Secretary/Treasurer

**To: Regional School Board Members
Alaska Gateway School District**

October 20th, 2014

From: Superintendent

Agenda Item: 3

ISSUE

- **Student Advisor to the Board**

BACKGROUND

- **Gathered data from various districts to be presented at the June Board meeting**
- **The two most used options to select a student representative include:**
 - **To have students submit letters of interest to the Board; select students to interview with the Board; and then the Board votes on the student representative for the year**
 - **Hold a district-wide high school election in conjunction with student council elections.**
- **The Board selected option 1 during the June meeting**
- **A Student Advisor for the Region School Board application was distributed to all site principals for the selection process**
- **The deadline for submitting applications is Thursday, September 11th**
- **One page selection process attached**
- **Application was distributed again after the September Board meeting**
- **Any applications received will be distributed to Board members**

RECOMMENDATION

- **Select a Student Advisor to the School Board.**

Mission Statement

Educating all students to reach their full potential as responsible citizens.

Goals

- We will implement a culturally responsive standards-based curriculum.
- We will foster supportive relationships to promote student success.
- We will utilize available data to address all student's educational needs.

Beliefs

- All Students can learn and be successful.
- Students must be full participants in their own learning.
- Staff is a district's most important resource.
- Schools and communities have a responsibility to be accepting, productive and cooperative with one another.
- Communities, families and their cultural values are the cornerstones of student learning.

Selection Process

1. All applications and reference forms must be completed and received in the Superintendent's Office by **5 p.m. on Thursday, September 11, 2014.**
Alaska Gateway School District
Office of the Superintendent
P.O. Box 226
Tok, AK 99780
Email: dsparks@agsd.us
2. The Board will review all written applications and references submitted.
3. The Board will interview selected applicants and appoint one student to serve for the 2014-15 school year.
4. The student shall serve from the board meeting in September of 2014 until the final board meeting in June 2015.
5. An alternate will be selected to attend any meetings the student advisor may be absent.

Eligibility

Students from any of the schools within the Alaska Gateway School District may apply to be Student Advisor to the Regional School Board for the 2014-15 school year. Each applicant will complete an application form that identifies his or her current academic year of enrollment, academic status, and statement of interest.

- Students must be in proper academic standing equivalent to participation in athletics or other student activities.
- Students will be expected to maintain standards of behavior appropriate to participation in student activities.
- Student references must be provided from a fellow student, a teacher or another adult who works at the applicant's respective school, and the building principal.

Responsibilities

The Student Advisor is the student voice, both to the Board from students and from the Board to students. As such, the Student Advisor will:

- Provide student insight and perspective to the Regional School Board and District Administration.
- Serve as a formal link to the students of the District through student governments or communications networks.
- Report to students about the work of the school district and the Regional School Board.
- Create two-way communication by bringing student issues to the Board and communicating the issues and projects the Board is working on back to the students.

TODD POAGE, SUPERINTENDENT

MEMORANDUM

October 9, 2014

To: Board of Education

RE: Monthly Report

Below is an update pertaining to some of the issues I have been addressing since the previous Board meeting in September.

Biomass Boiler

As of October 9th, the biomass boiler is in full operation and providing heat to Tok School, the processing facility and greenhouse. We attempted started-up a couple of different days but noticed some small issues that the maintenance staff alleviated. With the pole barn for a drier storage area and half a year of wood chips already on hand, plant operations have the potential to be much smoother than all the problems that were created from our fuel supply last year. Once the weather becomes a little colder and the plant has been in operation for a couple weeks so all the potential glitches can be dealt with, we will begin producing electricity.

FY15 Budget

We are in the process of analyzing the District's budget in relation to the enrollment numbers. The results of the annual fiscal audit will be presented in a work session prior to the regular meeting. The twenty-day count began on September 29th and completes on October 24th. We will know exactly how the enrollment numbers will affect our projected budget by the next meeting.

Student Enrollment Numbers

Each school was contacted for the latest student enrollment numbers on October 8th.

<i>School</i>	<i>Count</i>	<i>FY15 Projected</i>	<i>FY14 (Last Year)</i>
Tok	163	162	150
Tanacross	12	18	20
Tetlin	28	38	29
Mentasta	30	38	36
Northway	42	49	43
Dot Lake	11	10	10
REACH	69	50	75
Eagle	20	21	24
<i>Total</i>	<i>375</i>	<i>386</i>	<i>387</i>

Student Representative

Each site principal was emailed the Board approve Student Advisor application for a second time that included an extended timeline for submission. If any student candidates apply to be an advisor

"EDUCATING ALL STUDENTS TO REACH THEIR FULL POTENTIAL AS RESPONSIBLE CITIZENS."

Alaska REACH Academy
(907) 883-2591
Tanacross School
(907) 883-4391

Dot Lake School
(907) 882-2663
Tetlin School
(907) 324-2120

Eagle Community School
(907) 547-2210
Tok School
(907) 883-5165

Mentasta Lake Katie John School
(907) 291-2327
Walter Northway School
(907) 778-2287

to the Board a listing will be distributed before the October regular meeting. At this time, there are no candidates for Student Advisor.

Board Election

The tentative results pending voters that mailed in ballots close to the election deadline as well as the absentee ballots submitted are posted on the Division of Elections website:

www.elections.alaska.gov/ei_return_2014_RECR.php

Two of the board elections have clear winners regardless of the votes still to be counted. As of today, the remaining board election is actually tied with the 130 votes evenly split.

Calendar Update

There were no comments from staff, students or the public submitted about changing the in-services dates from October 16 and 17 to October 23 and 24 to coincide with the AFN conference.

Vehicle Purchase

The maintenance department is requesting bids for small and mid-size suburban type vehicles.

Resolution

Submitted the Board approved resolution on Alternate Routes to a Superintendency to AASB for consideration by the membership.

