---

Secretary/Treasurer

**To: Regional School Board Members  
Alaska Gateway School District**

**February 15, 2016**

**From: Superintendent**

**Agenda Item: 3**

**ISSUE**

- **Board Policy 4350 Certified Employees – Second Reading**

**BACKGROUND**

- **Date change to reflect current Alaska Statute 14.20.140**
- **Current Alaska Statute below**

**Sec. 14.20.140. Notification of lay off or nonretention.**

(a) If a teacher who has acquired tenure rights is to be laid off under AS 14.20.177 or is not to be retained for the following school year, the employer shall notify the teacher of the layoff or nonretention by writing, delivered before May 15, or by registered mail postmarked before May 15.

(b) If a teacher who has not acquired tenure rights is to be laid off under AS 14.20.177 or is not to be retained for the following school year the employer shall notify the teacher of the layoff or nonretention by writing delivered on or before the last day of the school term or by registered mail postmarked on or before the last day of the school term.

**RECOMMENDATION**

- **Adopt revised Board Policy 4350 Certified Employees into Policy.**

## Certificated Employees

BP 4350

### Contracts

BP 4351

After January 1, the Regional School Board may issue teacher contracts for the following school year. Contracts shall be approved by the Board and signed by at least two Board members.

Note: AS 14.20.145 grants automatic reemployment rights to teachers who are not dismissed or given notice of non-retention. Nontenured teachers must be given notice of non-retention by the end of the school year. Tenured teachers must be given notice of non-retention before ~~March 16~~ May 15.

The Board shall give or mail reemployment contracts to teachers who are not dismissed or given notice of non-retention in accordance with law. If an employee fails to notify the Superintendent or designee within 30 days after receipt of a contract of reemployment that he/she accepts reemployment, the Board shall consider the employee to have declined reemployment and shall terminate the employee's services at the expiration of the existing contract.

**To: Regional School Board Members  
Alaska Gateway School District**

**February 15, 2016**

**From: Superintendent**

**Agenda Item: 4**

**ISSUE**

- **FY17 District Academic Calendar**

**BACKGROUND**

- **Two “drafts” of the FY17 Academic Calendar, as well as the FY15 and FY16 calendars, were distributed to all teachers, administrators and board members for an initial review**
- **The site administrator will present these calendars at the next ASB or CSAC meetings for review and suggested revisions**
- **One recommended and approved, by the ASB or CSAC, calendar per site may be submitted for consideration**
- **One comment from Tok School ASB included**

**RECOMMENDATION**

- **FY17 District Academic Calendar options provided for discussion and/or recommended changes.**

Please work with your ASB/CSAC and staff to review the proposed calendars for the FY17 school year. Any suggestions need to be submitted to me as an email or attachment to be placed in the Board packet. Also included are the FY16 and FY15 AGSD calendars for comparison. One calendar per school approved by the ASB/CSAC.

Parameters for calendar development are as follows:

- 1 Minimum of 173 student contact days
- 2 Minimum of 185 teacher days (excluding holidays/vacations)
- 3 School opens and closes on designated days districtwide
- 4 Maximum of 9 inservice days that includes Parent-Teacher Conference Days not meeting the minimum day requirement
- 5 Minimum of two Teacher Workdays per AGEA Agreement (3 Workdays included within the FY17 Calendar)

From: **Candice** candice22jacobs@gmail.com  
Subject: **School District Calendar**  
Date: **January 28, 2016 at 10:19 PM**  
To: **tpoage@agsd.us**

Mr. Poage and RSB Members,

The Tok ASB would like to formally request that next year's school calendar (2016-2017) remain as close to the same design as the current school calendar (2015-2016). We unanimously believe that this calendar is a good fit for our school district, employees and students alike. The items we feel are essential are the "Moose Days" in September, the full two weeks vacation for Christmas Break, and a full weeks vacation for Spring Break in March.

Thank you for your time!

Respectfully submitted,

Tok Advisory School Board Members

**Date: February 15, 2016**

**From: Asst. Superintendent's Office**

**Agenda Item: 5**

**ISSUE:**

## 2016 Textbook Approval

## BACKGROUND

The district is submitting the following textbook list for approval, based on the work and recommendation of the relevant content area committees that met during the summer of 2015 as facilitated by Tracie Weisz to review math, language arts and social studies instructional materials. The texts selected (identified in green without an approved date) align closely to the board approved district curriculum. Addressed within this list is the SPARK Curriculum materials, Math program updated materials, Language Arts updates, and Middle School Social Studies materials.

**To: Regional School Board Members  
Alaska Gateway School District**

**February 15, 2016**

**From: Superintendent**

**Agenda Item: 6**

**ISSUE**

- **BP 4116(b) Nontenured/Tenured Status – First Reading**

**BACKGROUND**

- **Insert the word “Alaska” into BP4116(b) to clarify that only a teacher receiving tenure in another Alaska school district is provided tenure in AGSD on the first day of the third year**
- **All other teachers receive tenure on the first day of the fourth year**

**RECOMMENDATION**

- **Move BP 4116(b) Nontenure/Tenure Status to a second reading as presented.**

A teacher who has acquired tenure in another Alaska district will acquire tenure in Alaska Gateway School District if the teacher's break in service was not the result of dismissal or nonretention and did not last longer than one year. A previously Alaska tenured teacher who has been employed by the district continuously for two consecutive school years and who is then offered a contract for the next succeeding school year shall achieve tenure at the beginning of the third year, provided the teacher performs a day of teaching services in the third year, and further provided the teacher received a satisfactory performance evaluation in the second year.

Note: A break in service which begins on or after the last instructional day of the school year but before the first instructional day of the next school year will be considered to have lasted no longer than one year if the teacher is employed on the first instructional day of the next consecutive school year. ## MEMORANDUM

February 4, 2016

To: Board of Education

RE: Monthly Report

Below is an update pertaining to some of the issues I have been addressing since the previous Board meeting in January.

### Legislative Capital Projects

A list of legislative appropriations submitted to our state senator and representative thru a capital projects website named CAPSIS is included in this section of the packet. The FY17 list includes five projects, which were discussed and approved at the January Regional Board meeting, from a Multipurpose Building Heat Loop; Steam Turbine Energy System; Automated Facility System Software (Tetlin); Districtwide Greenhouse; and construction funds for a Regional Residential Learning Center. For the second straight year, the forecast on the hill is one of limited resources and funding as reflected by the lower than projected price for a barrel of oil and the 3.5 billion dollar state operating budget deficit. The legislators for our area this year will be Senator Click Bishop (District C) from Fairbanks and Representative David Talerico (District 6) from Healy.

### Districtwide Copiers/ District Maintenance Vehicle

After both bids were approved during the January Regional Board meeting, the selected vendors were notified and these items are being processed and prepared for delivery.

### Superintendent Search

The approved superintendent vacancy announcement was posted on-line and distributed thru email on January 19, 2016 and will close on February 26, 2016. The Regional Board will select the finalists on February 29, 2016 with the assistance of the Alaska Association of School Boards (AASB). Interviewing finalists and a community forum will be conducted the week of March 7, 2016. The newly hired superintendent is expected to begin on July 1, 2016.

*"For an application send or email a letter of interest and resume to Association of Alaska School Boards, 1111 W. 9<sup>th</sup> St. Juneau, Alaska 99801, 907-586-1083. Email: [raguilar@aasb.org](mailto:raguilar@aasb.org). Applications are also available online at [aasb.org](http://aasb.org)"*

### Board Seat (G)

Steve Robbins accepted the Regional Board appointment to Seat G representing Boundary, Chicken and Eagle. Congratulations and welcome to the AGSD Regional School Board! Steve will be attending the February Board meeting at Tetlin School.

### Letters of Support for APLIC/DMV and DOT&PF

As discussed and approved during the January Regional Board meeting, wrote a letter of support for the Alaska Public Lands Information Center (APLIC)/Division of Motor Vehicles (DMV) as well as

**"EDUCATING ALL STUDENTS TO REACH THEIR FULL POTENTIAL AS RESPONSIBLE CITIZENS."**

Alaska REACH Academy  
(907) 883-2591  
Tanacross School  
(907) 883-4391

Dot Lake School  
(907) 882-2663  
Tetlin School  
(907) 324-2120

Eagle Community School  
(907) 547-2210  
Tok School  
(907) 883-5165

Mentasta Lake Katie John School  
(907) 291-2327  
Walter Northway School  
(907) 778-2287

the Department of Transportation & Public Facilities (DOT&PF). These two letters of support are within this section of the February Board packet.

### **FY17 Academic Calendar**

Two “drafts” of the FY17 Academic Calendar, as well as the FY15 and FY16 calendars, were distributed to all teachers, administrators and board members for an initial review. The district’s official academic calendar will most likely be adopted at the March Board meeting. The site administrator will present these calendars at the next ASB or CSAC meetings for review and suggested revisions. To ensure each school is on the same page, only one recommended and approved, by the ASB or CSAC, calendar per site can be submitted. The FY17 Academic Calendar is listed on the agenda as an Action Item for discussion.

### **Biomass Fuel Supply**

At this time, the average load per trailer is approximately 4 tons. The haul rate with two trailers has been as high as 18 loads equating to 72 tons per day. If the daily loads continue at this rate, there would be enough material to fulfill the wood-chipping contract within 20 working days. The biomass plant continues to operate without any major issues. Power and heat are being produced and provided to Tok School, which creates a reduction in electrical utility billings and heating oil purchases. The goal is to continue to generate power until the weather becomes to warm.

### **Alaska Teacher Job Fair**

The Alaska Teacher Job Fair is scheduled for the 17<sup>th</sup> thru 19<sup>th</sup> of March this year instead of a late March or mid April date. Registration and all other arrangements have already been secured for the District as well as a ½ page ad in the ATP brochure. The Board will need to decide which members will be attending to assist with the interviewing process.

### **FY17 Teacher Contracts**

Certified contracts are presently being updated and plan to be hand-delivered to all the sites beginning in mid February with each teacher or administrator signing for receipt. Certified staff will have 30 days to sign an offered contract before it becomes null and void. All certified contracts are being updated in the areas of salary, starting date, placement, daily rate, assignment, certificate areas and certificate expiration date. Since the job fair was moved to an earlier date in March this year, contracts will need to be distributed at least 30 days prior to this event so the District can post any vacancies for next year in time to offer contracts to selected candidates. Since the AGEA Bargaining Agreement terminates June 30, 2016, contracted amounts for non-exempt certified staff will need to be updated pending the outcome of these negotiations.

### **Annual Measures of Progress**

After only one year, the state will issue another request for proposals to replace the Annual Measures of Progress (AMP) for the 2016-2017 school year. Since federal law, Every Student Succeeds Act, requires all states to administer a uniform statewide assessment, students will still need to take the AMP test this year.

If you have any questions, concerns and/or additions to the agenda, contact me at your earliest convenience. Thanks

Respectfully,

Todd Poage,  
Superintendent

January 22, 2016

The Honorable William Walker  
Governor of Alaska  
PO Box 110001  
Juneau, AK 99811-0001

*RE: Letter of Support for Alaska Public Lands Information Center/Division of Motor Vehicles*

Dear Governor Walker,

The Alaska Gateway School District (AGSD) would like for you to reconsider your proposal to eliminate positions within the Alaska Public Lands Information Center (APLIC)/Division of Motor Vehicles (DMV) Office in Tok, Alaska. The AGSD Regional School Board unanimously voted to write this letter of support during the January 18, 2016 regular meeting for the following reasons:

- By pulling out of a gateway community that Commerce has been present in since the late '60s, the impact will not only be felt by the residents of Alaska but by most visitors crossing the border into our great State.
- The incredible amount of services our State receives by the two and half positions in Tok are not only paid for by the amount of funds generated by this office but also creates revenue for the State operating budget.
- The estimated 2015 figures for the Tok APLIC/DMV include assisting over 10,000 visitors, answering 1,200 student inquiries, processing 4,000 DMV transactions at \$240,000 along with processing 1,249 "Made in Alaska" permits at \$37,295.00.
- The Tok Office is a great example of "boots on the grounds" staff. Commerce provides an example of a "one stop shop" where state services have been consolidated.
- In 2015 an estimated 55,200 vehicles with 102,800 people entered the Alcan Border and Poker Creek Border crossings onto the Alaska road systems. With fuel costs decreasing, we can only assume that the visitors arriving to Alaska via a vehicle will increase.

While we understand the State budget needs to be reduced, the elimination of jobs should come from locations where employees have ample opportunities to find new employment and the economies are able to withstand the impacts of these cuts. The Tok APLIC/DMV office is the first contact for many of the visitors to our great State. Should our visitors be welcomed with a friendly "hello" and provided information about activities, communities and/or destinations to visit in their first stop after crossing the border? Yes. Thank you for making the time to read this letter of support.

Respectfully,

Todd Poage,  
Superintendent

PO Box 110001  
Juneau, AK 99811-0001

*RE: Letter of Support for Department of Transportation and Public Facilities*

Dear Governor Walker,

The Alaska Gateway School District (AGSD) respectfully requests for you to reconsider your proposed closure of Department of Transportation & Public Facilities (DOT&PF) maintenance stations within the Interior of Alaska and specifically the Northway Maintenance Station. AGSD Regional School Board Members and administration attended DOT&PF community meetings on January 5, 2016 in Northway and Tok to voice our concerns. The AGSD Regional School Board unanimously voted to write this letter of support during the January 18, 2016 regular meeting for the following reasons:

- AGSD will not only be impacted by the loss of the Northway Maintenance Station but also the O'Brien Creek and Birch Lake Maintenance Stations.
- By pulling out of a gateway community that DOT&PF has been present in since the Alaska Highway was constructed, the impact will not only be felt by the residents of Alaska but by the numerous visitors and freight haulers crossing the border into our great State.
- The Alaska Highway would be less safe especially during severe storms due to the increased amount of time required for DOT&PF to respond and maintain the road system from maintenance stations located further distances away and with fewer employees.
- The side streets would become a lower priority for snow removal, which could affect the safety of school bus routes as well as access to the entryways to each of our schools.
- AGSD employees traveling between schools or commuting for work as well as students attending academic and athletic events may not have safe and maintained roads for timely departures.
- The school lunch program relies on fresh produce and other foods delivered via the Alaska Highway. Each school relies on supplies and equipment delivered via the Alaska Highway.
- The operators are on the road every day. They are often first on the scene of an accident where cell phone service is unavailable; keep the road surface clean of snow & ice and put out sand for traction; enter road condition reports into 511; file Notices to Airmen to communicate safety concerns to pilots; close roads or keep people away from disaster areas; and keep the brush cut so that moose-vehicle collisions can be reduced.
- In 2015 an estimated 55,200 vehicles with 102,800 people entered the Alcan Border and Poker Creek Border crossings onto the Alaska road systems. With fuel costs decreasing, we can only assume that the visitors arriving to Alaska via a vehicle will increase.

