee on Special Education (CSE), the parent and the representative of the District appointed to the CSE may agree to use alternative means of meeting participation, such as videoconferences and conference calls.

Individuals with Disabilities Education Act (IDEA) 20 United States Code (USC) Section 1400 et seq.
34 Code of Federal Regulations (CFR) Part 300 and Section 300.321
Education Law Section 4402
8 New York Code of Rules and Regulations (NYCRR) Sections 200.2(b)(3), 200.3, and 200.4(d)(4)(i)(d)

NOTE: Refer also to Policies #7613 -- The Role of the Board in Implementing a Student's Individualized Education Program
#7632 -- Appointment and Training of Committee on Preschool Special Education (CPSE) Members

Adopted: 7/12/11

**SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON PRESCHOOL
SPECIAL EDUCATION (CPSE) MEMBERS**

Committee on Preschool Special Education (CPSE) Membership

The Board of Education shall appoint a Committee on Preschool Special Education (CPSE) whose membership shall include, but not be limited to, the following members:

- a) The parent(s) of the preschool child. To ensure that one or both parents are present at each CPSE meeting, the District and the parent(s) may agree to use alternative means of participation such as video conferences or conference phone calls;
- b) Not less than one (1) regular education teacher of such child (if the child is, or may be, participating in the regular education environment);
- c) Not less than one (1) special education teacher of the child or, where appropriate, not less than one (1) special education provider (i.e., related service provider) of such child;
- d) A representative of the School District who is qualified to provide, or supervise the provision of, special education and who is knowledgeable about the general education curriculum and about the availability of preschool special education programs and services and other resources of the District and the municipality (who shall serve as Chairperson of the CPSE);
- e) An individual who can interpret the instructional implications of evaluation results, who may be a member of the team selected from the regular education teacher, the special education teacher or provider, the school psychologist, the School District representative described above, or a person having knowledge or special expertise regarding the student as determined by the District;
- f) At the discretion of the parent or the District, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate. The determination of knowledge or special expertise shall be made by the party (parents or School District) who invited the individual to be a member of the committee;
- g) An additional parent of a child with a disability who resides in the School District or a neighboring school district, and whose child is enrolled in a preschool or elementary level education program provided that such parent shall not be employed by or under contract with the School District or municipality; and provided further that such parent shall not be a required member if the parents of the child request, in writing, that the additional parent member not participate in the meeting;

(Continued)

Students

SUBJECT: APPOINTMENT AND TRAINING OF COMMITTEE ON PRESCHOOL SPECIAL EDUCATION (CPSE) MEMBERS (Cont'd.)

- h) For a child's smooth transition from early intervention programs and services (Infant and Toddler Programs), at the request of the parent/person in parental relation, the appropriate professional designated by the agency that has been charged with the responsibility for the preschool child; and
- i) A representative from the municipality of the preschool child's residence. Attendance of the appointee of the municipality is not required for a quorum.

However, except for the parents/persons in parental relation and the appointee from the municipality (a) and i) above) a member of the CPSE is not required to attend a meeting of the team in whole or in part if the parent/person in parental relation and the District agree in writing that the attendance is not necessary because the member's area of the curriculum or related services is not being modified or discussed at that meeting.

Additionally, a member as described in letters b) through h) of this subheading may be excused from attending the CPSE meeting, in whole or in part, if the parent/person in parental relation to the student with a disability and the School District agree, in writing to the excusal not less than five (5) calendar days prior to the meeting date, that the attendance of the member is not necessary because:

- a) The member's area of the curriculum or related services is being modified or discussed in the meeting but, not less than five (5) calendar days prior to the meeting, the excused member has submitted to the parents/persons in parental relation and the CSE written input into the development of the IEP, particularly with respect to their area of curriculum or related services; or
- b) The committee member is unable to attend due to an emergency or unavoidable scheduling conflict and the District submits the written input listed in a) above to the parents/persons in parental relation within a reasonable time prior to the meeting and prior to obtaining written consent to the excusal by the parents/persons in parental relation.

Training

The training of qualified personnel is essential to the effective implementation of the Regulations of the Commissioner of Education regarding the education of all students with disabilities.

The Director of Special Education shall be responsible to the Superintendent for establishing administrative practices and procedures for training all District personnel responsible for carrying out the provisions of Part 200 of the Commissioner's Regulations as well as members of the Committee on Preschool Special Education.

NOTE: Refer also to Policies #7613 -- The Role of the Board in Implementing a Student's Individualized Education Program
#7614 -- Preschool Special Education Program
#7631 -- Committee on Special Education/Subcommittee on Special Education Members

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION****Development of Individualized Education Program**

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

Such an Individualized Education Program (IEP) will be developed by the CSE or CPSE upon referral, and reviewed or revised, whichever is appropriate, for every child with a disability at least annually or in the event that the program no longer appears to be appropriate to meet the student's needs and ability level.

The District shall ensure that each student with a disability has an IEP in effect at the beginning of each school year.

Functional Behavioral Assessments/Behavioral Intervention Plans

A functional behavioral assessment (FBA) is an integral part of the evaluation and reevaluation of a student with a disability which should be used throughout the process of developing, reviewing and revising a student's IEP when the student's behavior impedes learning of the child or others. The FBA is the process of determining why a student engages in challenging behavior and how the student's behavior relates to the environment.

The FBA provides a baseline of the student's problem behaviors with regard to frequency, duration, intensity and/or latency across activities, settings, people and times of the day and includes:

- a) The identification of the problem behavior,
- b) The definition of the behavior in concrete terms,
- c) The identification of the contextual factors that contribute to the behavior (including cognitive and affective factors), and
- d) The formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

The CSE/CPSE will ensure that functional behavioral assessments, when appropriate, are conducted and reviewed to:

- a) Identify supplementary aids and services, modifications and/or related services appropriate to address the identified behaviors to promote the student's involvement and progress in the general curriculum;

(Continued)

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

- b) Determine a student's eligibility for special education services;
- c) Develop the IEP which includes behavioral goals and objectives and positive behavioral supports and strategies.