4AAC 52.250 and 4AAC 52.250

Wrote and article on two outdated Alaska Administrative Code (AAC) sections of concern for the District which are 4 AAC 52.250, section (d), concerning Special Education Aides, and 4 AAC 52.252, section (b), relating to Program Supervision in an attempt to begin the process of changing these regulations. The main issue of concern is “on-site” supervision.

Great Things

As written in the last Board report, this year one of our goals is to build positive relationships between staff members, students, parents and communities. One of our focuses in this area is to contact parents about the great things kids are doing in the classrooms and to promote school successes within each community. Therefore, an insert promoting some of the great things kids do in classrooms everyday will be produced each month a Board report is required. Articles will be taken directly from the principal’s newsletters and/or submissions directly from principals. The first publication in the Mukluk is tentatively scheduled for October 16.

Principal Recognition and AMP Meeting

An administrative meeting was held on October 8 to acknowledge the school principals since Governor Parnell proclaimed October as principal recognition month and to provide information pertaining to the new on-line AMP testing to occur this spring. After an overview by district staff, the director from EED in charge of testing answered questions for about 45 minutes via Skype. We previously signed up to be one of five districts to hold an AMP day to assess our Internet system and computer software as well as provide the students with a practice testing opportunity before the high- stakes testing window opens.

If you have any questions, concerns and/or additions to the agenda, contact me at your earliest convenience. Thanks

Respectfully,

Todd Poage,
Superintendent

RE: October Board Report

This month we are preparing for the official 20 day student count, which began 09/29/14 and ends 10/24/14. The Federal Impact Aid Survey forms were sent out to all of the schools this week. These are sent out from the schools to all parents/guardians for completion. We anticipate these forms back in our office on or shortly after the 24th of October which is the end of the count period. These forms are used in conjunction with our Oasis report and for processing the Impact Aid Application which is due January 31, 2015. I am still submitting information to Washington D.C. for our Impact Aid Audit, very frustrating endeavor.

Our student count is currently the following:

	<u>FY15</u>	<u>FY15</u>
Eagle	Projected - 21	Actual - 20
Dot Lake	Projected - 10	Actual - 11
Mentasta	Projected - 38	Actual - 30
Northway	Projected - 49	Actual - 42
Tok	Projected - 162	Actual - 162
Tanacross	Projected - 18	Actual - 12
Tetlin	Projected - 38	Actual - 27
REACH	Projected - 50	Actual - 69
Totals	Projected - 386	Actual - 373

As you can see by this chart our student count is down by 13 students, this number will change during the count period as it always does. We will not know where we with our budget until after the count is complete. We will look at the numbers again at that time.

Included in this report is the Certified Sick Leave Bank report. After the FY15 new teachers were added the balance is currently 205.5 days.

BDO our Auditors, are currently working on the draft audit for FY14. If the "bound" audit arrives in the next week I will make sure that board members have their copy before the work session on the 20th. Otherwise they will be handed out before the work session.

The Business office is busy with quarterly reports including grants, 941 and the state esc report. There are also many State and Federal surveys due at this time of year also.

Thank you for what you do!

Assistant Superintendent

MEMORANDUM

Date: October 20th, 2014
To: Superintendent & the Regional School Board
From: Scott MacManus, Assistant Superintendent
RE: Activities Report for September-October

Current Projects:

- **Perkins Application** is complete and approved for funding. While this is a small grant, it is important because it allows us to fund our TechPrep program in Welding, where last year we had several students get their state welding certification and their Small Engines certification. These students also earn university credit toward an Associates Degree, through a negotiated Articulated Tech Prep Project
- **NCLB** - Application is being completed and finalized. It is expected that this will be done by the end of the month.
- **Evaluation Committee** - As has been reported prior, we are revising the district's teacher evaluation system, which is required by the state. The primary work of the committee right now is on the integration of Alaska Cultural Standards in the required system of evaluation in a way that is meaningful and results in improved teaching in the classroom. We focus on this integration into four key areas of the evaluation, which include Learning Environment, Instructional Planning, Instructional Delivery, and Professionalism.
- **Assessment** - Our required MAP, AIMSweb, and Kindergarten Developmental Profile Testing for the Fall is nearly completed. This is a task that has become bigger over the past several years, and takes the efforts of several staff to complete. We are very happy to report that of our kindergarten students this year who participated in the Gateway Ready! Program, assessed higher than ever before, with our young students entering school better prepared than ever to learn.

Professional Development Activities

- October 1-3: Attended the ASA Conference in Fairbanks, where we were able to learn about the new initiatives that are being mandated by the state in terms of testing and CTE.
- October 15-17th - As a part of our three Health and Wellness Grants, three of our staff are attending the Alaska School Health and Wellness Institute in Anchorage, where they will be representing the district and have been asked to present on AGSD's exceptional integration of our health programs.
- October 16-18 - We are sending the principals from our two Focus Schools, Tetlin and Tanacross, to the Administrator Coaching Project in Anchorage.
- District Inservice this fall will be focused on the effective use of physical activity in the classroom, and will include training on the use of "adaptive physical activity" and Native Youth Olympics. Trainers from the Cook Inlet Tribal Council who coordinates the Native Youth Olympics, and will be in the district, as will Pam Skogstad, who works for the state as one of their physical education trainers.

To: Regional School Board

From: Randy Warren
Maintenance Director

RE: September Board Report 2014

The Maintenance Department had a very busy month. We have been getting everything ready for the winter, and trying to keep up with school work orders as they come in.

We worked on getting the bio-boiler ready to fire up and I have been trying to get a boiler inspector here all month, I have one coming here the 17th of October, he does not plan on inspecting the interior of the boiler, so we are firing it up as I write this report.

We finished the wood chip storage building, helped chip wood, built an artic entry way on the green house, installed a furnace in the green house, I am looking into buying a little wood boiler for the green house so if we have a cold summer or we have problems with the bio plant we won't be using diesel to heat it, instead we can use the scrap wood from the bio yard.

Hockey Rink: We sealed the concrete floor, painted the rifle range floor.

Tok School: We painted the gym office walls, ceiling and cabinets, worked on the exhaust system for the welders in the metal shop and fixed classroom cabinet drawers.