# Project Title: Alaska Gateway School District - Multipurpose Building Heat Loop

TPS Number: 55599

Priority: 1

Agency: Commerce, Community and Economic Development  
Grants to Named Recipient (AS 37.05.316)

Federal Tax ID: 920058369

Grant Recipient: Alaska Gateway School District

FY2017 State Funding Request: \$70,000

One-Time Need

## Brief Project Description:

To install piping from the biomass facility to the multipurpose building which will reduce the consumption of heating fuel.  
To save fuel costs and utilize excess waste heat being created thru the production of electricity by the biomass steam boiler at Tok School.

## Funding Plan:

Total Project Cost:	\$75,000
Funding Already Secured:	(\$5,000)
FY2017 State Funding Request:	(\$70,000)
Project Deficit:	\$0

## Explanation of Other Funds:

The district will utilize local funds to complete the project.

## Detailed Project Description and Justification:

The initial project consisted of a biomass heating facility that contains an automated wood-fired boiler system that heats the existing K-12 School in Tok. Phase II is an extension of the Tok School Biomass Heating Project and consists of a bid alternate that was developed during the planning stage but was not installed because the initial project was completed as budgeted. The Scope of Work for this bid alternate would consist of:

Extending a hot water heating loop and related mechanical and electrical integration from the Biomass Heating Facility to a detached multipurpose building which houses an ice hockey rink, shooting range and an additional detached Zamboni garage. Both buildings are located on the Tok School Campus. This heat loop already provides heat to a green house and processing center constructed in the summer of 2013 with funds from a 2013 legislative appropriation. The green house and processing center grow, process and distribute produce Districtwide thru our lunch program.

The multipurpose building uses approximately 11,000 gallons of heating fuel each year at a current price of \$3.00 per gallon. This equates to an energy savings of \$33,000 per year at current heating oil costs. The payback for this project would be 2.27 years at the current fuel rates. However, fuel prices are predicted to increase within the next year. For example in 2000 heating fuel was \$1.20/gallon but increased to \$3.69/gallon in 2015. If fuel prices did average \$5 per gallon for the next 10 years, the saving per year would be \$55,000 with a payback of 1.36 years.

The only operation and maintenance costs for this project is the installation of piping for the hot water loop since the energy source is being provided thru excess heat created by the biomass wood-fired boiler. See attached construction documents and cost estimate produced by an architecture and engineering firm. However, with new piping options the project budget has decreased significantly from this estimate.

The project was approved during the January 17, 2011 Regional School Board meeting; the January 16, 2012 Regional School Board meeting; the January 21, 2013 Regional School Board Meeting; the January 20, 2014 Regional School Board Meeting; the January 19, 2015 Regional School Board Meeting; and the January 18, 2016 School Board Meeting as the district #1 ranked project.

## Project Timeline:

The project would begin as soon as the appropriation was awarded and be completed by the end of October, 2016. All funds would be spent by June 30, 2017.

# Project Title: Alaska Gateway School District - Steam Turbine Energy System

TPS Number: 63408

Priority: 2

Agency: Commerce, Community and Economic Development  
Grants to Named Recipient (AS 37.05.316)

Federal Tax ID: 92-0058369

Grant Recipient: Alaska Gateway School District

FY2017 State Funding Request: \$35,000

One-Time Need

## Brief Project Description:

Creating reliable energy thru a Steam Turbine Energy System utilizing hot water, which can be replicated in other rural Alaska communities. This project can be a viable model for reducing the high cost of electricity in rural Alaska.

## Funding Plan:

Total Project Cost:	\$35,000
Funding Already Secured:	(\$0)
FY2017 State Funding Request:	(\$35,000)
Project Deficit:	\$0

## Explanation of Other Funds:

The Alaska Gateway School District will utilize designated local funds to complete the project.

## Detailed Project Description and Justification:

The overall goals for this project are to reduce our energy costs and carbon footprints as well as increase our energy efficiency by using more of the energy already being produced thru the District's combined heat and power (CHP) biomass system. The District will convert low-grade waste heat already being produced into electricity rather than throwing away this useable resource. The estimated saving from installing a low pressure steam turbine energy system at Tok School is approximately \$202,000\* per year.

$$*24 \text{ (hours/day)} \times 270 \text{ (days/year)} \times 60 \text{ kW (produced)} \times 0.52 \text{ kW cost (local kW cost)} = \$202,176 \text{ (electricity savings)}$$

"Steam turbines are inherently rugged and reliable low-maintenance devices. They are easy to control and offer enclosed, nonsparking operation suitable for use in explosive atmospheres or highly corrosive environments. Steam turbines provide fast, reliable starting capability and are particularly adaptable for direct connection to equipment that rotates at high speeds. Steam turbine drives may be installed for continuous duty under severe operating conditions, or used for load shaping (e.g., demand limiting), standby, or emergency service.", U.S. Department of Energy, Energy Efficiency and Renewable Energy, January 2012.

Review existing electrical needs of school:

According to the local utilities records, the Tok School campus consumed 484,800 kW of energy for the period from April 2008 to March 2009. The peak demand for this period was 163 kW in January 2009. The maximum monthly energy consumption of 50,360 kW occurred in the month of February 2009. The minimum monthly energy consumption of 26,600 kW occurred in the month of July 2008. With the implementation of energy efficiency projects as well as power production, the Tok School campus consumed a total of 239,480 kW last year from April 2014 to March of 2015. A reduction of just over 244,500 kW or \$125,000 per year in just power costs. Through this project, the district also saves 90% of 60,000 gallons of heating oil for Tok School totaling approximately \$165,000, as of the latest price for heating fuel. If a heat loop can be extended to the multipurpose building that will save an additional 10,000 gallons of heating oil.

## Project Timeline:

The project was approved and ranked as the number one priority at the Regional School Board meeting on January 19, 2015. This project was also approved and ranked as the number two priority at the Regional School Board meeting on January 18, 2016. The project

would begin as soon as funding was awarded and be completed by the end of October, 2016. All funds would be spent by June 30, 2017.

**Entity Responsible for the Ongoing Operation and Maintenance of this Project:**

Alaska Gateway School District

## "That's a good story!" - President Barack Obama

By Todd Poage, ASA Past President; Superintendent, Alaska Gateway School District

During President Obama's primetime speech on Energy Policy in Kotzebue, Alaska, on September 2, 2015, he dedicated a few sentences to highlighting the Alaska Gateway School

District's biomass project at Tok School. The President spoke about how energy cost savings were being used to re-employ staff members key to the success of the district: "In the town of Tok, the school district replaced its expensive diesel heating and power systems with one fueled by biomass," explained the President. "They saved enough money to rehire the counselor, music teacher and the boiler operator. That's a good story!" How many opportunities do we have to build a project from inception and then hear the President of the United States herald the results during a primetime broadcast? Being mentioned by the President was just exhilarating for all of us who worked on this project!

Below is a web link to a two-minute video clip of President Obama's speech: <http://agsd.us/docs/PresidentObamaSpeaksOnBiomass.mp4>

### *From Forest Fires to School Lights and Heat*

In the tiny Interior community of Tok, where temperatures have hit 80 degrees below zero and heating and providing power to Tok School used to run the district nearly \$350,000 a year in fuel costs, students are now being warmed by renewable waste wood. This cutting edge energy system is the continuation of a nine-year effort by the district in partnership with Tok Area Forestry (TOF), the Tok Community Umbrella Corporation (TCUC), and the Alaska Energy Authority (AEA). Through grant and legislative funding, the district was able to build a state-of-the-art, wood chip-fired heating and power facility to provide renewable energy for many years. When the district added the electrical generation component to the system, Tok became the first school in the nation to generate both heat and power using biomass. Since then, we have been actively researching, seeking, and finding the appropriate technology and funding to continue developing the project.

Nearly \$3.5 million in grants from the Governor, Legislature, Alaska Energy Authority, and others were obtained to plan, construct, and facilitate development of the system that provides heat and power for the Tok School complex. Grant funds were also secured to purchase a log-loading trailer to transport timber, a grinder to produce chips, a loader to move chips, a chip storage barn to keep fuel dry, and a steam turbine to generate electricity, as well as a greenhouse, processing center, diesel back-up generator, LED

lights, and upgraded facility operating software. Most of the biomass for the project comes from timber cut as part of the grant-funded state Division of Forestry wildfire fuels mitigation program, which creates defensible space around Tok and reduces hazardous fuels in the area.

Although the biomass facility has been providing heat to Tok School for the past five years, the district is beginning only the third full year of producing electricity, so refining the process to maximize efficiencies is still ongoing. When all aspects of this project are completed and power is being generated at goal levels of 60 kW during seven months of the year, and the sports facility is heated with biomass, our savings will be in the range of \$250,000 per year (while still contracting locally for chips). Through these projects, the district is currently keeping in the community, each year, \$325,000 that would otherwise have left the state to pay for fossil fuels.

The district is pleased with the continued savings and increased efficiency in heating and electrical power generation that comes from the biomass project. The current total savings of just under \$155,000 is mainly utilized to supplement the regular instructional program. Savings will grow as the plant moves from producing 25-40 kW to 40-60 kW, begins to heat more facilities, and utility costs increase. The more heat the biomass facility can displace, the greater the amount of electricity will be produced. Since we added the greenhouse in the summer of 2014, more electricity is being produced because of the increased heat demand required from the biomass facility.

The greenhouse, which is heated for nine months and powered for seven months of the year through the biomass facility, provides fresh produce to the seven schools within the district. Utilizing renewable energy to grow fresh vegetables for the lunch program will not only yield additional savings, but will connect the goodness of fresh food with the energy growing naturally in our backyards. The district also works in partnership with the Interior Alaska Campus - Tok Center, a branch of the University of Alaska Fairbanks, to provide hands-on curriculum experiences for all students and interested adults within our seven communities. Our next proposal is to run a heat loop to the sports facility, located a few hundred yards from the biomass plant. We also expect to be adding a second greenhouse. A legislative appropriation will be submitted again this session for grant funding to complete these projects. Our district biomass project is effectively reducing the costs of heat and power, helping to reduce the community's vulnerability to wildfires, creating new local jobs, and improving economic development. Now, that's a good story!

## Consider Steam Turbine Drives for Rotating Equipment

Steam turbines are well suited as prime movers for driving boiler feedwater pumps, forced or induced-draft fans, blowers, air compressors, and other rotating equipment. This service generally calls for a backpressure noncondensing steam turbine. The low-pressure steam turbine exhaust is available for feedwater heating, preheating of deaerator makeup water, and/or process requirements.

Steam turbine drives are equipped with throttling valves or nozzle governors to modulate steam flow and achieve variable speed operation. The steam turbine drive is thus capable of serving the same function as an induction motor coupled to an inverter or adjustable speed drive. Steam turbine drives can operate over a broad speed range and do not fail when overloaded. They also exhibit the high starting torque required for constant torque loads such as positive displacement pumps.

Steam turbines are inherently rugged and reliable low-maintenance devices. They are easy to control and offer enclosed, nonsparking operation suitable for use in explosive atmospheres or highly corrosive environments. Steam turbines provide fast, reliable starting capability and are particularly adaptable for direct connection to equipment that rotates at high speeds. Steam turbine drives may be installed for continuous duty under severe operating conditions, or used for load shaping (e.g., demand limiting), standby, or emergency service.

Steam turbine performance is expressed in terms of isentropic efficiency or steam rate (the steam requirement of the turbine per unit of shaft power produced). Steam rates are given in terms of pounds per horsepower-hour (lb/hp-hr) or pounds per kilowatt-hour (lb/kWh).

### Example

A 300-hp steam turbine has an isentropic efficiency of 43% and a steam rate of 26 lb/hp-hr given the introduction of 600-pounds-per-square-inch-gauge (psig)/750°F steam with a 40-psig/486°F exhaust. What steam flow is necessary to replace a fully-loaded 300-hp feedwater pump drive motor?

$$\begin{aligned}\text{Steam Flow} &= 26 \text{ lb/hp-hr} \times 300 \text{ hp} \\ &= 7,800 \text{ lb/hr}\end{aligned}$$

An examination of the ASME steam tables reveals that this steam turbine would utilize 103 Btu/lb of steam or 0.80 million Btu (MMBtu) of thermal energy per hour. Given a natural gas cost of \$8.00/MMBtu and a boiler efficiency of 80%, the fuel-related cost of steam turbine operation is  $(0.80 \text{ MMBtu/hr}/0.80 \times \$8.00/\text{MMBtu}) = \$8.00/\text{hr}$ .

In comparison, a 300-hp motor with a full-load efficiency of 95% would require:

$$300 \text{ hp} \times (0.746 \text{ kW/hp}) \times 100/95 = 235.6 \text{ kWh/hr}$$

In this example, the steam turbine drive would provide energy cost savings when the price of electricity exceeds:

$$\frac{\$8.00/\text{hr}}{235.6 \text{ kWh/hr} \times \$/100 \text{ cents}} = 3.4 \text{ cents/kWh } (\$0.034/\text{kWh})$$

### Suggested Actions

Consider replacing electric motors with steam turbine drives if your facility:

- Contains a high-pressure boiler or a boiler designed to operate at a higher pressure than process requirements.
- Has time-of-use (e.g., on/off peak, real-time, etc.) energy purchase and resale contracts with periods when electric power costs are substantially higher than fuel costs.
- Has pumps or other rotating equipment requiring variable speed operation.
- Requires continued equipment operation during electrical power supply interruptions.

The total annual energy savings are strongly dependent upon the facility energy cost and the hours per year of feedwater pump operation. Annual energy savings are given in the table below for various electrical rates and pump operating schedules. In addition to operating cost savings, steam turbine maintenance costs should be compared with electric motor maintenance expenses.

Annual Energy Savings when Using a Steam Turbine Feedwater Pump Drive\*, \$

Electricity Costs: \$/kWh	Feedwater Pump Annual Operating Hours				
	2,000	4,000	6,000	7,000	8,760
0.04	2,830	5,650	8,480	9,900	12,380
0.05	7,540	15,080	22,620	26,390	33,020
0.075	19,320	38,640	57,960	67,620	84,620

\*Savings are based upon operation of a 300-hp steam turbine drive with a steam rate of 26 lb/hp-hr. A natural gas cost of \$8.00/MMBtu is assumed.

## Steam Turbine Flexibility

Equipment redundancy and improved reliability can be obtained by mounting a steam turbine drive and an electric motor on opposite ends of the driven-equipment shaft. You can then select either the motor or turbine as the prime mover by increasing or decreasing the turbine speed relative to the synchronous speed of the motor.