In the case of a student whose behavior impedes his/her learning or that of others, the CSE/CPSE shall consider strategies, including positive behavioral interventions and supports and other strategies to address that behavior. The need for a behavioral intervention plan (BIP) shall be documented on the IEP and such plan shall be reviewed at least annually by the CSE/CPSE. In addition, regular progress monitoring of the frequency, duration and intensity of the behavioral interventions shall be conducted at scheduled intervals, documented and reported to the parents and CSE/CPSE.

A behavioral intervention plan may not include the use of aversive interventions or time out rooms except in accordance with specific Board policy regulating these techniques.

Individual Evaluations

Parental consent must be provided for an initial evaluation. If such consent is not received within thirty (30) calendar days of receipt of the referral, the CSE/CPSE Chairperson will document all attempts made to obtain the consent and, if appropriate, advise the Board of its right to utilize the due process procedures to conduct an evaluation without parental consent.

Unless a referral is withdrawn, an individual evaluation at no cost to the parent will be completed by the CSE/CPSE within sixty (60) calendar days after written parental consent has been obtained or a parental refusal to consent is overridden, unless:

- a) An extension is mutually agreed to by the parent and the CSE/CPSE for the following situations:
 - 1. Transfer students: A student enrolls in the District after sixty (60) days and prior to a determination by the student's previous school district as to whether the student has a disability, but only if the new school district is making sufficient progress to ensure a prompt completion of the evaluation and the parent and the new district agree in writing to a specific timeframe for completion; or
 - 2. Students suspected of having learning disabilities; or
- b) The parent or student repeatedly fails or refuses to produce the student for evaluation.

(Continued)

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

No student shall be required to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving an evaluation.

The individual evaluation will include a variety of assessment tools and strategies, including information provided by the parent. The purpose of the evaluation is to gather relevant functional, developmental and academic information that may assist in determining whether the student is a student with a disability and the content of the student's IEP. This shall include information relating to enabling the student to participate and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities).

As part of any evaluation, a group that includes the CSE/CPSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents of the student, current classroom-based assessments, local or state assessments, classroom-based observations, and observations by teachers and related services providers. In addition, the group will consider information about the student's physical condition, social or cultural background, and adaptive behavior.

On the basis of that review, and input from the student's parents, the group shall identify what additional data, if any, are needed to determine:

- a) Whether the student has or continues to have a disability;
- b) The present levels of academic achievement and related developmental needs of the student, including:
 - 1. Academic achievement, functional performance, and learning characteristics;
 - 2. Social development;
 - 3. Physical development; and
 - 4. Management needs.
- c) In the case of a reevaluation of a student, whether the student continues to need special education; and
- d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goals set out in the IEP of the student and to participate, as appropriate, in the general education curriculum.

(Continued)

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

If additional data are not needed, the District must notify the parents of that determination and the reasons for it and of the right of the parents to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability and to determine the student's educational needs. The District is not required to conduct the assessment unless requested to do so by the student's parents.

The determination that a student has a learning disability will be made in accordance with the procedures outlined in Section 200.4(j) of Commissioner's Regulations.

Individual Re-evaluations

A CSE/CPSE shall arrange for an appropriate re-evaluation of each student with a disability:

- a) If the District determines that the educational or related services needs, including improved academic achievement and functional performance of the student warrant re-evaluation;
- b) If the student's parent or teacher request a re-evaluation;
- c) At least once every three (3) years, unless the District and the parent/person in parental relation agree in writing that such re-evaluation is unnecessary.

A re-evaluation shall not be conducted more frequently than once a year unless the parent and the District representative appointed to the CSE/CPSE agree otherwise.

The re-evaluation will be conducted by a multi-disciplinary team or group of persons, including at least one (1) teacher or other specialist with knowledge in the area of the student's disability. The re-evaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any re-evaluations must be addressed by the CSE/CPSE in reviewing, and as appropriate, revising the student's IEP.

To the extent possible, the District shall encourage the consolidation of re-evaluation meetings for the student and other CSE/CPSE meetings for the student.

Amendments to the IEP

Amendments to the IEP made after the annual review by the CSE/CPSE may be made by reconvening the CSE/CPSE and rewriting the IEP or by developing a written document to amend or modify the student's current IEP, provided that:

- a) The parents/persons in parental relation request an amendment to the IEP and the District and parents/persons in parental relation agree to the amendment in writing; or

(Continued)

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

- b) The District provides the parents/persons in parental relation a written proposal to amend a provision or provisions of the IEP conveyed in language understandable to the parents/persons in parental relation in their native language or other dominant mode of communication, informs and allows the parents/persons in parental relation the opportunity to consult with the appropriate personnel or related service providers concerning the proposed changes, and the parents/persons in parental relation agree in writing to the amendments.

If the parents/persons in parental relation agree to amend the IEP without a meeting, they shall be provided prior written notice (notice of recommendation) of the changes to the IEP and the Committee notified of the changes. If the changes are made by rewriting the entire IEP, the District shall provide the parents/persons in parental relation a copy of the rewritten IEP. If the amendment is made without rewriting the entire document, the District shall provide a copy of the document that amends the IEP or, upon request, a revised copy of the entire IEP with the amendments incorporated.

Use of Recording Equipment at IEP Meetings

The Board of Education shall allow recording equipment to be used at meetings regarding individualized education programs for students with disabilities.

