### **Early Childhood Special Services Information**

Clark-Pleasant Community School Corporation offers a continuum of services for children ages 3 to 5, who are eligible for special services under Indiana's special education rules.

For students whose families are concerned with their child's overall development, the Clark-Pleasant Early Childhood Assessment Team offers a comprehensive diagnostic evaluation in a preschool classroom setting at Sawmill Woods Preschool. The Early Childhood Speech and Language Pathologists offer a "speech-only" evaluation for students whose families are only concerned with their child's speech and/or language development.

Early Childhood Special Education services are provided in a variety of preschool settings, and are designed to meet the needs of each individual child, through the child's Individualized Education Plan (IEP). Services could be provided in a developmental preschool classroom or an inclusive preschool setting. Additionally, students receiving speech or language services, may be seen on a walk-in basis.

Clark-Pleasant currently services all early childhood students at Sawmill Woods Preschool. If you have questions concerning your preschool child, or are interested in enrolling, please contact Mrs. Meli Drier, Preschool Coordinator, at 317-535-2069 or [mdrier@cpcsc.k12.in.us](mailto:mdrier@cpcsc.k12.in.us).