Steam Tip Sheet information adapted from material provided by the TurboSteam Corporation and reviewed by the AMO Steam Technical Subcommittee.

## Resources

U.S. Department of Energy—DOE's software, the *Steam System Assessment Tool* and *Steam System Scoping Tool*, can help you evaluate and identify steam system improvements. In addition, refer to *Improving Steam System Performance: A Sourcebook for Industry* for more information on steam system efficiency opportunities.

Visit the Advanced Manufacturing Office website at [manufacturing.energy.gov](http://manufacturing.energy.gov) to access these and many other industrial efficiency resources and information on training.

## U.S. DEPARTMENT OF ENERGY

### Energy Efficiency & Renewable Energy

Advanced Manufacturing Office  
Energy Efficiency and Renewable Energy  
U.S. Department of Energy  
Washington, DC 20585-0121  
[manufacturing.energy.gov](http://manufacturing.energy.gov)

The Advanced Manufacturing Office (AMO) works with diverse partners to develop and deploy technologies and best practices that will help U.S. manufacturers continually improve their energy performance and succeed in global markets. AMO's Better Plants program works with U.S. corporations through a CEO-endorsed pledge to improve energy efficiency. AMO's tools, training, resources, and recognition programs can help build energy management capacity within the industrial sector and supply chains. Use these resources to comply with requirements of the ISO 50001 standard and the Superior Energy Performance program.

With our partners, AMO leverages additional federal, state, utility, and local resources to help manufacturers save energy, reduce climate and environmental impacts, enhance workforce development, and improve national energy security and competitiveness throughout the supply chain.

DOE/GO-102012-3396 • January 2012

# Project Title: Alaska Gateway School District - Automated Facility System Software

**TPS Number:** 63434

**Priority:** 3

**Agency:** Commerce, Community and Economic Development  
Grants to Named Recipient (AS 37.05.316)

**Federal Tax ID:** 92-0058369

**Grant Recipient:** Alaska Gateway School District

**FY2017 State Funding Request:** \$76,648

One-Time Need

## Brief Project Description:

Replace the existing control building software with energy efficient equipment such as an automated server and controllers so that school climate and mechanical operations can be scheduled, monitored and adjusted remotely.

## Funding Plan:

Total Project Cost:	\$86,648
Funding Already Secured:	(\$10,000)
FY2017 State Funding Request:	(\$76,648)
Project Deficit:	\$0

## Explanation of Other Funds:

The Alaska Gateway School District will utilize designated local funds to complete the project.

## Detailed Project Description and Justification:

The goal is to replace the existing Honeywell Direct Digital Control System at Tetlin School with Schneider Building Systems Smartstruxure Automation Server and LON Controllers so that school climate and mechanical operations can be overseen and adjusted thru web based monitoring and, as importantly, reduce energy costs.

This control system upgrade allows the maintenance department to interface with the building software via the web to control devices like relays, switches, valves, actuators, and boilers remotely. This upgrade replaces a current Honeywell system that is outdated and can no longer be serviced. This project will also reduce the District's energy billing at Tetlin School thru automated control of the building's temperature, HVAC systems and boilers. This system will also enable an automated set back of pumps, fans and ventilation systems at night for further energy savings.

An energy audit was conducted within the District during the 2011-2012 school year, by Nortech, and paid for by the State. The District is requesting funds to complete Energy Efficiency Measures (EEMs) on the Districtwide ranked list, by estimated savings, produced by Nortech. The District is requesting funds for a project that produces the quickest EEM payback. This EEM can be implemented to reduce operation costs for the next few years. Energy costs continue to rise and any District funds saved can be utilized to enhance student learning opportunities Districtwide.

## Project Timeline:

The project was approved at the January 19, 2015 Regional School Board Meeting and the January 18, 2016 Regional School Board Meeting. The project would begin as soon as the legislative appropriation was awarded and be completed by December 31, 2016. All funds will be spent by June 30, 2017.

## Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Alaska Gateway School District

**Grant Recipient Contact Information:**

<b>Name:</b>	Todd Poage
<b>Address:</b>	1313.5 Alaska Highway Tok, AK 99780
<b>Phone Number:</b>	(907)883-5151
<b>Email:</b>	tpoage@agsd.us

**This project has been through a public review process at the local level and it is a community priority.**

**Date:** 12/23/2014  
**Proposal #:** CCI-4106  
**Expiration:** 30 days from above date  
**Account Executive:** Fred Sullivan  
**Contact Number:** (907) 460-7825

**ALASKA GATEWAY SCHOOL DISTRICT**  
**249 Jon Summary Way**  
**Tok, Alaska, 99780**

**Attention: RANDY WARREN**

**Project: TETLIN SCHOOL**  
**DDC MIGRATION**  
**TETLIN, ALASKA**

**We are pleased to offer this detailed scope of work for the above mentioned project.**

**We propose to replace the existing Honeywell Direct Digital Control System with Schneider Building Systems Smartstruxure Automation Server and LON Controllers. Our proposal includes a new computer and Graphical User Interface.**

**A. SCOPE OF WORK – CONTROLS**

1. Provide and install Schneider Building Systems Automation Server and Power Supply in Enclosure
2. Provide and install three (3) Schneider Building System MNL-800 LON Controller in existing enclosures
3. Provide and install Computer Work Station with 15" Display Screen
4. Provide six (6) Graphical User Interface Screens
5. Re-use existing conduit and wire
6. Re-use existing field devices (damper actuators, controls valves and sensors)
7. Provide engineered control drawings.
8. One year warranty on all supplied materials and workmanship.

**B. PRICING**

1. Base Bid Per CCI Proposal ..... \$ 86,648.00

**C. INCLUSIONS:**

1. Shop drawings and product submittals will be provided for all DDC system components.
2. Room & Board costs
3. Travel costs
4. Freight to site
5. Owner training will be provided for all new equipment and systems.

**CCI AUTOMATED TECHNOLOGIES**

5300 DENVER AVE S., SEATTLE, WA 98108 | P: 206.328.1730 | F: 206.328.0829 | LIC: CCIAUAT888D8 | DUNS: 052583630

#### D. EXCLUSIONS:

1. Internet Connection
2. Replacement of Control Valves
3. Replacement of Damper Actuators
4. Replacement of Sensors
5. Replacement of Conduit or Wiring
6. All warranty for owner supplied or existing materials and workmanship.
7. All costs of bonds and permits
8. Code Upgrades
9. Power wiring or electrical panel modifications beyond inclusions.
10. Disconnect switches.
11. Hazardous material identification, abatement or removal.
12. Fire/Smoke Dampers.
13. End switches for fire/smoke dampers
14. Interconnection to building fire/life safety devices, providing and installing such devices as well as testing of such systems and devices.
15. Roofing or roofing repairs.
16. Any/all general contractor related work, such as framing, painting, patching, man bars, roofing, architectural sheet metal, etc.
17. All trash removal from site.
18. All taxes and assessments related to this project.
19. Builders Risk Insurance.

# Project Title: Alaska Gateway School District - Districtwide Greenhouse

TPS Number: 64173

Priority: 4

Agency: Commerce, Community and Economic Development  
Grants to Named Recipient (AS 37.05.316)

Federal Tax ID: 920058369

Grant Recipient: Alaska Gateway School District

FY2017 State Funding Request: \$31,500

One-Time Need

## Brief Project Description:

To build a districtwide greenhouse that provides fresh produce to all seven schools in the district. The project will include extending a previously built hot water heating/return loop from a biomass facility to a second 24'-0" x 100'-0" greenhouse.

## Funding Plan:

Total Project Cost:	\$35,000
Funding Already Secured:	(\$3,500)
FY2017 State Funding Request:	(\$31,500)
Project Deficit:	\$0

## Explanation of Other Funds:

The district will utilize local funds to complete the project.

## Detailed Project Description and Justification:

The greenhouse would only use surplus heat from the Biomass Plant located on Tok School grounds and would benefit from the electrical generation of this Combined Heat and Power (CHP) system. The infrastructure is already in place from constructing the first greenhouse so this second greenhouse would basically only require the purchase and building of the structure; extending the heat loop a few additional feet; and purchasing heating units. Produce would continue to be used to supplement the district's Food Service Program, providing fresh vegetables to students who otherwise would not have access. The Biomass Plant has capacity to support additional greenhouses and this second greenhouse assists in meeting the demand for local produce in the region since the needs of the lunch program exceed the yield capacity of the first greenhouse.

On average AGSD spends \$20,000 on fresh produce as part of the school meal programs for the entire district. Due to the high cost of fresh produce, the school district relies upon frozen and processed foods to meet most of the needs of the school meal programs. It is anticipated that additional substitution of these products with fresh produce would be possible if the cost was reduced. The production, processing, and distribution of the fresh produce would create local jobs that would allow AGSD to keep school funds in the local communities. The addition of a second greenhouse would also open the possibilities to expand an agriculture program, through the continuation of a partnership with the University of Alaska Fairbanks. All of the communities that are part of the Alaska Gateway School District which include Dot Lake, Eagle, Tetlin, Tanacross, Tok, Mentasta Lake, and Northway will directly benefit from the availability of fresh produce grown in the greenhouse.

Current estimations are that two 2,400 sq.ft. greenhouses could supply fresh produce for the entire district. The greenhouses provide the district with a fresh and healthy alternative to the traditional canned and frozen food imported from out of state. Not only does this increase student health and nutrition, it keeps money that was being sent out of state in the community, and decreases dependence on out of state resources. Crop selection and rotation in the greenhouses will focus on high value crops such as baby greens, peppers, and tomatoes that are relatively high in nutritional value and cost per pound as well as difficult to source in local communities. There can be 1-3 plantings in a typical 7-9 month Alaska growing season (March- November). It is estimated that a 2,400 square foot greenhouse, at a conservative average price based on the price of crops grown and yield, can supplement approximately \$15,000 of fresh produce per year.

## Project Timeline:

The project would begin this May or as soon as the Legislative Appropriation was awarded and be completed by the end of October, 2016. All funds would be spent by November 1, 2016. This project was approved at the January 18, 2016 Regional School Board Meeting.

"THE GATEWAY TO LEARNING"

TODD POAGE, SUPERINTENDENT

Greenhouse and Food Processing Facility

ALASKA GATEWAY SCHOOL DISTRICT  
RESOLUTION #12-02

AUTHORIZATION TO REQUEST FUNDS FOR A GREENHOUSE AND FOOD PROCESSING  
FACILITY

WHEREAS, the Alaska Energy Authority has grants funds available for application; and  
WHEREAS, the initial project consisted of a biomass heating facility that contains an automated wood-fired boiler system that has been providing heat to the existing K-12 School since October 29, 2010; and  
WHEREAS, the power component of the biomass project will be online in late October of 2011; and  
WHEREAS, this phase is an extension of the Tok School Biomass Heating Project and consists of a 1500 square foot greenhouse and food processing facility; and  
WHEREAS, only waste heat and power would be utilized from the biomass boiler that otherwise would be displaced thru radiators; and  
WHEREAS, no future utility costs would be associated with this project; and  
WHEREAS, the greenhouse and processing facility will operate throughout the entire year; and  
WHEREAS, students districtwide would have fresh fruits and vegetables during meals; and  
WHEREAS, students would have the opportunity to participate in an agricultural program; and  
WHEREAS, savings in vegetable and fruit purchases will stimulate the local economy by adding an employment opportunity in Tok; and  
WHEREAS, Tok is located in the middle of the Tanana Valley Forest; and  
WHEREAS, the Tanana Valley Forest has available a vast quantity wood fuel for energy usage; and  
WHEREAS, the Tok Umbrella Corporation received a legislative grant for \$500,000 to purchase a wood chipper; and  
WHEREAS, the Alaska Gateway School District currently has approximately a two-year supply of wood cut and decked to use as fuel on location at the Tok School Biomass Facility;

THEREFORE, BE IT RESOLVED, that the Board of the Alaska Gateway School District is authorizing the administration to request funds from the Alaska Energy Authority thru the Renewable Energy Fund Grant for the purpose of constructing a Greenhouse and Food Processing Facility.

ADOPTED by the Board of the Alaska Gateway School District this 15<sup>th</sup> day of August 2011.

# Project Title: Alaska Gateway School District - Net-zero Regional Residential Learning Center

**TPS Number:** 57548

**Priority:** 5

**Agency:** Commerce, Community and Economic Development  
Grants to Named Recipient (AS 37.05.316)

**Federal Tax ID:** 920058369

**Grant Recipient:** Alaska Gateway School District

**FY2017 State Funding Request:** \$5,000,000

One-Time Need

## Brief Project Description:

The RRLC would be located in the hub community with the largest high school and offer science, technology, engineering and math (STEM) courses as well as workforce development curriculums to 9th-12th grade students. These programs are intended to supplement the offerings of small rural high schools and at the same time allow students to retain their culture by staying close to home.

## Funding Plan:

Total Project Cost:	\$5,000,000
Funding Already Secured:	(\$0)
FY2017 State Funding Request:	(\$5,000,000)
Project Deficit:	\$0

## Explanation of Other Funds:

AGSD received a grant from the Alaska Energy Authority to build a biomass plant in 2009. AGSD received a \$325,000 legislative appropriation in 2010 to convert the heating plant into a combined heat and power (CHP) facility so electricity can be produced. In 2012 the District received a \$100,000 appropriation to build a green house and processing center, heated by the biomass plant, to grow, harvest, process and distribute produce thru the lunch program to all sites Districtwide.

## Detailed Project Description and Justification:

The Regional Residential Learning Center (RRLC) located on Tok School Campus will be designed as a net-zero facility focusing on energy efficiency. If funding were available thru the legislature, the goal of the District would be to build a 20-25 room dormitory with three or four classrooms to house interested 9th-12th grade students from the eight schools in AGSD. Students could live full time during the week at the RRLC and then be transported home for the weekend. Students from the RRLC would integrate into some of the classes at Tok School and students from Tok School would have the option of taking classes offered by the learning center. The students would also have the option of attending various length courses offered during the school year. The RRLC would offer summer academies that focus on enrichment activities such as advanced academics, fine arts, language, credit recovery, HSGQE preparation, STEM courses, elementary summer camps or even professional development for staff members. The Alaska Federation of Natives has supported the RRLC concept thru a resolution during their 2012 Convention and Citizens for the Educational Advancement of Alaska's Children (CEAAC) ranks RRLCs as one of the organizations prioritized initiative.

After a RRLC presentation to a class of high school students, letters were received on the subject with 83% of the students in support of building a RRLC and 17% not in favor of this project. Below is an analysis of the reasons high school students supported or did not support the concept of a RRLC.