Provision of Individualized Education Program

The Board of Education directs that the Superintendent/designee(s) establish administrative practices and procedures to ensure that each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for the implementation of a student's IEP is *provided a paper or electronic copy of such student's IEP (including amendments to the IEP) prior to the implementation of such program*. For purposes of this policy, "other service provider" means a representative of another public school district, charter school, Board of Cooperative Educational Services (BOCES) or school enumerated in Education Law Articles 81, 85 or 89 where the student receives or will receive IEP services. Further, the District will designate at least one (1) school official who shall be responsible for maintaining a record of the personnel who have received IEP copies for each student.

Any copy of a student's IEP shall remain confidential in compliance with the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, and District policy regarding confidentiality of student records; and shall not be disclosed to any other person other than the parent of such student, except in accordance with federal and state laws and/or regulations. Appropriate training and information will be provided to designated school personnel, as applicable, to ensure the confidentiality of such information. Procedures will be established to ensure that copies of students' IEPs are stored in secure locations and retrieved or destroyed when such professionals are no longer responsible for implementing a student's IEP.

(Continued)

Students

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

The Chairperson of the CSE, CSE subcommittee, or CPSE *shall designate* for each student one (1) or, as appropriate, more than one (1) professional employee of the School District with knowledge of the student's disability and education program *who will be responsible to, prior to the implementation of the IEP, inform* each regular education teacher, special education teacher, related service provider, other service provider, supplementary school personnel (i.e., a teaching assistant or a teacher aide as defined in Commissioner's Regulations), and other provider and support staff person of his/her responsibility to implement the recommendations on a student's IEP, including the responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP. In selecting the professional staff person(s), the Chairperson could select himself/herself for this responsibility, another administrator, or a teacher, related service provider or other professional based on the particular circumstances of the student's disability and education program.

The School District shall also ensure that each teaching assistant, teacher aide and each other provider responsible for assisting in the implementation of a student's IEP has *the opportunity to review* a copy of the student's IEP (including amendments) prior to the implementation of such program. Further, each teaching assistant, teacher aide and such other provider responsible for assisting in the implementation of a student's IEP shall have *ongoing access* to a copy of the IEP, which may be the copy provided to the student's special education teacher or the teacher or related service provider under whose direction the supplementary school personnel or other provider works. However, the District may, at its discretion, provide a copy of the IEP to teaching assistants and/or teacher aides.

A copy of a student's IEP shall be provided to the student's parents at no cost to the student's parents.

Students

SUBJECT: TRANSITION SERVICES

Beginning not later than the first Individualized Education Program (IEP) to be in effect when the student is age fifteen (15) (and at a younger age, if determined appropriate), and updated annually, the student's IEP must include:

- a) A statement of the student's needs taking into account the student's strengths, preferences and interests as they relate to transition from school to post-school activities;
- b) Appropriate measurable postsecondary goals based upon age appropriate transition assessments relating to training, education, employment and, where appropriate, independent living skills;
- c) A statement of transition service needs that focuses on the student's courses of study, such as participation in advanced-placement courses or a vocational educational program;
- d) Needed activities to facilitate the student's movement from school to post-school activities, including instruction, related services, community experiences, the development of employment and other post-school adult living objectives and, when appropriate, acquisition of daily living skills and functional vocational evaluation; and
- e) A statement of the responsibilities of the District and participating agencies, when applicable, for the provision of such services and activities, before the student leaves the school setting, that promote movement from school to post-school opportunities.

In accordance with the Code of Federal Regulations, the District must invite a child with a disability to attend the child's CSE meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals. If the child does not attend the CSE meeting, the District must take other steps to ensure that the child's preference and interests are considered. To the extent appropriate, with the consent of the parent or a child who has reached the age of majority, the District must also invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services.

As defined by the Commissioner's Regulations, transition services means a coordinated set of activities for a student with a disability, designed within a results-oriented process that is focused on improving the academic and functional achievement of the student with a disability to facilitate movement from school to post-school activities. Post-school activities include, but are not limited to, post-secondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based on the student's strengths, preferences and interests and shall include needed activities in the following areas:

(Continued)

SUBJECT: TRANSITION SERVICES (Cont'd.)

- a) Instruction;
- b) Related services [the term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device];
- c) Community experiences;
- d) The development of employment and other post-school adult living objectives; and
- e) When appropriate, acquisition of daily living skills and provision of a functional vocational evaluation.

NOTE: Refer also to Policy #7617 – Declassification of Students with Disabilities

Students

SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS

The School District shall provide, directly or by contract, special services and/or programs during July and August (i.e., extended school year) to those students whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration in order to prevent substantial regression as determined by the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE). Written consent of the parent is required prior to initial provision of special education services in a twelve (12) month special service and/or program.

The CSE/CPSE must determine whether a student requires extended school year special education services and/or programs in order to prevent substantial regression. Substantial regression would be indicated by a student's inability to maintain developmental levels due to a loss of skill, set of skill competencies or knowledge during the months of July and August. In accordance with Commissioner's Regulations, students must be considered for twelve (12) month special services and/or programs to prevent substantial regression if they are:

- a) Students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention and who are placed in special classes; or,

Preschool students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention;
- b) Students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment and are placed in special classes; or

Preschool students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment;
- c) Students who are recommended for home and/or hospital instruction whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment; or

Preschool students whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment in the home; or
- d) Students, including preschool students, whose needs are so severe that they can be met only in a seven (7) day residential program; or

(Continued)

Students

SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS (Cont'd.)

- e) Students who are not in programs as described in subparagraphs (a) through (d) above during the period from September through June and who, because of their disabilities, exhibit the need for a twelve (12) month special service and/or program provided in a structured learning environment of up to twelve (12) months duration in order to prevent substantial regression as determined by the CSE; or

Preschool students who are not described in subparagraphs (a) through (d) above whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration to prevent substantial regression as determined by the Preschool Committee on Special Education (CPSE).

