

OPERATIONAL SERVICES

Operation and Maintenance of District Facilities

The District seeks to maintain and operate its facilities in a safe and healthful condition. The Superintendent shall provide for a program to maintain the facilities of the District, and the Board shall annually inspect the District facilities as part of its duties.

In addition, the Board believes the District must identify and measure risks of loss that may result from damage to or destruction of District property or claims against the District by persons claiming to have been harmed by action or inaction of the District, its officers or staff. The District will implement a risk management program to reduce or eliminate risks where possible and to determine which risks the District can afford to assume.