### High School Students' Justifications for Supporting a RRLC:

1.Enhanced Class Options	70%
2.Builds Sports Programs	50%
3.Promotes Social Life/Values	40%

4. Structured Living Environment	40%
5. Promotes Local Economy	30%
6. Preparation For Future	20%
7. Tok School Growth	20%
8. Decrease expenses For Small Schools	10%
9. Reliable Mentorship	10%

#### High School Students' Justifications for Not Supporting a RRLC:

1. Cost Too Much Money	100%
2. Small Town/Small Needs (Unnecessary)	50%
3. Not Enough Students For An RRLC	50%
4. Other Schools Might Close	50%
5. RRLC Might Be Vandalized	50%
6. Spend Money On Sports Equipment	50%

The project will include building a new net-zero 10,000 square foot Regional Residential Learning Center (RRLC) on a campus that includes Tok School, Biomass Plant, multipurpose building, processing center and greenhouse. The RRLC would benefit from heat produced by the biomass boiler, surplus heat created as a byproduct of the electrical generation process of the Combined Heat and Power (CHP) system, and would also benefit from the electrical generation of the CHP.

The RRLC will have reduce utility demands through low energy building practices, such as super insulation, a location close to the biomass plant, natural ventilation, and day lighting. The RRLC will also incorporate energy efficient building technologies such as high-efficiency Led lighting, communication, and back-up HVAC systems. There are many anticipated benefits for creating a RRLC on the Tok School Campus. The primary benefits among these would be energy savings, enhanced academic opportunities for students districtwide, further implementation of AGSD's long term energy vision, and creating a demonstration center for the net-zero construction of a school.

\*Two of the attachments reference a Training and Administrative (TAC) building that is the same square footage just as a budgeting guide.

#### Project Timeline:

The project would begin as soon as the appropriation was awarded and be completed by the Fall of 2017. The project was approved during the January 21, 2013 Regional School Board meeting; the January 20, 2014 Regional School Board Meeting; the January 19, 2015 Regional School Board Meeting; and the January 18, 2016 Regional School Board Meeting.

Todd Poage, Superintendent  
Alaska Gateway School District  
P.O. Box 226  
Tok, Alaska 99780

RE: Regional Residential Learning Center

Dear Superintendent Poage:

It is our pleasure to support the Alaska Gateway School District's efforts to establish a regional residential learning center (RRLC).

As we understand the concept, a regional residential learning center is a school intended for students from small rural high schools within a district. RRLCs are usually located in a hub community with the largest high school in the area and offer career and technical education (CTE) and workforce development curriculums to 9<sup>th</sup>-12<sup>th</sup> grade students. The programs are intended to supplement the offerings of small rural high schools and at the same time allow students to retain their culture by staying close to home.

As you know, there are at least two established RRLC's within the Doyon region of Interior Alaska. Many of the prospective students for your proposed RRLC will be Doyon shareholders or descendants of Doyon shareholders living in the six rural communities within the AGSD (five of those village communities are within the Doyon region).

We understand that if funding were available through the Alaska legislature, the goal of the AGSD would be to build a 20-25 room dormitory with three or four classrooms to house interested 9<sup>th</sup>-12<sup>th</sup> grade students from the six outlying schools in AGSD. Students could live full time during the week at the RRLC and then be transported home for the weekend. Students from the RRLC would integrate into some of the classes at Tok School and students from Tok School would have the option of taking classes offered by the learning center. The RRLC could also be used for summer academies that focus on enrichment activities such as advanced academics, fine arts, language, credit recovery, HSGQE preparation or elementary summer camp.

We understand that enrollment in this program will be voluntary and that no high school students will be required to attend. Furthermore, we understand that we will have

Doyon, Limited  
1 Doyon Place, Suite 300  
Fairbanks, AK 99701

the opportunity to provide input into the development of the regional residential learning center.

The Alaska Federation of Natives has supported the RRLC concept through a resolution during the 2012 Convention. Citizens for the Educational Advancement of Alaska's Children ranks RRLCs as its highest prioritized initiative.

In closing, we would like to thank the district school board and administration for seeking ways to improve the education of students within their district.

Sincerely,

A handwritten signature in black ink, appearing to read 'A. Schutt', with a stylized flourish at the end.

Aaron M. Schutt, President and CEO

ALASKA FEDERATION OF NATIVES

2012 ANNUAL CONVENTION

12-44

ALASKA FEDERATION  
OF NATIVES

- TITLE:** EXPANDING THE OPPORTUNITIES FOR REGIONAL EDUCATION AND LOCAL PROGRAMS
- WHEREAS:** The statewide 2011 Alaska Native high school 4 year graduation rate is 50.07;  
**and**
- WHEREAS:** Of the 131 small high schools, 93 have 30 or fewer students; and
- WHEREAS:** Of the 2,662 students in small high schools, 95.38% are Alaska Native students;  
**and**
- WHEREAS:** Almost 1,000 students participate in residential programs of different types throughout the state, and different regions are developing regional programs that fit their needs and circumstance; and
- WHEREAS:** State policies have had a negative impact on small high schools and urban schools have very poor performance with regard to Alaska Native students; and
- WHEREAS:** Alaska Native students learn in a variety of places, from small rural schools in the villages, to large urban schools in the cities, and distant boarding academies; and
- WHEREAS:** Each type of school has its own strengths and weaknesses. Though rural schools often are not provided the same resources as urban schools, they teach things that urban ones do not and they permit our youth to remain with their families and help ensure the continued vitality of our people, our homes, and our cultures; and
- WHEREAS:** Regardless of where one attends school, education is the foundation of opportunities for Alaska Natives and for all peoples; and
- WHEREAS:** Quality education should therefore be available to all who want it; and
- WHEREAS:** Alaska Natives have suffered discrimination and disparities in education, which, as recognized by the courts, has persisted to today; and
- WHEREAS:** Several programs throughout the state have had excellent results with short term, medium term and long term programs that connect rural and urban Alaska Native students with opportunities to advance their education; and

- WHEREAS** The current Alaska law only authorizes statewide residential programs through school districts to be eligible for state residential stipends; and
- WHEREAS:** It is essential that Alaska Native organizations operate educational programs for Alaska Native students to advance their opportunities; and
- WHEREAS:** The current stipend does not meet the operational cost needs of programs currently under operation; and
- WHEREAS:** Residential Learning Centers provide one option and offer the following benefits:
- Student access to short- and long-term courses and programs that small high schools are unable to deliver;
  - State education funding would remain in a student's home district or region.
  - Collaboration on course delivery and cost sharing;
  - Student access to technical centers, university campuses, job shadowing, and apprenticeships;
  - Year-round course delivery;
  - Increased opportunities for Performance Scholarship Program, CTE programs, social and service learning; and

**NOW BE IT RESOLVED** by the Delegates to the 2012 Annual Convention of the Alaska Federation of Natives, Inc. (AFN), that AFN works with the Governor, his Administration, and the Alaska Legislature to rename 4 AAC 33.090 as follows: District-operated or non-profit operated residential programs that deliver in-district, regional, or statewide residential educational programs; and

**BE IT FURTHER RESOLVED** that AFN advocate to amend language in 4 AAC 33.090 to include in-district and regional residential educational programs as well as statewide residential educational programs, and that Alaska Native organizations are required to lead or partner with such programs; and

**BE IT FURTHER RESOLVED** that AFN advocate to amend language in 4 AAC 33.090 to provide student stipend funding to approved in-district and regional residential educational programs; and

**BE IT FURTHER RESOLVED** that the State of Alaska establish in regulation an annual application period for districts wishing to establish a district, regional, or statewide residential school in compliance with 4 AAC 33.090; and

**BE IT FURTHER RESOLVED** that the current stipend be increased by at least 50% to adequately reflect the costs associated with operating residential programs; and

BE IT FINALLY FURTHER RESOLVED that AFN partner with individuals, groups, and other organizations that also believe in educational equality to ensure that Alaska Native Organizations are driving the residential programs for the benefit of Alaska Native students.

Here are the items I have worked on in the past month;

- ◆ Completed 2016 Impact Aid application
- ◆ Completed W-2's and 1099's
- ◆ APOC School District registration(Alaska Public Office Commission/Lobbyist)
- ◆ Quarterly grant reporting (11 grants)
- ◆ 941 IRS/State unemployment quarterly payroll reporting
- ◆ Certified payroll
- ◆ Monthly/semi-monthly payroll deduction checks
- ◆ Accounts Receivable/deposits
- ◆ Completing the Indirect Cost rate form for the State
- ◆ Teacher Certification issues
- ◆ Worker's Comp claims and issues
- ◆ Completed Certified Scattergram for salaries for AASB
- ◆ Completed Multisite wage survey
- ◆ Completed Quarterly Pupil Transportation reports
- ◆ Advertised RFP for Pupil Transportation Services (closes 03/14/2016)
- ◆ OSHA annual reports/300A forms (4 schools had individual reporting, plus the district as a whole)
- ◆ Working on revision for the FY16 budget
- ◆ Attended webinar on 1094 and 1095C Health Care reform reporting requirements

January is one of the busiest, most challenging and yet rewarding months of the year with all of the deadlines and reports that are due by the 31<sup>st</sup>. Never a dull moment, makes the days seems a couple of hours long.

Currently we are catching up on items such as student activity reports, inventory, updating files and spreadsheets. I have also started preparing for the FY17 budget, gathering documents and new percentage rates that will help with the preparation of the new budget. A proposed budget will be ready for the March board meeting.

Assistant Superintendent

## MEMORANDUM

Date: February 15, 2016  
To: Superintendent & the Regional School Board  
From: Scott MacManus, Assistant Superintendent  
RE: Activities Report for January-February

### Current Projects

- **Evaluation and Curriculum Project** – We are continuing our work in getting our evaluation and curriculum system up and running. Tracie Weisz and Scott MacManus will present on the status of both of these related projects.
- **Textbook and Curriculum approvals** – Last summer several teams reviewed our Middle and High School Math materials, and another team worked on English/Language Arts, and another spent time working on our new Evaluation System. The Math review resulted in recommendation of a new program called Focus on Math, which is a middle school math curriculum series spanning 6<sup>th</sup> grade through Algebra I, in the New Alaska State Standards. The other program and textbook updates are not new, rather they update the previously approved materials and curriculum.
- **Carl Perkins Funding** – The district has received an additional \$5000 specifically for Perkins approved Career and Technical Education Programs. These approved and certified programs in the district are Small Engines and Welding. The additional funding will support supplies and assessment for students in those programs.
- **School Improvement Grant (SIG 1003g)** – Final approval for the SIG grants has been received, and that project has been implemented in Tetlin and Tanacross. These funds paid to bring to Anchorage for the RTi (Response to Instruction) conference, where we able to enjoy the 7.1 quake.
- **Fit-4-Life-** We are working on completing the 2 year evaluation of our PEP project, and are working with our external evaluator right now in a district wide data collection process to ensure that we are compliant and able to continue to get our final years funding next year, and are eligible for reapplication
- **National Institute of Food and Agriculture-** are preparing to release a Food Security RFP, and we are looking at working with the Cooperative Extension at UAF to make a determination of our eligibility and situation for making a successful competitive application for funding, which will run the neighborhood of \$300k.
- **NCLB** – Work on the FY16 NCLB (now entitle ESEA) Application is underway with required compliance changes. The big change next year will be how we are required to manage Title IC.

**General** – Much of this month's time has been committed to personnel issues. The district has updated our process and forms to ensure compliance with the Family Medical Leave Act and Alaska Family Leave Act. We are continuing to look at addressing the policy conflicts that exist, and a revamp of our classified personnel tracking system.

**Report to the Regional School Board  
Alaska Gateway School District  
February 3<sup>rd</sup>, 2016  
Prepared by LeAnn Young, Special Education Coordinator**

As we move through the 3<sup>rd</sup> quarter of the 2015-2016 school year, the special education department remains busy. There have been many students transferring in and out of our department and we are adjusting to these changes. Special education teachers have been working hard to ensure that Individual Education Program requirements and due dates are met. We currently have 51 special education students, 7 gifted and talented students and 6 students in the intervention process.

**Trainings:**

- The statewide special education conference is coming up next week and LeAnn Young and S Parker will be attending.
- The Autism Society of Alaska is hosting a conference in Fairbanks, Alaska to bring together the community in the name of autism. The conference will feature a world-renown speaker on autism, Dr. Temple Grandin. The district is sponsoring not only paraprofessionals who work with autistic children but will also be assisting families monetarily to attend this event.
- Jason Fastenau, LeAnn Young and Candy Thurneau have begun weekly teleconferences with TIENET to begin implementation of the new online special education data management system. The goal is to have the system up and running by April 1<sup>st</sup>.
- Chris McDonald, Occupational Therapist, coordinated efforts with our local Headstart program to offer an evening presentation on fine motor development during her January visit.

**Specialists:**

Several specialists who contract with our school district have conducted their required visits and have met with students and staff to cover services required in student IEP's.

- E-therapy continues to work well. There are 30 in our school district who have goals in the area of speech & language and are receiving services through E-therapy. This includes pre-school students in both Northway and Tok. We have E-therapy services 2.5 days per week.
- Deb Fortune, speech pathologist, was in the district the week of January 4<sup>th</sup>. She visited sites and worked with paraprofessionals and REACH Academy parents on providing quarterly supervision for students with speech and language goals.
- Chris McDonald, Occupational Therapist was in the district the week of January 25<sup>th</sup> and will return the week of February 22<sup>nd</sup>.
- Ruth Lyles, Physical Therapist, will be in the district for her 3<sup>rd</sup> quarter visit the week of February 22<sup>nd</sup>.
- Frank Satterwhite, Psychologist, will be in the district the week of February 29<sup>th</sup>.

**Current Projects:**

- Candy Thurneau, Jason Fastenau and myself are working with TIENET to make a smooth transition from SEAS to this new data management program. We are currently working on the initial set up and merging data.
- The Gifted and Talented program is up and running at Tok School.
- The job for the Mentasta/Itinerant special education teacher remains posted. We have hired an aide to cover the position in the interim.

## **Technology Board Report February 2016**

We received official notification of full funding for our Internet service through ERate, and have filled out the forms to formally accept the money. Until it is time to file our BEAR forms for refunds, that brings to close the paperwork for the 2015-16 school year.

USAC, the agency the handles the ERate program, recently opened the window for the 2016-17 school year ERate applications. They are using a completely new system for applications, and have said to expect many issues and problems at first. Because of this, I am opting to delay starting our application for a few more weeks to let some of the bigger problems get fixed before I apply. The application window closes on April 29th.