Tetlin School: We installed a new counter top in the kitchen and built an equipment room in the food storage area.

Dot Lake School: We replaced some of the tile in the custodian closet, replaced the swing set chains, heat traced and insulated the sprinkler system pipes.

Technology Board Report October 2014

The state ERate coordinator has recently finished her training in the new ERate changes and rules, and will be starting to offer audio training for state ERate folks in late October. I'll be attending these trainings to make sure we fully understand all the ERate changes.

There is a lump sum of money available through the ERate program for upgrading wireless infrastructure at schools that will almost certainly last no more than two years. I'd like to take advantage of this program for next year and see if we can upgrade wireless devices at sites to something more robust than our current Apple Airport solution.

This year we're are going to be doing our testing via computer. We are working on making sure we are ready to go on the technology side of things, and figuring out what the best way to get all the students tested in terms of logistics and timing will be.

Farm to School

For details on the greenhouse, please refer to Bonnie's report. We've wrapped up the two Farm to School mini-grants we received from the state. Alaska was also awarded a grant at the state level for a Farm to School conference. I've been approached by the Alaska State Division of Agriculture, (the conference organizers), about presenting at this conference in January to share what we are doing with our program.

KEVIN MOORE, SPECIAL EDUCATION COORDINATOR

Board Report 10/7/14

We had a very successful child find on September 26th. This year we held it in the Tok gym, and brought professionals together from TCC and AGSD. E-Therapy provided the speech screenings which were very successful. Many thanks go to Pam Gingue, without her help the day would have been very stressful.

I am very glad to have a full staff of special education teachers here in the district. Emily Sherman came to town and started work in Mentasta on Monday October 6th. She will take over Mentasta, REACH, Dry Creek and Dot Lake.

I am traveling to Anchorage during the week of October 13th for the Director of Special Education Conference. Stephanie Knaebel recently attended a conference in Anchorage for the Alternate Assessments. This is a mandatory training set by the state.

Currently we have 53 students receiving special education services. 32 of these students receive speech and language services. The school break down is as follows:

Tok—21*

REACH --9

Mentasta -- 5

Northway -- 6

Tetlin -- 4

Head Start Tok -- 4

Tanacross -- 2

Eagle -- 1

Dot Lake -- 1

* This number includes four (4) students in the Gifted and Talented program

TODD POAGE, SUPERINTENDENT

Dannie Rutledge
Coordinator of Nutrition
October 2014 Board Report

October is Farm2School Month. Many items on our menu this month for the lunch and snack programs have been locally grown products. The week of October 20-22 I made sure one item on the lunch menu each day was a local product. I also plan to serve locally grown potatoes at in-service (baked) in celebration. Another activity happening in partnership with the Tok PTSA is a family night to make carrot muffins using locally grown carrots to make a treat for Tok School's staff appreciation.

Several refrigerators and freezers were repaired but some continue to give concern of failure. The cooks are on constant alert trying to keep an eye on them. I am not sure why we continue to have equipment issues. I would like some guidance from the CFO, Superintendent and the AGSD Board as to if we should continue to try and repair these machines or replace them. And do you want them replaced with commercial or residential modules. Along with some failure issues is the storage space issues. Food gets sent out, but only so much can be kept at the sites, sometimes making it difficult to follow the menu exactly. The cooks and I will continue to do our best; I just wanted to make you aware of some general concerns.

Next week Pam, Bonnie, and I travel to the School Health and Wellness Institute, where we are presenting as one of the State's Success stories. Pam with input from many sources has put together our presentation.

I would like to hold a Wellness Team meeting sometime in October, but we have not set a date yet.

The school year continues to move forward meals and snacks are being served and many good things are happening around the district.

"EDUCATING ALL STUDENTS TO REACH THEIR FULL POTENTIAL AS RESPONSIBLE CITIZENS."

EMPLOYEE OF THE MONTH:

- **CONGRATULATIONS!!** to Stephanie Knaebel (Tok-certified) and Liz Webb (Tanacross-classified) on being chosen as Employees of the Month for October 2014; Way to go ladies!!
- **CONGRATULATIONS!!** To Richard Kemper (DO – Maintenance) on being chosen as AGSD Employee of the Year!! A well deserved honor!!
- Stephanie, Liz, and Richard will all receive a plaque and gift cards for this honor.

PRESCHOOL:

- Northway, Eagle, and Tetlin preschool programs are in operation; (Mentasta has only 1 age eligible child so no preschool class); Will work on transition activities for preschool to kindergarten beginning in early 2015 to include Mentasta with other district preschool sites;
- Continuing partnerships with TCC Head Start and Rural CAP – Tok Head Start as part of our Alaska Native Education (ANE) grant activities;
- Provided orientation for 5 families that will join the READY! for Kindergarten parent classes for fall, winter, and spring sessions;
-

HARVEST OF HEALTH:

- Participated on teleconference for Youth Risk Behavior Survey (YRBS) which will be conducted later in the year for all students grades 6-12, with parent permission; the YRBS is one of our Obesity Prevention grant activities;
- Dannie, Bonnie, and I will be attending the School Health & Wellness Institute Oct. 15-17 in Anchorage; We were chosen as one of 6 state Success Stories and will do a brief presentation at the conference;

OTHER:

- Attended ANE Project Directors' meetings in Juneau; met with Federal program staff and other grantees from across the state;
- Assisted with Child Find at Tok School on Friday, Sept. 26th; 13 children ages 0-5 received developmental screenings as well as hearing, vision, height, and weight screenings; TCC Head Start staff assisted with the screenings;
- Submitted updated LEP status report to the state;
- Assisted with MAP testing for Mentasta students at Tok School;
- Developed a tentative schedule for READY! for Kindergarten parent program classes; orientation held, 1st class scheduled for Nov. 11th in Northway and Nov. 18th in Tok;

UPCOMING ACTIVITIES:

- Schedule 1st AGSD Wellness Team meeting;
- Complete Hts. & Wts. Screenings at school sites;
- Conduct 1st READY! for Kindergarten parent classes;
- Prepare Federal Programs insert for Mukluk News in early November.