For students eligible for twelve (12) month services and/or programs, per Commissioner's Regulations Section 200.4(d)(2)(x), the student's Individualized Education Program (IEP) shall indicate the identity of the provider of services during the months of July and August, and, for preschool students determined by the CPSE to require a structured learning environment of twelve (12) months duration to prevent substantial regression, a statement of the reasons for such recommendation.

The IEP shall indicate the projected date of the review of the student's need for such services and shall indicate the recommended placement.

The State Education Department (SED) is authorized to approve programs and to establish State Aid reimbursement rates for all special services and programs provided during July and August, both public and private. Therefore, if the School District plans to operate a July/August program, the District must first apply to SED for approval in accordance with SED guidelines/procedures.

Students

SUBJECT: TRANSFER STUDENTS WITH DISABILITIES

To facilitate the transition of students with disabilities transferring into or out of the District the District shall:

- a) As the District of origin take reasonable steps to promptly respond to all requests from the new school district.
- b) As the new school district take reasonable steps to promptly obtain the student's records from the previous school, including the Individualized Education Program (IEP), supporting documents and any other records relating to the provision of special education services.
- c) Provide to a student with a disability (as defined in Section 200.1(zz) of Commissioner's Regulations) who transfers school districts within the same academic year a free appropriate education including services comparable to those described in the student's previous IEP.
 - 1. For transfers within New York State, the previously held IEP will be followed in consultation with the parents until the District adopts the previously held IEP or develops, adopts and implements a new IEP consistent with federal and State law and regulation.
 - 2. For transfers from outside New York State, in consultation with the parents the previously held IEP will be followed until the District conducts an evaluation and, if appropriate, develops a new IEP consistent with federal and State law and regulation.

**SUBJECT: IDENTIFICATION AND REGISTER OF CHILDREN WITH DISABILITIES
(CHILD FIND)**

The school district of residence is required to locate and identify all students with disabilities who reside in the District, including students who do not attend public school (with the exception of students with disabilities who are parentally placed in nonpublic schools outside the district of residence). Therefore, it is the policy of the Board of Education to conduct a census in order to have all children with disabilities within its jurisdiction under the age of twenty-one (21) identified, located and evaluated, including children of preschool age, homeless children, children who are wards of the State as defined in Commissioner's Regulations and children in all public and private agencies and institutions.

Any student suspected of having a disability is to be referred to the applicable Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) for evaluation and possible identification as a student with a disability.

Census data shall be reported by October 1 to the CSE/CPSE as appropriate. The CSE/CPSE will maintain and revise annually a register and related summary reports containing the data requirements indicated in Commissioner's Regulations.

Nonpublic School Students with Disabilities who are Parentally Placed

If the School District boundaries encompass a nonpublic school, the District, as the district of location, must develop and implement methods to identify, locate and ensure the identification and evaluation of students with disabilities who have been, or are going to be, parentally placed in such nonpublic school.

The child find activities must be similar to activities for students with disabilities in the public schools and must be completed in a time period comparable to that for other students attending public schools in the School District.

As the public school district of location, the District must consult with the nonpublic schools where students are parentally placed to determine an accurate count of students with disabilities attending such schools and receiving special education services.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools; or to Charter schools.

(Continued)

**SUBJECT: IDENTIFICATION AND REGISTER OF CHILDREN WITH DISABILITIES
(CHILD FIND) (Cont'd.)**

Provision of Special Education Services for Child Under Age Seven (7)

It is the responsibility of the Committee on Special Education (CSE) to provide special education services to a child with a disability under the age of seven (7) who is eligible for school-age services, not subject to compulsory attendance requirements and not on a regular school attendance register. These are children with disabilities who are eligible for school-age special education services that are no longer eligible for preschool special education services, but are not parentally placed in a nonpublic elementary school and not being home schooled.

8 New York Code of Rules and Regulations (NYCRR) Sections 200.2(a), 200.4 and 200.6(m)(3)

NOTE: Refer also to Policy #7160 -- School Census

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES

The Board of Education recognizes the rights of the parent/guardian to be fully informed of all information relevant to the identification, or change in identification, evaluation and educational placement of a child with a disability.

All due process procedures for parents/guardians and children in the Commissioner's Regulations shall be observed by the School District.

Definition of Parent

Parent means a birth or adoptive parent, a legally appointed guardian generally authorized to act as the child's parent or authorized to make educational decisions for the child, a person in parental relation to the child as defined in Education Law Section 3212, an individual designated as a person in parental relation pursuant to General Obligations Law Title 15-A including an individual so designated who is acting in the place of a birth or adoptive parent (including a grandparent, stepparent or other relative with whom the child resides), or a surrogate parent who has been appointed in accordance with Section 200.5(n) of Commissioner's Regulations. The term does not include the State if the student is a ward of the State.

A foster parent may act as a parent unless State law, regulations or contractual obligations with a State or local entity prohibit the foster parent from acting as a parent.

Unless a judicial decree identifies a specific person(s) to act as the parent or make educational decisions for the student, if one (1) or more parties is qualified to act as a parent, the birth or adoptive parent is presumed to be the parent unless they do not have the legal authority to do so.

Surrogate Parents

It is the duty of the School District to determine whether a child needs a surrogate parent and to assign a surrogate parent in the manner permitted under New York State law. This determination shall be completed within a reasonable time following the receipt of a referral for an initial evaluation or re-evaluation.

In the event that no parent or guardian for a child with a disability can be identified; or after reasonable efforts the whereabouts of the parent or guardian cannot be determined; or the student is an unaccompanied homeless youth; or the child with a disability is a ward of the State and does not have a "parent" as defined above; or the rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law; the Board shall assign an individual to act as a surrogate for the parents or guardians.