I've got the new wireless system set up everywhere but Eagle at this point. There were some issues to work through in Tok School in particular, but I think we've got it dialed in now. I am liking the new system, and think it is going to be a nice improvement for our sites. These wireless devices are part of a larger system network manufactured by Ubiquiti that includes ethernet switches, Voice over IP phones, security camera systems, and longer range data uplink devices, (like microwave between buildings). These devices are all controlled through a single system, which we now have set up on a free Amazon server. Next year I plan to acquire switches that will be the foundation we can build on for adding other devices like VoIP phones.

The Chromebooks have turned out to be a real success for us. They have provided increased functionality over iPads at a lower price point. Additionally, the central control of the system has allowed me to save a lot of driving compared to any other available technology. I would like to add an additional 80 chromebooks to our fleet for next year out of my supply budget.

It is looking like there are going to be some big changes in the online tests that we administer next year. The AMP test we currently do using the KITE client on computers will be replaced with something else next year. Although I think moving to online testing has the potential to be a really good thing, it has added another layer and a lot of extra work to my job over the last couple years. I'm hoping the new solution does not end up increasing that burden.

To: Regional School Board

From: Randy Warren  
Maintenance Director

RE: January 2016 Board Report

The Maintenance Department for the month of January accomplished a lot, we didn't have any major break downs in the schools, so it gave us time to go to the schools and do the preventive work orders, the work orders that the schools sent in, and anything else that needed fixed.

I sent a copy of the Northway house bid information to all the schools to be posted in their villages.

We replaced the starter on the bobcat, and fixed a bunch of burnt wires.

Tok School garage: we replaced the man door and fixed the door jam, someone kicked it in and broke it, there has been no body come forward to confess their sins.

Northway Teacher house: We installed a low water cut off pressure switch for the water pumps, this will help from burning up pumps, fixed the washing machine, and repaired the refrigerator power cord.

## **Biomass January 2016 Board Report**

Boiler was down for a few days due to the feed motor disintegrating.

Boiler and turbine have been running very well. The fuel that we chipped in the schools yard so far not caused any glassing problems.

We have restructured how we are hauling, taking into account what was learned previously. Progress has been smooth with up to 18 loads being hauled daily. The numbers are as follows:

932 tons left to chip at the time of the last board meeting

-157 tons of slab wood purchase and chipped

-255 tons hauled to yard by end of January

=520 remaining

If piles of trees were always available locally to haul it would be possible to haul an entire years worth of trees in 40 days of work. I'd still like to find an economical way to limb what is available but overall I'd say we can be successful going forward. At some point I believe we will move into harvesting our own material as Forestry's budget for clearing is reduced. The price point I would like to eventually see would be around 45 dollars per-ton total cost. This material for whatever reason isn't causing glassing problems which makes me wonder if the needles aren't really the problem but dirt acquired in the logging process. Experiments are ongoing.

Thanks

Tony

Loretta Fitting  
Child Nutrition Coordinator  
February Board Report

- Oh January where did you go?
- Spent time helping in Northway, also visited many other sites, it is always awesome to interact with the kids and remember why I do what I do!
- Completed the on-site counting and claiming reports for the state. They went ok, I have some buttoning up to do with some of the counting procedures, which I have already started on.
- Currently working on a mini grant called farm to summer. It is up to \$750 to get the kids involved in growing some vegetables over the summer. Rita has drawn up some lesson plans to learn about and grow some foods at The Summer Food Program once a week. At the end of the Summer Food Program we will take a field trip to Boreman farms in Delta Jct. and pick our own potatoes for the Lunch program. It is going to be tons of fun for the kiddos! Bring on the sunshine!

Date: February 4, 2016  
To: Regional School Board  
From: Pam Gingue   
Program Coordinator

**PRESCHOOL:**

- 🍏 Held first READY! for Kindergarten parent classes in Tok in January; 10 parents in attendance; working with HS staff in Northway to schedule a parent orientation/1<sup>st</sup> READY! for Kindergarten class;
- 🍏 Northway Head Start/preschool had the highest attendance for the month of January; Way to go!!

**TESTING:**

- 🍏 The LEP assessment window is now open until March 31<sup>st</sup>; For grades 3-12, LEP testing will be online this year;
- 🍏 In Dana's absence, I have been covering AIMSweb and MAP testing for the district; nearly completed AIMS Web and MAP testing for REACH, Dot Lake, Mentasta, Northway, Tanacross, Tetlin, and Tok AIMSweb; Marla Alsup is doing Tok MAP testing and Kristy Robbins completed Eagle's AIMSweb and MAP testing; Thank you to all the schools for your support, it is appreciated!!

**UPCOMING ACTIVITIES:**

- 🍏 Hold second classes for READY! for Kindergarten parent program for children ages 2-3; ages 3-4; and ages 4-5 in Tok; Hold orientation and first READY! class in Northway;
- 🍏 PreK transition activities will begin in Northway and Tetlin, partnering with the school and early elementary teachers;
- 🍏 I will be out of the office the week of Feb. 22-26 but will resume LEP assessments when I return;
- 🍏 Work on completing LEP testing for district schools with several test administrators' support.

Tracie Weisz  
Curriculum and Instruction Coordinator  
Board Report for 2/15/2016 Meeting

Although I've been working with curriculum and instruction ½ time for awhile now, as of January 18th I am working full time in that department. Following are some of the happenings since I began full-time at District Office.

- During the first two weeks of the semester, I've worked with principals across the district as well as Deb Lundy to get students set up for courses in Odysseyware. So far this year we have had a total of 75 students across the district take 60 classes in our Odysseyware system. The majority of these are courses for high school credit. Some of these are classes taken by only one student, and some by several students at one time. A feature of Odysseyware is our ability to custom design courses. In Mentasta and Tetlin I have customized Odysseyware courses to be offered in a blended learning environment to meet the needs of teacher and students.
- On January 23 and 24, I, along with teachers from Tanacross School, Tetlin School, and Tok School attended the RTI Conference in Anchorage. Between us we attended many sessions learning more about RTI Frameworks in language arts and math for better implementation of RTI in our schools. I also attended a very interesting leadership session focused on studies-based practices that are shown to impact student achievement.
- I sent Juanita Wilson to a free Doyon Foundation Where Are Your Keys (WAYK) language training in Northway on January 23 and 24. Juanita has been creating Upper Tanana language resources for a cultural resources website I'm building for the teachers of AGSD. The site will provide a wealth of local cultural resources, many curated for us by local people. The intent is for teachers of AGSD to be able to access quality cultural resources from the local areas in our district to incorporate into their classrooms. The training and resources Juanita received at the WAYK training will be a great addition to the site.
- I've been working on setting up new district curriculum and instruction website to function as general resource guide for AGSD teachers, and as an orientation portal for new teachers. The site should be ready to be live by the end of February.
- The AGSD Online Teacher Evaluation system is up and running. Principals and teachers have had access to the paper versions of our observation tools and the evaluation tool itself that we are piloting this year since the August inservice, when they received training. We began the year using the paper versions of the tool. Since October, principals have had the ability to enter classroom observations and other artifacts of practice into the online system, and as of January have been able to complete teacher evaluations online. I attended a webinar on January 19 held by EED in which we were given information on the implications of ESSA on teacher evaluation. For now the biggest news affecting us is that it sounds like the student data component is on hold until the State Board attends to it in March.
- Other items of note during January:
  - Ordered and distributed new Daily 6-Trait Writing materials for k-12 language arts teachers
  - Assisting teachers with Classbright lesson plans and curriculum resources, including training in the system for our two new hires this semester
  - Assisting principals with the new evaluation tool by (online and paper forms)
  - Inputting new cultural materials from Association of Interior Native Educators into Classbright for teachers to have access to. Teachers currently have access to curriculum for Introduction to Athabascan Culture, and Athabascan Potlatch - more to come!

## FAFSA FRENZY

March 23

Daisy Henry from UAF will be assisting seniors  
and their parents at Tok School (12:00-2:00) and  
at UAF Tok Center (5:00-7:00)

*Focus on EMPATHY, the ability to understand the feelings of others by putting yourself in another's "shoes."*

## Kids2College

Recent K2C lesson led 5th students through a learning styles inventory to determine what type of learner each one is:

**Auditory**

**Kinesthetic**

**Visual**

Students created a Learning Tips Ready-Reference card to remind themselves of strategies they might use to facilitate their own learning.

## I Know I Can

Second graders are being introduced to career options with this program that includes career speakers. Tok School students enjoyed hearing Trooper Russ Landers career story.

## What Other Classes Are Doing

### TOK CLASSES

Feb. 10 - Gr. K, 5

- \*REACH

Feb. 11 - Gr. 6

Feb. 17 - \*REACH

Feb. 18 - Gr. 3,7,8,11/12

"Bucket filling is fun and easy to do. It doesn't matter how young or old you are. It doesn't cost any money. It doesn't take much time. And remember, when you fill some else's bucket, you fill your own too." Carol McCloud

The Gateway Greenhouse  
February 2016 Board Report

February has arrived and marks the beginning of my second full growing season here at The Gateway Greenhouse. The heat came back on the third week of January and all beds have thawed. The first direct seeding will start in just a few days, on February 8<sup>th</sup>. This is 10 days earlier than last year. Snap peas, bush beans, spinach, kale, and greens will all be started next week. How great it feels to be able to start the season so early in the year!!!

March 6, 2015 was the day we put our first transplants in the greenhouse last year. This year we are shooting for two weeks earlier, so that means transplants will go in starting February 22<sup>nd</sup>.

At this time I have 18 beautiful 'Washington Cherry' tomato starts. These are a determinate plant, which means they need no pruning, will produce fruit and then be done. My hope is that they will be ready for harvest and use during the last month of the current school year. I also have about 80 'Matt's Wild Cherry' tomato starts, which are indeterminate, meaning they will need pruning and will continue to grow, flower and produce. These plants can grow and produce throughout the whole season, so long as they are cared for properly. I will not need all these starts, and will choose the best looking ones for transplant. Other starts I have going are cucumber, zucchini, cabbage, basil and three varieties of peppers.

I am still growing lettuce in the hydro/aeroponic units in the processing building, continue to learn new things about growing this way, and am mostly pleased with how it's working out. These units will be sent out to Eagle when our other system is up and running. It's taking time but I feel that our goal to have Eagle school growing food will be realized.

## Principal's Report

### Fabulous 4-H

Students in the Eagle School 4-H Club pose after the awards ceremony with visiting leaders, Marla Lowder, Priscilla Rice, and Dakota Wilcher. Secondary students did demonstrations of their 4-H projects for the judges on 4-H Family Night and received ribbons and critiques afterwards. All students gathered for the 4-H assembly and awards.

Blue ribbons were awarded to: Tristan Beaucage for ulu making; Shian Scott for candlemaking; Alex Helmer for making diamond willow lamps; Violet Burnette for beading; Sunny Hemen for pyrography; and Valerie Smith for glass engraving. Red ribbons were awarded to: Kirsten Nelson for making dog booties; Ian Malcolm for making trebuchets; and Josh Beaucage for drums.

### Yukon Quest Fest

Quest Fest begins! Feb. 8-12  
 \*Dancing with the Spirit here  
 \*Nita Rearden visits  
 \*Mikaila Holt, PHN visits  
 \*No school Feb. 12-Inservice

### Battle of the Books

2/15—3<sup>rd</sup>/4<sup>th</sup> grade team (a.m.)  
 2/15—High School team (p.m.)  
 3/7—K/1<sup>st</sup> grade team

### WRLF Trip

Four Eagle students travel to Fairbanks for the Western Regional Leaders Forum on Feb. 29-Mar. 7 for 4-H

### Thomas Malcolm Wins August Spot

Second grader, Thomas Malcolm, won a spot in the JIA 2016 Student Safety Calendar contest. This year's theme was Water Safety. Thomas drew a picture of a boat on the water on a stormy day. His message reads, "No boating when it's storming." Students competed in this art contest against 29 other school districts. Every participant received a certificate. Thomas received a certificate, a letter of recognition, and an 89-piece art kit. His winning picture is proudly displayed in the school. Congratulations Thomas!

## Eagle Village Tribal Council Donates to Dancing with the Spirit

Many thanks to the Eagle Village Tribal Council for their donation of \$800 toward our music camp *Dancing with the Spirit* during our Yukon Quest Fest activities in February. They are also bringing in Ruth Ridley, Han-Athabaskan

Language expert, to assist with the language component of our program. TCC is graciously covering the costs of freight and airfare to assist us. Mahsi Cho to our village and TCC.

## Doyon Donates

Doyon Corporation recently donated \$1,000 to ECS to help defray the costs of *Dancing with the Spirit*. The school hosts this special music camp during the week when the Yukon Quest races through Eagle. Incorporated into the program is a Suicide Prevention message and Athabaskan language studies. Thank you, Doyon.

## Students Demonstrate 4-H Projects

As part of the 4-H curriculum students must successfully demonstrate the skills they have acquired as a 4-H member. On January 25<sup>th</sup> Eagle Community School and UAF 4-H & Youth Services Leader, Marla Lowder, along with President, Priscilla Rice and leader, Dakota Wilcher, sponsored a 4-H Family Night. The guests brought in taco fixings and Kristy Robbins alongside parent volunteer, Jackie Helmer, and several others prepared the

meal. Everyone enjoyed the feast after the demonstrations. The final event of the night was the boomerang competition in the gym. Students made boomerangs with custodian, Rick Nix, for their Physical Science Lab and they demonstrated their throwing and catching skills for the parents and guests. As a result of this 4-H experience four students and one parent are now attending the Western Regional Leaders forum in March. Way to go EAGLE!

### Cloverbuds Working Hard in 4-H

Taylor & Syrianna learn to sew with help from Gina Bailey & Naomi Helmer

Shannon cleans the classroom fish tank

Steve Scott teaches son, Ty, leatherworking

## Valdez Trip

REACH Academy students are invited on a special trip to Valdez!

We plan to leave Tok on Monday, May 16<sup>th</sup> and return on Friday, May 20<sup>th</sup>. We will be taking AGSD vans.

Some of the activities that we are looking into are;

- Visting the Valdez Terminal
- Kayaking
- Whale Watching/Glacier Tour
- Hiking
- Touring the Fish Hatchery

Please let us know ASAP if you are interested in going on this exciting trip!

## Don't Forget!

REACH Academy students can attend REACH Academy P.E. time every Wednesday from 12:37PM - 1:21PM in the Tok School gymnasium.

## REACH Craft Time

Thanks to everyone who attended our REACH Academy Craft Time!

Thanks to everyone who attended our January REACH Academy Craft Time Event! Students who attended this event made adorable Tooth Fairy Pillows. Students also learned how to make Friendship Tea and took home jars of tea to share with friends and family.

