

## ENTRY REQUIREMENTS FOR OKLAHOMA COLLEGES

Oklahoma colleges offer two-year, Associate Degree Programs and four year, Bachelor Degree Programs. The entry requirements differ for each type of program and they differ between categories of colleges.

### CURRICULAR REQUIREMENTS

4 units of <b>English</b>	(Grammar, Composition~ Literature)
3 units of <b>Math</b>	(from Algebra I and above)
2 units of <b>Lab Science</b>	(cannot include general science with or without a lab)
2 units of <b>History</b>	(including one unit of American History)
1 unit of <b>Citizenship Skills</b>	(selected from acceptable courses)
3 <b>additional units</b>	(from any of the subjects previously listed, computer science or foreign language.)

### PERFORMANCE REQUIREMENTS

Performance requirements vary depending on whether students wish to enter OU, OSU, other senior institutions in the state, or a two-year program or college.

#### FALL 2000

#### INSTITUTION

#### TEST SCORE

#### GPA/CLASS RANK

*OU	24 ACT <b>OR</b> 1090 SAT <b>OR</b> 3.0 (on a 4.0 scale) and top 30%
*OSU	22 ACT <b>OR</b> 1020 SAT <b>OR</b> 3.0 (on a 4.0 scale) and top 33%
* Senior Colleges	20 ACT <b>OR</b> 940 SAT <b>OR</b> 2.7 (on a 4.0 scale) and top 50%
* Two-year Programs and Junior Colleges	No minimum test scores, GPA, or class rank, but you should meet the following requirements:

- \*Take required high school classes
- \*Graduate from high school
- \*Take the ACT or SAT

Students who do not score 19 or higher on any of the four subtests on the ACT must take a subject placement test at college. Students who do not make the required score will be enrolled in a remedial course in that subject. These courses cost more than regular courses and no college credit is awarded. Therefore, students who have the composite score needed for college admission, but not the required score on any subtest, may want to take the ACT again and try to raise that subtest score. This may prevent them from having to take no-credit courses in college.

High school graduates who do not meet the **performance** requirements may be admitted into a 2-year degree program at some universities. After earning a cumulative GPA high enough to meet retention standards, they may transfer to a 4-year degree program.

High school graduates who do not meet the **curricular** requirements may be admitted into a 2-year degree program at some universities. After the curricular deficiencies have been cleared they may be admitted into a 4-year degree program.

**\*Note: Requirements may change and requirements for private institutions may be different. See your counselor for up-to-date information.**
