

SUBJECT: TRANSPORTATION OF STUDENTS

Depew will only transport students according to the Depew School calendar; and calendars of other schools, private and public, should coincide with Depew as much as possible.

Requests for Transportation to and from Nonpublic Schools

The parent or person in parental relation of a parochial or private school child residing in the School District who desires that the child be transported to a parochial or private school outside of the School District during the next school year should submit a written request to the Board of Education no later than April 1 of the preceding year, or within thirty (30) days of moving into the District. No late request of a parent or person in parental relation shall be denied where a reasonable explanation is provided for the delay.

Transportation to Nonpublic Schools on Holidays

When a holiday falls on a Saturday or Sunday, the Board of Education may choose to close on Friday or Monday in observance of the holiday. Schools that close may provide pupil transportation. However, if the District has not shared its calendar and informed nonpublic schools that it will not transport on the optional holiday, the District is required to provide pupil transportation services on that day to nonpublic schools that are open.

Transportation for Nonpublic School Students with Disabilities who are Parentally Placed

For students with disabilities (ages 5-21) who are parentally placed in nonpublic schools outside their district of residency, if special education services are to be provided to a student at a site other than the nonpublic school, the school district of location is responsible for providing the special education services, including, as applicable, arranging and providing transportation necessary for the student to receive special education services. The proportionate share of Individuals with Disabilities Education Act (IDEA) Part B dollars could be used for such purpose.

The school district of residence remains responsible to provide transportation to parentally placed nonpublic school students from the student's home to the nonpublic school.

Transportation of Students with Disabilities

Students with disabilities in the District shall be transported up to fifty (50) miles (one way) from their home to the appropriate special service or program, unless the Commissioner certifies that no appropriate nonresidential special service or program is available within fifty (50) miles. The Commissioner may then establish transportation arrangements.

Transportation for students with disabilities will be provided on a door-to-door basis if required for the student by Committee on Special Education or Committee on Preschool Special Education.

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

Drivers will not enter houses or schools for the purposes of picking up or discharging these students. It is expected that a parent or person in parental relation will be trained at the home, and trained instructional or non-instructional staff members at the school will be available to assist the children from these points.

Student Information

Any mode of transportation used on a regular basis to transport students with a disability on a regularly scheduled route shall, upon written consent of the parent or person in parental relation, have maintained on such mode of transportation the following information about each student being transported:

- a) Student's name;
- b) Nature of the student's disability;
- c) Name of the student's parent, guardian or person in a position of loco parentis (person in parental relation) and one (1) or more telephone numbers where such person can be reached in an emergency; and/or
- d) Name and telephone number of any other person designated by such parent, guardian or person in a position of loco parentis as a person who can be contacted in an emergency.

Such information shall be used solely for the purpose of contacting such student's parent, guardian, person in a position of loco parentis, or designee in the event of an emergency involving the student, shall be kept in a manner which retains the privacy of the student, and shall not be accessible to any person other than the driver or a teacher acting in a supervisory capacity. In the event that the driver or teacher is incapacitated, such information may be accessed by any emergency service provider for such purpose.

Such information shall be updated as needed, but at least once each school year and shall be destroyed if parental consent is revoked, the student no longer attends such school, or the disability no longer exists.

Herein the term "disability" shall mean a physical or mental impairment that substantially limits one (1) or more of the major life activities of the student, whether of a temporary or permanent nature.

Fire Extinguishers

School buses manufactured on or after January 1, 1990 fueled with other than diesel fuel and used to transport three (3) or more students who use wheelchairs or other assistive mobility devices or with a total capacity of more than eight (8) passengers and used to transport such students shall be equipped with an automatic engine fire extinguishing system.

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

School buses manufactured on or after September 1, 2007 fueled with diesel fuel and used to transport three (3) or more students who use wheelchairs or other assistive mobility devices or with a total capacity of more than eight (8) passengers used to transport such students shall be equipped with an automatic engine fire extinguishing system.

The purchase of automatic engine fire extinguishing systems for school buses used to transport such students shall be deemed a proper School District expense.

Transportation of Non-Resident Students

Non-resident families must provide their own transportation.

Transportation to School Sponsored Events

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice, consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. In cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the District impractical, a representative of the School District shall remain with the student until such student's parent or legal guardian has been contacted and informed of the intervening circumstances which make such transportation impractical; and the student has been delivered to his/her parent or legal guardian.

Transportation Requiring Voter Approval

Transportation at distances not authorized by state law which, if provided, becomes an expense to the taxpayers of the District must have voter approval.

Personnel Authorized to Transport Students

Bus Drivers - Only employees who have the appropriate operator license for the vehicle being operated and who have complied with the Regulations of the Department of Motor Vehicles and the Commissioner of Education may drive students to and from home on a regularly scheduled route. No other person may operate a school bus on a regularly scheduled route for the purpose of transporting students to or from home. (Refer to Policy #5760 -- Qualifications of Bus Drivers.)

Certified teachers transporting students in school-owned vehicles must also comply with all requirements of the Department of Motor Vehicles, and the Commissioner of Education.