UPCOMING EVENTS:

- Oct. 15 - PSAT test (8:30 A.M. @ Delta High School: Leaving Tok School @ 5:45 A.M.)
- Oct. 17 - Kids2College applications due (principals confirm w/Mrs. Lundy)
- Oct. 25 - ACT test (8:00 A.M. @ Tok School: Plan to arrive @ 7:45)
- Nov. 10 - WorkKeys testing begins

SENIOR CHECKLIST

- ☒ Research colleges & visit if possible. Lots of information is available at: www.gtciak.com and www.collegeweeklive.com
- ☒ Obtain college applications.
- ☒ Research scholarship opportunities and complete applications by deadlines.
- ☒ Plan to take the ACT or retake the test to improve score from last year.
- ☒ Prepare yourself for the ACT online at ([http:// www.actstudent.org/ testprep/](http://www.actstudent.org/testprep/))
- ☒ Plan to retake the WorkKeys test when it is offered. (Although it isn't required for seniors, you should plan to retake if trying to obtain a qualifying score for the Vocational/Technical Alaska Performance Scholarships.) Practice tests at www.careerready.alaska.gov/workkeys-tests.html

What Is College Horizons?

College Horizons is a unique pre-college program open to Alaska Native, Native American, and Hawaiian high school students in the summer following their sophomore or junior years. The program focuses solely on the needs of Native students and brings their experiences to the college application and selection process.

Since its founding, this non-profit organization has served 2,800 Native students: 99% have been admitted to college, 95% actually attended, and 85% graduated. This residential five-day "crash course" will meet at Stanford University in California in 2015.

Focus on Virtues: Empathy

~ October Board Report for The Gateway Greenhouse~

I've spent time in the greenhouse every day since I started my position on July 21st, and every day I have learned something new, or gained a new perspective for handling particular tasks and issues. This being the first year of production, I've been reminded that it's a learning experience right now. There is a variety of information out there, and I have been taking in as much as I can to help me determine the best overall approach in managing our greenhouse. Realizing that close observation is probably the #1 priority in the greenhouse, and the 2nd, being knowledgeable about the things I'm observing is a key element for the operation of a successful greenhouse. Issues have been identified, and we are continuously working toward solutions. Soil/nutrient deficiencies, drainage, pests and disease are all issues we have faced, but despite the issues, we have been providing quality produce to our school kitchens.

I feel confident in saying that The Gateway Greenhouse is an asset to our school district. We have welcomed several groups of students and teachers for tours and hands on educational opportunities. Our collaboration with the UAF Cooperative Extension is fantastic and is viewed as an invaluable resource, connecting us with those students and staff. All individuals involved with the greenhouse are working together to ensure its continued success, and I look forward to carrying on with my part.

Bonnie Emery
Oct 8, 2014

AGSD Greenhouse
~The Gateway Greenhouse~

I am 68 days into my dream job. It did not occur to me that this was my dream job until I was faced with the decision – to apply or not to apply. In the days leading up to my interview, many thoughts were swirling around in my mind. The questions those thoughts generated are being answered along the way, and I am very happy that I chose to apply.

The greenhouse was already full of growth when I arrived for my first day, harvesting had already begun. Spinach, carrots, red leaf lettuce, Asian greens, cucumbers, tomatoes, zucchini, summer squash, cauliflower, and broccoli were all being utilized in the Summer Food Program. I have been continually harvesting many of those items since my arrival, have sown seed myself, and have been harvesting from those plantings as well. There is such delight in the gathering of food grown from the tiny seeds I planted, delight in providing that food to our school kitchens, and even greater delight in seeing smiles on the faces of the students who visit the greenhouse.

Rita Abel and I have been working together to provide students in our district with educational opportunities that include visual and hands on learning. Rita comes to us by way of the University of Alaska, through the Nutrition Education Cooperative Extension Services. Students visiting the greenhouse spend some time with Rita, in a classroom setting, learning about things such as plant systems, what plants need to grow, and different types of plants. They also get to sample items from the greenhouse. When they arrive in the greenhouse there is always a little wave of awe, and then throughout the tour students are quick to share what their favorite veggie is. Carrots seem to be the #1 love of children, tomatoes the adult preference. I have been pleasantly surprised to find that most of the kids like raw vegetables, and they get so excited when they find out they get to pull their own carrot out of the soil or pick a snap pea from the vine. It's fantastic to see their excitement and it propels my excitement to a higher level. This dream job is surely a gift.

Highlights, from my perspective:

- ~When asked "What do you think a Horticulturist does?" Students replied plant sitter, gardener, and my favorite, gardeness.
- ~A student turned to his chaperone and stated "I love my day! This place is good!"
- ~When the Northway group was leaving, they all said Thank You in their native tongue, tsin'ee.

I would like to thank the volunteers who were caring for the greenhouse before my arrival, and those who continue to give me encouragement and advice. I'd also like to invite those interested in volunteering at the greenhouse to email me at bemery@agsd.us

DOT LAKE SCHOOL

Issue 2, October 2014

Emma and Brandy cheer on their team

Project: Learning

Here, at Dot Lake School, the students have started to tackle various projects for geography and history classes. One group of middle school scholars has been working on building their own volcanoes. Building the models allows them the ability to study closely the way lava moves on their model. Another student is investigating the present-day theories of how the pyramids were built. Some of the theories studied include using sand to build ramps to move stone more easily. Another provocative theory involves moving three to five ton blocks by placing them in water using animal skin air bags as floatation devices. Both theories provide stimulating discussions and essays.

Volcanoes Abound

Above, Tyler and Leeanna complete the finishing touches on their Volcano Project. Below, Kyle works on his pyramid-building project.

Basketball

We are about half way through our basketball season. The whole team has improved dramatically. Each team member has committed to practicing at least four hours a week. The progress each has made is astounding. Today, Thursday, October 9, we are hosting a series of competitions with Northway School. We know we are going to improve on the outcomes of those games. Go Dot Lake School!