Alternatively, the surrogate parent may be appointed by a judge overseeing the child's case.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

The person selected as a surrogate shall have no interest that conflicts with the interest of the child he/she represents, and shall have knowledge and skills that ensure adequate representation of the child.

Prior Written Notice (Notice of Recommendation)

Prior written notice (notice of recommendation) must be given to parents of a student with a disability a reasonable time before the District proposes to, or refuses to, initiate or change the identification, evaluation, educational placement of the student or the provision of a free appropriate public education to the student. Prior written notice must also be provided informing the parents when no additional data is required to determine the student's educational needs, the reasons for this determination and their right to request an assessment.

If the prior written notice relates to a proposed action that also requires parental consent, the District must give notice at the same time it requests parental consent. The prior written notice will contain all elements required by Commissioner's Regulations.

A parent may elect to receive prior written notice and other required notifications by electronic mail (e-mail) communication if the District makes this option available.

Parent Participation in Meetings

The School District must take steps to ensure that one (1) or both of the parents of a child with a disability are present at each Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) meeting or are afforded the opportunity to participate in a mutually agreed upon time and place. The School District must document its attempts to involve parents, such as:

- a) Detailed records of telephone calls made or attempted and the results of these calls;
- b) Copies of correspondence sent to the parents and any responses received; and
- c) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

A meeting may be conducted without a parent in attendance if the School District is unable to convince the parents that they should attend.

Additionally, the School District must take whatever action is necessary to ensure the parent understands the proceedings of this meeting including arranging for an interpreter for parents with deafness or whose native language is other than English.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)**Parental Consent**

In accordance with due process, a parent [as defined in Commissioner's Regulations Section 200.1(l)] of a special education student or a student suspected of having a disability must provide informed consent before the School District can take certain actions. The District will make reasonable efforts to obtain written informed consent and will maintain a detailed record of its attempts and the results of the attempts.

In New York State, a noncustodial parent does not have the right to control educational decisions for his/her child. However, a noncustodial parent is afforded this right if, and only if, this right is expressly included in a custody order.

Additionally, absent supporting language in a custody order, a noncustodial parent lacks standing under Individuals with Disabilities Education Act (IDEA) to bring a claim to assert control over his/her child's educational program. Until recent revisions to New York law, consent for an initial evaluation, reevaluation, or the provision of special education services needed to be provided by a parent (i.e., the custodial or noncustodial parent). As it now stands, the decision to provide consent for a CSE- or CPSE-related activity is considered an education-related decision designated exclusively to custodial parents unless a court order specifically states the contrary.

Consent for Evaluations

The parent or guardian must provide informed consent to the initial evaluation, or reevaluations in accordance with law and/or regulations. If a parent does not provide consent for an initial evaluation, the School District *may* pursue the evaluation by commencing a due process hearing to override the refusal to provide consent.

Parental consent for a reevaluation is not needed if the District can demonstrate that it has taken reasonable measures to obtain consent, but the parents or guardians have failed to respond.

Consent for the Initial Provision of Services

Parental consent is also required for the initial provision of special education services. Consent for an initial evaluation does not constitute consent for the initial provision of services. If a parent does not provide consent for the initial provision of services, the School District *shall not* provide the special education programs and services to the student and shall not use the due process procedures to challenge the parent's refusal to consent. The School District shall not be considered to be in violation of the requirements to provide a free appropriate public education (FAPE), shall not be required to convene a meeting of the committee on special education or develop an individualized education program (IEP).

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)Consent for Other Actions

Prior written consent must also be provided:

- a) Prior to releasing any personally identifiable information; and
- b) Prior to each time the District proposes to access a parent's private or public insurance. A Medicaid application does not meet the IDEA parent consent requirements. The District must obtain an annual parental consent to request Medicaid reimbursement.

A sample Medicaid Consent Form may be found at:

<http://www.vesid.nysed.gov/specialed/publications/sampleconsent.htm>

Consent for an Unaccompanied Homeless Youth

Consent may be provided by a surrogate parent. However, until a surrogate parent is appointed, consent may be provided on a temporary basis by an employee of a temporary housing facility operated or approved by a local social services district or a residential facility for runaway and homeless youth.

Consent for a Ward of the State

A ward of the State means a child or youth under the age of twenty-one (21):

- a) Who has been placed or remanded pursuant to Social Services Law or the Family Court Act or freed for adoption pursuant to Social Services Law; or
- b) Who is in the custody of the Commissioner of Social Services or the Office of Children and Family Services; or
- c) Who is a destitute child under Social Services Law.

In the event that a child is a ward of the State, the School District shall make reasonable efforts to obtain the informed consent from the parent of the child for an initial evaluation to determine whether the child is a child with a disability.

The School District is not required to obtain informed consent if:

- a) Despite reasonable efforts to do so, the School District cannot discover the whereabouts of the parent of the student, including consulting with the agency responsible for the care of the student; or

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

- b) The rights of the parents of the student have been terminated in accordance with State law; or
- c) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the student.

Consent for a Student Who is Home Instructed or Parentally Placed in a Private School at the Parent's Expense

If a parent of a student who is home instructed or placed in a private school by their parents at their own expense does not provide consent for an initial evaluation or reevaluation, or the parent fails to respond to a request to provide consent, the District may not continue to pursue those evaluations by using the due process procedures and the District is not required to consider the student as eligible for special education services.

Parental Revocation of Consent

Parental revocation of consent for continued provision of special education and related services must be in writing. When the parent revokes such consent, the District still must provide the parent with the usual written notice of its intentions with respect to the child.

