**SUBJECT: THE CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT  
FILTERING/SAFETY POLICY**

In compliance with The Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this Internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. Such technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of e-mail and chat rooms may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the Web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal identification information regarding such students.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

**Internet Safety Instruction**

In accordance with New York State Education Law, the School District may provide, to students in grades K through 12, instruction designed to promote the proper and safe use of the internet. Teachers wishing to call upon outside speakers in the presentation of controversial issues are required to obtain the approval of the Principal who shall keep in mind the obligation for presenting opposing views as well, and who shall inform the Superintendent prior to the presentation.

It is recognized that parents and citizens of the community have a right to protest to the school administration when convinced that unfair and biased presentations are being made by the teacher. In considering such protests, the Superintendent of Schools shall provide for a hearing so that both parties may fairly express their views. If requested, the Superintendent's decision may be appealed to the Board of Education.

**SUBJECT: TEXTBOOKS/WORKBOOKS/CALCULATORS/INSTRUCTIONAL

As required by federal law and New York State Regulations, the District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. To facilitate this process, the District will participate in the National Instructional Materials Access Center (NIMAC) and will require that all contracts with publishers for textbooks and other printed core materials executed after December 2006 include a provision requiring the publisher to produce NIMAS files and send them to NIMAC.

Students will be required to pay for lost books or for excessive damage to books.

**Textbooks for Resident Students Attending Private Schools**

Resident students attending private schools will be supplied non-sectarian textbooks in accordance with the requirements of Education Law.

**Calculators**

The District can require students to provide their own "supplies" (defined as something which is consumed in use, loses its appearance and shape in use, expendable, and inexpensive). Examples include pencils, pens, paper, etc. Calculators do not fall into this category and must be considered like classroom teaching materials for which the District is authorized to levy a tax. In addition, the District may purchase, and must still provide, calculators even if operating under a contingent budget if the calculators are required for participation in an educational program.

**SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM**

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three (3) concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

**School Activities Related to Religious Holidays or Themes**

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

(Continued)

**SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM (Cont'd.)****Symbols in the Schools**

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

**Music in the Schools**

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

**Curriculum Areas in Conflict with Religious Beliefs**

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

**Implementation**

Administrative regulations will be developed to implement the terms of this policy. Further, the District shall vigorously publicize and disseminate this policy and accompanying regulations in order to ensure community, faculty, student, and parental/guardian awareness.

**SUBJECT: HOMEWORK**

The Depew Board of Education recognizes that homework is an important extension of the learning initiated in the classroom. The purpose of homework is to help students become self-directing, independent learners. Homework assignments shall support clearly defined school and classroom objectives, and shall be used to reinforce and enhance school experiences while promoting student responsibility and self-discipline.

Assignments should be purposeful, constructive, related to class activity and meet individual students' interests, needs, and abilities. If best results are to be attained, homework assignments should be of reasonable length and receive follow-up recognition and evaluation.

The specific objectives of homework may vary at grade levels, but generally include these purposes:

- a) To extend the concept of learning beyond the classroom.
- b) To provide for immediate reinforcement of classroom instruction.
- c) To nurture the development of good study habits.
- d) To encourage the use of independent research skills.
- e) To provide the teacher with an ongoing assessment of student progress.

Homework is also recognized as an important bridge between the school and the home. Parental concern, interest, and involvement with the student's homework is expected and welcomed.

The practice of assigning homework is strongly encouraged and supported by the Depew Board of Education.

**SUBJECT: SCHOOL TRIPS**

The Board of Education recognizes that school trips are an educationally sound and important ingredient in the instructional program of the schools.

For purposes of this policy, a school trip (primarily field trips) shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher or coach, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience and not available in the classroom. Trips are also defined in this policy to include interscholastic events such as regularly scheduled sporting events, club sponsored trips or camps. The School System shall obtain written parental/guardian permission for students going on school-sponsored trips.

For purposes of Board policy, the following types of trips must obtain formal Board approval if any of the following criteria is met:

- a) The trip involves an overnight stay;
- b) The trip involves leaving the state or country;