Dot Lake vs. Tok School

The school gym is open every Tuesday from 4 – 5:30 p.m. Come by for some great exercise time.

Winter Music Concert

Students are seen practicing for their Winter Concert here with chimes.

MAP Testing

ECS has completed the fall administration of the MAP (Measured Academic Progress) Testing. Students will review results with their teachers soon. Students, parents and teachers will identify academic goals based on these tests. There will be two more opportunities to measure student progress; testing will occur again in December and May.

Fall Field Trips

ECS MS/HS students have been on several local field trips already. They have enjoyed berry picking, collecting fossils, and gathering water samples. Elementary students have collected soil from local gardens and visited the National Park Service; many thanks to Pat Sanders & her team.

Off to a Great Start

Students at ECS are off to a great start! Pictured above are Elementary students enjoying Art Class with Elisabeth Sager. They created beautiful Chum Salmon with watercolors to celebrate the Chum Run through Eagle in September. Music classes have also begun. Ann Millard graciously volunteers her time on Fridays for students to learn and play music. The ECS library is again open, thanks to volunteer, Yvonne Howard. Our Pre-K & Transitional Kindergarten program boasts five happy students thanks to the efforts of Michelle Ashley. ECS has the support of so many and we are truly grateful.

ECS 3-On-3 Basketball

It's hard to describe how difficult it is to get a new program off the ground, but ECS has given it our best effort. We have a MS/HS team of girls (Violet Burnette, Savannah Hamilton, Sunny Hemen, & Valerie Smith) that have practiced almost daily since the second week of school. Volunteer Head Coach, Nate Becker, has done an outstanding job of teaching these girls the skills they need to compete. Volunteer, Assistant Coach, Roxanne Scott, has stepped in to coach during October while Nate joins his family in Fairbanks for the birth of their third child.

We have had some set-backs this season since we couldn't travel to Tok for the Jamboree during hunting season. Then our opponents

had to cancel their travel to our school for several reasons. However, the community pulled together to support the team and we held a scrimmage against the coaches in September with former ECS Principal, Terry McMullin as our referee. We hope to repeat the fun Oct. 15th at 2 p.m. when the Wildcats take on our community team. Teacher, Marlys House, continues to organize and plan for the team. Student Council makes signs and sells concessions. Josh Beaucage does a great job managing the team and Alex Helmer oversees our baked goods sales. Thanks to everyone who has helped our efforts. Let's keep this ball bouncing! GO WILDCATS!

Math Minded

Thank you Jerry, Lucia, and Jan

In an effort to improve our math scores ECS invited UAF Professor & Principal Investigator for MCC, Jerry Lipka and Tok School Teacher, Lucia Zaczkowski, to teach Math in the Cultural Context. Students learned about measurable attributes without even using numbers! Former ECS Teacher, Jan Roy, also volunteered to help by teaching M&M math to the Elementary students.

TETLIN SCHOOL

HOME OF THE EAGLES

TETLIN SCHOOL K-12 / SEPTEMBER 2014

Science of Molecules

Tetlin 6-12 students are studying biology and learning about cellular structures and functions. Much of the cellular fuel needs occur at the molecular level, and **what better way to learn about molecules than to tear them apart!**

Students studied the water molecule and learned that water (H_2O) is made from a combination of two gasses. One of the gasses (Hydrogen) has tremendous potential to become an alternative fuel to oil based hydrocarbons. To tear apart the water molecule, students used an electrolysis chamber to pass electric current through water via an electrolyte that caused Oxygen to gather on the negative terminal (Anode) and Hydrogen gas to accumulate on the (Cathode). The gasses forming on the electrodes were collected in inverted test tubes. To Prove that the accumulated gas bubbles were something more than air, we employed the flame test. Students exposed the accumulated gas to the open flame of a burning splint, and the ensuing mini

Cooperation and Citizenship

In following with the Alaska Gateway School Districts mission statement of "Educating all students to reach their full potential as responsible citizens", The Tetlin Schools staff is committed to supporting this at every opportunity. These two fellows suffered what may have been perceived as a traumatic dispute, but with some coaching

and work on interpersonal skills they were able to come to an agreeable conclusion. Guiding young personalities to think and work together, is just one of the many things we do to encourage the development of good citizens and to strengthen our community.

STUDENTS ADMINISTER the flame test to their accumulation of hydrogen gas and the results were explosive. This stuff can run automobiles!

Electrolysis Chambers in action. We varied the quantity of electrolyte, which produces variable quantities of gas. More electrolyte = more gas production!

Kindergarten Explores Geometry and Symmetry

Primary students have been using toys and math manipulatives to strengthen their math skills.

Toys such as blocks, Lincoln Logs, and Legos give the students an opportunity to plan and organize. They also help improve their fine motor abilities, and give them a chance to work cooperatively.

The Math as a Cultural Concept organizers loaned us their special made blocks that are cut into squares and right triangles. With these we explored the meaning of symmetry, and discovered that a right triangle is half of a square, and that we might want to engineer some amazing structures in the future.

In Science we are observing and describing millipedes, pill bugs, pond snails and guppies.

In Writing Class, we will compare and contrast these organisms and then learn to write about them with an enthymeme, which is a defended statement. Example - "I am not like a guppy because _____".

K-2 FINE MOTOR SKILLS

OBSERVING AND STUDYING AMAZING CREATURES

Studying Animals in Grades 3-5

We are studying animals and noting the differences between amphibians, and crustaceans. We are also writing a student newspaper and learning to count money. Sometimes we even read aloud to eager listeners.

3X3 BASKETBALL -

Tetlin School had its first School Basketball team in nearly a decade. The 3x3 sports offering has motivated more students to have good attendance and get their work completed.

Thanks to all that have supported our in district competition, it has incentivized the educational process for many students that once seemed dis-interested.

