

Special Services Evaluation Procedures

If you suspect your child has a disability, please contact your child's classroom teacher, building counselor, or your child's school administrator to discuss available options to best meet your child's needs. Options may include an evaluation by a multidisciplinary team. Depending on the suspected area of disability, possible members of the multidisciplinary team may include: a school psychologist, speech and language pathologist, occupational therapist, physical therapist, general education teacher, special education teacher, nurse, or counselor.

If your child is at least 2 1/2 years of age, but not yet eligible for Kindergarten, and you have concerns about his or her development, please contact our Preschool Coordinator for more information at 317-535-2069.