Thanks to Maryann Landers for coming up with this wonderful idea and putting together this great event! If you have an idea for a REACH Academy event please let us know!

## 2017 Migratory Bird Calendar

The Alaska Migratory Bird Calendar Contest is a state-wide poster and literature competition created by the Fish & Wildlife Service. The deadline for the 2017 contest is Friday, February 12<sup>th</sup>, 2016.

The 2017 theme is "Working Together to Save Migratory Birds." Students can express this theme however they would like to. We have 2016 Migratory Bird Calendars available in the REACH Academy office if you'd like to see some examples of past contest winners. Every student that submits an entry will receive a "Certificate of Appreciate" signed by the U.S. Fish and Wildlife Service.

If you need any more information please visit <http://www.fws.gov/alaska/external/education/calendar.htm>.

## Battle of the Books

District battles begin on February 8th

Please let us know as soon as possible if you plan on participating in this years Battle of the Books district level competition. The district battles will take place in the Tok School library. Practice questions and books are available at the REACH Academy office.

The district level battle dates are as follows:

Kindergarten	9:00AM	February 29 <sup>th</sup>
1 <sup>st</sup> Grade	11:00AM	February 29 <sup>th</sup>
2 <sup>nd</sup> Grade	1:00PM	February 29 <sup>th</sup>
3 <sup>rd</sup> /4 <sup>th</sup> Grade	9:00AM	February 8 <sup>th</sup>
5 <sup>th</sup> /6 <sup>th</sup> Grade	9:00AM	February 10 <sup>th</sup>
7 <sup>th</sup> /8 <sup>th</sup> Grade	9:00AM	February 9 <sup>th</sup>
High School	9:00AM	February 15 <sup>th</sup>

## FAFSA Assistance

Daisy Henry from UAF will be assisting seniors and their parents with the Free Application for Federal Student Aid (FAFSA) at Tok School from 12:00PM - 2:00PM and at UAF Tok Center from 5:00PM - 7:00PM on Wednesday, March 23<sup>rd</sup>.

## SCA Summer Programs

SCA offers incredible experiences for Alaska high school students!

The Student Conservation Association (SCA) is recruiting students age 15-19 for summer trail work and environmental restoration projects. Students from all over Alaska convene to camp out, build trails, cookout, and share work and life skills with each other. Two adult crew leaders supervise teams of eight crewmembers. Students are given a \$500 stipend at the successful completion of their four weeks of service. Outdoor gear and food is provided. Need-based transportation stipends are available to Anchorage, where crews will launch.

Summer start dates begin in June and July. Some students will be invited to a weekend orientation near Anchorage this spring. To apply, students must visit [www.thesca.org/akcrew](http://www.thesca.org/akcrew) and complete a Youth: Crew application. Applications submitted prior to March 1 will be given priority for the spring orientation. After that, crewmember openings are open until filled.

## REACH Academy Resource Center

Don't forget to check out all the great supplies that are available to be checked out from the REACH Academy Resource Center the next time you stop by the REACH Academy office. We have all types of materials for a wide variety of subjects and we're adding new items all the time!

# NAME THE FERRY

## ALASKA CLASS FERRY PROJECT

**Play a part in making state history by naming one of the new Alaska Class Ferries.**

*The winner will be awarded special recognition by Governor Walker and Lt. Governor Mallott!*

## Entries due March 15th, 2016

The Department of Transportation & Public Facilities, in cooperation with the Office of Governor Walker and the Alaska Marine Highway System (AMHS), invite you to participate in the Name the Ferry essay contest. Each AMHS vessel has been named after one of 745 named glaciers in the state, leaving several choices to author a qualifying essay for entry in the contest. Participants must be in the 6th through 12th grade and complete an essay with a minimum of 400 words, that includes a suggested name with supporting evidence about why that name is most appropriate. Two winners will be awarded: one winner will come from grades 6-8 and one from grades 9-12. Each winning essay will be displayed on the ferry it names! For full details on the contest, please visit [FerryAlaska.com/contest](http://FerryAlaska.com/contest).

# HIGH SCHOOL JUNIORS: APPLY NOW!

## Al Neuharth Free Spirit and Journalism Conference at the Newseum

**JUNE 18-23, 2016**

The purpose of the Al Neuharth Free Spirit and Journalism Conference is to promote the vital role of the First Amendment as a cornerstone of democracy and to inspire students to pursue journalism careers. High school juniors who will graduate in spring 2017 are encouraged to apply for the 2016 all-expenses-paid conference at the Newseum in Washington, D.C.

- All-expenses-paid trip to Washington, D.C.
- \$1,000 college scholarship
- Meet and learn from peers and leading media professionals

**"The program has given me every tool necessary to have a successful career in journalism and the confidence to pursue this career."**

Neha Remani, 2012 Indiana Free Spirit Scholar

**Applications are now being accepted. Don't delay!**  
Visit **[freespirit.org](http://freespirit.org)** to learn more and apply online.

**NEWSEUM INSTITUTE**

**[FREESPIRIT.ORG](http://FREESPIRIT.ORG) 555 PENNSYLVANIA AVE., N.W., WASHINGTON, D.C.**

# TETLIN WIND

February 2016

## Athabaskan Values: Caring

This past month the students and staff began collecting items for our food drive. We actually started off rather slowly but by the end of the second week most students had contributed. The school goal was 100 pounds of food. We ended up collecting 178 pounds of food. We took this food and distributed it to members of the Tetlin community. In the Athabaskan tradition people of the village look out for each other and help those in need. The students at Tetlin school are getting a taste of what it means to think about others and not just themselves.

-- Robert Litwack Principal/Teacher

## February Calendar

- 2 Parent Action Committee mtg.
- 5 100th Day of School celebration
- 11 Early release day 2:30
- 11 School celebration of  
Valentines Day
- 12 Inservice Day (no school)
- 14 Valentines Day
- 15 School Board Meeting  
@ Tetlin 6 p.m.
- 26 Climbing Activity

Our Tetlin School Battle of the Books Winners

Marvin, Nova, Shania, Tabessa & Ms. Holmes

# Chinese New Year

One of the purposes of our writing here on these pages is to be able to improve our writing and to have our peers review our work. All of this is an opportunity to grow and learn and to stretch our writing skills. The following are examples of students summarizing.

**Shianna Joe**

How is Art used? The art was used by drawing, carving, used tools to make it look real, and cutting.

What are some of the cultural aspect of the Chinese New Year? make it look funny, colorful, looking at different signs of dragons, goats, fish, kids, flowers, fireworks, lions, and music.

Three facts learned? One of the facts I have learned was probably the art that Chinese people do it looks colorful.

**Byron Captain**

How is art used

The art was used with flouts and they use styrofoam and they draw, carve, and cut things out shaped as dragons or something else. and there's paper cutters they also use chainsaws for carving styrofoam.

What are some of the culture aspect of the chinese new year? (3)

It is funny, colorful, bright, and is the year for the sheep, they also look at different aspects and cool signs and some dragons are important to them and kids are also important and they love fireworks cause they invented them.

Three facts learned

the three facts i learned was they love to have chinese new years of different animals and creatures like dragons. love sheeps.

# The Third Wish

Recently the middle and high school group read a story about the consequences of making three wishes when you are in love.

Byron Captain

There was a man driving to a park named Savernake. The man's name was Mr. Peters. Then Mr. Peters heard someone crying and thought that person was in trouble. Mr. Peters saw something white and what he saw was a swan.

Allen Agnes

The story starts off with a man driving his car through a forest in "Savernake" his name was Mr. Peters. and he saw a bird a sad one with yellow eyes

Shianna Joe

The story mainly talks about a man named Mr. Peters, having three wishes, and a swan.

He was driving down the road during spring time. Going into a forest called Savernake. He heard an unusual sound coming from the forest so he got out of his car and climbed the mossy bank. He saw a little bit of water, he stood there waiting and trying to discover where the noise was coming from. He heard a rustling and weird cries was almost like human. Mr. Peters ran down the hill to see what was crying, he also saw something white. So as he was coming closer, he found that it was a swan that was stuck in thorns.

## Battle of the Books - Summaries

Shianna Joe

The story of "The Old Man and the Sea" by Ernest Hemingway is mainly about Santiago but he is referred to the old man in the story.

he's been without any fish for 84 days.

and so he went to the sea and never got any fish.

then he got a big fish and he been out there for three days without food or sleep and he thinks that his losing his mind.

After that the big fish get attacks by a sharks and the old man kills the shark and he knows that there is gonna be more trouble coming his way because the shark took a part of the fish and it started to bleed.

Symbolism

The old man is referring to Jesus because he was in the same position like him. He was holding the line with hands and shoulders. The line was cutting his hands.

breanna Nancy Farmer - The house of the scorpion

(indent) Matt went out at night with his friends Steven, Emilia, and Maria they went to the poppy fields where do flowers grow and Matt stepped on glass. His friends carried him to a house and a girl named Rosa helped the boy Matt. They took the glass out of his 2 feet. He screamed and then he wanted a room. He stayed in there for 2 weeks and he thought Celia would come and save him and Maria came in with a box of food and when he was done eating they went to bed. The next day Maria got in trouble and she had to go home and Rosa called him a clone because she thinks he is a animal. She brought in newspaper and a book. Matt had a teacher the teacher taught Matt his numbers and everything else over and over again. Matt is going on a picnic

Bentley Mark 3rd - The house of the scorpion

The story is about a clone, a DNA of El Patron, a leader of a poppy field, he's like a drug lord. At first they started with a tiny cell then he started dividing up. Soon he will be a boy soon, his name is Matt, he's being taken care of by a girl named Celia, the woman who grew him up from a little baby. He can't go out because everyone knows what he is by the looks of him. Because the people know who is El Patron. Matt is like in a prison stuck there for ever.

Julie Wright - The story of "The Old Man and the Sea" by Ernest Hemingway is mainly about Santiago but he is referred to as the old man in the story.

The Old Man was without fish for 84 days and he was trying to catch some fish so he can sell it and get money.

The Old Man went to try get any fish but he didn't have any luck of getting anything.

Finally the old man got a big fish and he been out there for three days without food or sleep and he thinks that he's losing his mind, then the big fish gets attacked by a shark and the old man kills the shark and he knows that there is gonna be more trouble coming his way because the shark took a part of the fish and it started to bleed.

Allen Nancy Farmer "House of the Scorpion"

This book is about a child (Clone) who was imprisoned by a Lady called "Rosa" She was mean, she did not like Matt. The main characters were Celia, Maria, Matt, Rosa and El Patron.

What is a clone? This book is about a clone named Matt he is made for El Patron to use for body parts Describe the main characters. They're nice and kind and Quiet

Matt how old, who takes care of him? Celia takes care of him and he is 7 years old.

What do others think about him? Stupid, a weird and quiet.

Why do you think Rosa imprisons Matt? No one to take him

The writer of this book is named Nancy Farmer. she wrote the book named The House Of The Scorpion. The book is about a boy named Matt who is a clone. A clone is a group of organisms or cells that is identical to the father. Matt also got into severe pain for breaking the glass, all the glass got in his feet hands and knees. But after a hour while the kids he was trying to play out with was carrying him to there home so the doctor can help. But unfortunately the doctor was helping someone else.

Matt was an unusual person because Matt was a clone and he was spilt and divided into a petri dish. Then Matt was placed in a cow's womb where he continued the miraculous journey from embryo to fetus and then a baby. He is a boy now, but most of the people consider Matt as a monster but El Patron. El Patron loved Matt, and Matt loved El patron too. But El Patron was Matt. Matt struggles to understand his existence, he is being threatened by a sinister cast of characters. When the doctor was done helping the owner of the house he got mad and told the maids to take him out of the house and leave him outside, but the doctor went out and brought him back in so he can take out all the glass in Matt. After he was done Celia came and grab him and took him home.

Bridgette

The battle of the books I am reading is The One and Only Ivan by Katherine Applegate

Ivan is a grila and he is washing is Roby. Roby is a Elifant and she is

cireoss because she does not know what Ivan is painting. Mack is the mall cepper.

Stella is died and Ivan has to wach Roby. Ivan sister Tag is died to.

Loren Thomas

The Legend of the Ghost Dog

by Elizabeth Cody Kimmel

The battle of the book that I am reading is Legend of the Ghost Dog by Elizabeth Cody Kimmel.

My main characters are Jenhard Seppals, Jack the brother, Anita the sister, Henry the dog, Clay, and the witch. My settings is in Nome Alaska and New York. Tee and Henry are going for a walk. Henry ran away.Tee found Henry at the bottom of some hill.something was watching her in a bush.Then she ran away with Henry when she came up to her house opened the door then she saw Quin reading a book.Tee thinks that Quin is a beagle expert because she was jelious. Anita and Henry went out again with Henry and Jack, Henry froze. Anita saw something in the bushes. Now Tee and Quin are best friends. Tee and Quin are talking about what happened at the school. Tee, Quin, and Henry are going to see the Shadow. Quin is trying to be nice to Shadow. The two girls thought that Balto was the ghost dog but it wasn't. Tee is not listening to Quin. I think that this book is right to read to other kids. I love that this book has a lot of adventure, has a lot of action, really fun to read, and it's the right for all six graders to read.

Preston paul

The battle of the book that I am reading is who is Stan lee. Who is stan lee is a good book it's about a kid from New york who loved comic book's . After he grew up he made his own comic book's he almost made all of the super hero's and bad guy's he made millions of dollars he also became the most famous comic book maker. The author is Geoff Edgers.

Danisha Paul

The Battle of the book that i'm reading is the one and Ivan by Katherine Applegate. I know some things about the book That stella died she is the elfent and the grilla is Ivan she loves to panit and eat bannans the grilla is the one and only Ivan is a really good book. My teacher Mrs.O'neil is reading the same book as me!

Catherine Captain

The battle of the book i'm reading Is Elephant in the Garden. The author is Michael Morpurgo. This book is about a old lady named lizzy. She is telling a story about a elephant in the garden. It Is inspired by a true story the main characters are lizzy, karl, and his mom. Lizzy is telling a story first about the world war 2. Her dad came back different He still tells story about the war a once in awhile. Now that all the husband's went to the war the house wife's are doing all the men's work like cut wood. So when lizzy dad came back for awhile they think they're dad is different but one guy stayed so he can watch the zoo his name Is Murri. Peter got caught when he was following his compass he went the wrong way but then he got out of the cage wall the china people were sleeping. He got away from them that's when they won the war because the war people got them destroyed. Mutti kept Lizzy moving from the china people because they were gonna take them as slave. So as lizzy got tired she went to sleep and at night karl thinks about the story that Lizzy told him. Karl's mom thinks about it to. So as Karl goes back to the place we're Lizzy stays at then she tells them the story about the elephant and karl likes the story about the elephant. Then she tells the whole story she says please share this story to everybody you know. That is my story for elephant in the garden. My opinion is that someone should read this book because it is inspiring by many people this is the book i would imagine in my head I will tell everybody to read this book because it is really good book.

