## **PESTICIDE APPLICATION REGISTRY NOTICE**

Mahomet-Seymour CUSD #3 practices Integrated Pest Management, a program that combines preventive techniques, non-chemical pest control methods, and the appropriate use of pesticides with a preference for products that are the least harmful to human health and the environment.

The term "pesticide" includes insecticides, herbicides, rodenticides, and fungicides.

The Mahomet-Seymour School District is establishing a registry of people who wish to be notified by phone at least two days prior to unscheduled pesticide applications. Each building is inspected and treated on a monthly basis.

To be included in this registry, please complete the attached form and submit it to the Superintendent's Office at 1301 S. Bulldog Dr., Mahomet, IL 61853. You will be added to our Skylert phone contact system for this particular notification category. The phone message will be given at least two business days before the application of the pesticide. It will identify the intended date of the application of the pesticide and the name and telephone contact number for the school personnel responsible for the pesticide application program. A new form must be completed each school year.

I would like to be notified by phone at least two days before the use of pesticides at the school. I understand that if there is an immediate threat to health or property that requires treatment before notification can be sent out, I will receive notification as soon as practicable.
