PHILOSOPHY OF EDUCATION

The Board of Education recognizes that society today is faced with many complex social problems, and that public school education is deeply involved not only in the solution of such problems but also in an effort to operate schools effectively despite the social unrest throughout the world today.

The Lawton Public School System is responsible for maintaining a quality educational program for its students. The Board of Education therefore expects its professional staff to provide the following:

1. An opportunity for individual students to achieve their full potential as contributing members of society.
2. An educated citizenry who will preserve, protect, and improve the institutions of our democratic society.

STATEMENT OF APPRECIATION

The Lawton Board of Education expresses its sincere thanks to the citizens of the community and to the profession staff of the schools for their cooperation in maintaining a quality educational program for the youth of this community.

The Board of Education is also extremely proud of those students who take advantage of the educational opportunities in the Lawton community and by so doing, become contributing members of our democratic society in the Lawton community and by so doing, become contributing members of our democratic society.