If the parent of a student with a disability revokes his/her consent in writing for the continued provision of special education and related services to the student at any time subsequent to the initial provision of special education and related services, the District:

- a) Shall not continue to provide special education and related services to the student, but must provide prior written notice to the parent before ceasing the provisions of special education and related services;
- b) Shall not use due process procedures (i.e., mediation, resolution meeting, and/or impartial due process hearing) in order to obtain agreement or a ruling that the services may be provided to the student without parental consent;
- c) Shall not be considered to be in violation of the requirement to make a free and appropriate public education (FAPE) available to the student because of the failure to provide the student with further special education and related services following revocation of consent;
- d) Is not required to convene a meeting of the Committee on Special Education or develop an IEP for the student for further provision of special education programs and related services upon receipt of written revocation of consent; and

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

- e) Is not required to amend the student's education records to remove any references to the student's receipt of special education programs and services because of the revocation of consent.

Procedural Safeguards Notice

The School District will provide the procedural safeguards notice prescribed by the Commissioner of Education to the parents of a student with a disability at least one (1) time per year and also:

- a) Upon initial referral or parental request for evaluation;
- b) Upon the first filing of a due process complaint notice to request mediation or an impartial due process hearing;
- c) Upon request by a parent;
- d) Upon a decision to impose a suspension or removal that constitutes a disciplinary change in placement; and
- e) Upon first receipt of a State complaint.

Individuals with Disabilities Education Improvement Act of 2004 (Public Law 108-446) Section 614(a)
Individuals with Disabilities Education Act (IDEA), 20 United States Code (USC) Section 1400 et seq.
34 Code of Federal Regulations (CFR) Part 300
Education Law Sections 207, 3212, 4005, 4202, 4401 and 4402
8 New York Code of Rules and Regulations (NYCRR) Sections 200.1, 200.4(b)(6), and 200.5

NOTE: Refer also to Policy #7260 -- Designation of Person in Parental Relation

Adopted: 7/12/11

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS

The parent/person in parental relation of a student with a disability may file a written request with the Board for an impartial due process hearing with respect to any matter relating to the identification, evaluation, educational placement, provision of a free appropriate public education, manifestation determination or other matter relating to discipline. The Board may also initiate such hearing.

The School District is committed to making every effort to amicably resolve differences involving the educational programs for students with disabilities. Mediation will be available to resolve disputes involving any matter, including matters arising prior to the filing of a request for an impartial due process hearing. In addition, the District may establish procedures providing the opportunity to meet with a disinterested party from a community dispute resolution center for an explanation of the benefits of the mediation process.

For those exceptional circumstances where a more formal method is required, the impartial hearing process will be utilized. The Impartial Hearing Officer (IHO) renders a written decision after the parties present and refute evidence before him/her. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Impartial Due Process Hearing Process

The request for an impartial due process hearing must be submitted within two (2) years of the date the parent or the District knew or should have known about the alleged action forming the basis of the complaint. However, the two (2) year timeline does not apply if the parent was prevented from requesting the hearing due to specific misrepresentations by the District that it had resolved the problem or the District's withholding of information from the parent that is required by Commissioner's Regulations.

The following is an overview of the impartial due process hearing process/prehearing conference:

a) Due Process Complaint Notification

1. The parent or the School District may request an impartial due process hearing by first submitting a due process complaint notice.

A hearing may not be held until a due process complaint notice is filed. Either the parent, the District, or the attorney representing either party may present a complaint with respect to any matter relating to the identification, evaluation or educational placement of a student with a disability or a student suspected of having a disability, or the provision of a free appropriate public education to such student.

(Continued)

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

This written due process complaint notice must include:

- (a) The name of the student;
 - (b) The address of the student's residence or, in the case of a homeless student, available contact information;
 - (c) The name of the school the child is attending;
 - (d) A description of the nature of the problem of the student relating to the proposed or refused initiation or change, including facts relating to the problem; and
 - (e) A proposed resolution of the problem to the extent known and available to the party at the time.
- 2. The due process complaint notice will be deemed sufficient unless the party receiving the notice notifies the other party and the IHO in writing within fifteen (15) days of receiving the notice that they believe the notice requirements have not been met.
 - 3. Within five (5) days of the receipt of the notice of insufficiency, the IHO shall make a determination on the face of the notice of whether the notification meets the notice requirements and shall immediately notify the parties in writing of the determination.
 - 4. If the District has not sent a prior written notice (notice of recommendation) to the parent regarding the subject matter of the complaint notice, the District will send a response to the parent within ten (10) days of receiving the complaint which includes:
 - (a) An explanation of why the District proposed or refused to take the action raised in the complaint;
 - (b) A description of other options the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) considered and why those options were rejected;
 - (c) A description of each evaluation procedure, assessment, record, or report the District used as a basis for the proposed or refused action; and
 - (d) A description of the factors relevant to the District's proposal or refusal.

(Continued)

Students

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

5. Upon receipt or filing of the due process complaint notice, the District will provide the procedural safeguards notice to the parents. The District will also inform parents in writing of the availability of mediation and of any free or low-cost legal and other relevant services available in the area.
6. Within ten (10) days of receiving the complaint notice, the non-complaining party must send a response specifically addressing the issues raised in the notice.
7. A party may amend its due process complaint notice only if:
 - (a) The other party consents in writing and is given the opportunity to resolve the complaint through a resolution process;
 - (b) The IHO grants permission, but not later than five (5) days before the impartial due process hearing commences.

Applicable timelines for the impartial due process hearing will recommence at the time of the filing of the amended notice.