MLV NEWS

PAPER CREATED BY MENTASTA LAKE KATIE JOHN SCHOOL 6TH-12TH GRADE STUDENTS

AGSD 3-0n-3

As of 9/10 the kids of Mentasta Lake Katie John School attended some very anticipated

events. There are three on three tournaments scheduled in Mentasta, Tok, Northway, Tetlin, and Dot Lake. The young students will be taking on other schools from the Alaska Gateway School District. This will be going on for a month. This all started on 9/10 when the Mentasta Lakers traveled to Northway to play basketball in a small tourney with 20 minute games. The high schoolers were victorious twice that day. And the middle school players have not yet lost!

The next home games will be on 10/2

Tok will be heading to Mentasta. So head on out to watch your Mentasta Lakers and cheer them on!

MLV Bio Mass Project

Rex, the contractor, came and showed us all about the bio mass project. The bio mass is just all about saving money by using little tiny wood chips for heat instead of using oil. Rex said that wood chips cost $\frac{1}{2}$ the cost of oil. The school is basically paying for the project by buying the thermo heat from the Village Council. The 190 degree water travels through buried pipe to heat up the school.

The hall, the rec center, and the office and clinic also are tied into the heating loop. This heating opportunity means those buildings will have a chance at low cost heat or even free heat. The bio mass also needs fulltime employees to monitor the boilers and feed it chips. Chips Ahoy! This is a great opportunity for our village; a chance to save money and provide jobs.

SCIENCE - ANIMAL AND PLANT CELLS
Students in 3-6 grade first learn about animal and plant cells. Students free hand pictures of each then use jello and cookie to to create a likable image. Fun Fun Fun!

RUTH PACKARD: Ruth is glad to be back cooking at Mentasta Lake Katie John School.

QUOTE OF THE MONTH. One fall day, the power went out at Mentasta School. Ronnie was asked where he was when the power went out. His reply, "I was in the dark." (Ronnie sleeping on the way back from Tetlin.)

Chance- eating spaghetti, having fun outside.
Denesey- playing outside with
Brandon and Bernadean. Playing

LAUNDROMAT UPDATE

The fire started by the electric outage. When the power went out the heater melted the shelf and everything began to ignite! To put the fire out all the residents of the apartments ran over to help out with the burning interior. Danny said the fire lasted up to two or three hours. "The fire happened about a year ago" the manager of the laundromat, Danny Hicks, mentioned. On the bright side, brand new dryers and washers were installed and everything in the boiler room has been replaced with brand new and upgraded appliances. There are 24 hour surveillance cameras all throughout the laundromat. Now that there are cameras, Danny is trying to keep the laundromat a drug and alcohol free zone. This will help prevent any other accidents from occurring and help keep the laundromat a friendly, safe place.

Interview by D'angelo and Saphire

Danny Hicks

Black-ops and watching the lego movie, and playing with gun toys.

Danica- playing on the trampoline, playing outside, riding her bike around, visiting Jr. and playing at the playground.

Terrence- watching TV in Anchorage, staying at his dads, playing at the playground and reading books.

Shynnae- playing in the sand box, dig sand, playing with toys, the fourth of July, read, visit Deuce Deuce.

COMMUNITY HALL KITCHEN REMODELING

Josh Demit: New Hall Kitchen

The boss is Charles David. The employees that are working there are Bob Gun, Marvin Sanford, Erickson Sanford, and Harry John. The kitchen is 26 X 30 feet. Charles and his employees have been working on this for three weeks. In about two more weeks they will be done. The reason why Charles decided to make a new kitchen is because the old kitchen was too small and old. Charles said that there will be a stove, oven and a refrigerator. There going to use Biomass to heat up the kitchen. The biomass is going to heat up the kitchen all year long. The facility is going to be used for meetings, holidays, potlatches, church, and village activities.

Mentasta Students Help Get a Moose

by Matthew, Rickson and Jeffery

Jeffery, Rickson and Matthew help community members pack out a moose. Matthew said, "Crossing the slough was fun. Jeffery's experience was also educational. Jeffery said, "I learned how to skin and cut the legs off a moose."

MENTASTA LODGE UNDERGOES REMODELING

As some of the residents here in Mentasta Lake may know on July 1st, 2014 the owners of the Mentasta Lodge began a remodeling project. This project has been estimated to cost around 40,000 dollars. Mainly in the cafe area is where the remodeling is located. The bathrooms are being remodeled as well, therefore the new outhouses have been installed just outside. Don't worry about if there will be heat for the winter. Owner Scott Schaffer has informed us that there is heating in the building. Scott has also given information about how the lodge may look. The floors will be varnished. The walls will be tongue and groove with sheetrock. The

exterior will be cedar shake if things all come together. A good change will be a green tin roof that will protect and go nice with the colors.

Mariah Craig and Jeremy Kroto, residents of the Shallow Water Apartments, have decided to start on a new home. As of this summer around July, the construction of the new foundation began. Mariah says she has been thinking of this project for two years now. The house will be located on the right side of the well-known Jake Creek near the gravel pit. Already there is a structure that has been created which has been speculated to be the garage. They chose to build the house there because of the large space, and the privacy. They need quite a lot of money to build this house, but they're applying for grants, and it'll help them pay off the house, and help to buy the equipment to build it. Exciting times for this family!

Mentasta Lake School and village had a BBQ and clean up Friday September 26th.

Community members came and ate with students prior to cleaning-up. Angie David was in charge of clean up and did a good job. We cleaned the village up because we want to keep our village clean. Ronnie Ewan was e one who had the most bags of trash. Good job!

Top Ten Alaskan Must Sees!

1. Denali National Park
2. Mendenhall Glacier
3. Kenai Fjords
4. Fairbanks Museum
5. Sitka National Park
6. Klondike Gold Rush - Skagway, Alaska
7. Anchorage Museum

10. Riverboat Discovery

FROM THE EDITOR

This is the first Mentasta newspaper since 1989. We worked very hard on it, and every student had their own headline. Although there may not be very many good stories to tell here in this small village, we managed to give you the best stories. We hope you enjoy reading the MLV News, and we look forward to making more monthly papers. Don't forget to share with a friend.

