

## **NEW TEACHERS**

### **Orientation**

Orientation and staff development in-service programs shall provide initial assistance for beginning staff and faculty and encourage continual professional growth

It is the policy of the Amber-Pocasset Board of Education that present teachers in each building shall act as hosts to assist new teachers in adjusting to their routine and to acquaint them with our system. The board believes that the principal should enable new teachers to hold conferences whenever needed.

Each new teacher in the Amber-Pocasset Public Schools shall participate in the Entry Year Assistance program under the guidance of a teacher consultant and the Entry Year Assistance Committee.