8. No issues may be raised at the impartial due process hearing that were not raised in the due process complaint notice.

b) Resolution Process

1. Within fifteen (15) days of receiving the due process complaint notice from the parents and prior to the due process hearing itself, the District shall convene a meeting with the parents and relevant members of the CSE/CPSE, as determined by the District and the parents, who have specific knowledge of the facts identified in the complaint. A representative of the District who has decision-making authority must attend. The attorney for the District may not attend unless the parent is accompanied by an attorney. At this resolution meeting, the District has the opportunity to resolve the complaint after the parents discuss their complaint and the facts forming its basis.

The District will take steps to ensure that one (1) or both of the parents of the student with a disability are present at the resolution meeting, including notifying parents of the meeting early enough to ensure that they will have the opportunity to attend and scheduling the resolution meeting at a mutually agreed on time and place and in a location that is physically accessible to the parents.

(Continued)

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

2. When conducting meetings and carrying out administrative matters (such as scheduling), the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.
 3. The parent and District may agree in writing to waive the resolution process or agree to use the mediation process to resolve the dispute.
 4. If a settlement is reached, the parties shall execute a legally binding agreement signed by the parent and the representative of the District who has authority to bind the District. This agreement is enforceable in court. However, either party may void the agreement within three (3) business days of the agreement's execution.
 5. If the District has not resolved the due process complaint to the satisfaction of the parents within thirty (30) days of receipt of the complaint notice, the impartial hearing process may begin.
 6. Except where the parties have jointly agreed to waive the resolution process or use mediation, the failure of a parent filing a due process complaint to participate in the resolution meeting will delay the timeline for the resolution process and due process hearing until the meeting is held:
 - (a) If the District is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented), the District may, at the conclusion of the thirty-day period, request that an IHO dismiss the parents' due process complaint.
 - (b) If the District fails to hold the resolution meeting within fifteen (15) days of receipt of the parent's due process complaint or fails to participate in the resolution meeting, the parent may seek the intervention of the IHO to begin the due process hearing timeline.
- c) Pre-Hearing Conference
- A pre-hearing conference (which may take place via telephone) may be scheduled by the IHO to simplify or clarify issues; establish dates for the completion of the hearing; identify evidence to be entered into the record; identify witnesses expected to provide testimony; and/or address other administrative issues. A transcript or written summary shall be entered into record by the IHO.

(Continued)

Students

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)**d) Impartial Due Process Hearing**

In the event the complaint is not resolved in a resolution process, the Board will arrange for an impartial due process hearing to be conducted. When carrying out administrative matters relating to an impartial due process hearing, such as scheduling, exchange of witness lists and status conferences, the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.

1. The District must immediately (but not later than two (2) business days after receipt of the due process complaint notice or mailing of the due process complaint notice to the parent) initiate the process to select an IHO. The District selects the IHO through a rotational selection process in accordance with regulatory timelines. The Superintendent's Secretary/District Clerk will be responsible for contacting IHOs and maintaining appropriate records.
2. The IHO must be certified by the Commissioner of Education, be independent and have access to the support and equipment necessary to perform the duties of an IHO. When the selected IHO indicates availability, the Board of Education must immediately appoint him/her. To expedite this process, the Board may designate one (1) or more of its members to appoint the IHO on behalf of the Board.
3. The IHO may not accept appointment unless he/she is available to make a determination of sufficiency of a due process complaint notice within five (5) days of receiving such a request and (unless an extension is granted) to initiate the hearing in a timely fashion.
 - (a) When the District files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after the date the IHO is appointed;
 - (b) When a parent files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after whichever of the following occurs first:
 - 1) The date the IHO receives the parties' written waiver of the resolution meeting; or
 - 2) The IHO receives the parties' written confirmation that a mediation or resolution meeting was held but no agreement could be reached; or

(Continued)

Students

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

- 3) The expiration of the thirty-day resolution period unless the parties agree in writing to continue mediation at the end of the thirty-day resolution period. In such case, the hearing or pre-hearing conference will commence within the first fourteen (14) days after the IHO is notified in writing that either party withdrew from mediation.
4. The hearing, or a prehearing conference, shall commence within the time frame specified in 3) above, unless an extension is granted pursuant to Commissioner's Regulations. The parties to the proceeding may be accompanied and advised by legal counsel and by individuals with special knowledge or training with respect to the problems of students with disabilities. Notably, if a parent prevails at an impartial due process hearing, he/she is entitled to reasonable attorney's fees, but not fees for his/her non-attorney advocate. Such fees are considered "expert fees" and are not recoverable under the current Individuals with Disabilities Education Act (IDEA).
5. Each party must disclose to all parties all evaluations completed by that date and recommendations based on the offering party's evaluation that they intend to use at the hearing not less than five (5) days prior to the hearing. The IHO may bar any party that fails to comply with this requirement from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.
6. In New York State, a party to an impartial due process hearing may be "represented" by a non-attorney. Commissioner's Regulation directs that parents, school authorities, and their respective counsel or "representative" shall have an opportunity to present evidence, compel the attendance of witnesses and to confront and question all witnesses at the hearing. Each party shall have the right to prohibit the introduction of any evidence, the substance of which has not been disclosed to all parties at least five (5) business days prior to the due process hearing.
7. The hearing will be conducted at a time and location that is reasonable and convenient to the parent and the student involved. The hearing shall be closed to the public unless the parent requests an open hearing.
8. The role and responsibilities of the IHO will be as enumerated in Commissioner's Regulations. At all stages of the proceeding, the IHO may assist an unrepresented party by providing information relating only to the hearing process. However, nothing shall impair or limit the authority of the IHO to ask questions of counsel or witnesses for the purpose of clarification or completeness of the record.