Mentasta Students Participate in a Gun Safety Class

by Jaylee and Jeffery Adams
Middle School

MENTASTA STUDENTS ARE INTERESTED IN LEARNING ABOUT NEW ACTIVITIES. THIS FALL STUDENTS WANT TO LEARN ABOUT GUN SAFETY.

The first week of school the students in 6th-12th grade participated in a gun safety course. The course instructor, Frank Entsminger, with the help of Angie David, came to the school to teach the safe ways of handling a firearm. For an hour a day Frank worked with the students

On the first day the kids learned how to properly hold several different types of firearms in safe positions as they walked. Also, the students learned that they should make sure that no one is anywhere in front of their aim or the barrel of the firearm, as well as how to check the gun for bullets when they are handed the firearm.

On the second day the students learned how to hold and aim with different types of firearms with and without a scope; they had different types of sights including a peep site. Sue Entsminger joined the students, as well as Rachael Sanford and Angie David on the second day. They helped supervise the students as they learned these careful techniques. The students also learned that guns have variations of actions, loading mechanisms, and the fact that most guns have clips while some are single shot and others are "tube feed."

On the third day the students learned the different stances of which a person would perform as they aimed the firearm such as; standing, kneeling, and lying down on the ground. Kids from Mrs. Lundy's class came in to join their fellow older classmates. They did every stance as they aimed down the sights. Every one got to participate and use every gun that was brought to the class.

The kids respectfully asked a few questions when the class was over. There is going to be another day of gun safety class where the kids will actually go out and hunt for duck and grouse. The kids

learned a lot through this class and they thank all the participants who took time to teach Mentasta kids gun safety.

On October 2nd the Mentasta students drove out to the Mentasta Lake to test out their aiming. Sue and Frank Entsminger brought three different types of guns. Two single shot bolt action 22s, one with a peep sight, and a tube fed bolt action 22 with a scope. In a matter of a couple hours the kids had all got the chance to shoot at least two guns each. Each kid got two bullets for each gun they shot. As they aimed down their sights the kids were constantly reminded the ways of safely handling the firearms. The kids did great, they listened well and no one got hurt. There were several students capable of hitting the bull's-eye. They were encouraged to try with a little bit of a prize competition. If any of the kids were to hit the eye of the deer on the paper target they received a dollar bill. Jaylee Adams was one of the only ones to hit the bulls eye, let alone the fact that she hit it twice. Mathew as well hit the eye and they both got the prize they earned. We thank Sue and Frank for taking time to give these kids this opportunity, and thanks to Sarah Demit for helping out by transporting the kids down and back safely.

Next Issue out the week of November 3rd

OCTOBER 2014

Walter Northway School

Mrs. Brown's class working on spelling their names with play-doh.

School Notes

Enrollment (As of 10/06/2014)

K-5: 23 Students

6-12: 18 Students

Class Breakdown

Mrs. Brown (K-2) – 14 students

Ms. Wiklanski (3—5) – 9 students

Middle School – 9 Students

High School – 9 Students

Fall Open House

Walter Northway School held its Fall Open House on Monday September 22nd from 4 to 6 pm. We had over 45 community members in attendance, as well as over 30 students. Carolyn Dillard provided a fantastic Turkey Dinner and many people left full and happy!

Students are now being served lunch through the service window. Thank you to the Maintenance Department for installing this over the summer!

3-on-3 Basketball Jamboree

On September 4th and 5th, Middle School and High School teams from Dot Lake, Mentasta, Tok, and Tetlin were in Northway to participate in the 3-on-3 Jamboree. Each team played 6 games over the 2 days. On the night of September 4th, the Northway students hosted a Middle and High School Dance. It was a fantastic event and ran very smoothly with the help of many volunteers.

WEEKLY WARRIORS

WEEK OF 09/28/2014

Carolyn and Butch D. - Village Cooperation
 Alani C. - Respect for Elders
 Julian S. - Sharing and Caring
 Mary C. - Family Relations
 Tasha D. - Honesty and Fairness
 Brielle P. - Self-Sufficiency and Hard Work
 Becky G. - Love for Children
 Mariah A. - Hard Work
 Gerald A. - Respect for Elders

Ms. Wiklanski's Class to Anchorage!

Mrs. Wiklanski, Sherri Demit, Peter MacManus, Butch Dillard took 9 students to Anchorage on September 24, 25, and 26 to expose the students to many places they had not visited before. The itinerary included stops at the Zoo, Museum, and UAA. The students had a great time and there were many sore chaperones from all the walking that they did in the three days!

UPCOMING SCHOOL EVENTS

- 3-ON-3 BASKETBALL @ Dot Lake (10/09)
- 3-ON-3 BASKETBALL – Eagle, Dot Lake, Mentasta (10/13-14) or (10/16)
- GIRLS MS BASKETBALL @ Tok (10/16-17)
- 3-ON-3 BASKETBALL @ Mentasta (Week of Oct. 17)
- GIRLS MS BASKETBALL @ T.S.T (10/24-25)

Walter Northway School K-2 Students Visit AGSD Greenhouse!

On Friday, September 12th, Mrs. Brown, Ms. Bryant and Butch Dillard brought the K-2 students to visit the greenhouse, discuss healthy eating, play on the Tok School playground, and have lunch at Fast Eddy's. The trip was designed to wrap up the first science unit on healthy habits. Bonnie, AGSD Horticulturist, and Rita, Outreach for UAF, provided an interactive tour that even allowed the students to sample some of the fresh produce! Thank you to all who made this possible for the students to experience!

HIGH SCHOOL DRIVERS' EDUCATION CLASS

Starting in October, students who are enrolled in the Drivers Education class will be able to take the Permit Test that is available through the DMV. This class is aimed at providing students with the necessary knowledge and skills to be a proficient driver in today's world.

Students are engaged in all of the activities during the class period and are anxious to start taking the permit test.