Trinity joe

The book I am reading is Legend Of The Ghost Dog By Elizabeth Cody Kimmel. The main charceters are Anita and Quin. Anita and Quin lives in Alaska. They both like dogs and Antia has a dog named henry. Anita has strawberry hair and she is short Quin is tall and she has blond hair and they both 14 years old. They are in the same grade. They have a little brother named jack there promblem is a shodow dog/wolf and they are trying to find out what they saw. It's a really interesting book i think this is my favorite book. Antia loves hiking and Quin like hiking to they wanted to see what they saw again and they saw a dog and it started barking at them and Quin wasn't scared of it and she pet it the dog it was hurgry so Quin got the dog food and Quin and Antia runed from the dog the dog didn't follow so Quin told Antia that dog was a shadow.

**James Wright Jr**

The Battle Of The Book I am reading is Starry River Of The Sky. The main thing is that a young boy named Rendi. He ran away from his town and family. Now he is now working as a chore boy in a village inn. Then he hears sounds in the sky. Then a few months later he found what was making the sounds. The sounds were from a giant toad.

## Isaiah

Im riding The World According To humphrey . By betty G birney I like it much it is cool. In on page 12 if you wear a kide you will like it is funny .Exide but it is good Humphrey is lost but they .found him the in hoti is big room but it is big.

## Ms. Holmes' Class

January has been a busy month for the K-2 class. In Art we cut snowflakes, made Jumping Minions, and drew pictures for the NYO t-shirt contest.

During Writing we sipped hot chocolate, and then described it. It was yummy. We also wrote about our Jumping Minions. You can read our Jumping Minion descriptions on the bulletin board in the library.

In Science we are learning about soils. We have now have new pets that live in the soil...worms! Worms make rich soil for us by digesting plants. They don't like light, so we have covered their bin with a dark cloth. Come on in if you would like to see them.

Ms. Holmes' class won our food drive with 86 pounds of food collected.

January 4, 2016

Honored board members

We have flown through the month of January and are anxiously awaiting spring. The snow has afforded us the ability to ski in Dot Lake and we have taken every opportunity to get outside with the nice weather. We have been preparing for our Field Trip on the 18th and 19th of February where we will travel to Fairbanks and visit the Museum of the North, Play GloGolf, and go swimming at the UAF Sports complex. On the second day, we will take an in depth tour of "ColdStone Creamery" they have never done a tour, but working with the manager, we were able to arrange for the students to make ice cream, waffle cones, decorate cakes and eventually eat a breakfast of ice cream. (WOO HOO!!) The students have been eagerly participating in the retention of the PEP grant by engaging in meaningful activity each and every day. We are learning new games and exciting ways to play some old games. We are utilizing a program called PeaceBuilders for character education and bully prevention. Mr. Rebitski has used this program for years in other schools and really believes in the results. It is a program based on respect and a pledge that the students learn.

I am a PeaceBuilder.  
I Pledge...

To praise people

To give up put-downs

To seek wise people

To notice and speak up  
about hurts I have caused

To right wrongs

To help others

I will build peace at  
home, at school, and in  
my community each day.

We have started "The Lunch Bunch" at Dot Lake and are inviting the community to eat lunch with us every Wednesday as a way to garner support and show the students that the older generations do care about their education. Research shows us that when parents and families take an interest in school, students perform better and attendance improves. We are getting more participation each week and are looking forward to community involvement activities in the future. The February 3rd lunch was attended by 7 parents and elders which shows that interest is growing. We will use the opportunity to have PAC meeting and plan for the future. The Doyon Foundation LTD. provided the grant to pay for this program and we are very grateful for their support.

MAP testing went well and all students were tested.

Stephen Rudolf from the Tetlin Refuge has been coming to the school and teaching classes to the students (and the teachers) He brings a plethora of knowledge about Alaska and the environment. He is

planning to come on Friday the 5th of February to teach "Lost Proofing" and share with the students how to not get lost and what to do if you do. He is a very animated man and grabs the students attention, holding it for the entire hour. He claims that he is an accomplished pie maker and has promised us a pumpkin or berry pie...we WILL hold him to that promise!

The students received their sweatshirts with the Dot Lake Logo and are wearing them proudly. This is an investment in solidarity and pride which will pay us back in the years to come.

# Walter Northway School

## January Student of the Month

## AK TEACH Visits and Provides CTE Training

On January 27<sup>th</sup>, The AK TEACH team, Phillip Johnson, Anthony White, and Crystal Thomas, visited Walter Northway School to provide a number of opportunities for our students at Walter Northway School. Trainings and hands-on opportunities included soldering circuit boards for an alarm system, flying and repairing UAV's, Paper Circuitry, Lego League Robotics, and Professional Development training for teachers. Along with this trip, the team dropped off 10 Lego league robotics kits and level 2 UAV's. Nicole Fuerst led the paper circuitry activities, via the BlueJeans app. We were also able to discuss what this partnership entails for the future and we are looking forward to the continued support with the UAV and robotics programs, as well as taking advantage of further professional development opportunities. Thank you again, AK TEACH!

Congratulations to our January Student of the Month, Kayann Thomas. Her teacher, Mrs. Brown stated that she is a model student who is a tireless worker, always on time, patient, kind, and always willing to help her peers. Kayann works well with the staff in the room, follows school rules, and always has a smile on her face. Congratulations, Kayann!

Walter Northway School has 4 students playing Middle School Volleyball with Tok School. Thank you to Tok School for the opportunity and the parents who transport our athletes on a daily basis!

## Walter Northway School Updates the Positive Behavior Program Store

Through a GoFundMe campaign and a sizeable donation from Doyon, Walter Northway School was able to raise over \$1500 to update our new positive behavior program store with bikes, athletic apparel/accessories, and daily need items. We would like to thank all of the donors for their generous contribution to the program! Our students were polled on what they would like to include in the store and most items that matched our mission of providing students with opportunities to move were purchased!

### Mrs. Brown's Class Investigates Crystallization and Evaporation

Over a weeklong investigation, Mrs. Brown led the K-2 classroom in an investigation of mixing solutions, evaporation, and crystallization. The students were amazed at how the crystals formed once the water evaporated over the weekend. This activity was a hit in the classroom and definitely caused all of the students to become more intrigued in the scientific process!

## Walter Northway School Holds First Semester Academic Awards

On Monday, February 1<sup>st</sup>, Becky Gallen hosted the 1<sup>st</sup> Semester Awards for our students. Students were recognized for their academic success in honor roll, 100 club, and perfect attendance. Each student who is recognized is given an award for an item. Honor roll and perfect attendance students are awarded with money and the students who score a 100 on a test or quiz are entered in to a drawing for additional funds. The Johnson O'Malley Fund previously supported this and the Student Activity Program has decided to continue this wonderful program!

# MLV NEWS

"The job of an educator is to teach students to see the vitality in themselves." -- Joseph Campbell

## 100th day

We have passed our hundredth day of school.

Terrence is working with toy spiders modeling 100 days.

Brittney enjoys making sets of ten using pirates.

## PLC meeting 1/25

Discussion included:  
Fundraising ideas, review the student handbook, end of the year student trips and semester student incentives.

Students display their end of semester certificates

**January** is gone and February is moving just as fast. All classes have finished with Mapp testing. Kids are excited to complete the last semester. In Mr. Roach's class, students have been reading the constitution and learning about the new challenges of our great nation, while others are learning about Alaska's history. In science, one group of students are learning about how energy is transferred. Middle school is learning to add and subtract integers with different signs. For shop we plan on building a dog house, making gun racks and building a three room bird house.

Upper elementary is working on Polygon Personalities

## Tanacross News February 2016

Our current enrollment is at fourteen. We have been working hard to improve our attendance. We have been doing science experiments and some art activities in the mornings to boost attendance.

Students have also had the opportunity to dog mush and help prepare drop bags for the Iditarod with Hugh Neff and Roni.

In math students have been learning about three-dimensional shapes, volume, adding decimals, and multiplying two digit numbers.

In Reading students have been working hard on improving their phonics skills and fluency. Students are getting the opportunity to work with the Sonday reading system one on one with an aid. This is great opportunity for all students to show individual growth in reading.

Lastly all students that were assessed in MAP this past January made huge gains with their scores!!

Mrs. Kaydee & Mrs. Dunning

## Tok School Home of the Wolverines

February 3, 2016 Principal Roslansky report for AGSD RSB meeting

### The GPA Sledding Party!

by Ande Berg and Julia Kaltenecker

The GPA sledding party, on January 11, was a lot of fun. It started at 12:30 p.m. and ended at 3:30 p.m.

Hot chocolate, apple cider, s'mores, and a couple of sleds were brought to share. The giant, black jet sled was brought as well.

Everyone loved the jet sled because several people could fit in it, and it was very fast. The third

graders, who won the student council clothing drive, showed up at about 2:00 p.m. and left at about the same time as the middle and high school. All in all, everybody had a great time and lots of fun.

# Tok School Junior High Rifle!!!

by Savanna Rutledge and Joshua Salinas

Practices are for 5th through 8th grade at the Tok School Range. They will take place from 4:00 to 5:00 p.m., 2 or 3 days a week. Contact Ms. Burnham if you are interested at [eburnham@agsd.us](mailto:eburnham@agsd.us).

Join rifle! I have experience with rifle, and I personally think that it is fun. We practice shooting; so, when we are old enough to compete in high school, we will be ready. It also helps us practice our shots for other uses, such as hunting and target practice. So what do you say? Come join junior high rifle!

## Tok Squirts Hockey Team-Runs on Cookie Power

by Hannah Beeman

January 15-17, the Tok Squirts and some of the Glenallen Squirts and Mites combined into one team and went to Haines Junction, Yukon for the Yukon Atom Championship. We were the only American team who got to compete. It was a 6 hour drive to get there; and, as soon as we arrived, we had a game. We lost that game, 1-5. Some people commented that they heard people saying how they wanted to beat the Americans. The next day, we had another game, which we won 4-5. Then, we lost 5-6 and won 5-6 to the same team that beat us in our first game.

In the game that we won against the team that beat us, Cody was on a breakaway, and someone from the other team tripped him. Because we were tied, he got a penalty shot. When he scored, everyone on the team was jumping up and down with excitement. All we had to do then was hold the score for 16 seconds, and we did!

We lost every game that we did not eat cookies before, so now all of the Squirts believe that we have cookie power. I feel a badly for the people who have to buy us cookies for our games, but we made a deal that they would only buy cookies for special games, like state. Last year, we placed eighth at this tournament, which is last place out of all of the teams; but, this year, we played well and received fourth place. We hope to place first next year.

# TOK SCHOOL

## FRIDAY NOTE

### Basketball

Feb. 4th-6th: NIT Nenana Basketball Richard Fraser Memorial Tournament 12th, 13th, 14th

Feb. 15: JV Basketball at Glennallen

Feb. 26 & 27th: Tok Basketball in Cordova

### Volleyball

Feb. 12 & 13: MS Volleyball at Grace Christian

MS Volleyball in Glennallen

### Hockey

Bantam and PeeWees are going to Anchorage for the Presidents Day Hockey Tournament

President's Day: PeeWee Tier 3 12th, 13th, 14th

Feb. 5-7: Tier 4 President's Day Tournament in Anchorage

Alaska Grizzlies Mite Jamboree in Fairbanks

### Upcoming Events School Spirit Week

Monday: PJ Day

Tuesday: 80's Day

Wednesday: Red, White, and Blue

Thursday: Dress to Impress

### Spelling Bees

Little Bee: 11-12 p.m. Top 3 go to Big Bee

Big Bee: 1-2 p.m. Top 3 go to District Bee in Fairbanks

### Lip Sync Battle

Around 1 p.m, happening in the gym

### Battle of the Books

Happening in the library on the 15 of February

## Neon Nights Homecoming Dance

The Homecoming Dance is after the games in the multi purpose room. It is on Friday, and there is no fee to get in.

### Birthdays

- February 3: Breanna Beaver
- February 5: Jonathan Wystrach
- February 7: Micah Aschenbeck, LeAnn Young
- February 8: Leland Monroe
- February 10: Kevin Shank
- February 11: Gabriel Brigner
- February 15: Sarah Cramer
- February 16: Tiana Albert
- February 22: Ashley Eschenbacher
- February 27: Malakai Odom

### Instant Challenge

Each month, Tok School is invited to join an Instant Challenge where students connect with other students from around the state/world as we learn about new topics and ideas.

#### February Instant Challenge

February 16, 2016

10 - 11 a.m.

### What is the PEP Grant?

PEP stands for Physical Education Program. The PEP Grant funds the P.E. supplies and the teachers who travel to be the P.E. teachers for other schools. The funding source for the grant is in Washington D.C.

#### Does the rock wall have something to do with the PEP Grant?

Yes, the PEP grant funded the rock wall by purchasing all of the supplies needed for construction.

# Sport Articles

## The GPA Sledding Party!

by Ande Berg and Julia Kaltenekker

The GPA sledding party, on January 11, was a lot of fun. It started at 12:30 p.m. and ended at 3:30 p.m. Hot chocolate, apple cider, s'mores, and a couple of sleds were brought to share. The giant, black jet sled was brought as well. Everyone loved the jet sled because several people could fit in it, and it was very fast. The third graders, who won the student council clothing drive, showed up at about 2:00 p.m. and left at about the same time as the middle and high school. All in all, everybody had a great time and lots of fun.

## Tok Wolverines Peewees Hockey

Tok Wolverines Peewees hockey team traveled to Fairbanks for the FAHA tournament and had some peewees from Glennallen, Barrow, and Kenny Lake. Tok Peewees played at The Big Dipper at 7:15 a.m. Saturday morning on the 16th of January; they played Healy and lost. Around 1:30 p.m., they played Fairbanks Knights and won 4 to 2. They later went to Semi-Champions on the 17th and lost 6 to 4 to Delta at 7:15 a.m.

The Tok Wolverines Peewee Hockey team played well, tried hard, and had a good weekend.

By Vincent Wade and Dayton Landroche

## **Tok Bantams went to the Fairbanks Fest for Hockey 1/16/16**

---

1/16/16 . The first team we played was an all girls team, AHA GROSS; they were fast but we beat them. Next, we played Tier III Peewees; we lost, but we were still in the tournament. The next day we played Healy; with a score of 4 to 5, we won. After that, we went to the championship. We had to play the Tier III Peewee team again, the team we had lost against the day before. It was a blowout; the score was 4-1. We won, and we were the champions! It was a fun weekend.