Students

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

9. The student shall remain in his/her current placement during the pendency of the impartial due process hearing unless both parties agree or accept as otherwise provided for expedited impartial due process hearings for certain disciplinary suspensions or removals of a student. For a preschool child not currently receiving special education services and programs, he/she may, during any impartial due process hearings or appeals, receive special education services and programs if the parent/person in parental relation and the District agree. However, during the pendency of an appeal for a preschool child who is transitioning from an Early Intervention (EI) program and is no longer eligible for the EI program due to age, the District is not required to provide the services the child had been receiving under EI. If found eligible for special education as a preschool student with a disability, and if the parent consents to the initial provision of services, the District will provide those programs and services that are not in dispute.
10. The IHO renders and forwards the finding of fact and decision to the parties and to the State Education Department in accordance with regulatory timelines but not later than forty-five (45) days from the date required for commencement of the impartial due process hearing specified in c) above. For expedited hearings the deadline is within ten (10) school days after the hearing; for preschool hearings the time frame is thirty (30) days after the receipt by the Board of a request for a hearing or after the initiation of such hearing by the Board.
11. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Burden of Proof

In accordance with New York State law, the burden of proof and persuasion in an impartial due process hearing dispute relative to a student's special education placement rests upon the School District. However, a parent/person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion as to the appropriateness of the placement.

Recordkeeping and Reporting

The District will utilize the New York State Education Department's Impartial Hearing Reporting System (IHRS) to access the alphabetical list of the names of each IHO who is certified in New York State and available to serve in the District. The District will record and report to the State Education Department required information relating to the selection of IHOs and the conduct of impartial due process hearings according to the manner and schedule specified by the Department. The Superintendent shall designate a staff member(s) who will be responsible for reporting such

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

information as required relating to the impartial hearing process into the State Education Department's Web-based reporting system.

Compensation of Impartial Hearing Officers

The District will be responsible for compensating the IHO for prehearing, hearing and post-hearing activities at the rate agreed upon at the time of the IHO's appointment. The rate of compensation may not exceed the maximum rate approved by the Director of the Division of the Budget. The District will also reimburse the IHO for travel and other hearing-related expenses (e.g., duplication and telephone costs) pursuant to an annually determined schedule. On an annual basis, the District will forward a copy of its compensation rates to each IHO on the District's rotational list.

At the completion of the impartial due process hearing, the IHO shall submit an itemized bill of hourly charges and expenses, which will be promptly paid by the District.

Mediation

The District will inform the parent in writing of the availability of mediation and any free or low-cost legal and other relevant services available in the area at the request of the parent or when an impartial due process hearing is requested.

Mediation is voluntary and does not deny or delay a parent's right to an impartial due process hearing. If mediation is initiated after a request for an impartial due process hearing has been received, the impartial due process hearing must continue unless the request for the impartial due process hearing is withdrawn. However, a party may request an extension to an impartial due process hearing in order to pursue mediation.

Guardians ad Litem at Impartial Due Process Hearings

Unless a surrogate parent has been previously appointed, the IHO must appoint a guardian ad litem when he/she determines that the interests of the parent(s) are opposed to or are inconsistent with those of the student or whenever the interests of the student would be best protected by such appointment.

Confidentiality

All issues relating to a request for and conduct of an impartial due process hearing must be kept confidential by all District staff.

Administrative Procedures

Administrative procedures will be developed for the selection and appointment of an IHO consistent with regulatory requirements.

Individuals with Disabilities Education Act (IDEA), 20 United States Code (USC) Section 1400 et seq.

34 Code of Federal Regulations (CFR) Part 300

Education Law Sections 4005, 4202, 4404(1) and 4410(7)

8 New York Code of Rules and Regulations (NYCRR) Sections 200.1, 200.2, 200.5, 200.16, 200.21 and 201.11

NOTE: Refer also to Policy #7690 -- Special Education Mediation

Adopted: 7/12/11

Students

SUBJECT: INDEPENDENT EDUCATIONAL EVALUATIONS

Parents of children with disabilities have the right under Federal and State regulations to obtain an independent educational evaluation (IEE) at public expense under certain conditions. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(g). Additionally, the Federal Regulations (34 Code of Federal Regulations [CFR] 300.502) specify requirements for an independent evaluation.

A parent is entitled to only one (1) IEE at public expense each time the District conducts an evaluation with which the parent disagrees.

Administrative regulations on independent evaluations will be developed in order to explain the rights of parents and the responsibilities of school districts with regard to independent evaluations, and also to avoid any misunderstandings.

34 Code of Federal Regulations (CFR) Sections 300.12 and 300.502

8 New York Code of Rules and Regulations (NYCRR) Sections 200.1(z) and 200.5(g)

Students

SUBJECT: SPECIAL EDUCATION MEDIATION

The District will offer mediation to resolve any disputes involving any matter for which an impartial due process hearing may be brought, including matters arising prior to the filing of a due process complaint notice.

Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of any school district or State agency that is involved in the education or care of the student who is the subject of the mediation process. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process and should be knowledgeable in laws and regulations relating to the provision of special education services.

Parents or persons in parental relation to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial due process hearing procedures in accordance with Federal and State law and regulations. If the parent and District agree, alternative means of meeting participation may be utilized, such as video conferences and conference calls.

Discussions during the mediation process must be confidential and may not be used as evidence in any subsequent due process hearing or civil proceedings.

If resolution to the complaint is reached through mediation, the parent and the representative of the District who has the authority to bind the District will execute a legally binding written agreement specifying the resolution and stating that all discussions occurring during the mediation process are confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding of any Federal or State court. If the written agreement is inconsistent with the student's current individualized education programs (IEP), the IEP must be immediately amended to reflect the mediation agreement.

The mediation process is voluntary and will not operate to diminish or limit any rights provided for in law, including the right of the parent or person in parental relation to request an impartial due process hearing subsequent to mediation. Parents or persons in parental relation to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent or person in parental relation from requesting an impartial due process hearing without having first utilized mediation procedures set forth in Education Law.
