

HOMEWORK

Amber-Pocasset Board of Education defines homework as a responsibility that the student undertakes independently, whether at home or outside of class periods in the school. The board further believes that any homework given should be to supplement, complement and reinforce classroom teaching and learning. It should have a definite purpose and goal and should be a part of the planned objectives of the course.

The homework assignment should be left to the discretion of the individual teacher. Certain classes will require more frequent homework than others. Students are expected to complete homework assignments.