By Teddy Northway and Christian Albert

## **Tok School Junior High Rifle!**

---

Tok school junior high rifle practice for future shooters!

Practices are for 5th through 8th grade at the Tok School Range. They will take place from 4:00 to 5:00 p.m., 2 or 3 days a week. Contact Ms. Burnham if you are interested at [eburnham@agsd.us](mailto:eburnham@agsd.us).

Join rifle! I have experience with rifle, and I personally think that it is a fun. We practice shooting; so, when we are old enough to compete in high school, we will be ready. It also helps us practice our shots for other uses, such as hunting and target practice. So what do you say? Join junior high rifle!

by Savanna Rutledge and Joshua Salinas

## **Tok Squirts Hockey Teams**

---

January 15-17, the Tok Squirts and some of the Glenallen Squirts and Mites combined into one team and went to Haines Junction, Yukon for the Yukon Atom Championship. We were the only American team who got to compete. It was a 6 hour drive to get there; and, as soon as we arrived, we had a game. We lost that game, 1-5. Some people commented that they heard people saying how they wanted to beat the Americans. The next day, we had another game, which we won 4-5. Then, we lost 5-6 and won 5-6 to the same team that beat us in our first game.

In the game that we won against the team that beat us, Cody was on a breakaway, and someone from the other team tripped him. Because we were tied, he got a penalty shot. When he scored, everyone on the team was jumping up and down with excitement. All we had to do then was hold the score for 16 seconds, and we did!

We lost every game that we did not eat cookies before, so now all of the Squirts believe that we have cookie power. I feel a badly for the people who have to buy us cookies for our games, but we made a deal that they would only buy cookies for special games, like state. Last year, we placed eighth at this tournament, which is last place out of all of the teams; but, this year, we played well and received fourth place. We hope to place first next year.

# Lunch Menu

## February 2016

Type Your School Name Here

## LUNCH

**School Information:** Serving sizes: K-8: fruit 1/2C, Grain 1-2oz, veggies 3/4C (1C if greens are leafy or uncooked), meat or meat alternate 1-2oz, 9-12 serving sizes 1 cup of fruit and 1C veggies, 2oz grains and meat/alternate. All meals include 2 choices of milk.

**Nutrition Tip: Make Fruit More Appealing:** Make a fruit smoothie by blending fat-free or low-fat milk or yogurt with fresh or frozen fruit. Try bananas, peaches, strawberries, or other berries

### Monday

Chicken Cesar wrap **1**  
mixed veggies, black  
bean salad, mandarins,  
milk

Spaghetti with meat **8**  
green beans,  
mixed fruit, milk

Popcorn chicken, **15**  
baked beans, corn,  
applesauce, milk

Fish sandwich, **22**  
coleslaw, baked beans,  
applesauce, milk

Nachos with ground **29**  
beef, refried beans, corn,  
mixed fruit, milk

### Tuesday

Pizza, **2**  
pineapple, milk

PB&J, hard boiled egg **9**  
Chickpeas and pasta,  
peaches, milk

Sweet and sour **16**  
meatballs, brown rice, stir  
fry veggies, mandarin,  
mandarins, milk

Chicken with noodles, **23**  
mashed potatoes, green  
beans, pineapple, milk

### Wednesday

Hamburger, French **3**  
fries, baked beans, mixed  
fruit, milk

Chicken fajitas, refried **10**  
beans, pears, milk

Pizza, **17**  
pears, milk

Chicken quesadilla, **24**  
refried beans, peas, pears,  
milk

USDA is an equal  
opportunity employer and  
provider

### Thursday

Fish Nuggets, **4**  
Green Beans,  
Strawberry cup, milk

Meatloaf, WW roll, **11**  
mashed potatoes,  
mandarins, milk

Chicken salad **18**  
sandwich, Potato wedges,  
cauliflower, peaches, milk

Chicken parmesan with **25**  
WW rotini, strawberry cup,  
milk

### Friday

Teriyaki Chicken, **5**  
Brown rice, peas,  
Pears, milk

INSERVICE **12**

Tuna sandwich, B bean **19**  
salad, mixed  
fruit, milk

Philly cheese steak **26**  
sandwich, peaches, milk

Unofficial Minutes

Tok Advisory School Board

Wednesday, January 20, 2015 at 6:15pm

Location: Tok School Library

CALL TO ORDER

\*Meeting called to order at 6:28pm

PLEDGE OF ALLEGIENCE

ROLL CALL:

\*Members Present: Kristie Charlie, Amy Crozier, Frank Cook, Juanita Wilson, Candice Jacobs

\*Members Absent: None

\*Guests: Jonathan and Marla Alsup, Lisa Conrad

SWEARING IN:

\*Swearing in Juanita Wilson

HEARING OF VISITORS

\*Student of the Month: Kristie mentioned that she would like to work on getting Student of the Month started up again, complete with hanging the students pictures up and giving out prizes. Marla Alsup agreed to head up this project. She will present her ideas for this project at the next meeting in February.

ACTION ITEMS:

Approval of Agenda

\*Juanita motioned to accept the agenda, Amy seconded the motion, motion carried

Approval of Minutes

\*Amy motioned to accept the minutes, Juanita seconded the motion, motion carried

REPORTS:

Athletic Director's Report:

\*MS Volleyball just started and Becca Watkins was hired as coach.

\*The Richard Fraser Memorial Basketball Tournament is Feb. 11th-13th.

\*MS Rifle is starting with Ms. Burnham and because the interest in Rifle is so high with the 5<sup>th</sup> graders, they are invited to be a part of MS Rifle.

\*The Region 2 Hockey meeting just took place and all were supportive of an additional year of the co-op between Tok and Delta. It would be wise to

explore hiring a co-coach who would eventually take over coaching the Tok team the following year. That raises the issue of funding for that coach. Youth hockey is also going well, with the Peewees winning the FAHA tournament last weekend.

- \*Scheduling has started for the FY17 season
- \*Sports information is being shared on social media
- \*Interest is being shown in starting a Co-Ed Fall soccer team.

#### Principal Report:

- \*The bank reconciliation needs to be caught up to HS Volleyball
- \*Tok School ended 2015 with a balance of \$90,074.93
- \*We would like to see Hockey Concessions caught up as well.
- \*The track account is in the red. We are currently seeking a track coach who would help bring that balance back in the black.
- \*New Teacher Hire-Heather Gates is now the MS/HS English Teacher
- \*Parent/Teacher Conferences are next Monday. No school.

#### Student Council Report:

- \*GPA Party for MS/HS students-sledding at Airport Hill.
- \*Homecoming plans-Instead of traditional king/queen, student council wanted to change it to giving 24 sashes out instead. They are also planning a dance, posters and an assembly with games and a lip-syncing competition.

#### USE OF SCHOOL FACILITIES AND GROUNDS:

None

#### OLD BUSINESS:

##### New Van Purchase:

\*A new van has been found for \$25,000, which is outside our price range of \$15-17,000. Once we can find one in our price range, we will sell the oldest van to Northway for \$2,000.

##### Student Award and Recognition (Committee Report):

\*The end of the semester is done, so the data is in that we can pull from Ms. Diana to set the parameters for the party.

##### ASB visits to classroom updates

\*ASB members need to email Jason with dates and times (morning or afternoon) and he will set us up to visit classrooms.

##### Building Use to Varsity Hockey fund transfer:

\*This already occurred-\$1,000 transfer. No action needed.

##### Reaffirm School Mission and Goals:

\*This already occurred and was passed at the last meeting. No action needed.

Student Handbook Policy Committee updates:

\*No movement on this item

Switch Early-Out from Wednesday 2:45pm to Friday 2:20pm

\*No decisions made-the teachers are undecided on what to do. There is no need to make that 25 extra minutes up from 2:45 to 2:20. The idea behind this is to share PLC times with Tetlin, Mentasta, and Northway. This change would provide more continuity with other schools in the district. Frank motioned to table this discussion until May. Amy seconded and the motion carried.

#### NEW BUSINESS:

2016-2017 School calendar input and suggestions to the superintendent:

\*Discussed keeping the moose days, moving inservice days and the possibility of making Christmas vacation one week instead of two. Many board members have heard positive things about the calendar, from both parents and teachers. Amy read an email from Ms. Burnham in support of the current calendar. At the end of the discussion, it was decided that Candice would send an email to Todd Poage, stating that the ASB recommends that the calendar for the 2016-2017 school year stay as close to the same as the 2015-2016 year. Will send the email to board members first.

Student Achievement Update:

\*This item has already been addressed

2016-2017 Hockey Co-op Update:

\*This item was combined with another agenda item.

#### FUTURE AGENDA ITEMS:

Student of the Month

Handbook policy: Mr. Alsup asked that the ASB consider making the cutoff for holey jeans the same as the length of shorts/skirts.

Indian Education Planning Committee

#### FUTURE AGENDA DATE:

February 17<sup>th</sup>, 2016 at 5:15pm

#### ADJOURNMENT:

Juanita motioned to adjourn, Frank seconded the motion, motion carried.

TO: High School Principals  
Athletic/Activities Directors  
Superintendents  
School Board Presidents

FROM: Billy Strickland  
Executive Director

DATE: February 3, 2016

RE: Proposed Policy – Tobacco, Alcohol and Controlled Substances (TAD) Policy

The Alaska School Activities Association (ASAA) Board of Directors formed a committee to review and possibly propose a revision to Association Policy. Enclosed you will find the committee's proposed policy that the Board may adopt at its meeting on February 15-16, 2016 in Anchorage. Preceding the proposal is a short explanation.

Please review these proposed changes and if you wish, provide written comment by letter or email [billy@asaa.org](mailto:billy@asaa.org), to the ASAA office prior to the meeting.

Thank you.

## Explanation

In the Fall of 2007, the ASAA Board of Directors adopted the TAD policy that went into effect at the beginning of the 2008-09 school year. Since then, there have been concerns that the consequences for the 1<sup>st</sup> and 2<sup>nd</sup> offenses are too lenient, and too severe for the 3<sup>rd</sup> and 4<sup>th</sup> offenses. During the December 2015 ASAA Board of Directors meeting, a committee was formed to review the consequences. The committee determined that the consequences for the 1<sup>st</sup> and 2<sup>nd</sup> offenses are working well, but that the consequences for the 3<sup>rd</sup> and 4<sup>th</sup> offenses should be changed. The rationale is as follows:

- The TAD policy is both progressive and accumulative over a student's high school career. It is in effect "in and out of season" during the school year.
- While the consequence for the 1st Offense is not severe as in comparison to the other offenses, it is, in some regards, more severe than most pre-existing school policies and is meeting the original intent of the TAD policy.
- Students in their junior and/or senior years are often eliminated from participation upon their third offense. The inability to participate diminishes their motivation to complete all components of the 3rd offense. Basically "they give up..."
- Changing the policy will motivate these students to complete all components in the 3<sup>rd</sup> Offense, and regain eligibility. Emphasizing the goal that the student will, most likely, complete all of the required assessments.
- Younger students who make multiple mistakes would have a chance to regain eligibility. The committee felt like students losing all "hope" are even more "at-risk" and therefore need a system that could allow them to regain eligibility.
- School Districts can impose additional consequences.

The committee is therefore recommending to the ASAA Board of Directors the adoption of the following TAD policy changes:

### Proposed Policy: Minimum Penalties for Violation of this Policy

**3<sup>rd</sup> Offense:** The student will be suspended from interscholastic activities and practice for ~~(delete) one (1) calendar year~~ **(add) six (6) months**. Both the student and parent/guardian must complete the 3rd Offense educational component prior to the student's return to competition and there will be no forgiveness of calendar days of suspension. While under the period of suspension, the student may return to practice after completion of the 3rd Offense educational component. A student may need additional days of practice before returning to competition (See Article 7, Section 5).

**4<sup>th</sup> Offense ~~(add)~~ and beyond:** The student's privilege to participate in interscholastic activities and practice is revoked for ~~(add) one (1) year~~. Both the student and parent/guardian must complete the 4<sup>th</sup> Offense educational component prior to the student's return to competition and there will be no forgiveness of calendar days of suspension. ~~(delete) the remainder of the student's high school years~~.

### Proposed Policy: An overview of each part is as follows:

**3<sup>rd</sup> ~~(add)~~ Further Offenses:** Students who violate this policy for a third ~~(add)~~ **or further** time have a significant problem. One of the components of this offense requires the student to participate in a counseling or treatment session to regain their eligibility. The goal is to target the specific at-risk behaviors; this may involve multiple agencies. A student under the 3rd Offense educational component must:

- seek assessment and counseling/treatment from a local health care professional,
- successfully complete the recommendations of the care provider and submit a letter from the agency,
- demonstrate a commitment to remain substance free,
- make a presentation to the District School Board requesting reinstatement of interscholastic eligibility,
- notify ASAA through the school administration that all conditions have been successfully completed, and
- request reinstatement by ASAA.

Students completing the 3<sup>rd</sup> and 4<sup>th</sup> Offense components may return to practice prior to the completion of the period of suspension.

January 15, 2016

**Happy New Year!** Recently, our Safety Calendar Contest challenged students from our member schools in kindergarten through sixth grade to create pictures about water safety for our 2016 calendar. We appreciate all of our dedicated teachers and school staff who talk to the students about safe habits and all the parents who help instill these values in our next generation of leaders. Nearly 200 students entered the 2016 calendar contest! The selection process was difficult with so many talented young people participating.

**We are pleased to present the enclosed 2016 Student Safety Calendar for your enjoyment!**

If you would like additional calendars, please e-mail your request to [sharont@amlja.org](mailto:sharont@amlja.org) or call 800-337-3682. We are very grateful to all the school which participated in the contest:

Eagle Community School (Alaska Gateway School District)  
Tok School (Alaska Gateway School District)  
Sand Point School (Aleutians East Borough School District)  
Craig Elementary School (Craig School District)  
McGrath School (Iditarod Area School District)  
Connections Home School Program (Kenai Peninsula Borough School District)  
Kachemak Selo School (Kenai Peninsula Borough School District)  
North Star Elementary (Kodiak Island Borough School District)  
Saint Paul School (Pribilof School District)  
Hollis School (Southeast Island School District)  
Naukati School (Southeast Island School District)  
Thorne Bay School (Southeast Island School District)  
Whale Pass School (Southeast Island School District)  
Yakutat Elementary School (Yakutat School District)

The AMLJA would like to thank all the teachers and support staff for encouraging safety education in their schools, and we look forward to seeing all the student entries in the next safety calendar contest.

Have a safe and happy year!

Sincerely,

A handwritten signature in blue ink that reads "Sharon Tunnell".