Tanacross October News 2014

We currently have thirteen students enrolled. We have all been working hard to maintain attendance. We have a few older students who are working hard to play middle school basketball in Tok.

In Ms. Kaydees class we have been working hard on writing nonfiction pieces. The students are finishing up owl reports and got the experience of dissecting owl pellets. Earlier in the month we all attended a potlatch at the hall. We all had lunch and enjoyed watching the Tanacross dancers.

Mrs. Dunning's class has been reading *The Tell Tale Heart* and using the evidence in the text to argue if the man was truly insane when he committed the murder. Next they will be reading *Dracula*, prior to Halloween.

All the students traveled to Tok to have their picture taken. Afterwards we all got a tour of the greenhouse! The students loved it and look forward to going back in the spring.

We are planning a Halloween party and are going to have the village council over for lunch.

Sincerely,

Ms. Kaydee & Mrs. Dunning

Our first parent professional development opportunity is scheduled for:

**October 29th
11:30pm-1:30pm
Lunch will be provided
Topic: Learning Styles**

Have you ever been curious about the way your child learns best? While it's probably inaccurate to say that a given child has just one learning style, figuring out a dominant learning strength can help things like homework and school go a bit more easily. Once you know your child's style, you can help present information to him in a way that matches his style, making it easier for him or her to learn.

- There is no school this day.
- We will meet at Tok School.
- Child care will be provided free of charge.

**Trick-or-Treat
Street and
Halloween Carnival
at Tok School**

October 31st

Walk the "Street" and
Trick-or-Treat!
6:00-7:30 pm

Halloween Carnival
5:30-8:00 pm

REACH GROUP SOCIAL

November 4th, 2014 Fall Fun Family Craft Night
Tok School Library
6:30-8pm

Bring the entire family for an evening of fun fall crafts, hot apple cider and sweet treats.

Battle of the Books

It's not too late to join Battle of the Books. We will soon have copies of Battle books available for check-out in the REACH office. Please let us know if you would like more information about this exciting competition! The state Battle of the Books website is at: www.akla.org/akasl/bb/bbhome.html

Quarterly Reports Due October 31

- Forms are available online both in pdf to print and mail, or to submit electronically. You have the option of how you would like to submit them.
- Work samples must be submitted for ALL courses listed on the ILP. For courses that do not produce a “work sample”, an activity log should accompany the progress report. A work sample is a representative sample of individual student work and can include: projects, reports, workbook pages, assessments, etc. Work samples should be graded and demonstrate competency. For example, we do not want a mad minute for a math sample, but rather an end of chapter assessment.
- The summary of work section for all grades must include: the number of lessons completed out of the total lessons for the year; time spent per week; major topics studies and skills mastered.

UPCOMING EVENTS

- Oct. 11 Pumpkin Patch at Tok Memorial Park 1-4 pm
- Oct. 16 MS Basketball @ Tok -games start at 3:00
- Oct 17 MS Basketball @ Tok -games start at 2:30
- Oct 24-25 MS Basketball tournament @ Tok
- Oct 29 REACH Parent Professional Development get-together
- Oct. 31 Quarterly Reports due
- Oct. 31 Trick or Treat Street and Carnival at Tok School 6-8 pm

Meet Deb Lundy... AGSD Counselor

Mrs. Lundy has time set aside in her schedule weekly to meet with REACH High School students about scholarships, Work Keys and post-secondary options, etc.

Please call the REACH office for an appointment at 883-2591.

ASSESSMENT INFORMATION

OPTIONAL Assessments

PLAN-Will be administered to 10th grade students in October. It takes approximately 3.5 hours and will be administered during the school day. It is not mandatory but highly suggested. It is the **pre-ACT test**.

Measure of Academic Progress (MAP)-2nd-12th These assessments are given 3 times per year for students in grades 2nd-12th and in the spring for Kindergarten and 1st. Data generated from these assessments is very valuable to homeschool teachers and can be used to create a valuable educational experience for your kids. It is a computerized adaptive assessment that can help pinpoint where students are ready to advance and where they need help. The main purpose of this assessment is to assist you with instructional decisions.

AIMS Web The district offers AIMS WEB testing 3 times per year for students in Kindergarten and 1st grade. The data generated from these assessments is very valuable to homeschool teachers and can be used to create a valuable educational experience for your kids. It is highly encouraged that you take advantage of these tools.

MANDATORY Assessments

Alaska Kindergarten Developmental Profile-Please submit to LeAnn Young by October 24th.

CCRA-There are 3 College/Career Readiness Assessments (which is how the state is now referring to ACT, SAT, and Work-Keys tests). One of them **MUST** be taken by the time a student graduates. The state will pay for students to take one CCRA test in high school (ACT, SAT, or Work-Keys). If a student wants to take any one of these tests again to obtain a higher score, the student will need to pay for the test himself/herself.

WORK-KEYS-This test will be administered to 11th and 12th grade students on December 9th at Mentasta School, on December 10th at Tok School and on December 11th at Northway School. Students in Alaska can earn a career readiness certificate (CRC) by taking Work-Keys assessments in three key areas: Reading for Information, Applied Math, and Locating Information. Work-Keys as a job skills assessment system measuring “real-world” skills that employers believe are critical to job success. Students in grade 12 have the option of retaking the Work-Keys assessment if they want to achieve a higher score.

The ACT and SAT are optional but highly encouraged for college entry. The ACT will be given locally. Students wishing to take the SAT will need to arrange that on their own. The SAT assessment is administered in Fairbanks. ACT-For 11th/12th Saturday, October 25th. March 3rd and 31st during school day at Tok School and Saturday, April 18th

Alaska Measure of Progress (AMP) Our previous assessment, the Standards Based Assessment (SBA) was administered for the final time in April 2014. The new custom assessment, Alaska Measures of Progress (AMP), will be administered for the first time in spring 2015 and will hopefully be computer based, barring any technological issues. There is a testing window from March 30th-May 1st.

**To: District Board Members
Alaska Gateway School District**

October 20th, 2014
